POWERED BY ReliaTrax

User Manual

Revised December 2025

Disclaimer

ReliaTrax is an evolving project. We are constantly striving to find new ways to make your practice management needs easier! Consequently, items contained within this manual may at times be slightly outdated. We will, of course, make every effort to make the appropriate updates.

Our Mission Statement

Canyon City Solutions, developer of **ReliaTrax** system, is an innovative company dedicated to helping behavioral health and other professionals enhance the effectiveness of their business.

ReliaTrax is a comprehensive, secure, web-based business management system uniquely designed to streamline and automate the operations of both large and small agencies. **ReliaTrax** will improve your company's operations whether you have 10 clients or 10,000.gt

Benefits of ReliaTrax include:

For further information, please feel free to contact our team:

(833) 222-0062

- Increased efficiency and lower operational costs
- Increased accuracy in tracking client data
- Reduced paperwork and other administrative tasks
- Improved client, staff, probation and parole communication and satisfaction

With **ReliaTrax**, you will be able to connect and coordinate the activities of all the people important to your business: clients, providers, case managers, probation/parole officers and drug testing laboratories.

ReliaTrax is ideal for centers that specialize in behavioral health treatment/testing as well as centers providing group, individual, and family counseling. We also serve specialty programs for housing, peer support, employment and more. Its intuitive web interface makes **ReliaTrax** easy to use, and the system can be tailored to fit your company's specific needs. Its underlying technology provides reliability and flexibility. Its features allow you to manage your office operations and improve your bottom line.

Chapter 1: The Basics

There are some basic functions to understand in ReliaTrax. This chapter will introduce you to them and in later chapters, you will see a more detailed outline of each feature.

The basic features include:

- New Client Checklist
- Setting Up New Client
- Navigating the Client Portal
- Using the Dashboard
- Using the Calendar
- Checking a Client In
- Completing Documentation

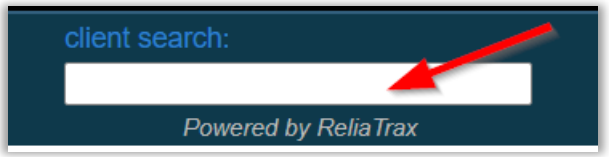

New Client Check List

Included below is a checklist of common items that should be addressed for new clients.

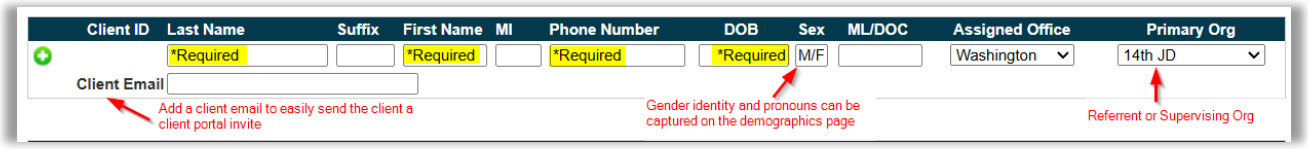

Required

> **ReliaTip:** Not all of the items on this list will apply to your agency.

☐ At the top right-hand corner of the page, search for the client to make sure that they are not already in the system.

☐ If the client is NOT already in the system, enter the new client.

☐ Enter your client's demographic information OR allow the client to fill out in the client portal

☐ Be sure to Add External Users to Client Page

☐ Be sure to enroll your client in specific treatments

☐ Enroll the client in groups or assign a specific staff member

Optional

☐ Add a Picture to the Client Page

☐ Upload any documents to the client's filing cabinet

☐ If the client has **Voucher** funds available, you can add them to their profile

☐ If the client has **Insurance**, you can add it to their profile and treatments

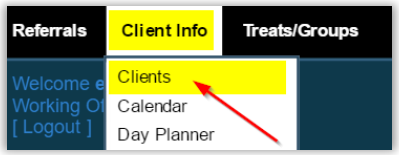

☐ Enter required data for a Behavioral Reporting Organization, as needed

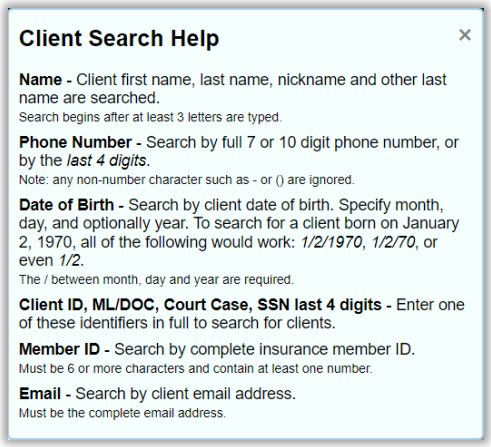

☐ Add a diagnostic code to the client

☐ Assign appropriate client categories and events

Visit Chapter 3 to see more functions on the client page

New Client Entry

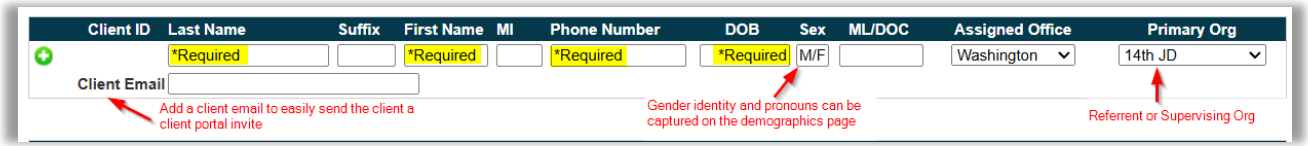

1. Scroll across the top navigation bar to **Client Info** >> **Clients**.
2. At the top right of the screen is a client search bar.

3. Search the client to verify if a profile already exists for that client.
4. To add a new client, In the middle of the screen is a quick entry

system.

5. Hit the green plus sign to create the client page

Entering Client Demographic Information

Demographic information can be filled out by the client (in the portal) or manually by the agency.

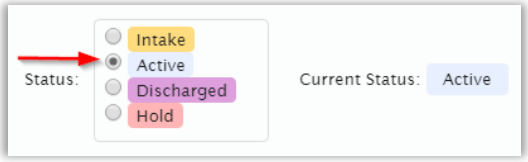

ReliaTip: Information entered on these pages can auto-populate your forms. Save time later by filling these pages out now.

For Manual Entry by the Agency

1. On the client information page, click on the magnifying glass icon at the top of the page.

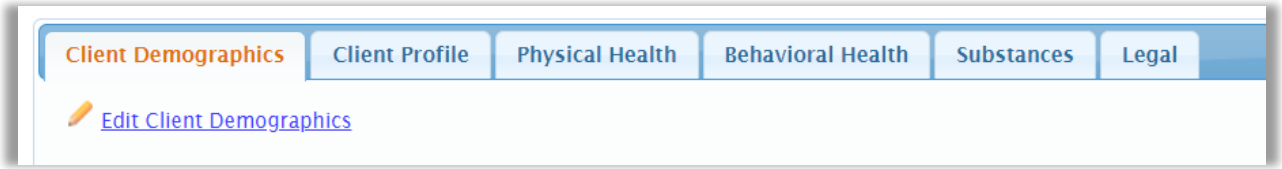

2. Click on the **Edit Client Demographics.** On this page you can add general demographic information for the client, as well as set the client status.
3. Set the client's status:

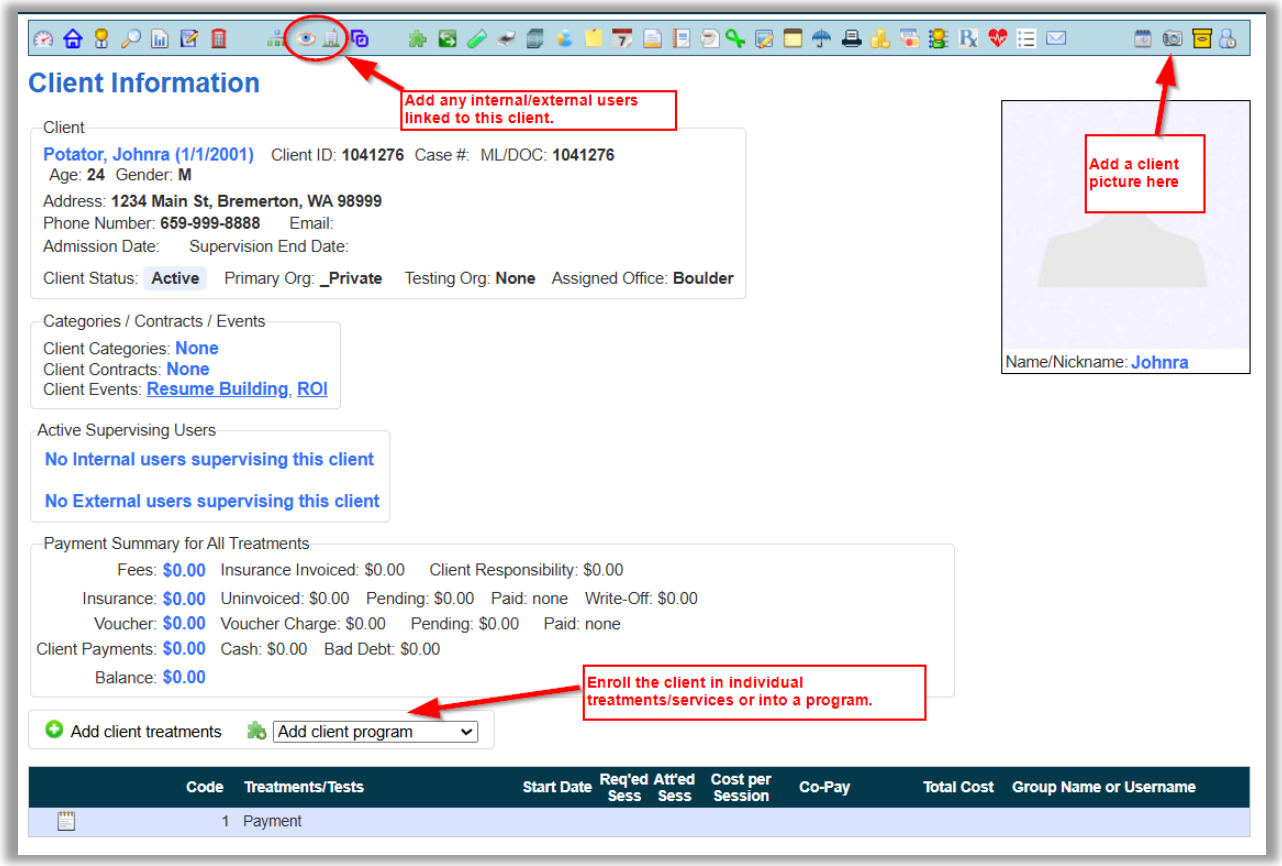

4. When you have completed adding the information for client demographics, click Save
   a. To add additional information to a specific tab, click on tab, then click on the
   b. To go back to the client's home screen, click the client's name (appears as blue hyperlink).

c. Or easily navigate to another section of the client profile by clicking one of the tabs at the top.

Client Page Setup

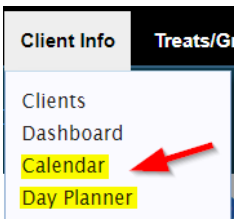

Some things you may want to consider setting up when you initially setup a client page are listed below:

**At a very minimum you will want to make sure you add the services to the client.

Making Appointments – Calendar/Day Planner

Create and schedule appointments using:

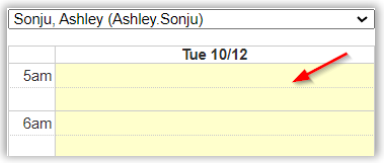

- **Client Info >> Calendar** – This is most useful when managing your own calendar/appts
- **Client Info >> Day Planner** – This is most useful when managing multiple calendars/appts

Learn more about setting up your calendar/day planner here.

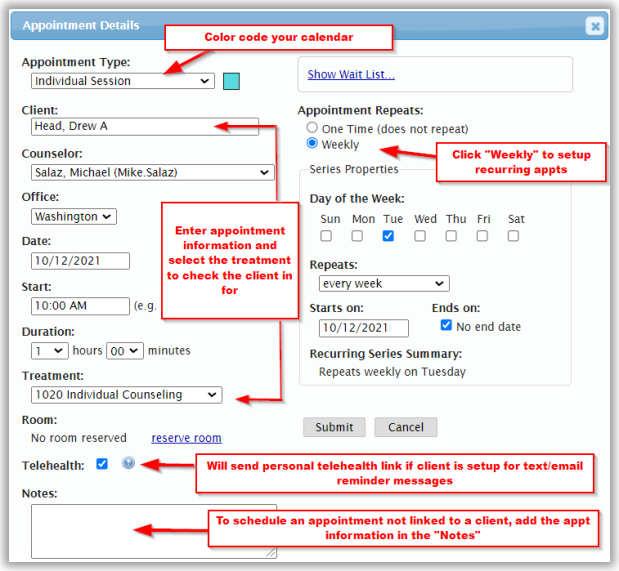

Creating an Appointment

Once your calendar has been administratively setup, creating an appointment takes just a few steps.

1. Appointments are made by clicking on a day or timeslot depending on the calendar view

2. This will bring up the scheduling prompt for you to enter the appt information >>

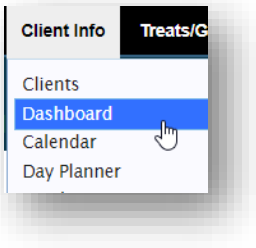

ReliaTip: To select a specific treatment, it must be added to the client's page.

3. Hit **Submit** to schedule the appointment.

****See More on Scheduling in Chapter 8****

Using the Dashboard

The dashboard can be used for monitoring and managing your caseload, checking clients in, and completing documentation.

ReliaTip: You can also make your dashboard your home screen once you get to the Dashboard by going to the dashboard preferences at the top right.

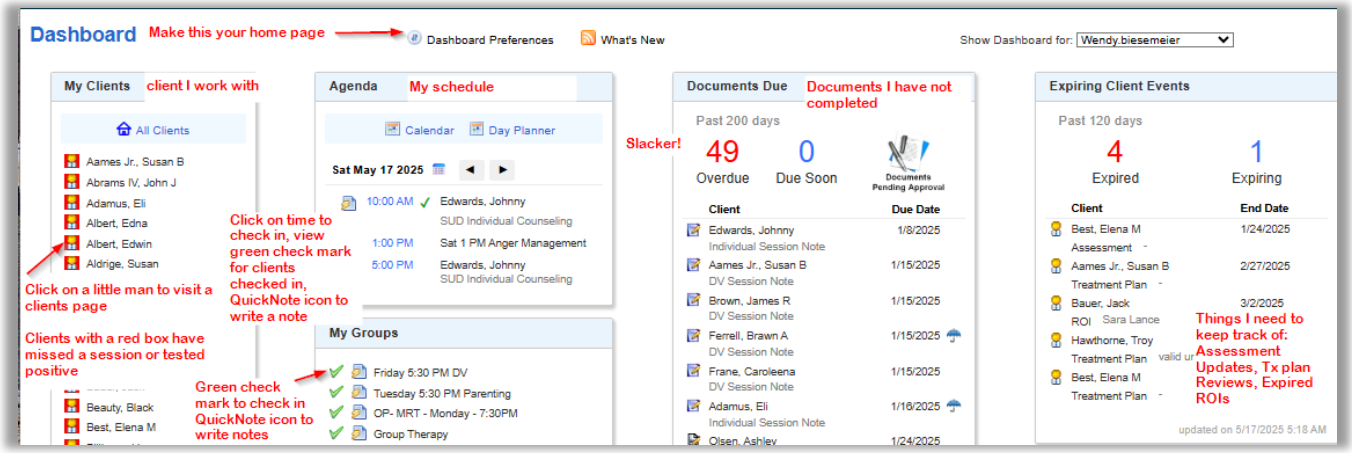

Accessing the Dashboard

To get to the dashboard by going to **Client Info >> Dashboard**

or from any client page utilizing the dashboard icon 

Navigating the Dashboard

The dashboard allows you to complete multiple daily tasks in one place.

- **My Clients** – shows a list of all clients that are attached to the dashboard user (both on client treatments and using the eyeball icon on the client page)
- **Agenda** – shows daily appointments. Click the appointment time to check the appointment in. Click on the telephone icon to access the telehealth link for telehealth appointments.

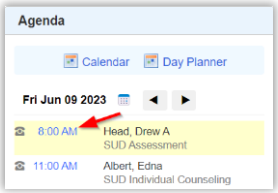

- **My Groups** – shows all groups that a user is assigned to. Click on the check mark next to the group to check the group in. Click on the QuickNotes icon next to the group to access group notes.
- **Documents Due** – shows all documents that are assigned to the dashboard user including those that are due soon and those that are overdue. Click on the note icon to complete the document
- **Expiring Client Events** – shows events like treatment hours or ROIs that are expiring soon or overdue.

Supervisor View- If you are a Supervisor in ReliaTrax, you can view your staffs' dashboards by using the drop down:

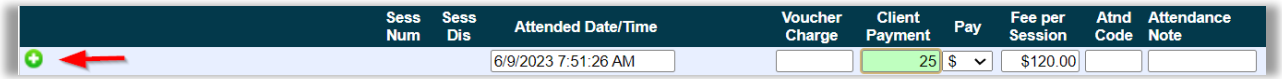

Checking Clients in from the Dashboard

1. Go to **Client Info >> Dashboard**
2. Click on the time next to the appointment on your agenda

3. Scroll down and enter the date, time and payment and click on the green

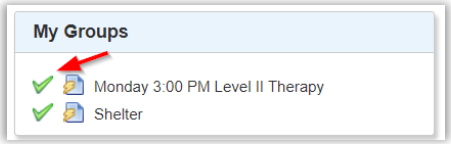

***You can also check clients in a few other ways, click below to learn about other way to check clients in:

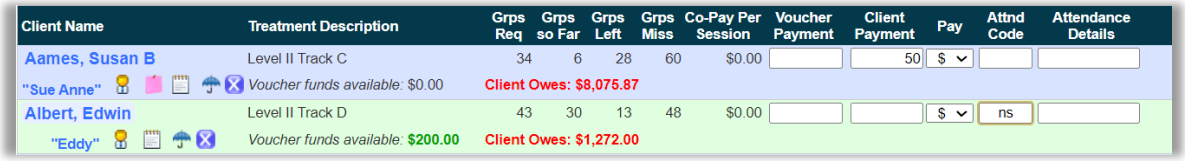

- Checking clients in from the calendar/day planner
- Checking clients in from the client page

Group Check-in from the Dashboard

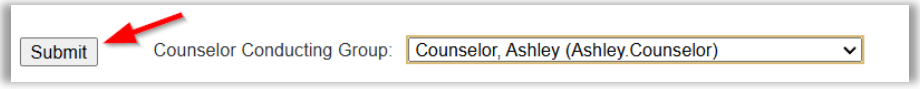

1. Go to **Client Info >> Dashboard**
2. Find the group you would like to check in

3. Click on the green to check the group in
4. Make sure the date and time at the top of the group is correct or click "Change Date/Time" to correct these
5. Enter a payment to designate the client was in group (can be "0" if no payment was made). Or enter an attendance code to designate that the client was absent from group

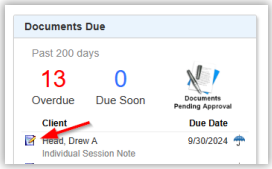

6. Once you have done this for each client, click "Submit"
7. If you need to change the counselor conducting group this can now be done at the top of the client list using the drop-down and again clicking "Submit"

****Groups can also be checked in from the Treats/Groups >> Groups page. Instructions for this can be found here.**

Accessing Documentation from the Dashboard

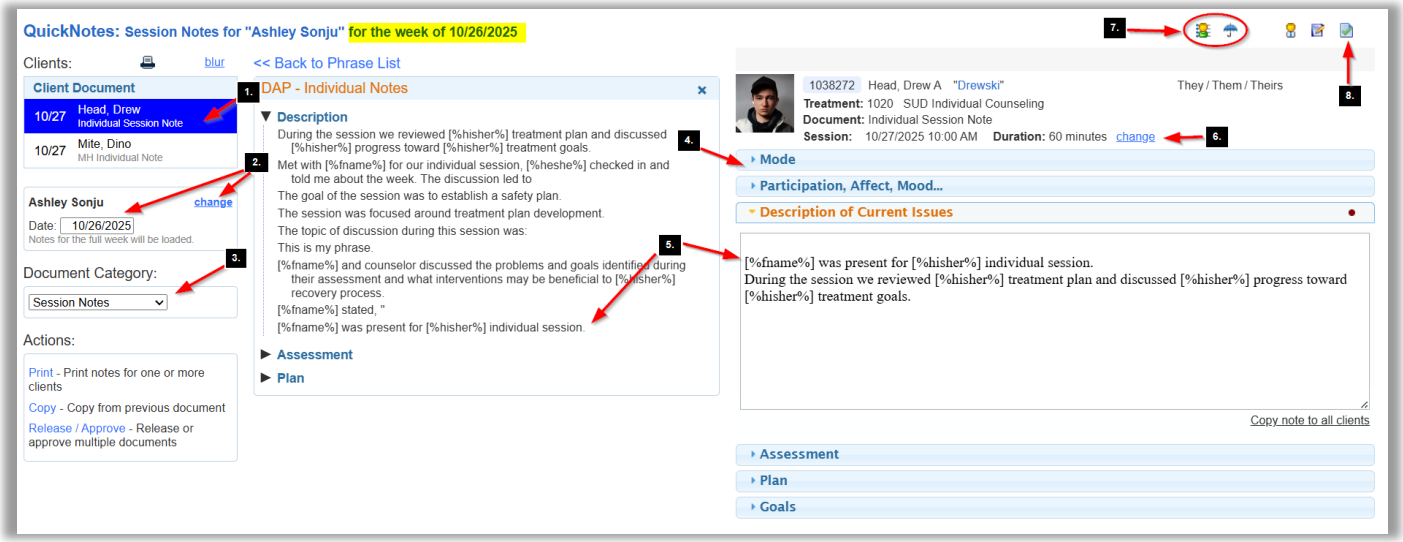

Once an appointment has been checked in, you can find your documents due from your dashboard.

1. Go to **Client Info >> Dashboard**
2. Click the icon next to any document to get into QuickNotes

Completing Documentation

Documentation can easily be done in **Client Info >> QuickNotes.** QuickNotes for groups can be accessed by going to **Treats/Groups >> Groups** and then clicking on the QuickNotes icon.

1. Easily **switch between clients** by clicking on the client's name.
2. Selecting the change button will allow you to **switch from individual to group notes**.
3. Use the "Date" box to **change the week** or use the drop down to **change the document type**
4. Click on the blue bars on the right to **fill out each section** in the document.
5. Click on the phrases in the middle of the screen to **populate common phrases** into the document.
6. **Change the Duration** using the "Change" button at the top of the document
7. **Manage Diagnostic Codes and Insurance** using the icons at the top right (as needed)
8. Click on the green check mark to review and **Release** (send to supervisor) or **"Release/Approve" to archive the document.**

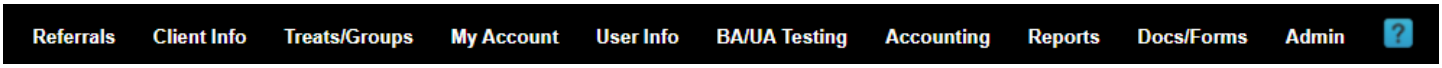

See more on Completing Documentation

Chapter 2: Menus/Reports/Icons

There are two navigation bars in ReliaTrax one at the top of the screen in black “The Navigation Bar” and one on the client page “Icon Bar”.

Navigation Bar / Reports

The navigation bar will take you to different pages throughout ReliaTrax that are specific to the agency rather than the client. You can access reports, documentation, and summaries of client treatments through these menus.

The Icon Bar

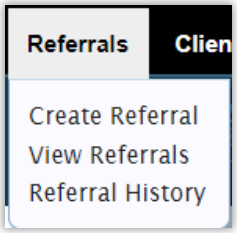

The icon bar is accessible only through the client page and it will take you to information, reports and documentation specific to one client.

The Navigation Bar / Reports

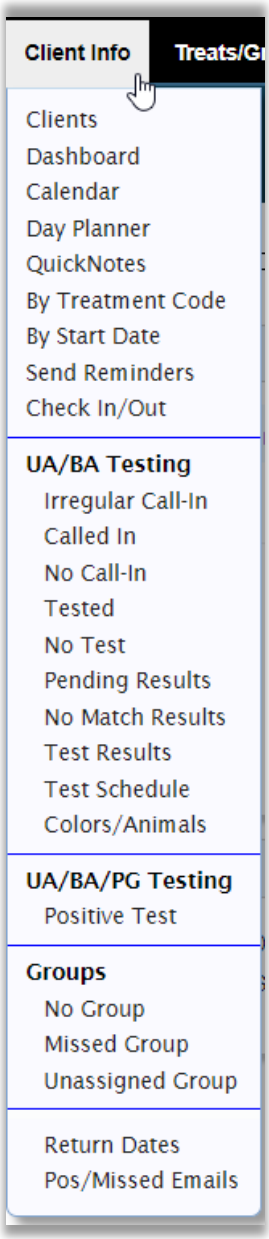

The **Navigation Bar** at the top every screen in ReliaTrax shows you menus that will drop down when you hover your cursor over them. This is where you will find all of the reports available to you on a company level.

REFERRALS MENU

- **Create Referral**: A referral can be created directly into ReliaTrax by an internal or external user.
- **View Referrals**: View and change information for clients who are currently in Referral status. You can also print the "ticket to treatment".
- **Referral History**: This option allows you to view past and current referrals.

CLIENT INFO MENU

- **Clients**: View all and/or add clients and takes you to the home page.
- **Dashboard**: View all appointments, caseload, events, groups, documentation for one user
- **Calendar**: Schedule appointments and view users' calendars.
- **Day Planner**: Schedule daily appointments. See up to 20 users' schedules side by side.
- **QuickNotes**: Fill out documentation for all clients
- **By Treatment Code**: View clients per treatment code. Displays clients that are currently in Intake or Active status unless inactive treatment box is checked.
- **By Start Date**: View the start dates for client treatments
- **Send Reminders**: Send out a message blast to clients
- **Check In/Check Out**: check in/out screen for clients coming in/out of the building

UA/BA Testing

- **Irregular Call-In:** View clients that are non-compliant (have not called in at least 6 of 7 days for UA/BA testing)
- **Called In:** View clients that called in on-time each day for UA/BA testing
- **No Call-In:** View clients that have not called in/called in after the cutoff time each day for UA/ BA testing.
- **Tested:** View clients that have tested within the time limits for UA/BA testing each day
- **No Test:** View clients that should have tested today but either did not or tested after the cutoff time for UA/BA testing each day
- **Pending Results:** Shows pending UA results. Clients whose UA test results have not been received in the last 7 days are **highlighted**.
- **No Match Results:** View UA results that have not been linked to a client
- **Test Results:** Allows you to search for and view UA/BA Results
- **Test Schedule:** Shows a daily schedule of clients scheduled for UA/BA test
- **Colors/Animals:** Shows active BA animals and UA colors for clients

UA/BA/PG Testing

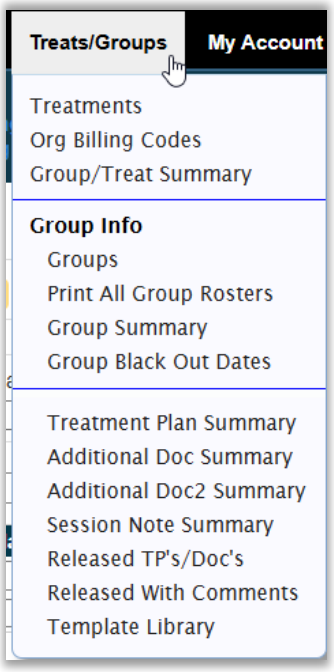

- **Positive Test:** Shows positive/dilute UA/BA tests or deceptive/inconclusive polygraph tests

Groups

- **No Group:** Shows clients that are required to attend group today but have not attended group counseling so far. Also included in this list are clients that can attend equivalent groups but haven't.
- **Missed Group:** Shows clients that have missed group today. This includes all clients that have missed Group Therapy Sessions in the last **14** days.
- **Unassigned Group:** Shows a list of active clients whose treatments have group sessions, but the client has not been assigned to a group.
- **Return Dates:** List of clients that have been discharged or put on hold and are expected to return for treatment later
- **Pos/Missed Emails:** Shows missed/excused individual/group sessions, missed/excused/positive UA/BA tests that will be sent to a supervising external user (PO, Case Worker, Victim Advocate)

TREATS/GROUPS MENU

- **Treatments:** View, add, delete, and manage agency treatments
- **Org Billing Codes:** Displays the mapping between ReliaTrax Treatment Codes and your organization's Billing Codes. The organization billing code will be used on invoices to the organization.
- **Group/Treat Summary:** Summary of all weekly group treatments available to a client in active groups and the date/times that they are available.

Group Info

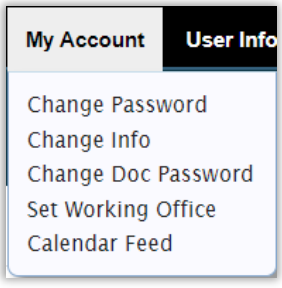

- **Groups:** View, add, delete, and modify groups offered at agency
- **Print All Group Rosters:** View and print a daily roster for all groups
- **Group Summary:** Summary of offered Groups and their meeting times.
- **Group Black Out Dates:** View, add, delete, and modify blackout dates for groups. Setting a blackout date will excuse the session and the client will not be charged for this session.

ReliaTip:
Documents with upcoming due dates are yellow and those that are overdue are highlighted in Red.

- **Treatment Plan Summary:** Shows the last review date for clients with documents on the treatment plan icon
- **Additional Doc Summary:** Shows the last review date for clients with documents on the additional doc icon
- **Additional Doc2 Summary:** Shows the last review date for clients with documents on the additional doc2 icon
- **Session Note Summary:** Shows session notes for clients that have not been Released and Approved (archived).
- **Released TP's/Doc's:** Shows documents that have been released and are awaiting final approval.
- **Released with Comments:** Shows all documents that have been released/cancelled with comments added
- **Template Library:** View, add, delete, and modify agency templates.

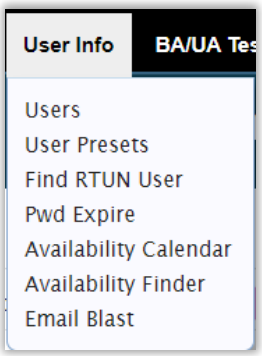

MY ACCOUNT MENU

- **Change Password:** Change your ReliaTrax password.
- **Change Info:** Change account information such as name, phone number, address, etc.
- **Change Doc Password:** Set and change document password -- used to protect any PDF document going out of the system.
- **Set Working Office:** Set the Working Office -- the office where you are checking in clients.
- **Calendar Feed:** Enable or disable a calendar feed -- view client appointments set in the ReliaTrax calendar on other mobile devices and/or other calendar applications such as Google Calendar.

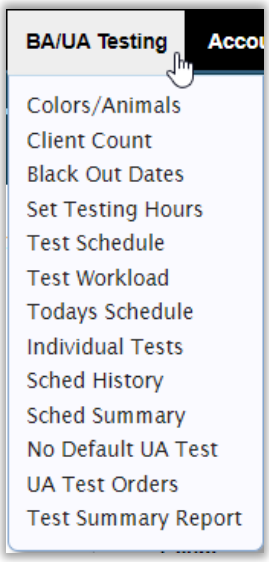

USER INFO MENU

- **Users:** View, Add, Delete, and Modify ReliaTrax users.
- **User Presets:** Permission presets to assign to new or existing users
- **Find RTUN User:** Search the ReliaTrax Unified Network Portal for an external user. You can also link and set up a new user here.
- **Pwd Expire:** View general information about a user including the number of days left before the password expires.
- **Availability Calendar:** View a calendar that shows the availability of a chosen counselor.
- **Availability Finder:** Schedule an appointment by searching for available times
- **Email Blast:** Send an email message to external users/orgs. This is commonly used to announce major events like the agency's holiday schedule or new group /class offerings.

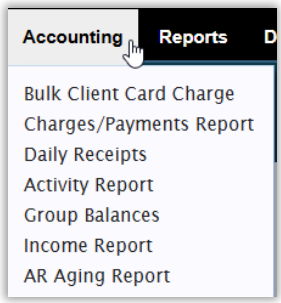

BA/UA TESTING MENU

- **Colors/Animals:** View, add, and modify randomizer colors/animals
- **Client Count:** Shows the number of clients assigned to Colors (UA) and Animals (BA) are shown grouped by the frequency of testing.
- **Black Out Dates:** Set UA/BA blackout dates -- causes the randomizer to skip UA/BA testing on the specified date(s).
- **Set Testing Hours:** Set the hours that UA/BA testing is accepted.
- **Test Schedule:** Clients that are scheduled for a UA/BA test
- **Test Workload:** Number of clients to be tested over the next 14 days
- **Today's Schedule:** Schedule of testing hours for today.
- **Individual Tests:** Add, delete, and modify specific clients that are required to UA test on a specific date.
- **Sched History:** List that includes all the tests in the specified month.
- **Sched Summary:** Summary of all tests in the specified month.
- **No Default UA Test:** List of intake and active clients who have a UA Treatment but no default UA test. From this list, you can get to a client's page and change the default UA test.
- **UA Test Orders:** Displays all of the UA/BA orders placed from ReliaTrax
- **Test Summary Report:** Find and print a monthly summary for all active clients with UA/BA or Antabuse treatments.

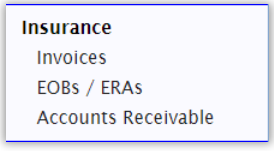

ACCOUNTING MENU

- **Bulk Client Card Charge –** this page allows you to bulk charge using the Stripe functionality for clients either scheduled for a session or with a balance
- **Charges/Payment Report:** shows the session charges and payments received in a date range.
- **Daily Receipts:** Summary of session payment information for a specified date(s). This is useful for balancing your drawer.
- **Counselor Activity:** See the activity of counselors during the specified time period -- consists of the number of group and individual sessions as well as the fees generated by these sessions.
- **Group Balances:** See the balances of all groups.
- **Income Report:** shows the payments received within a date range
- **AR Aging Report:** displays pending insurance and voucher aging info

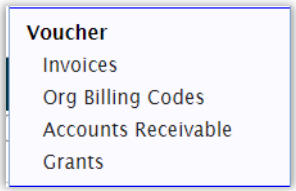

Insurance

- **Invoices:** Create and manage insurance invoices
- **EOBs/ERAs:** View and Reconcile EOBs (Explanation of Benefits)
- **Accounts Receivable:** View insurance accounts receivable

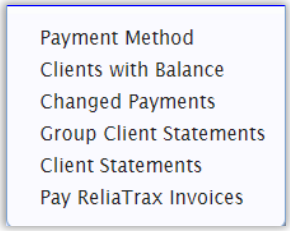

0.0

Voucher

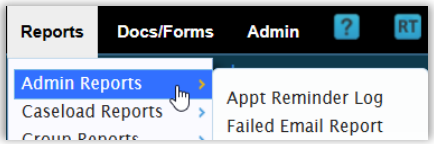

- **Invoices:** View, create or delete voucher invoices
- **Org Billing Codes:** Shows the mapping between ReliaTrax Treatment Codes and this organization's Billing Codes
- **Accounts Receivable:** Shows the voucher accounts receivable
- **Grants:** Keep track of organization grants and view a count down of available funds for these grants

- **Payment Method:** Client payments by payment method
- **Clients with Balance:** Find all clients in the specified office(s) whose total account balance due exceeds the specified threshold
- **Changed Payments:** Shows all the sessions where the client payment has changed on the specified date
- **Group Client Statements:** View/print the client statements for the specified time
- **Client Statements:** View and print client statements
- **Pay ReliaTrax Invoices:** View and pay ReliaTrax invoices

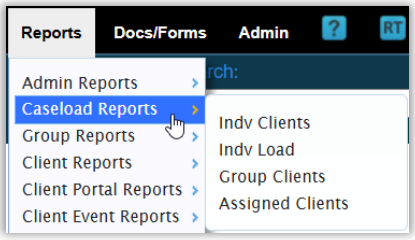

REPORTS MENU

Admin Reports

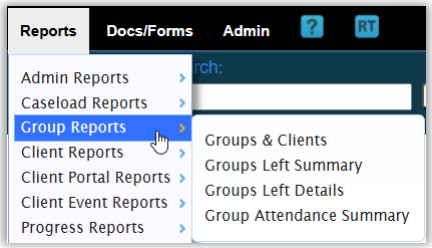

- **Appt Reminder Log:** This page lists client appointment reminders that have been sent already.
- **Failed Email Report:** This page displays a list of recent email messages (past 30 days) that failed to be delivered.

Caseload Reports

- **Indv Clients**: All clients assigned to a staff per treatment
- **Indv Load**: All clients assigned to a staff for all treatment types
- **Grp Clients**: All clients assigned to a staff for group therapy
- **Assigned Clients**: All clients that are assigned to a staff with the  icon (on the client page)

Group Reports

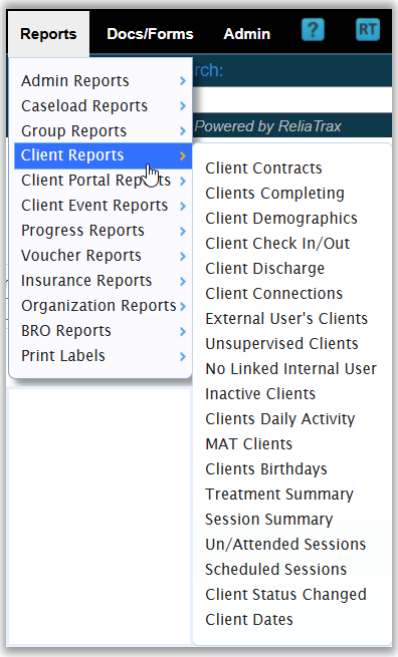

- **Groups & Clients:** All clients in all groups sorted by group.
- **Groups Left Summary:** Count of clients who have almost completed the required number of group sessions for a treatment.
- **Groups Left Details:** Clients who have almost completed the required number of group meetings for a treatment.
- **Group Attendance Summary:** Monthly attendance of clients in groups.

Client Reports

- **Client Contracts:** Shows all clients with contracts
- **Clients Completing:** Clients with treatments that are nearing completion.
- **Client Demographics:** Shows a summary of information from demographic pages across the agency for the specified date range
- **Client Check In/Out:** Shows all clients checked in/out of the facility for a specified date range
- **Client Discharge:** Shows clients missing a discharge summary 93 days before/after their discharge date
- **Client Connections:** Shows all connected clients and their relationship

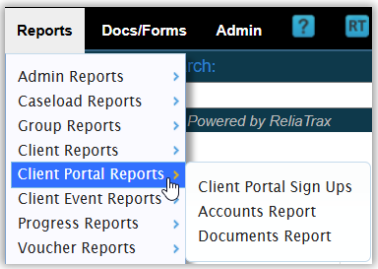

- **External User's Clients:** All clients supervised by an external user such as a Parole Officer, Probation Officer, Case Worker or Victim Advocate.
- **Unsupervised Clients:** Clients with no supervising external users such as a Parole Officer, Probation Officer, Case Worker or Victim Advocate.
- **No Linked Internal User:** displays active and hold clients with no internal users linked to them on the eyeball icon
- **Inactive Clients:** Clients that have not attended (for any reason) a session for a designated time frame
- **Clients Daily Activity:** The activity for all *active* clients during a specified date range.
- **MAT Clients:** Clients on Medication Assisted Treatment
- **Clients Birthdays:** Clients with birthdays today or in the near future
- **Treatment Summary:** Shows all client treatments with discharge reasons (if applicable)
- **Session Summary:** All clients with sessions during a specified time period including number of sessions, start and end dates
- **Un/Attended Sessions:** Unattended sessions for specified clients during a specified time period
- **Scheduled Sessions**: Find future client scheduled group and individual sessions for active clients

- **Client Status Changed:** shows all the clients and their status during the specified date window
- **Client Dates**: List of clients and important dates associated with that client (from demo pages)

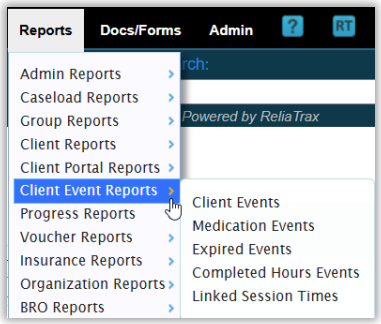

Client Portal Reports

- **Client Portal Sign Ups**: This report shows all attempted sign-ups using the client portal self-registration feature
- **Accounts Report**: This page displays Client Portal Accounts for active, hold and intake Clients.
- **Documents Report**: This page displays Client Portal Forms for active and hold Clients

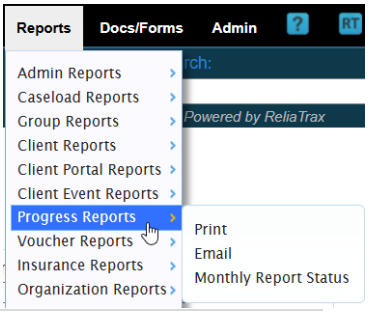

Client Event Reports

- **Client Events**: All client events sorted by client
- **Medication Events**: if using the MAR function, allows you to easily see medication activities in the system
- **Expired Events**: All client events that have expired before the date supplied
- **Completed Hours Events**: All client events that are nearing completion of required hours
- **Linked Session Times**: All client events that are linked to sessions, during specified dates including the total hours completed

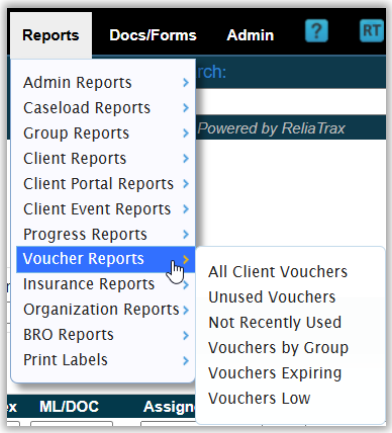

Progress Reports

- **Print**: Generate progress reports for multiple active clients and combine them into one document which can be printed or saved to your computer.
- **Email**: Generate and email client's progress reports to their supervising users such as Parole Officers, Probation Officers, Case Workers, and Victim Advocates.

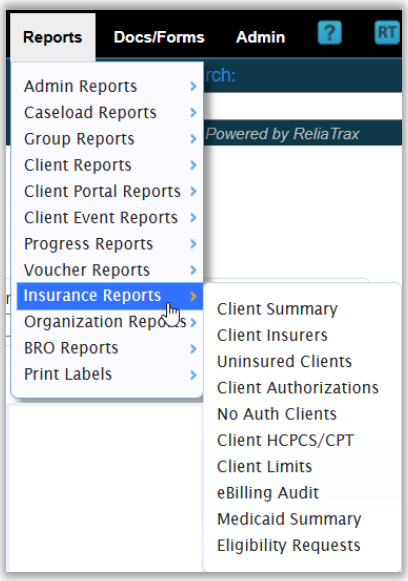

- **Monthly Report Status**: Shows filing dates of monthly reports for each counselor

Voucher Reports

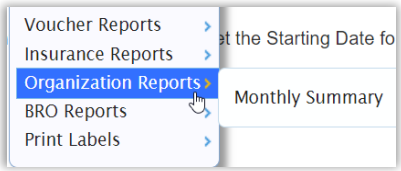

- **All Client Vouchers**: Vouchers for all clients based on your search criteria
- **Unused Vouchers**: All vouchers which have never been used
- **Not Recently Used**: All vouchers with remaining funds, which have been used at least once, but have not been using in the specified number of days
- **Vouchers by Group**: All the clients in groups and their associated active vouchers that have unused funds
- **Vouchers Expiring**: All active vouchers that will expire between today and the specified days in the future
- **Vouchers Low**: All active vouchers that have only the amount specified in the Dollar Threshold or less remaining

Insurance Reports

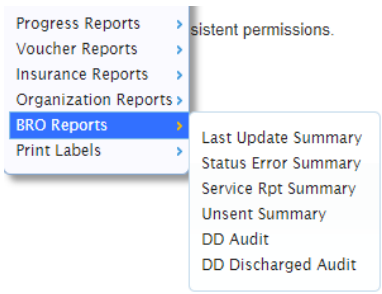

- **Client Summary**: Summary of clients and their insurers.
- **Client Insurers**: Summary of the insurers for each client treatment. Only clients with insurers attached to one or more treatments are displayed
- **Uninsured Clients**: Shows all clients who have no active insurers
- **Client Authorizations**: Shows insurance authorizations by client
- **No Auth Clients:** All clients who have no insurance authorizations
- **Client HCPCS/CPT:** Summary of client insurer HCPCS/CPT codes by insurer
- **Client Limits:** Shows authorizations that are in effect for each insurer and client. It also shows the dollars and/or units that are available.
- **eBilling Audit**: Finds the missing information to successfully file insurance claims electronically
- **Medicaid Summary**: Summary of activity for clients with treatments that are connected to insurers with a Claim Filing Code of Medicaid and who have the BH Summary event for tracking
- **Eligibility Requests:** (Only Available in some states) - Shows results of Medicaid eligibility reports daily for each client

Organization Reports

- **Monthly Summary**: Summary of client activity for clients supervised by a specified organization

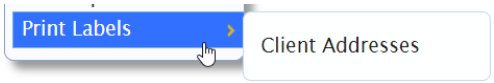

BRO Reports

- **Last Update Summary:** Shows all Data Dictionary update dates within a designated time
- **Status Error Summary**: Shows errors in the data dictionary after being submitted to the reporting entity (for select BROs)
- **Service Rpt Summary**: Shows MOTS service reporting (OR)

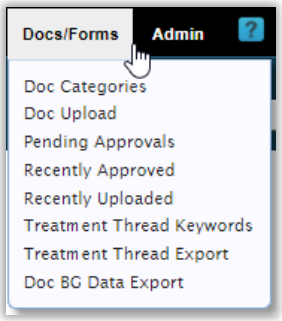

- **Unsent Summary**: Shows BRO's that have been created but have not been sent to the reporting organization
- **DD Audit**: Allows you to audit the BRO data prior to submission to the reporting organization
- **DD Discharged Audit:** Shows you clients that have been discharged in ReliaTrax but whose BRO's have not been closed out.

Print Labels

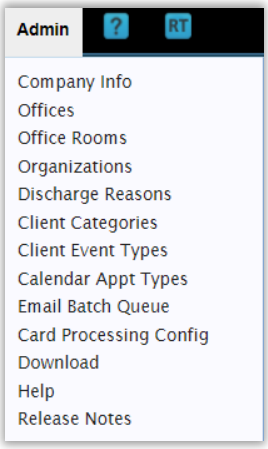

- **Client Addresses**: This option allows you to upload an excel document with address information and print address labels in bulk using a Brother Label Printer.

DOCS/FORMS MENU

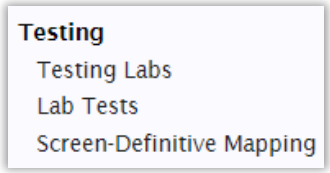

- **Doc Categories**: Add, delete or modify document categories
- **Doc Upload**: Upload a document associated with a specific client into the document archive
- **Pending Approvals**: Shows documents that are awaiting signatures for approval (sent for signatures)
- **Recently Approved**: Documents that have been recently approved by user and document type
- **Recently Uploaded**: All documents that have been uploaded in the last 90 days
- **Missing Docs**: see any missing documents across all clients in any document category and for any treatment range
- **Treatment Thread Keywords:** Shows all threaded keywords
- **Treatment Thread Export:** Allows the user to select a keyword or multiple keywords and download the information in .csv format
- **Doc BG Data Export**: Allows the user to select pdf documents in the Document Archive, extract the bar graph data and download the extracted date in a zipped, XML format.

ADMIN MENU

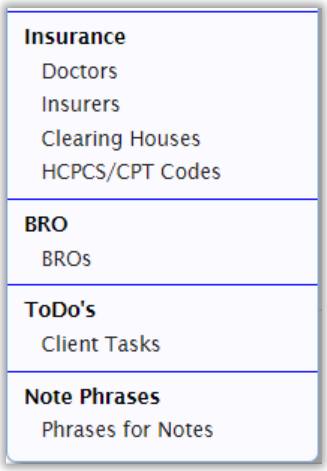

- **Company Info**: View and/or Modify company-wide information
- **Offices**: View/Add/Modify or change the status of offices
- **Office Rooms**: View/Add/Delete/Modify office rooms
- **Organizations**: View/Add/Modify of external organizations
- **Discharge Reasons**: View/Add/Delete/Modify discharge reasons
- **Client Categories**: View/Add/Delete/Modify client categories
- **Client Event Types**: View/Add/Delete/Modify client event types
- **Calendar Appt Types**: View/Add/Delete/Modify client appointment types (color code calendar)
- **Email Batch Queue**: Shows emails that have not yet been sent. Emails in this list will be sent out at 6:00 AM the following day.
- **Card Processing Config**: used to setup card processing settings
- **Download**: Download data/software from ReliaTrax
- **Help**: Connect to Mikogo (virtual support)
- **Release Notes**: This option offers information regarding software updates and release notes.

Testing

- **Testing Labs**: View/Add/Delete/Modify drug testing laboratories
- **Lab Tests**: View/Add/Delete/Modify drug test types. You can also change the organizations that use each test.
- **Screen-Definitive Mapping:** Allows you to setup reportable test result rules for reporting

Insurance

- **Doctors**: View/Add/Delete/Modify doctors
- **Insurers**: View/Add/Delete/Modify insurers
- **Clearing Houses**: View/Add/Delete/Modify Clearing Houses for electronic billing
- **HCPCS/CPT Codes**: View/Add/Delete/Modify HCPCS Level I (CPT) and Level II codes used for electronic billing of insurance claims
- **Claim Notes**: this is used for specific Box 19 entries on claims

BRO

- **BROs**: View/Add/Delete/Modify BROs for the company

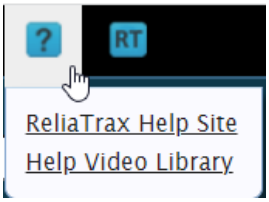

To Do's

- **Client Tasks:** Manage your tasks from external supervising users as well as users in your agency

Note Phrases

- **Phrases for Notes**: View/Add/Delete/Modify phrases for QuickNotes

HELP FOR ALL PAGES

- **ReliaTrax Help Site** - Help manuals and FAQ's for the ReliaTrax system
- **Help Video Library** - Helpful videos of monthly webinars and tutorials

RT SYMBOL

The RT icon in the top right-hand corner serves as a quick escape for when you need to exit ReliaTrax quickly to protect confidentiality.

All Those Crazy Icons

ICONS ON THE CLIENT PAGE

On every client page, there are icons that will get you to other pages relevant to that specific client.

- **DASHBOARD**: takes you to the counselor dashboard
- **HOME**: takes you back to the home page
- **CLIENT INFO**: takes you back to the client's home page
- **VIEW CLIENT INFO DETAILS**: Edit client demographic information & Setup text/email reminders
- **CLIENT BROs**: Manage client Behavioral Reporting Organizations (State Data Collection)
- **CLIENT GENERAL NOTES**: a general log for inner office communication & archived sticky notes
- **CLIENT PORTAL**: allows you to grant access to the client portal
- **CALL IN LOG**: allows you to view whether a client has call daily for random testing
- **CLIENT CATEGORIES**: place clients in categories as needed (Track, High risk, DV, DUI, etc.)
- **ALL SUPERVISING PERSONNEL**: add/remove users connected to this client (Internal & External)
- **ALL SUPERVISING ORGANIZATIONS**: add or modify client's supervising organizations or referent
- **CLIENT CONNECTIONS:** add/remove clients that are linked to the current client
- **CLIENT PROGRAMS:** add/discharge programs to the client page
- **INTAKE/ DISCHARGE SUMMARY**: log of all treatments with active and discharge information
- **CLIENT MONTHLY TESTING SUMMARY**: monthly breakdown of UA/BA test dates and results.
- **PRINT TREATMENT SESSION SUMMARY**: printable list of all treatment sessions
- **FILING CABINET**: storage area of all client archived and uploaded documents/notes
- **UPLOAD DOCUMENT**: upload and attach any document to this client's filing cabinet
- **STICKY NOTES**: use sticky notes to communicate inner office notes about a client
- **CLIENT APPOINTMENTS**: view a list of all client appointments
- **SENT APPOINTMENT REMINDERS**: log of all appointment reminders sent to the specific client
- **CLIENT PROGRESS REPORT**: view a report on all client treatments including monthly comments, attendance, and test result. This is the report sent to Probation Officers.
- **CLIENT NOTES REVIEW**: see a review of all archived clinical documentation across treatments
- **TREATMENT THREAD**: populates information from one document to another in the client's file
- **CLIENT CONTRACTS**: track contracts for clients (i.e. balance, attendance contracts, etc.)
- **CLIENT VOUCHERS**: enter and track vouchers (additional funding sources) per client
- **CLIENT INSURERS**: enter and track insurance per client including authorizations
- **PRINT SESSION RECEIPTS**: print a receipt with all client sessions during a specific time frame
- **TREATMENT BALANCES**: provides a breakdown of balances on a per treatment basis
- **CREDIT CARD TRANSACTIONS**: Allows you to take credit card payments and view transactions
- **CLIENT DIAGNOSTIC CODES**: enter and track diagnostic codes; full searchable ICD-10
- **CLIENT PRESCRIPTIONS**: track client prescriptions and relaying to participating UA companies
- **CLIENT VITALS:** allows you do view, add, modify, and delete Client Vitals information
- **TASKS**: ability to communicate between probation and agency; Set urgency and visibility
- **EMAIL CLIENT SUPERVISORS**: Email information/documents to client & connected users
- **CLIENT EVENTS**: a great tool for tracking safety plans and polygraphs.
- **MANAGE CLIENT PICTURE**: add a client's picture to their profile
- **CLIENT ITEMS**: item tracking system that allows you to "check in, check out" client it
- **CLIENT CHECKIN/CHECKOUT**: allows you to see a client's check-in/check-out activity

ICONS NOT ON THE ICON BAR

- **QUICK NOTES**: one of the most important icons. This icon will take you to the Quick Note function that lets you easily do your session notes, monthly reports and more.
- **SESSIONS**: view a list of all treatment sessions in date order and financial transactions.
- **MAGNIFYING GLASS**: appears throughout the system. Allows you to view select items.
- **PENCIL**: Appears throughout the system next to anything that is editable.
- **DISCHARGE**: discharges clients from a single treatment but leaves them as an active client within your system. Can also be used to discharge external users, organizations, etc.
- **GROUPS USING THIS TREATMENT**: list of groups that are using the treatment.
- **SESSION NOTES**: date specific note for a treatment. Opens to QuickNotes.
- **OTHER DOCUMENTATION ICONS**: Used to attach templates such as treatment plans (reviews), monthly comments, discharge summaries, evaluations, intakes, etc. They may also appear on the client's page, clicking them will take you directly to QuickNotes.
  - **DOCUMENTATION STATUS**:
    - A red dot next to a document means it has been started but is not yet archived
    - A yellow dot next to a document means it has been archived
- **ENROLLED CLIENTS**: this is a list of clients who are enrolled in the treatment.
- **EDIT OFFICES**: this is a list of offices that provide the treatment. You can unselect an office to ensure that clients listed in that office do not have the option to be enrolled in the treatment.
- **EDIT ORGANIZATIONS**: this is a list of organizations who can view the treatment on the referral page.
- **VIEW/SETUP GROUP TREATMENTS**: attaches treatments to groups.
- **SET/VIEW WEEKLY TIMES**: schedules the group.
- **CLIENTS IN A GROUP**: list of clients in the group.
- **CHECK-IN GROUP CLIENTS**: checks in the group clients.
- **GROUP ATTENDANCE**: displays group attendance by specified date.
- **ADD**: is used for attaching insurance, adding a session, adding a supervisor, etc.
- **ADD MULTIPLE**: for treatments on the client page or for diagnostic codes
- **APPROVE**: displays a document and allows you to approve or refuse it.
- **DELETE**: displays a document and allows you to delete it.
- **PENDING APPROVAL**: displays who has not signed a document.
- **FULLY APPROVED**: displays who has signed a document.
- **SEND SIGNATURE REQUEST**: allows you to send a document out for signatures.
- **PRIMARY**: is used to designate the primary insurer, primary supervisor, etc.
- **CLIENT EVENT NOTES**: Add a note for an event on a client's page
- **ATTACH**: attach a document to a session (i.e. Lab result, clinical doc, polygraph, etc.)
- **CLIENT PORTAL**: in the filing cabinet, allows you to re-assign a completed portal document
- **DOCUMENTS PENDING APPROVAL**: allows you to view and approve documents sent internally.

Chapter 3: The Client Page

There are many optional capabilities you can access from the client page including:

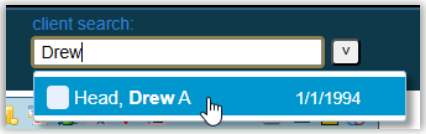

- Client Page
- Client Page Reports
- Demographics
- BROs
- Sticky and General Notes
- Categories
- Connections
- Programs
- Filing Cabinet
- Uploading Docs
- Text/Email Reminders
- Adding Diagnostic Codes
- Prescriptions
- Client Contracts
- Client Tasks
- Client Events
- Adding a Picture
- Client Items
- Client Check-in/Check-out
- Discharging a Client from Services/ReliaTrax
- And More!

The Client Page

Each individual client has their own page where their information and documentation are kept.

Navigating to the Client Page

You can navigate to a client page by using the search bar in the top right-hand corner of any screen or by finding them in the list of **Client Info >> Clients**.

If you are already connected to a client, you can also find the client using your **Client Info >> Dashboard** in the list of clients on the left.

Overview of the Client Page

Client Icon Bar

The next sections will cover the icon bar on the client page in depth:

Reports on the Client Page (Per Client)

Some icons on the client page are for **information-only**. They will be described here.

-  - All activity on the treatments on a client page and overall status
-  - UA/BA activity summary and allows you to print UA instructions
-  - All session activity for a client as well as financials related to each session
-  - All upcoming appointments for this client
-  - Monthly summary of activity (progress report) for this client
-  - All documents in the client file, formatting removed for easy scrolling
-  - All financial history (statement) for a client; includes insurance billing information
-  - Overview of financial information/balances per treatment on a client

The **Sessions List** is another helpful report on the client page that can be used for viewing/managing activity.

Below, you will find information on the other icons on the client page and their functions.

Client Demographics

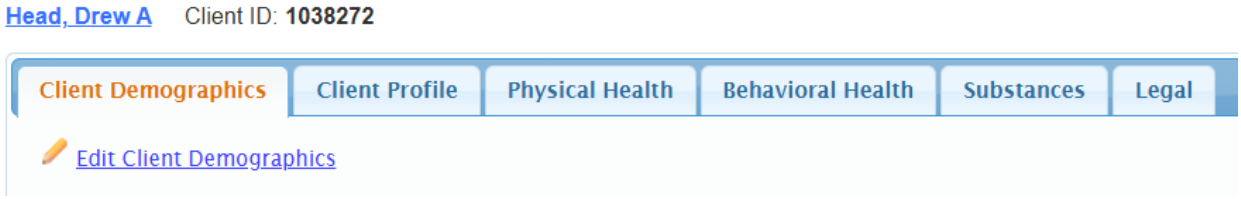

The client demographics can be completed from the client page or the client portal depending on the structure of your company. To complete the demographics internally…

1. Navigate to the magnifying glass on the client page

2. Click any tab and the pencil to “Edit Client Demographics” to enter information

3. Click “Save” or “Save and Finish” or choose “Next” to move to the next tab

Client BROs (Behavioral Reporting Organization)

BROs is short for Behavioral Reporting Organizations. ReliaTrax calls it this because each state has a different name for these data submissions. At present, ReliaTrax can support the following BROs (click the link next to each to find information on navigating/completing this BRO type.

BROs are completed using the bargraph icon on the client page:

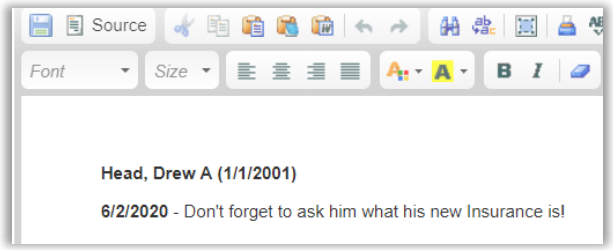

- **Washington** (Carelon – All MCOs, Salish BHASO)
- **Oregon** (ROADS/ROADS NMS)
- **Colorado** (DVRNA)
- **New Jersey** (DVRNA)

Client General Notes

Client Sticky Notes are a way to keep notes in a file that do not need to be in the client's clinical record

1. Go to the client's page and click on the general notes icon
2. Here you can see sticky notes that have been archived as well as add any additional notes you may want to keep on file but not necessarily in the client record
3. Make sure to hit the floppy disk to save!

Client Portal

The client portal is managed from the client page using the portal icon:

Here you can setup the portal account, assign documents, and open the demographics for the client.

More information about using and managing the client portal can be found here.

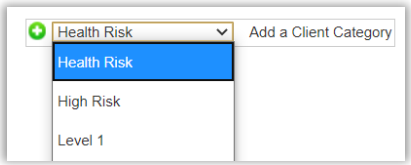

Client Categories

Categories are added on the client level and make it easy to sort clients on the home page as well as giving an at-a-glance view of the types of clients your agency is providing services to. The categories can be created by going to **Admin >>> Client Categories**.

1. Go to the client's page and click on the category icon

2. Using the drop-down menu chose the category you wish to add and click on the green plus sign
3. You can add as many as you want
4. Categories can be deleted from a client by clicking the red minus sign next to them.

5. Chosen categories will appear on the client's main profile page.

Supervising Users and Organizations

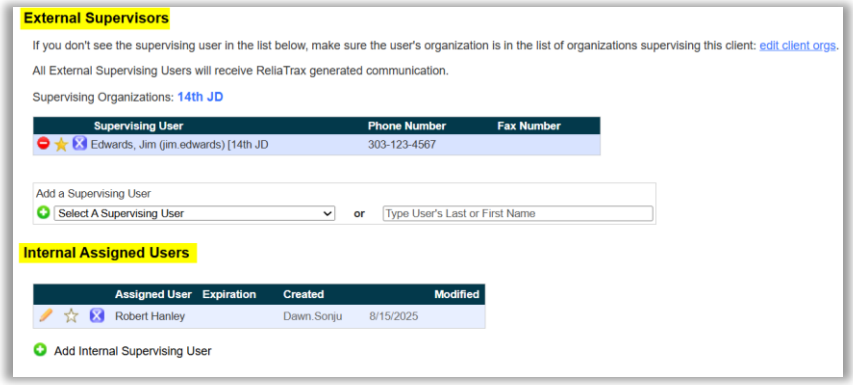

Clients can be connected to internal and external users for tracking, communication and reporting.

- For external users, an "Organization" must be added to a client prior to adding an external user
  - Example (add Department of Corrections to a Client and then add their DOC Officer)

- For internal users, you can go straight to the eyeball icon to add any internal user to the client
  - This will ensure this client shows up on that staff's dashboard

****Additional information for managing referral sources/external users, reporting, and communicating with external users can be found here.**

Client Connections

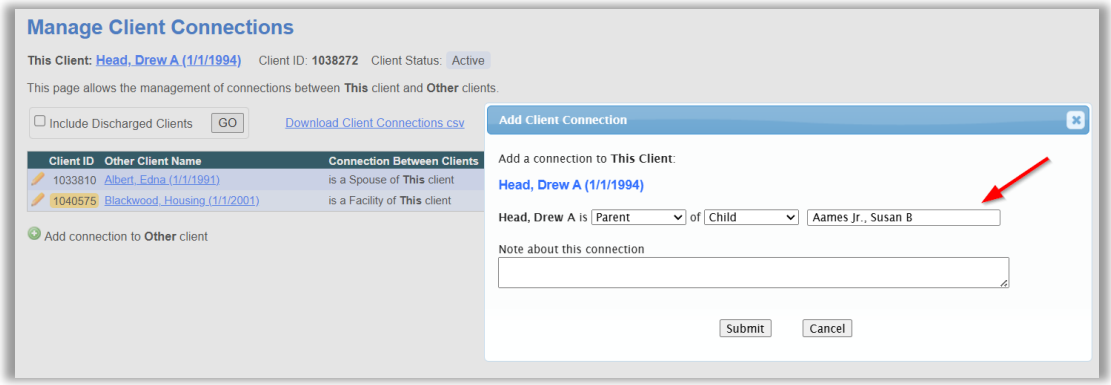

Client connections allow you to keep track of clients that are connected to one another. This could be family members, friends, partners, etc.

1. On the client's page, click on the connections icon

2. Here you can add new connections for this client

To run a report on all client connections for the agency go to **Reports >> Client Reports >> Client Connections**

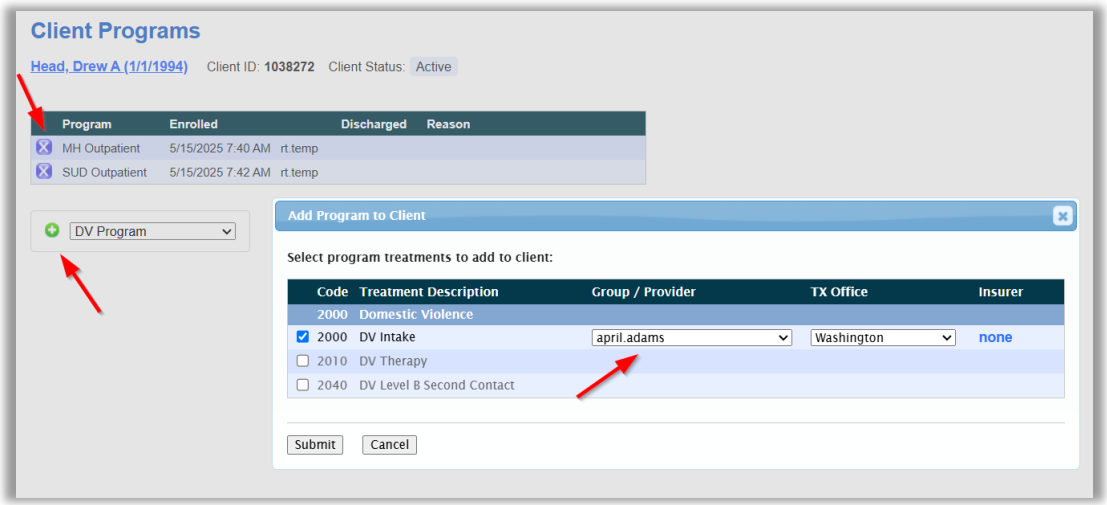

Client Programs

Client programs are clusters of services on the client page. Programs can be added to a client when adding services to a client OR using the programs icon on the icon bar.

Here you can add, discharge, and manage a client's programs

To run a report for all clients in programs go to **Admin >> Client Programs >> Number** next to the program

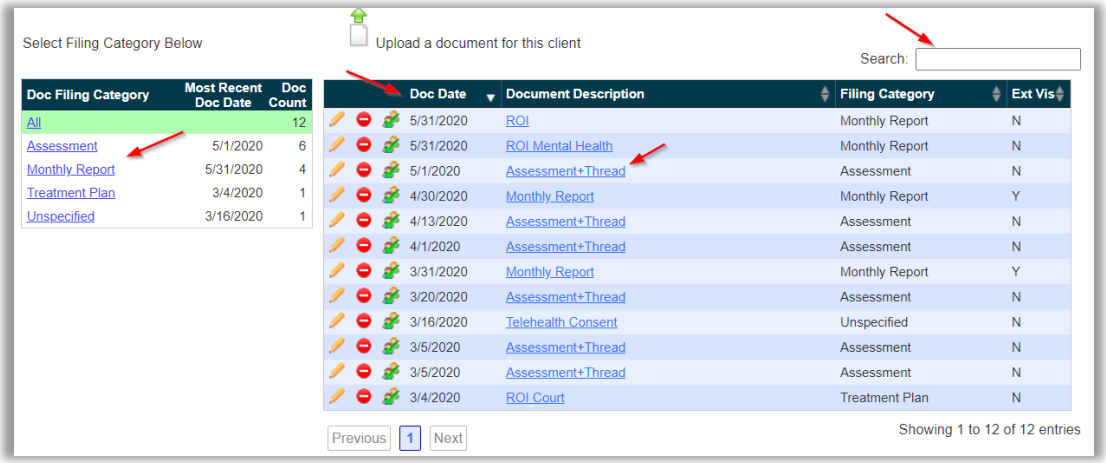

Client File Cabinet

Think of the client file cabinet like the paper file you may have once used that holds all of your documentation for a client.

1. To get to the client file cabinet go to the client page
2. Click on the filing cabinet icon

3. Here you can see the documentation saved for a client

The categories on the left, allow you to separate documents by type. The dark blue bar at the top allows you a few more sorting options, by date, description, category and if it is visible to external users. You can also use the search bar to find a specific document by name.

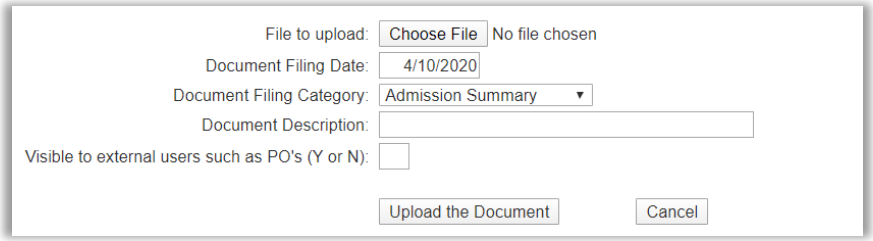

Uploading Files to the Client's File Cabinet

Uploading documentation to a clients page it can be done from the client's page (with the icon below) or from **Docs/Forms >> Doc Upload** menu. The same prompt from #3 will be shown for both.

1. Go to the Client's Home page and click on the upload icon.

2. Choose a file from your computer, and enter the information below:

3. Click "Upload the Document"

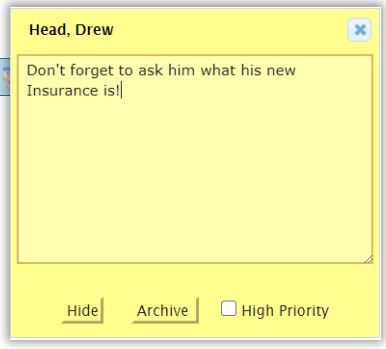

Client Sticky Notes

Client Sticky Notes are a way to keep notes in a file that are not necessarily clinical and/or would not need to be seen by an auditor.

1. On the client's page and click on the sticky note icon

2. Type in your message
3. Click "high priority" if you want the message to show up in the center of the client's page or leave it unchecked to have it show up on the right side of the page
4. The message will remain there until it is archived or until the text is deleted

5. Once archived, the message will go into the general notes with the date and time attached

Text/Email Reminders

You can use ReliaTrax to set up your client to receive HIPAA compliant email and/or text message reminders. All you need is the client's cell phone number or email.

Setting Up Text/Email Reminders

1. Go to the client's page and click on the magnifying glass icon 
2. Click on 

3. Enter the client's phone number under "Phone 1"
4. Check the box next to "Remind by Text"
5. An opt-in page will populate for you to confirm
   Save the Page
6. The client will get a text message confirming their enrollment in text message reminders with your agency
7. To stop, you can uncheck the reminder text box or they can respond "STOP"

Sent Text/Email Reminder Log

You can see what messages have been sent out to clients either from the client page or across the entire agency

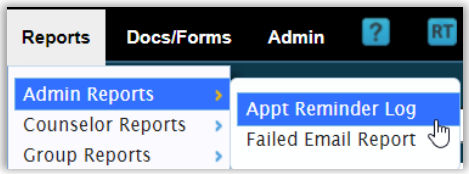

For One Client

On the client page, click on the reminders icon.

For All Clients

Go to **Reports >> Admin Reports >> Appt Reminder Log**

Send an Individual Text Message

Sending a message to a single client can be done from the client page:

1. Navigate to the client's page
2. Find the message reminder icon 
3. At the top of the screen find the "Send Reminder" button

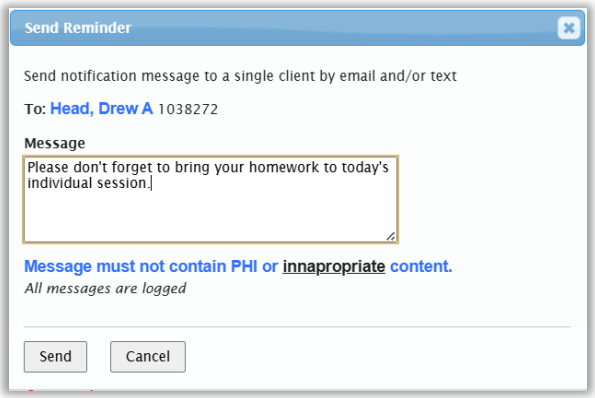

4. Enter the message that you would like to send

5. Click “Send”

Group and UA Text Messages

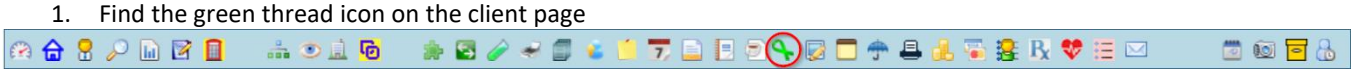

- **Text message reminders can also be sent for an entire group, information on this function here.**
- **ReliaTrax can also send reminders for UA testing. Find more information on that function here.**

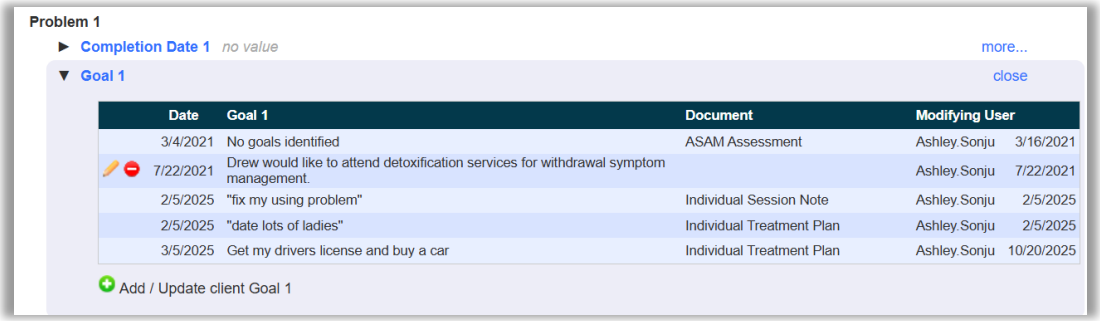

Treatment Thread

The treatment thread is generally managed within your templates. However, if you are wanting or needing to view or manage thread information on a client page without using a template, you are able to do so.

1. Find the green thread icon on the client page

2. Here you are able to see the previous entries on thread fields and add or update as needed

****More information on the treatment thread and its functionality can be found here.**

Client Contracts

Client contracts can be used to track many things including Attendance, Balance, UA/BA Testing, etc. They will also show up on the client home page so that you are able to see what contracts are in place.

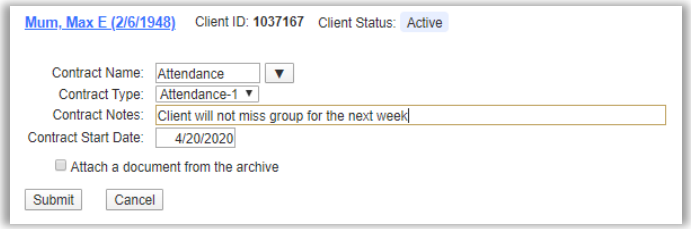

Adding a Client Contract

1. Go to the client’s page and click on the contract icon

2. Click on 

3. Enter information

ReliaTip: ReliaTrax will only determine if a contract has been broken for Attendance and UA contracts. See all client contracts with **Reports >> Client Reports >> Client Contracts**.

Contracts across all clients can be found under **Reports >> Client Reports >> Client Contracts

Vouchers/Insurance (Funding)

Voucher and Insurance funding can be added directly from the client page using the Voucher and/or Insurance Icons.

- Managing voucher funding for clients is covered in depth here
- Managing insurance funding for clients is covered here

Taking a Stripe Payment

Stripe (credit card) payments can be taken using the client page or the client portal using the following icon:

Here you can view payment history, manage saved cards, manage bulk pay, and take a new payment.

In depth information about credit card processing in ReliaTrax can be found here.

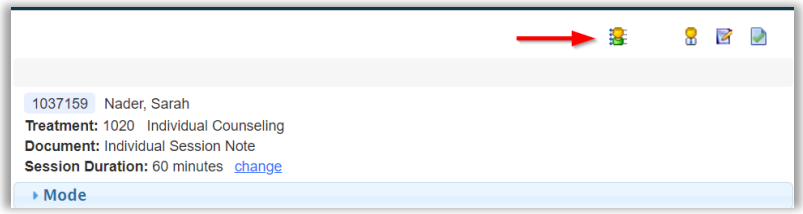

Adding Diagnostic Codes to a Client

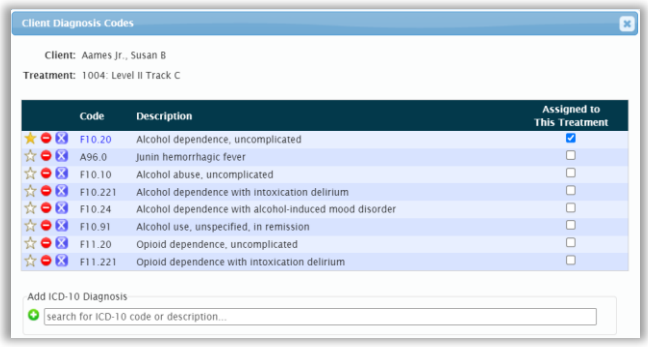

Diagnostic codes have to be entered for all insurance clients and make sure that there is a primary diagnostic code for each client. **These are ICD 10 codes NOT DSM V.**

Diagnostic Codes through QuickNotes (Recommended)

This is the generally recommended method for adding diagnostic codes to a client as it can easily be completed by the counselor/staff while they are doing their notes/documentation.

1. Navigate to Quicknotes (**Client Info >> QuickNotes**)
2. While completing any document click on the diagnostic code icon at the top right
3. Here you can search for a new code, add/remove codes, and decide which codes specifically apply to this client service as well.

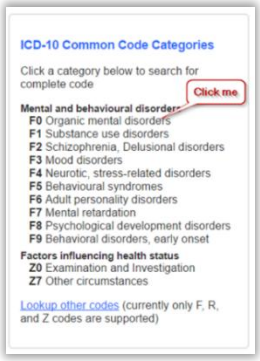

Diagnostic Codes from the Client Page

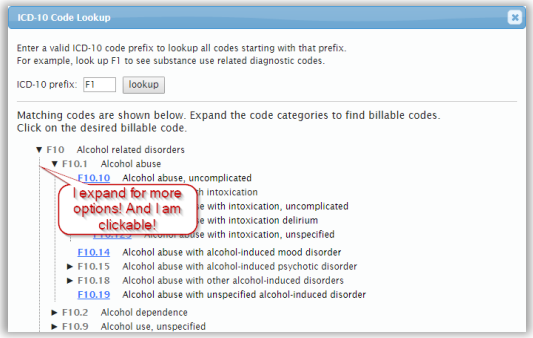

1. Open the Diagnosis screen by clicking on the **Diagnostic Code** icon.

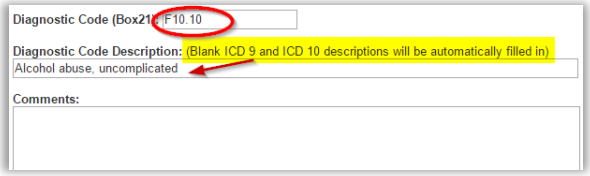

2. Add a single or multiple codes.
3. Search for the for the specific code you need.

4. Once you have found the code, click on it and it will automatically fill in the code and description.

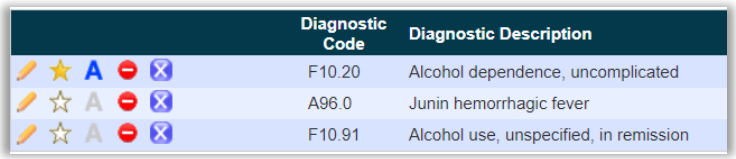

Clicking **Quick Add ICD-10 Codes** will bring a pop-up of the most commonly used codes in your agency. You may choose from the codes by clicking on the check box and the **Submit**.

The yellow star indicates the primary diagnosis while **white star** represents subsequent diagnoses.

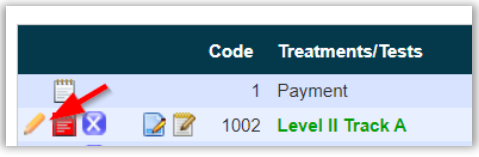

- Click on the A to assign admitting diagnoses (if needed for billing)

- You can edit using the **pencil icon** or delete using the **delete icon**

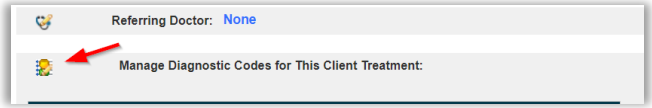

Diagnostic Codes on a Treatment

Another way that diagnostic codes can be specifically added to a client treatment is from the client page.

1. Go to the client's page and click on the pencil next to the treatment you want to edit the diagnosis for

2. Scroll down and click on "Manage Diagnostic Codes for this Treatment"
3. Select the codes and "Submit"

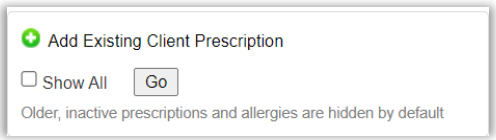

Client Prescriptions/Medications

ReliaTrax can keep track of existing client prescriptions or allow the user to order a prescription through E-Prescribing (available for an additional cost; outlined here). To add medications/prescriptions for a client:

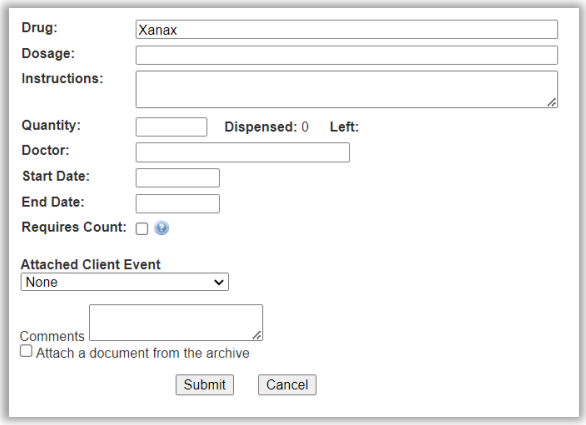

1. Go to the client page and click on the Rx Icon

2. Click on "Add Existing Client Prescription"

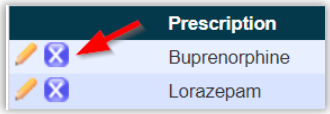

3. Enter information about the prescription
4. If you are utilizing client events to track medication dispensing, make sure to attach the medication client event to the treatment. (**See here for more information about medication tracking using events**)
5. Click Submit

Editing/Discharging an Existing Prescription

Prescriptions that already exist on the client page can be edited using the pencil icon next to the medication. To discharge a medication, click on the purple X next to the drug name.

****Learn more about E-Prescribing and Medication Administration Records (MAR) here**

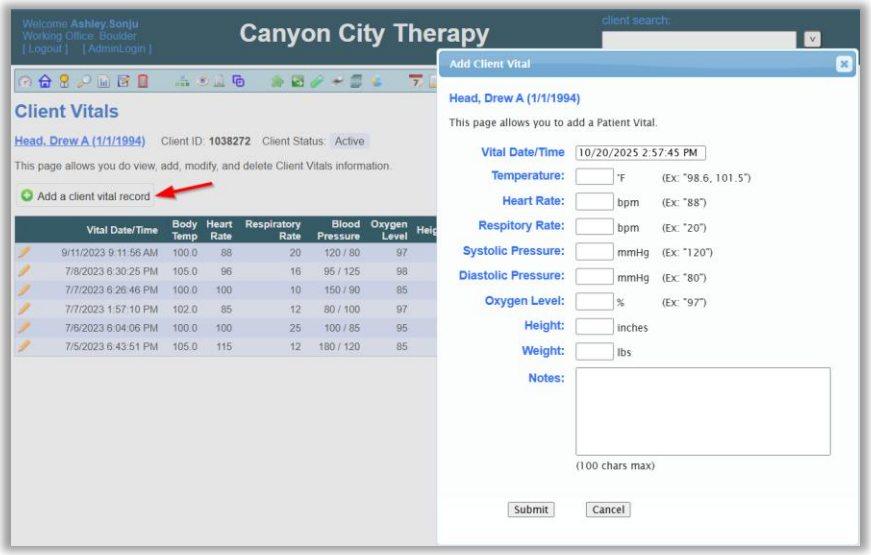

Tracking Vitals

Client vitals can be tracked from the client page using the vitals icon:

Here you can capture vitals and see historical vitals as well.

ReliaTrax is able to auto-populate vitals into your documents. Let your ReliaTeam know where you would like to see this data and it can easily be added.

Client Tasks

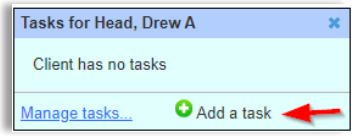

Tasks can be used as a reminder tool where you can set due dates, upcoming client activities, or as a communication tool to receive communications from external users.

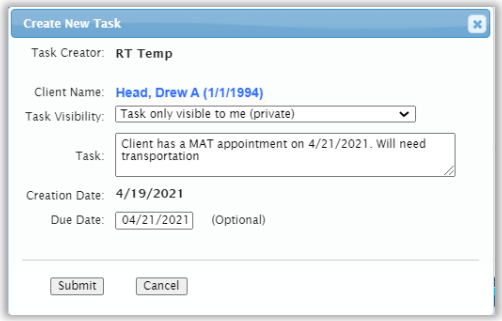

Adding a Task

1. Go to the Client's page, click on the Task icon

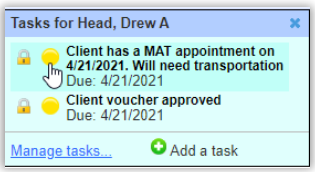

2. On the bottom right of the page a box will appear, and you have the option to "add a task"
3. Choose who you would the task to be visible to, enter the information and a due date, if desired

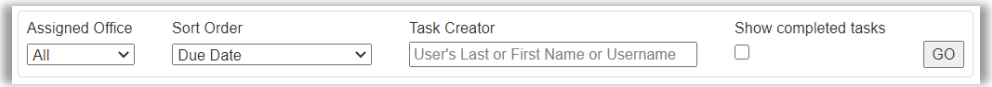

To Edit/Complete the task

1. Click on the button next to the task
2. This will bring up a prompt with a check box for “Completed”
3. When finished, click “Submit”

Viewing All Tasks

1. Go to **Admin >> Client Tasks**
2. Tasks can be sorted by Office, Creator, or Sort Order
3. Tasks can also be completed by clicking  while viewing all tasks.

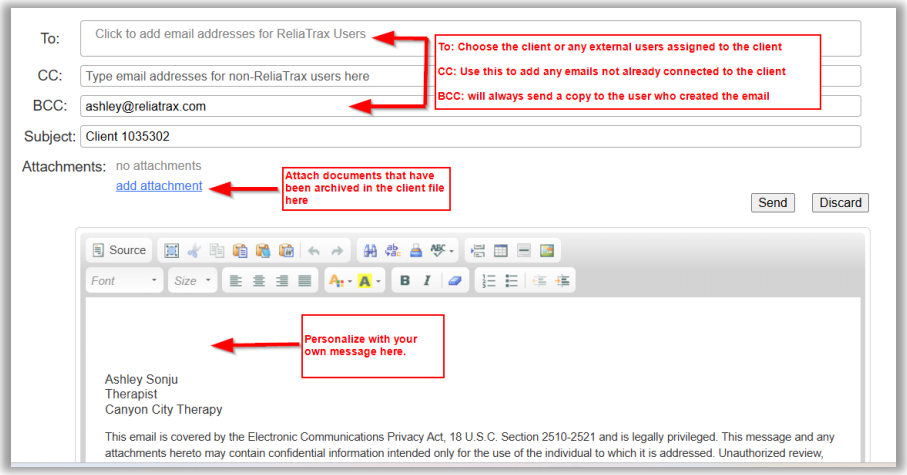

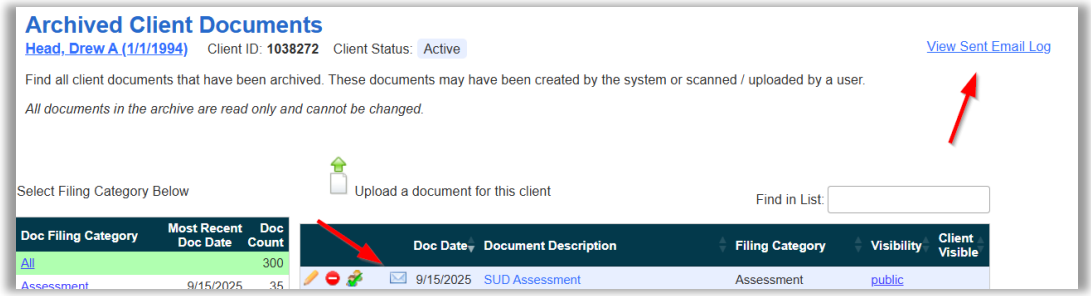

Emailing from the Client Page

Reliatrax can send documents and notifications automatically. To learn more about automatically sending documents, click here. Emailing from the client page is used when you need to send out information that is not set up for automatic sending.

- Emails sent here will go out immediately rather than added to the email batch queue
- Documents that have been sent out will show in the filing cabinet  with the envelope icon next to them and can also be viewed in the “Sent Email Log”

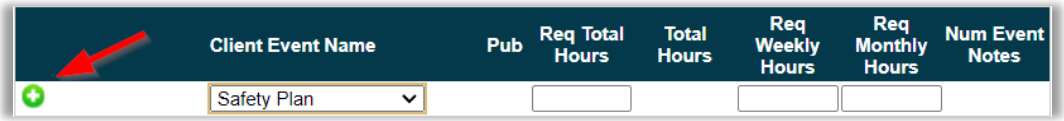

Client Events

1. Once on the client's page click on the to set up Client Events.

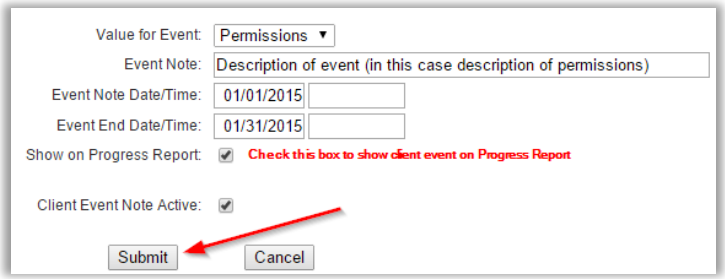

2. Click the green plus sign to add the option to create events for this client.

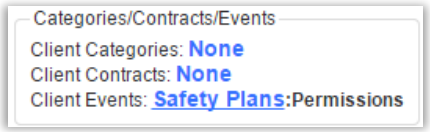

3. Log specific event notes by clicking on the blue communication bubble

4. See the figure below for a Client Event note:

5. The newly created client event will show up on the client's home page.

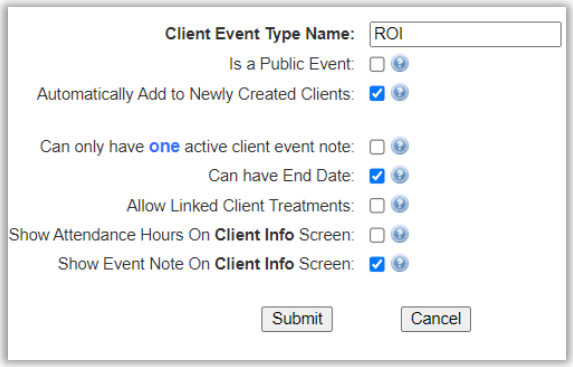

ReliaTip: You can also click on the blue event name to add or view events in that category. They will show on progress reports if "Show on Progress Report" is checked.

Using Events for Release of Information (ROI) Tracking

Utilizing the client portal is the best way to use events for ROI tracking as ROI's filled out in the client portal are read by ReliaTrax and will archive in the client filing cabinet as well as on the client page with the entity and expiration date displayed. However, ROI's can also be tracked without using the client portal with client events outside of the client portal.

1. Make sure that the client event for ROI has been built for your agency under **Admin >> Client Event Types**
2. When creating the event, be sure to name it "ROI" and make sure that the following settings are checked

3. Once this has been added, the event can be added to a client using the icon and entries can be made by either clicking on the ROI wording now displayed on the client home screen by then clicking

.

ROI expirations using the client event function can also be tracked using the **Reports >> Client Event Reports >> Client Events by filtering by the ROI event or by **Reports >> Client Event Reports >> Expired Events**

****See Appendix K for Client Event Tracking for Medication, ROIs and Treatment Hours**

Adding a Picture to the Client Page

ReliaTrax has two functions for verifying client identity on the spot. Method of verification is reported on voucher invoicing as well (i.e. visual or fingerprint)

Upload a client's picture directly on their home page using the camera icon

1. Click on Upload Client Picture
2. Click on 

3. Once you have chosen the file 

Client Items

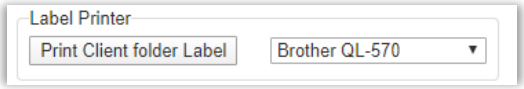

Items are used to keep track of paper charts that may still be kept for a client. ReliaTrax will create a barcode and allow you to check out the item to a person so you know where the item is at all times.

Adding an Item

1. Go to the client home page, click on the client items icon

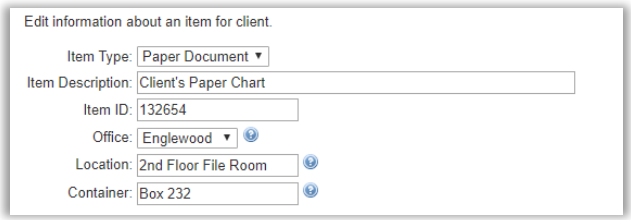

2. Print a label for the item with a unique identifier by clicking on

3. Click 

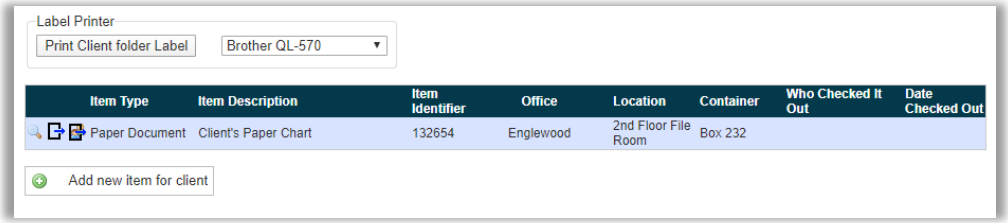

on
4. Enter information about the item

5. Click Submit

ReliaTip: Call a ReliaTrax team member to learn more about getting a label printer compatible with this function.

6. Now you can check out the client to yourself or to someone else using the buttons next to the document name.

7. Choose the user and click “Save” to check the item out

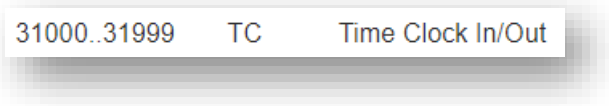

Client Check-In/Check-Out of Facility

Some facilities have the need for checking clients in and out from the facility at large rather than a specific service. This feature is used for exactly that.

Setup the Client Check-in Treatment

First you will need to create a treatment for your company (requires permission). To do this:

1. Go to **Treats/Groups >> Treatments**
2. Click on “Add a New Treatment” at the bottom of the screen
3. Choose a number between 31000 and 31999 for your treatment

4. Name it however you would like “Client Check In/Out”, “Employee Time Clock”, etc.
5. Make sure the frequency is set to once or random
6. Make sure the Times per day is set to 0
7. Click Save

Printing Labels for Client Check-in (optional)

If you would like to have clients check in using a scan card you will need to setup a label printer and barcode scanner for this process.

1. Compatible Label Printer is the: Brother QL810W
2. Once you have purchased the label printer, you will need to set the printer up to be compatible with both your computer and ReliaTrax
3. The instructions for setting up label printers with ReliaTrax can be found in Appendix L or by clicking here.

Setting up the Barcode Scanner (optional)

If you would like to utilize a barcode scanner to allow clients to check-in/check-out with their barcodes.

1. You can purchase a barcode scanner from here
2. Once you receive the scanner, plug it in via USB to your computer
3. If the scanner does not immediately show up on your device, go to your computer settings and search for the device.
4. Scan the Continuous Scan Mode barcode for ease of use.

5. Your device should be ready to scan the labels created for each client

Add the Treatment to the Client Page

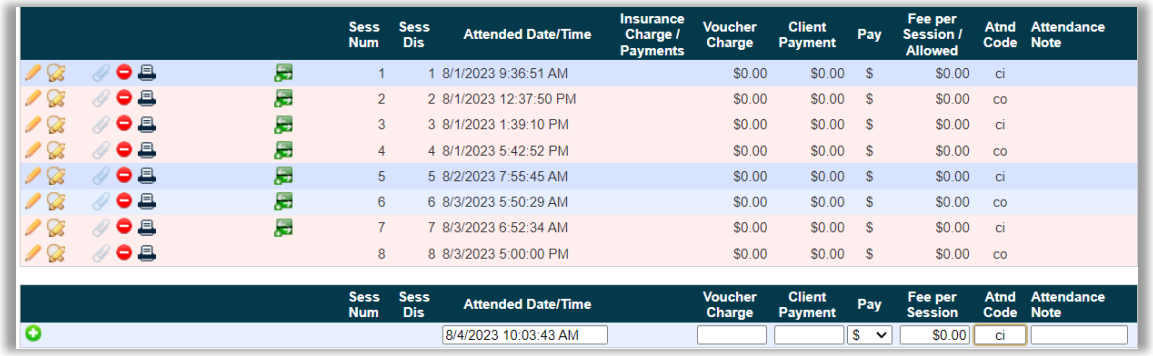

Once your treatment has been created for the company, you can begin to add it to your clients who are going to be utilizing the check-in/check-out function. To do this…

1. Go to the client page
2. At the bottom of the page, click on “Add client treatments”
3. Choose the newly created check-in treatment
4. Click Submit

Checking the Client in from the Client Page

One option for checking clients in is to check them in from their page on the client check in treatment.

1. On the client page, click on the white notepad next to the client check in treatment 
2. Scroll to the bottom, type in the date and time of check in or out and then add either a “ci” for check in, or “co” for check out in the Attnd Code Box

	Sess Num	Sess Dis	Attended Date/Time	Insurance Charge / Payments	Voucher Charge	Client Payment	Pay	Fee per Session / Allowed	Atnd Code	Attendance Note
	1	1	8/1/2023 9:36:51 AM		$0.00	$0.00	$	$0.00	ci	
	2	2	8/1/2023 12:37:50 PM		$0.00	$0.00	$	$0.00	co	
	3	3	8/1/2023 1:39:10 PM		$0.00	$0.00	$	$0.00	ci	
	4	4	8/1/2023 5:42:52 PM		$0.00	$0.00	$	$0.00	co	
	5	5	8/2/2023 7:55:45 AM		$0.00	$0.00	$	$0.00	ci	
	6	6	8/3/2023 5:50:29 AM		$0.00	$0.00	$	$0.00	co	
	7	7	8/3/2023 6:52:34 AM		$0.00	$0.00	$	$0.00	ci	
	8	8	8/3/2023 5:00:00 PM		$0.00	$0.00	$	$0.00	co	

	Sess Num	Sess Dis	Attended Date/Time	Voucher Charge	Client Payment	Pay	Fee per Session	Atnd Code	Attendance Note
			8/4/2023 10:03:43 AM			$	$0.00	ci	

3. Click on the green plus to add the session

Checking the Client in Utilizing the Check-In Function

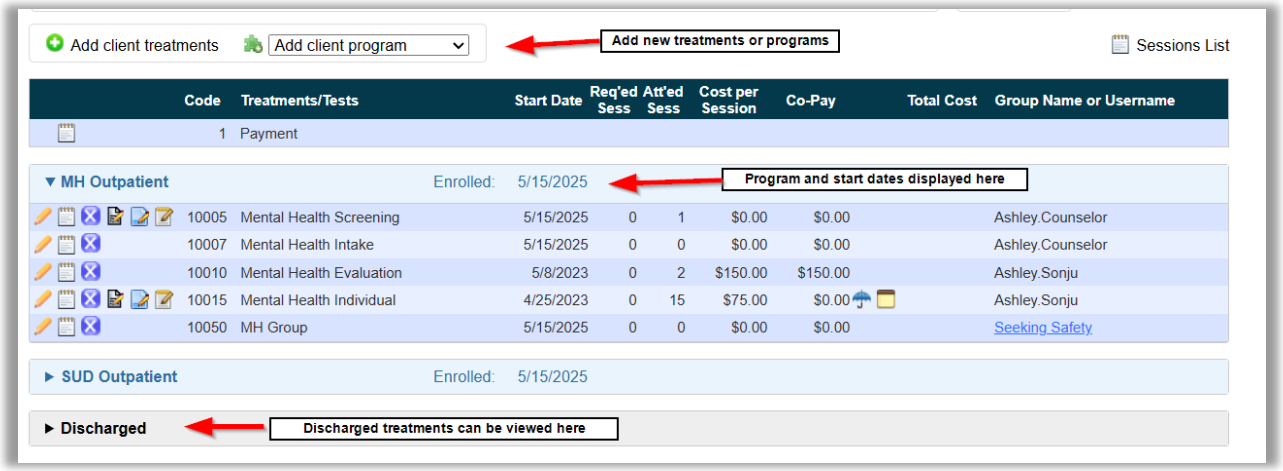

Once the client has had the check-in treatment added to their page, the check-in page is available for them to use with either the barcode scanner or by typing in their client ID.

1. Go to **Client Info >> Check-in/Check-out**
2. From this page the barcode scanner can be used OR
3. The client can type in their Client ID and then choose check in or check out
4. If the client is successfully checked in or out the screen will turn green
5. If the check in is unsuccessful the screen will turn red and show an error message

****Run Reports on Check-In/Check-outs for the facility under Reports >> Client Reports >> Client Check-In/Out**

Adding Treatments/Programs to the Client Page

A client must be enrolled in services to be checked in. Toward the bottom of the client page, all active and discharged treatments/programs can be seen. This is also where new treatments/programs are added.

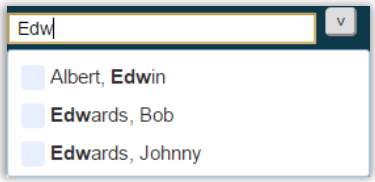

Once you add a treatment to a client page, you can add sessions to that treatment. **You do not need to add a new treatment each time you meet with the client.**

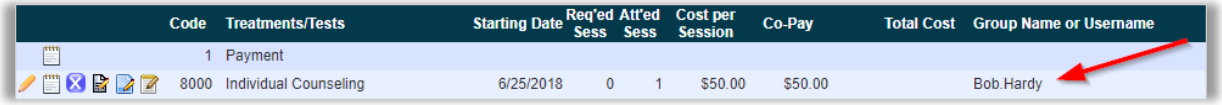

Checking Clients in from the Client Page

Once you have treatments on the client page (listed above), you can add services to their page by checking them in. This can be done from the dashboard, from the calendar, or directly from the client page (explained below).

1. Search for the client by entering 3 letters from either the first or last name in the client search box in the upper right corner of the screen, select the correct client and hit enter. **If you click on the v next to the click search box, it shows all clients you have searched for or visited recently.

2. Find the treatment that you would like to add a session to

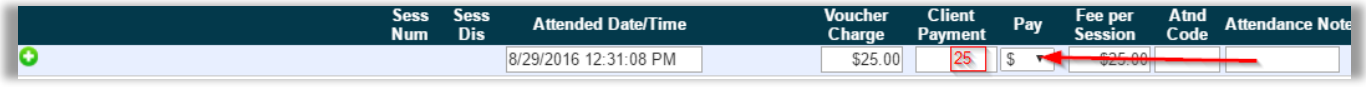

***Note**: Verify that the staff name is listed under Group Name or Username*

3. Click on the session icon next to the treatment.

4. Enter the payment under **Client Payment** and hit enter or click on the green plus sign

   a. Voucher funds will be automatically credited
   b. In the Pay column you may select the type of payment ($= cash, CC=Credit Card, CK=check, ET=Electroninc Transfer, and BD= Bad debt) from the drop down menu
   c. Enter a 0 in the payment box if the client is not paying for the session

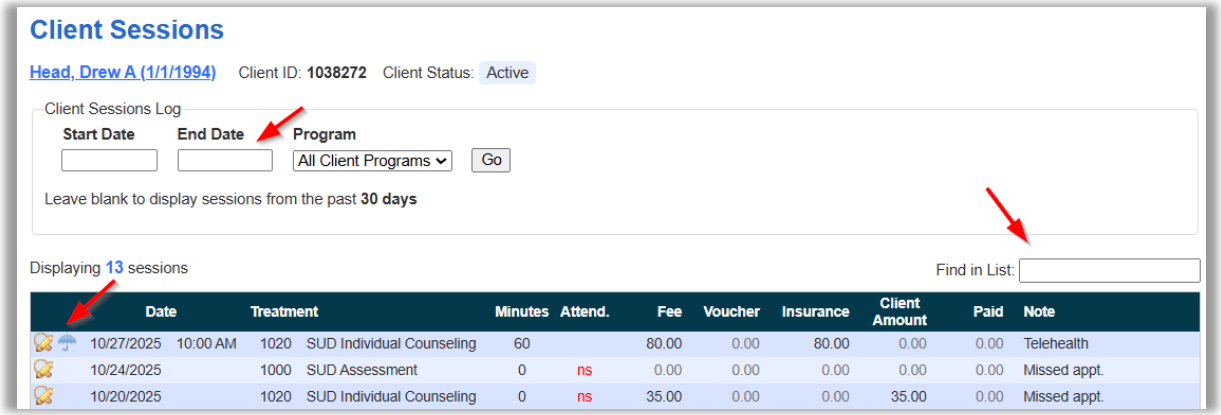

Sessions List

The sessions list on the client page can be used to view and manage all of the sessions across all treatments on the client page.

It can be found toward the bottom of a client's page above their list of services:

Here you can set parameters and/or search for specific services

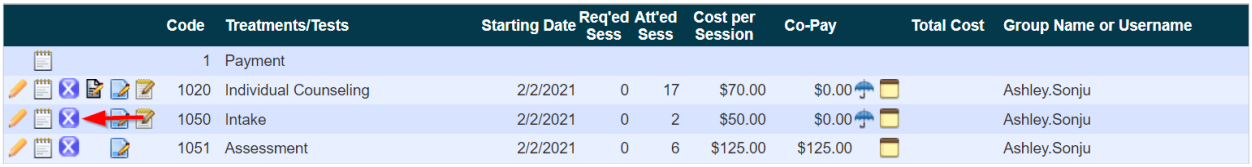

And you can adjust session information or insurance information using the icons next to each session.

Discharging a Client from Services

When a client has completed or left a certain service, we want to discharge them from that service so that they no longer show up on the roster and to reflect accurately the client's activity. To discharge a service from a client page:

1. Go to the client page and find the treatment that has been completed
2. Click on the purple X next to the service you want to discharge

3. Choose a reason for discharge, any comments, and a return date if applicable, then submit.

Discharging a Client from a Program

If you need to discharge a client from a specific program rather than the entire agency, you can do this from the client page.

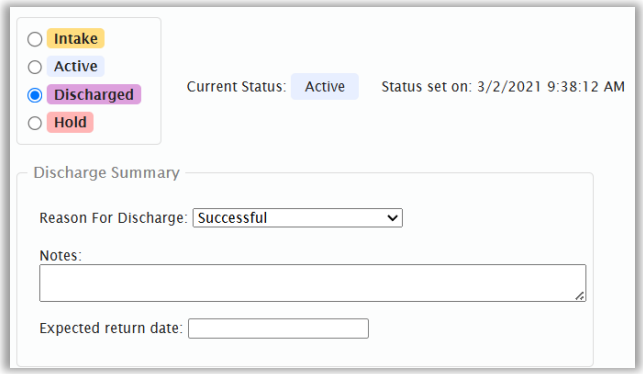

1. Navigate to the client's home page
2. Click on the puzzle piece icon 

3. Find the program you would like to discharge and click on the purple  to discharge that program

Discharging a Client from ReliaTrax

Clients are discharged from ReliaTrax when they have completely left all programs/services. You can easily re-activate the client later if they return.

Note: Your agency may have documentation required upon discharge (i.e. discharge summary). Complete this prior to discharging the client from ReliaTrax.

1. Navigate to the client's page
2. Click on the magnifying glass icon 
3. Click to Edit Client Demographics
4. Select "Discharged", Enter the discharge information and Save the page

Chapter 4: Client Portal

The client portal is a web-based platform for clients to interact with their assigned agency.

Some client portal functions covered in this chapter:

- Getting the Client Portal for Your Agency
- Granting Clients Access to the Portal
- Opening Client Demographic Pages
- Client Portal Forms
- On Demand Forms
- Releases of Information in the Client Portal
- Copying Previous Client Portal Documents
- Payments and Accounting in the Client Portal
- Agency Portal Administration
- Navigating the Client Portal
- Client Portal Reports
- Client Self-Registration

Getting the Client Portal for Your Agency

The client portal can be setup by requesting access from your ReliaTrax rep. Contact us at 833-222-0062 option 2 to request the portal be added to your agency page. You will need to provide your clients with your portal login URL as each agency's URL is different.

Inviting Clients to the Client Portal

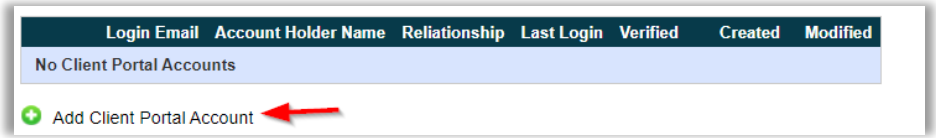

Once portal access is added to your agency, you can give your clients access to the portal to fill out their demographics and/or intake paperwork.

Adding the Portal to the Client in ReliaTrax

1. Go to the client's page and find the portal icon on the icon bar

2. Click on "Add Client Portal Account"
3. Add the information for the account holder and click on "Send Invitation"

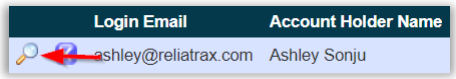

4. The Account Holder will now get an email with an invitation to set up their Client Portal Account **OR** if they already have an account, will be able to login to their existing portal account to access this client.

Creating a Random Password

Sometimes clients may come in and we'd like to have them fill out client portal information/forms on-site without having to login to their email to retrieve their password. To do this follow the steps above for Adding the Portal to the Client in ReliaTrax.

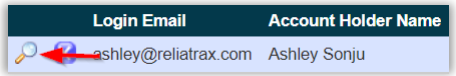

1. Now click on the magnifying glass next to their account and choose Set Random Password

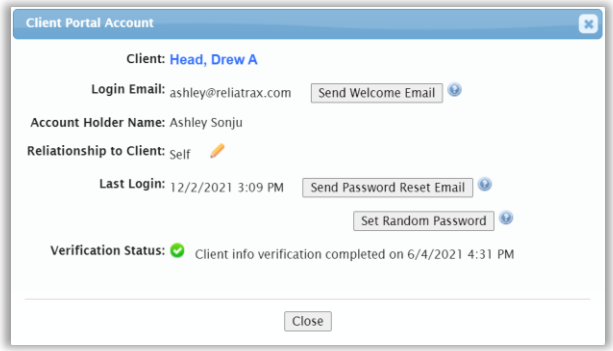

2. This password can be written down for the client to use with their email to login to the portal

Dealing with Login Issues

It is possible that a client's email blocks the invitation initially sent to them or that they have trouble logging into the portal or forget the link to get into the portal. Using the same magnifying glass function, you have additional

functionality to:

- **Send Welcome Email** – Resend the link to the portal
- **Send Password Reset Email** – Email them w link to reset password
- **Set Random Password** – you will need to give this to them

Opening Client Demographics

You can also allow clients to fill out the demographic pages found under the  on the client page.

These tabs can be filled out by the agency internally or clients can be granted access through the portal.

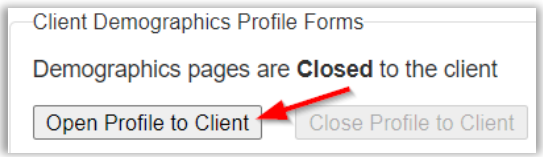

Opening the Demographics

To grant the client access to the demographic tabs in the portal:

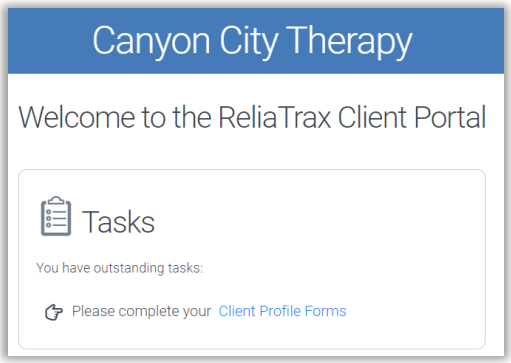

1) Go to the client's page and click on the client portal icon

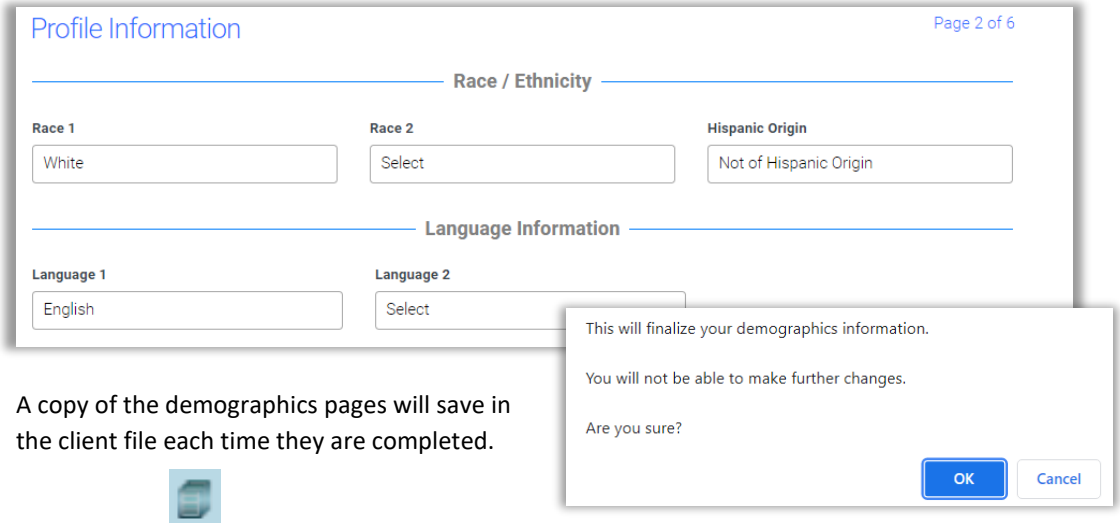

2) Click on "Open Profile to Client"

3) When the client logs into the portal they will now have a notification to complete their profile

4) They can then click to complete their profile forms and upon clicking "Finish" will be warned that no further changes can be made (unless re-opened):

- A copy of the demographics pages will save in the client file each time they are completed.

Client Portal Forms

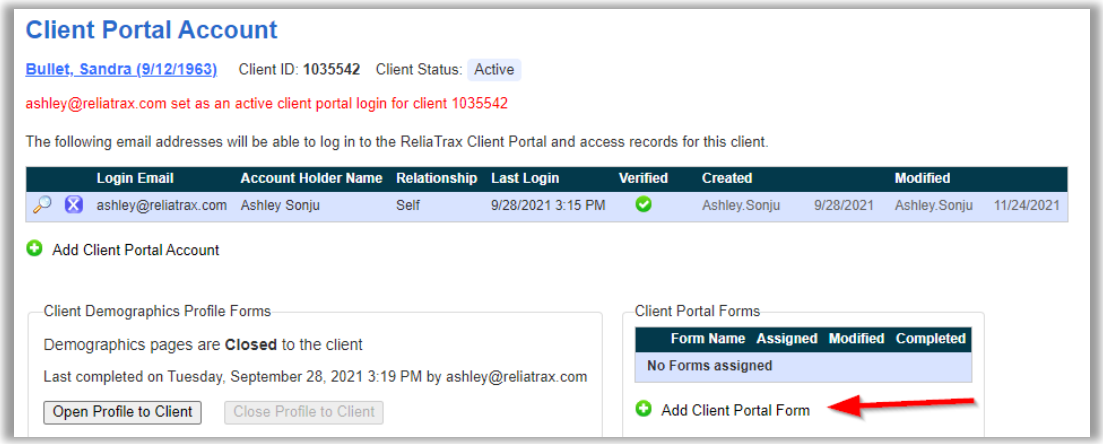

The ReliaTrax client portal allows clients to login and fill out and sign agency forms. If your agency is interested in having a form built into the client portal, please contact a ReliaTrax staff member so a Client Portal format of your form can be built. (833) 222-0062 option 2.

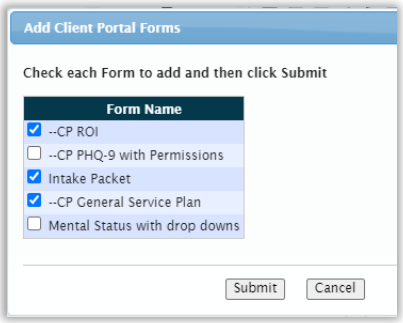

Opening Client Portal Forms up to the Client

- Like the demographic tabs and basic client portal access, forms can be opened to the client using the portal icon on the client page.

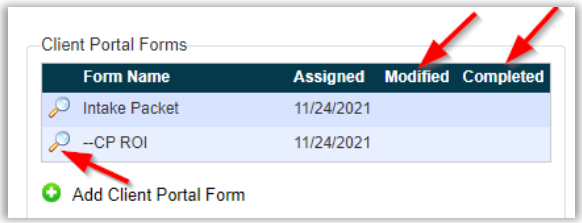

- On this screen you will now see the option to add client portal forms
- Forms that have been built for your agency in the client portal format will show up in the pop-up window and you can select the forms you would like to open for that client

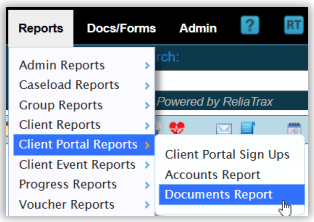

Monitoring the Status of a Client's Forms

- Once a client portal form has been opened for a client, in the same place you added the client portal forms to the client, a status will show as to whether the form has been modified and/or completed:
- Clicking on the magnifying glass will show you the form as it stands in the client portal and also gives you the option to "Force Archive" a document should you need it.

Monitoring the Status for All Client Forms

Another option for seeing form completion/progress across the entire agency is **Reports >> Client Portal reports >> Documents Report**

- This will show: Open demographic pages, Incomplete client portal forms, Date requested, Document description

Client ID	Client Name	Assigned Office	Primary Org	Date Requested	Document Type	Document Description
1002062	Aames Jr., Susan B (1/1/0001)	Boulder	14th JD	9/13/2021	Demographics	
1002062	Aames Jr., Susan B (1/1/0001)	Boulder	14th JD	11/10/2021	CP-Form	-CP ROI - Officer Bob

Finding Completed Client Portal Forms

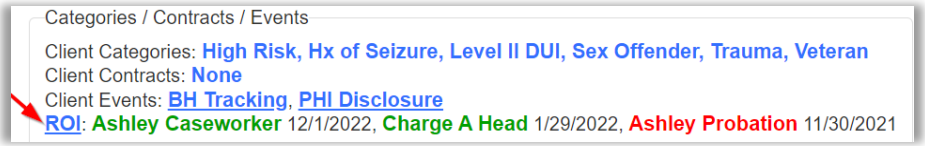

Once a client has completed the form or it has been "Force Archived", it will show in the client file 

	Doc Date	Document Description	Filing Category	Visibility	Client Visible
	12/1/2021	SUD Assessment	Session Note	internal	
	12/1/2021	---CP ROI - Ashley Probation	Client Portal Forms	internal	Yes

Release of Information (ROI) in the Client Portal

Releases of Information (ROI) can be completed in the client portal and show on the client page.

1. If you would like the client portal ROI's to auto-populate on the client page, you will need to have the ROI event added to your site.
    - Pre-filled ROI's for entities you are frequently interacting with can be built. Contact ReliaTrax support to have pre-filled ROI's added to your site (833) 222-0062 option 2.
2. Opening the ROI to the client is the same process as Opening Client Portal Forms up to the Client but selecting the Release of Information(s) for the client to fill out.
3. ReliaTrax will use the information entered into the ROI to create the event once archived.
    - Client Portal ROI's will show the expiration date based on what is entered on the ROI

Updating or Copying Previously Completed Client Portal Forms

Sometimes client forms just need to be updated and/or we want to copy the information from the previous form for the client to fill out. To copy information from a previous client portal form:

1. Go to the filing cabinet on the client page
2. Find the archived document with the Client Portal Icon

	Doc Date	Document Description	Filing Category	Visibility	Client Visible
	12/1/2021	SUD Assessment	Session Note	internal	
	12/1/2021	---CP ROI - Ashley Probation	Client Portal Forms	internal	Yes
	12/1/2021	Demographics Profile	Intake	internal	

3. Choose whether to include the original signatures in the new form and click “Copy and ReAssign Form:

Using QuickNotes to Pre-Fill a Client Portal Form

Sometimes, there is a need to pre-fill information into a client portal form prior to opening the document to client to sign. These are the steps to pre-fill and send the form to the client portal.

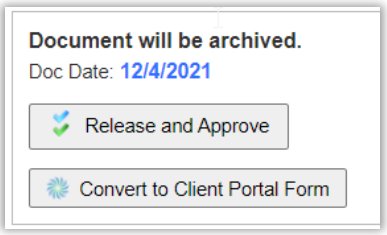

1. Ensure that the client portal form is assigned to a treatment

**This must be a client portal template which is different from a regular template in your template library. If you need a form transferred to client portal format, contact ReliaTrax (833) 222-0062 #2

Once you have assigned a client portal form to a treatment you can access it like you would any other form in your ReliaTrax site.

1. Go to the form from the Client Page or in QuickNotes
2. Pre-fill any information you want to have in the document
3. Click on the green  in the top right corner
4. Click the button to convert to client portal form which will send the pre-filled document to the client in their portal so they can finalize

On Demand Client Portal Forms

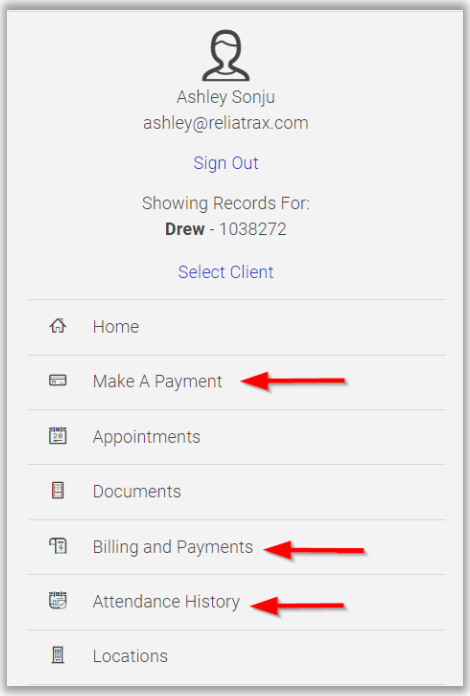

ReliaTrax can add forms into the client portal that can be filled out at any time by the client rather than being assigned.

Examples of forms that might be included as an on demand form would be ROIs, Medication List, Screening Tools, etc.

To enable this feature, contact a member of the ReliaTrax Team with the names of the forms that you would like to have enabled for On-Demand Completion (833) 222-0062 Option 2

Payments and Attendance in the Client Portal

If you have Stripe enabled for your agency, ReliaTrax can accommodate credit card transactions through the client portal. Clients are also able to see payment history through the portal as well.

Making a Payment

The client logs into the portal and clicks on "Make a Payment"

4. Choose a treatment to make a payment on
5. Select a saved card or pay with a new card
6. A stripe window will appear to facilitate the payment
7. Payments will reflect immediately in the client's ReliaTrax account

Viewing Attendance and Payment History

From "Billing and Payments" as well as "Attendance History" the client can:

a. **Billing and Payments** – view balances owed and payments made in the client portal via credit card
b. **Attendance History** – view all attended and non-attended sessions as well as payments made, insurance billing, and balances accrued

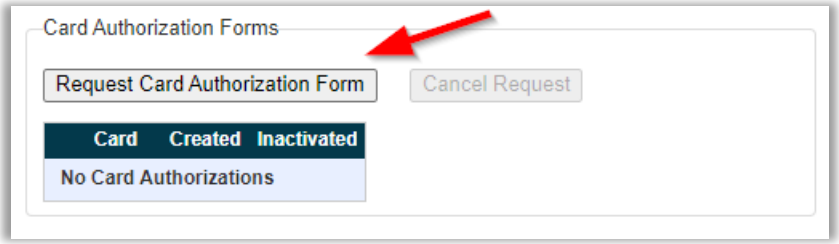

Credit Card Authorization

If you would like clients to fill out an authorization form that allows them to agree to have their card charged, you can do so using the client portal.

3. First, navigate to the client portal page

4. At the bottom of the page you will see a "Request Card Authorization Form" button

5. Once you click this button, the client will be prompted in the portal to fill out a credit card authorization form

Client Portal Accounts for Clients without Email

These instructions are intended to assist when you have clients that you would like to setup with a client portal account but they do not have an email address to link the account to. This process creates an email account that can be used over and over with minor changes across clients.

Create a Gmail Account for your Client Portal

This account is going to be used for all clients (but will be customized later) so you will probably want to make it generic.

1. Go to: https://workspace.google.com/intl/en-US/gmail/

2. Click **"Create an Account"** at the top right
3. And choose **"For my personal use"**
4. For the demographic information, use generic information (make something up)
5. Choose "Create your own Gmail Address"
6. Type in a gmail address for your client portal clients

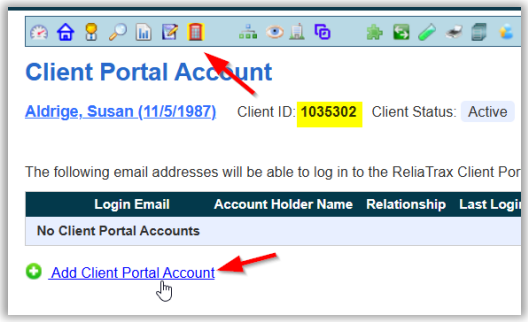

7. Create a password (you will be the only one logging into this account)
8. Complete the verification process and recovery email information
9. Complete the privacy information and create the account

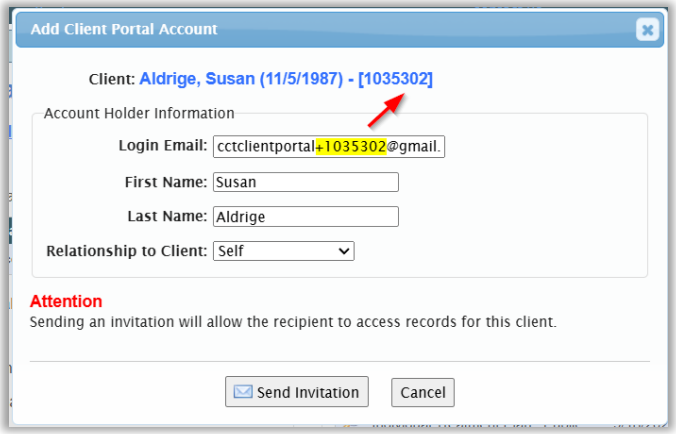

Using the Gmail Account for Client Portals

Now that you have created the Gmail account, you can add it to clients…

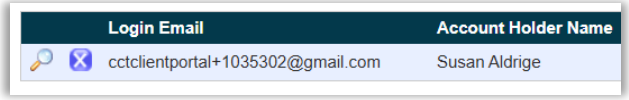

1. Go to the client's page and find the portal icon and click to "Add Client Portal Account"

2. Now type in the email address you created and before the @ icon, **enter in a + and then the ReliaTrax ID**:

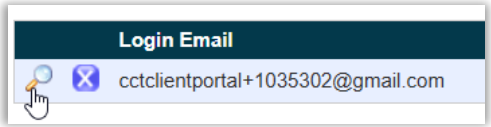

3. Once you create the account it will look like this on their client portal page:

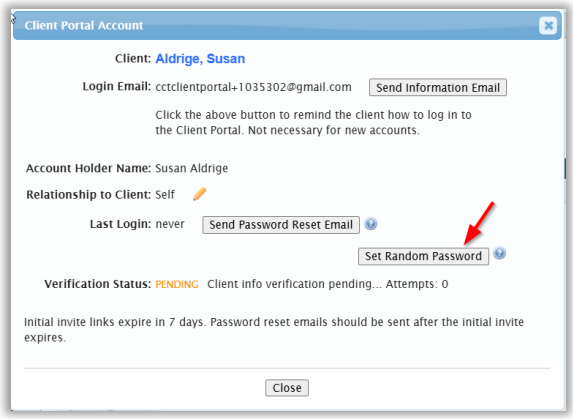

Have the Client Login to the Portal

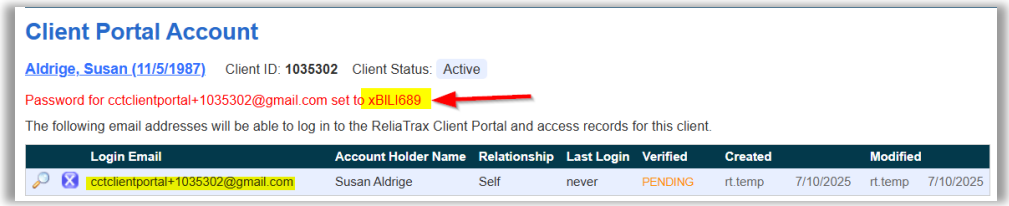

Now that you have created the portal account, the client is able to login to their portal.

1. From the client portal page, click on the magnifying glass next to the email to set a random password

2. This will provide the password clients can use for logging in

3. Now you can navigate to your client portal and have the client use these credentials for logging in

Agency Portal Administration

Though much of the functionality of the portal is within the client portal. There are some functions that the agency has access to within their ReliaTrax site from the client portal icon.

- On this page you can easily, deactivate an email address from a client by clicking the purple X

- You can also make some modifications and see activity by clicking on the magnifying glass icon

Resetting a Locked Client Portal Account

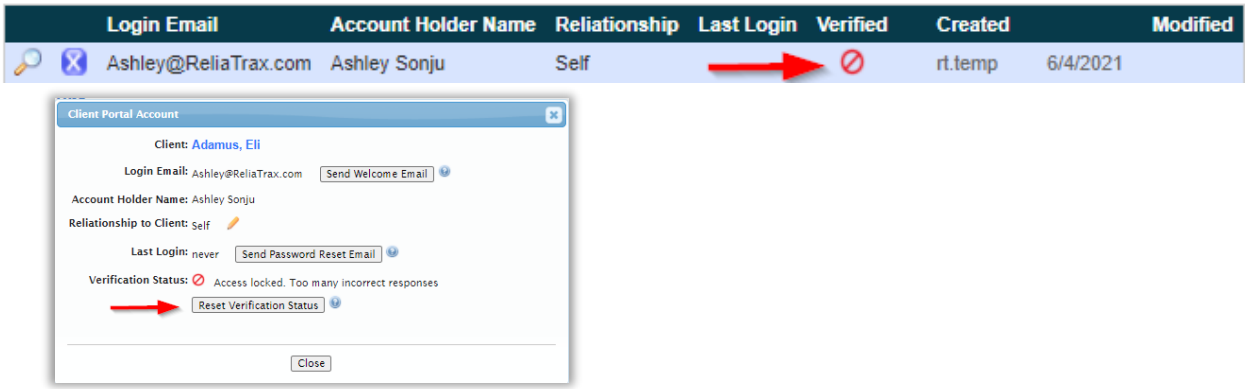

If an account holder has entered information incorrectly on the verification screen in the client portal 5 times, the agency must now unlock the portal for the account holder. To do this:

1. Go to the client's page and click on the client portal icon

2. You will see that there is a blocked symbol on the "Verified" column

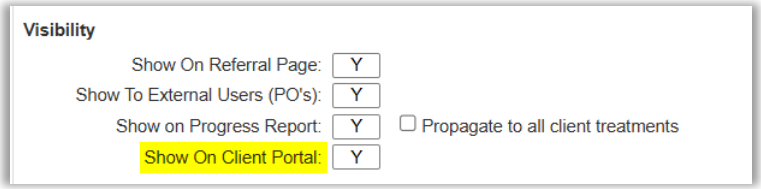

3. To reset, click on the magnifying glass icon and click on “Reset Verification Status”. This will allow the account holder to have 5 more attempts at verifying the information for the client.

Adjusting the Services that Show in the Portal

You can adjust what services clients are able to see in the portal by following these steps:

1. Go to **Treats/Groups >> Treatments**
2. Click on the edit pencil next to the treatment
3. Where the Y/N’s are at, find the “Show in Client Portal”

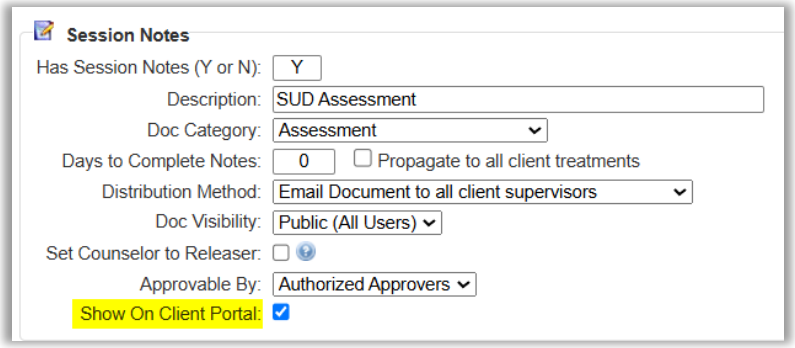

4. Enter “Y” to show and “N” to not show and Save

Managing Documents that are Visible in the Client Portal

If there are documents that you would like to have viewable in the client portal…

1. On the Treatment Line
2. Go to **Treats/Groups >> Treatments >> Edit pencil**
3. Check the box to have all documents of this type show up in the client portal

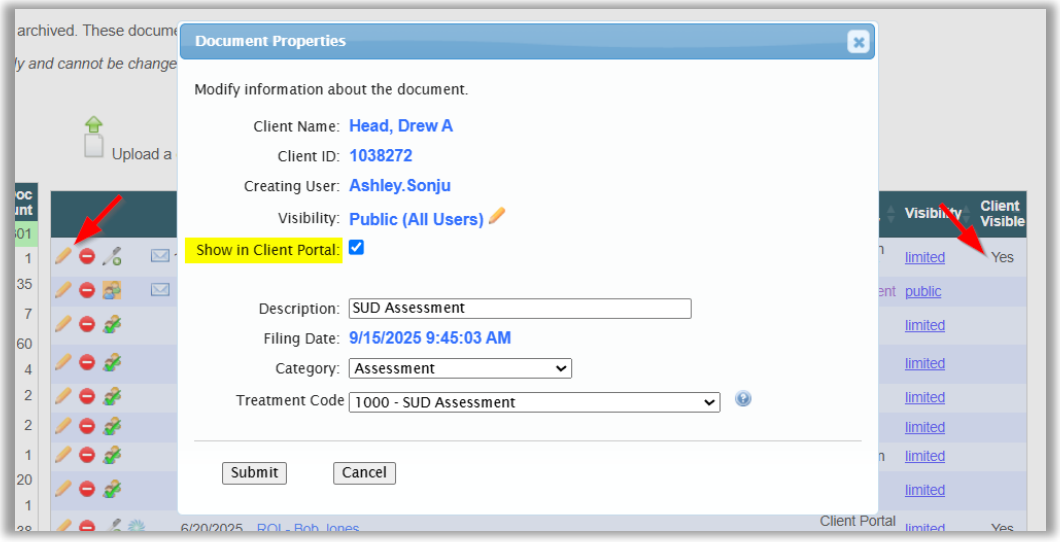

Making an Archived Document Client Portal Visible

From the client file, you can adjust visibility to the client portal for specific documents.

1. Go to the client page
2. Click on the filing cabinet icon 
3. Find the document you want to make visible in the client portal

4. Click on the pencil next to the document
5. Check the box next to “Show in Client Portal”

6. Click “Submit”

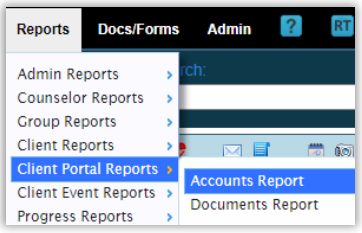

Hiding Insurance Payments

1. Go to **Admin >> Company Info**
2. Select the “Payment Only” or Attendance Only” option under Receipt Type
3. Make sure to save the page

Client Portal Reports

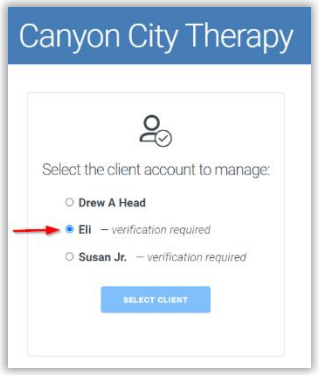

Client portal reports can help you see outstanding and completed documents and account setups.

- **Reports >> Client Portal Reports >> Accounts Report** – allows you to see which accounts have been setup for all clients across your agency have been as well as those that are still pending or who have not had an account setup at all.
- **Reports >> Client Portal Reports >> Documents Report** – allows you to see the documents that have been sent out to clients in the portal and filter by completed, incomplete, etc.

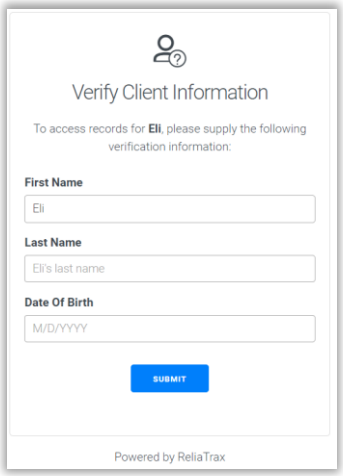

Client View of the Portal

When a client receives the welcome email, they will be prompted to create a password and redirected to the client portal to login.

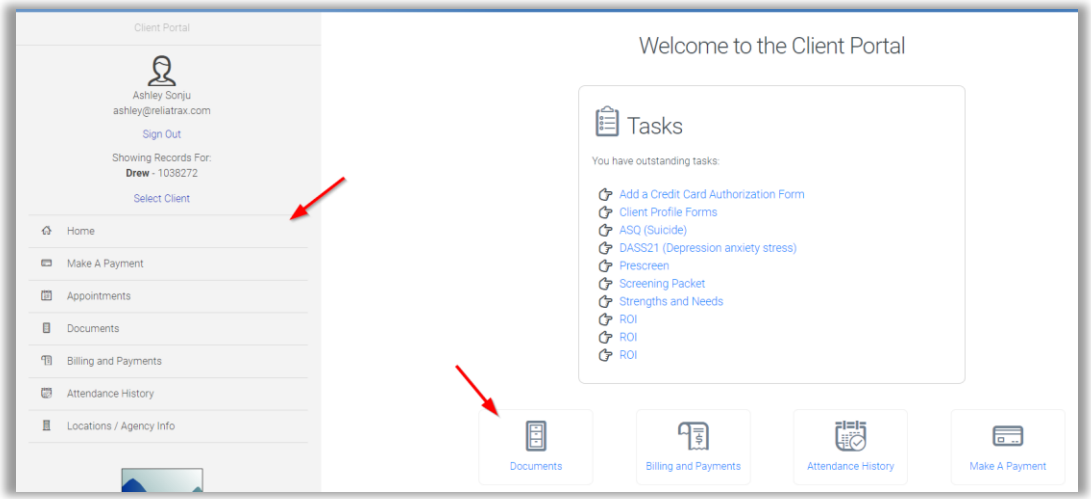

➢ The initial screen at login will show only first names of clients who have not yet been verified

➢ To verify the client information, the account holder will need to know the client's last name as well as their date of birth.

➢ The account holder has 5 attempts to verify the information for the client before they are locked out of the portal and the agency will need to reset the account

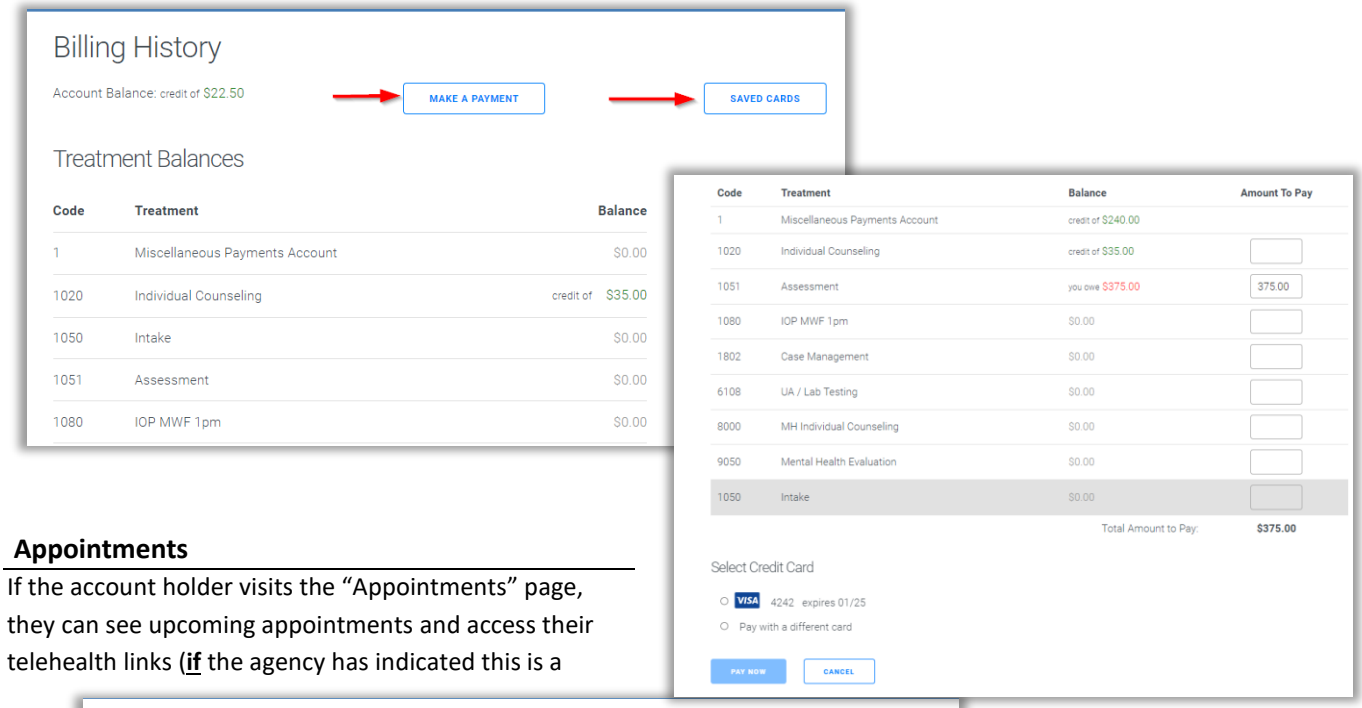

➢ To navigate to different pages in the portal, the user can click on the menus to the left or the icons in the middle of the screen:

➢ In the center of the screen will be "Tasks" for the client to complete. These are assigned by the agency as a form, Client Profile, or Credit Card Authorization.

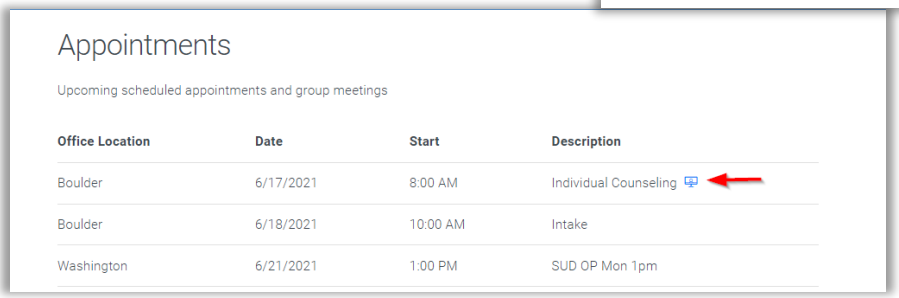

Billing History/Payments

This page allows account holders to see history of payments, make a payment, and save their card information. **NOTE**: The agency needs to have a Stripe account for payment functionality. Once the client has clicked on "Make a Payment" they will be able to choose which treatment they would like to make a payment toward and hit "Next" and enter their card information and/or use a saved card.

Appointments

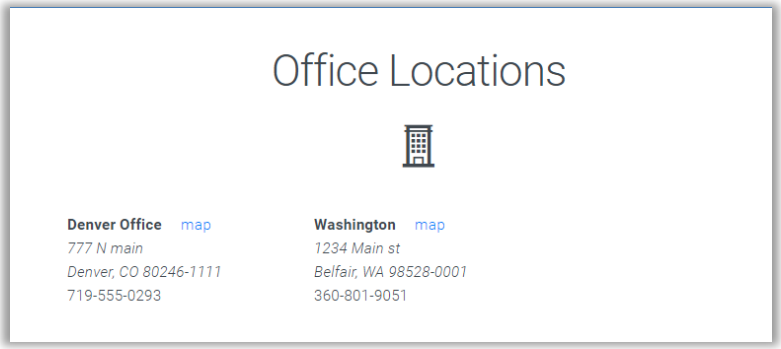

If the account holder visits the "Appointments" page, they can see upcoming appointments and access their telehealth links (**if** the agency has indicated this is a telehealth appointment and added the link to the client/group).

Locations

The locations tab within the portal allows the account holder to view the address/map for each location the agency has.

- ***Don't want a location to show on this page?*** In your ReliaTrax site, go to **Admin >> Offices**, find the office you would like to hide and click on the pencil to edit, where it says "Office Name show on RTUN portal" leave this box blank and it will no longer show up in the client portal.

Self-Registration

Client self-registration allows an agency the capability to embed a link on their website so that clients can self-signup for services. There is an additional monthly cost for this service. **Contact a ReliaTrax team member to sign up (833) 222-0062 option 2.**

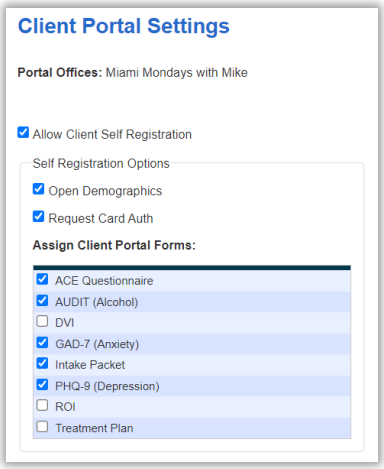

Self-Registration Setup/Management

Your self-registration site will be setup with the same URL that you use for your ReliaTrax login with the forward slash **/clientportal/signup**.

I.e. **CCT.ReliaTrax.Net/Clientportal/signup**

You can embed this into a button on your website and it will also be available through the client portal if the client navigates to the client portal site and does not have an account.

Default Forms and Settings

At this time, ReliaTrax staff will setup your default settings including what forms and other options will automatically be assigned to the client when they do a self-registration. This ca n include:

- Any client portal forms from your template library
- The demographics pages (magnifying glass icon)
- Credit card authorization form

ReliaTrax staff will work with you upon setup to determine which settings you would like to have on your site. Currently, the forms/settings are the same across all clients.

Managing Offices that Show in Portal

The offices that you want to have show up for both self-registration and in the client portal are managed under **Admin >> Offices >> Edit Office**

- If the "Office Name to Show in Portal" is blank, this office will not show.

Finding Self-Registration Referrals

Referral information for self-enrolled clients can be found in a few different places:

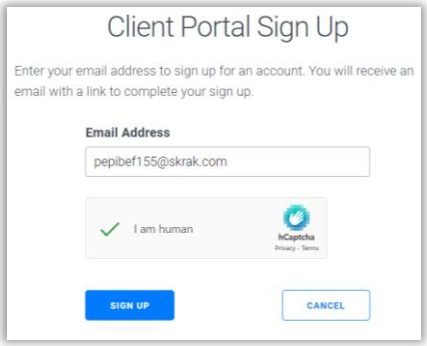

1) **Admin >> Company Info >> Referral Email(s)** – each time a referral comes in, the information about the referral will be sent to this/these email(s).
2) **Referrals >> View Referrals** – this will show you all new referrals that have come into the system (for clients still in the "Referral" status.
    a. Under "Referring User" you will see Self-Referral

Client Name	Referring User	Referring Organization	Report-by Date	Court Case	Referral Date	ML/DOC	Assigned Office
Beef, Pepper (5/8/2009)	Self Sign Up	Private			9/30/2024	1040559	Boulder

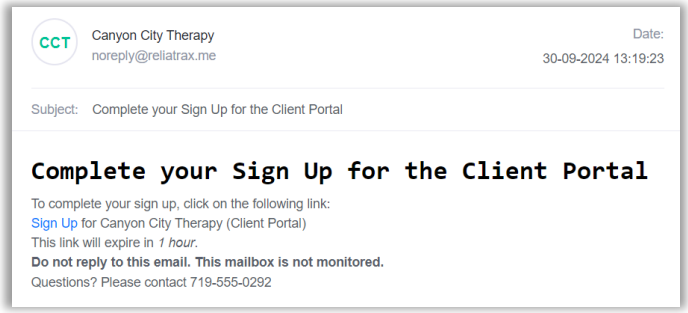

3) **Referrals >> Referral History** – this will show all referrals regardless of current status
4) **Reports >> Client Portal Reports >> Client Portal Sign-Ups** will show all self-registration activity

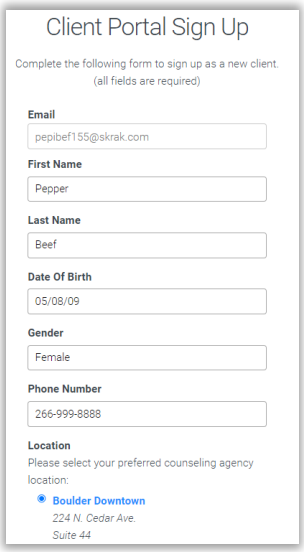

Self-Registration (Client View)

These instructions outline the process a client will go through when using the self-registration feature.

1. Navigate to the self-registration webpage
2. Enter email address and click “Sign Up”
3. Check your email and click the “Sign Up” button to continue registration (expires in 1 hour)

4. Enter your information and click “Sign Up”
5. You will then be prompted to set up a password and then to login to the client portal where tasks can be completed

Chapter 5: Groups

Groups can be setup to match the way that treatment is offered at your agency.

Some of the group functions covered in this chapter:

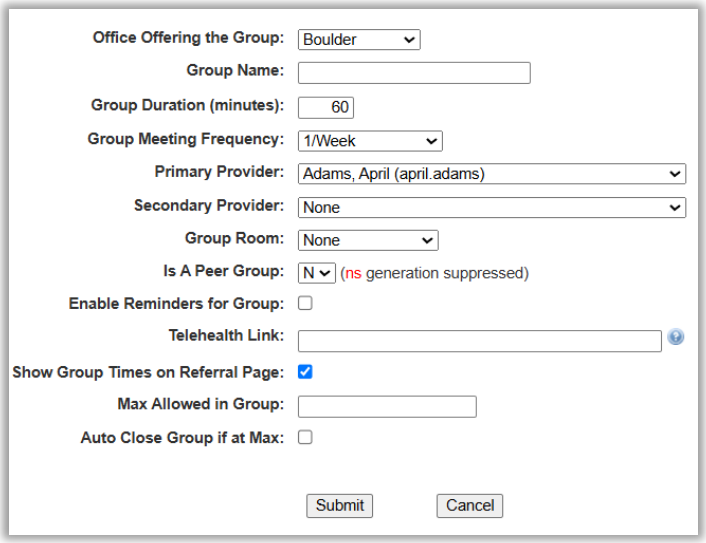

- Adding/Editing Groups
- Group Reminder Messages
- Telehealth for Groups
- Documenting Substitute Group Counselors
- Equivalent Groups
- Floating Groups
- Double Groups
- Extra Groups
- Random Groups

To view group check-in, See Chapter 1: The Basics

Adding a New Group

1. Go to **Treats/Groups >> Groups**
2. Click on 

3. Set up the Group

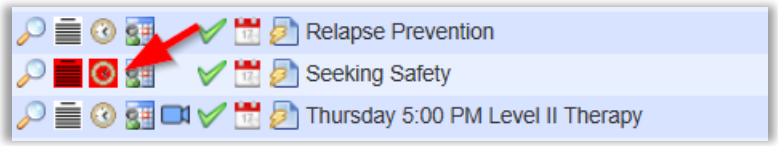

- **Office Offering the Group**: Choose the office where the group will take place
- **Group Name**: Give the group a name (i.e. Monday 3pm IOP)
- **Group Meeting Length (minutes)**: set the duration of the group.
- **Group Meeting Frequency**: set the frequency of the group (i.e. 1/week)
- **Primary Provider**: this is the primary counselor conducting the group
- **Secondary Provider**: if there is a secondary counselor they can be listed here.
- **Group Room**: This designates where the group is taking place
- **Is a Peer Group**: This will label the group as a peer group for tracking purposes.
- **Enable Reminders for Group**: setup text/email reminders for this group
- **Telehealth Link**: Embed your group telehealth link here to send out in text/emails instead of the address. Clients can also access this group link from the client portal and counselors can access it through their Dashboard.
- **Show Group Times on Referral Page**: This will show external users the times of the groups so they can refer directly to those groups/times.
- **Max Allowed in Group**: This puts a cap on the number of clients who can be added to the roster of a group
- **Auto Close Group if at Max**: This will prevent clients from being added to the roster once the maximum number of clients have been added to the group

Attaching Times/Treatments to the Group

Now that you have added the group, you will need to set the time and associated treatment to be attached to the group.

Next to your newly created group, you should see two red icons:

 - Click here to select the days/times that this group meets so it will show up on the calendar

 - Click here to choose what services this group should be attached to (i.e. MH Group)

Editing/Discharging a Group

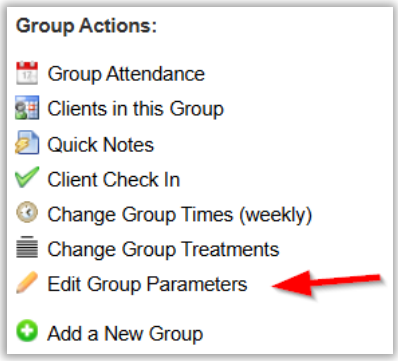

Wanting to make changes to an already existing group? You can change the primary counselor, time, day, and more on the Groups page.

1. Go to **Treats/Groups >> Groups**
2. Click on the magnifying glass next to the group you would like to make changes to

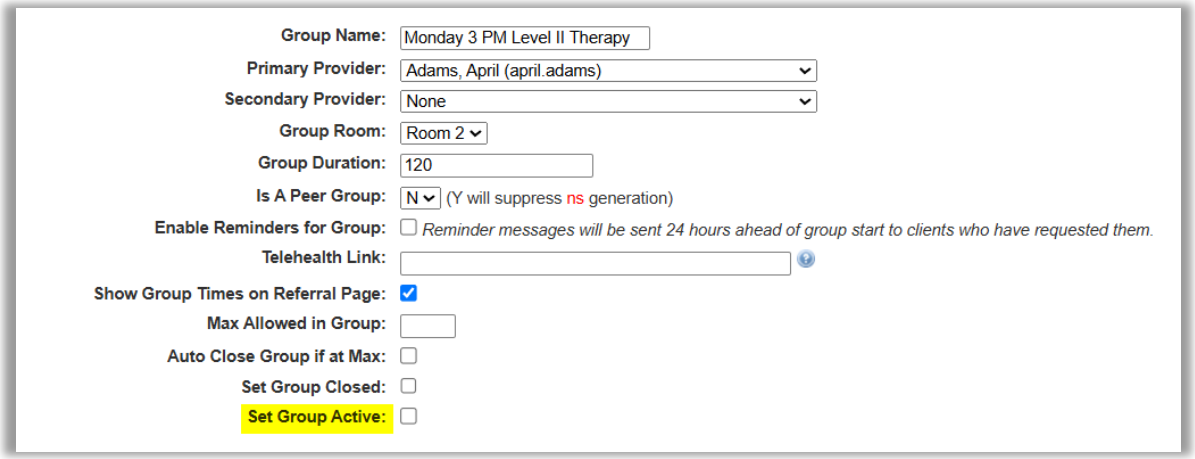

Group Name	Max In Grp	Num In Grp	Meeting Frequency	Dur (min)	Day of Week	Week of Month	Rmnd Msgs	Peer Grp	Pri Provider Username	Meeting Room
Friday 2 PM DV		2	1/Week	90	Friday		N	N	Larry.Counselor	Room 4
Hernandez Peer Group		6	Once or Random	120			N	Y	Elena.Hernandez	
Monday 10:30 AM Level II ED		5	1/Week	120	Sunday		N	N	Bob.Hardy	Room 3
Monday 3 PM Level II Therapy		6	1/Week	120	Monday		N	N	Larry.Counselor	Room 2

3. Click on the pencil to edit

4. To discharge, make sure that you have discharged the group from the clients who are in the group and then on this page, uncheck the "Set Group Active" checkbox

5. Once changes have been made, click "Submit"

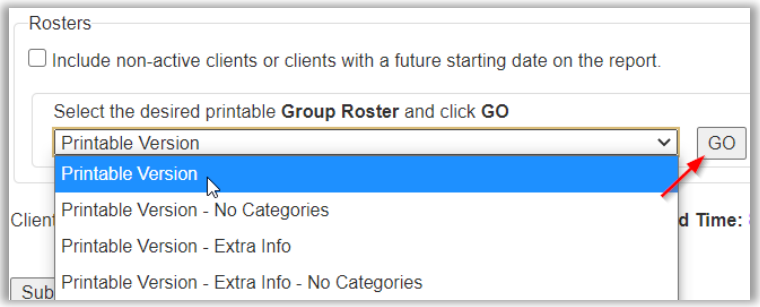

Helpful Group Tools

There are a few tools that ReliaTrax has created to help counselors for groups. They are outlined below.

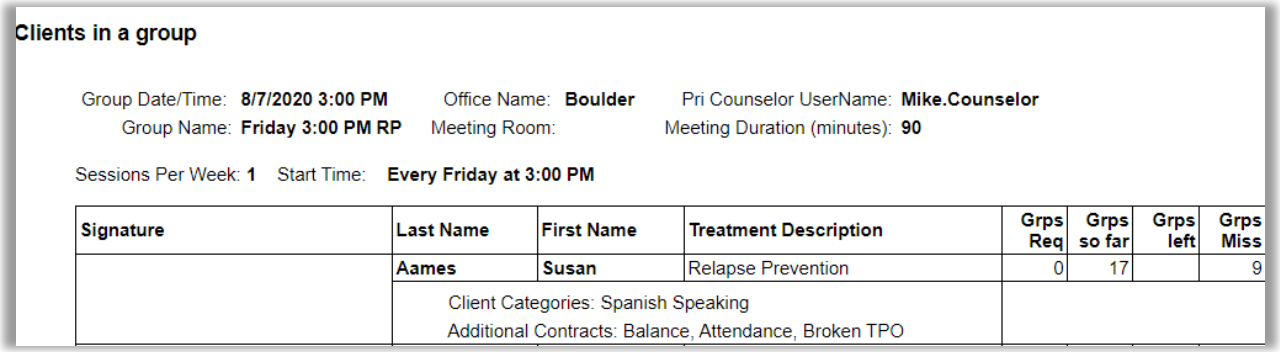

Printable Group Roster

1. Go to **Treats/Groups >> Groups**
2. Click on the green check mark
3. In the center of the page find the "Rosters" section
4. Choose from the drop down and click "Go"

5. This will bring up a printable roster that clients can then sign-in on and see their attendance information (if desired)

Clients in a group

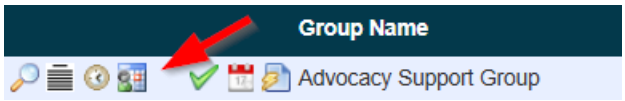

Group Date/Time: **8/7/2020 3:00 PM** Office Name: **Boulder** Pri Counselor UserName: **Mike.Counselor**
Group Name: **Friday 3:00 PM RP** Meeting Room: Meeting Duration (minutes): **90**

Sessions Per Week: **1** Start Time: **Every Friday at 3:00 PM**

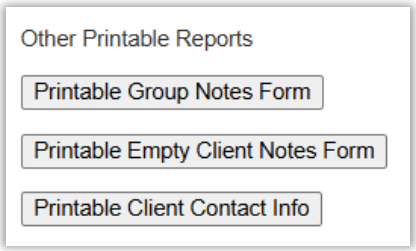

Signature	Last Name	First Name	Treatment Description	Grps Req	Grps so far	Grps left	Grps Miss
	Aames	**Susan**	Relapse Prevention	0	17		9
	Client Categories: Spanish Speaking Additional Contracts: Balance, Attendance, Broken TPO						

Printable Group Forms

Other group forms are the Printable Group Notes Form, Printable Empty Client Notes Form and Printable Client Contact Info. Find these forms by going to **Treats/Groups >> Groups** and clicking on the clients in a group icon.

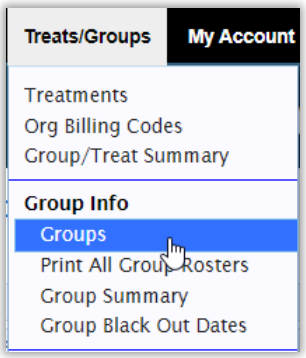

These forms are helpful when you want to keep notes during a group about what each client says and/or if you quickly need to access contact info for the entire group.

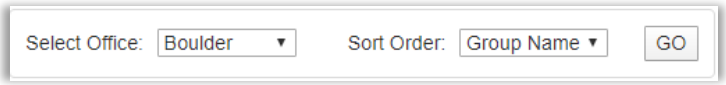

Group Check-In from the Group Page

Groups can be checked in from the Dashboard, from the Calendar, or from the Group Page (described below).

1. Scroll across the top navigation bar to **Treats/Groups** >> **Groups**
2. Above the group listing, select the office you want to check in a group for. You can also choose how the group list is sorted. After you select your options, click GO to populate the group list for the selected office.

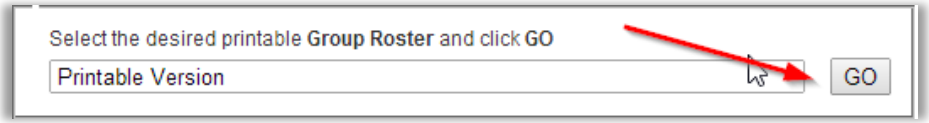

3. Click on the green check mark ✔ next to the group you are checking in to open

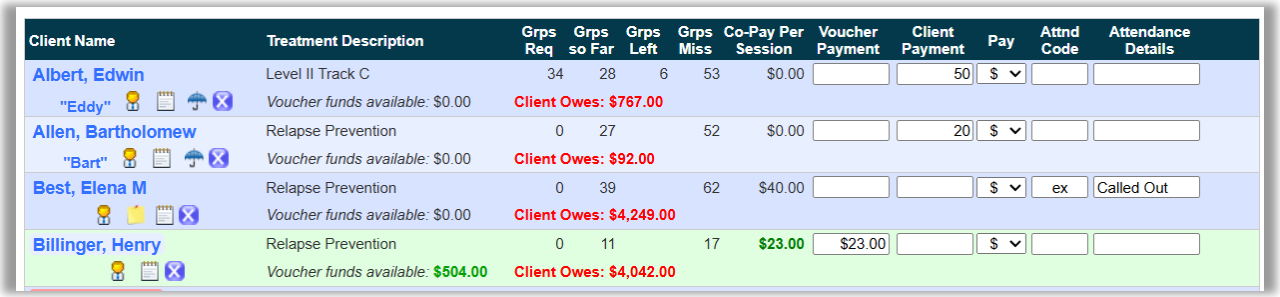

o0;o'';/-';.0o.the roster

4. In the center of the page, you can select different printable rosters. You can print the selected roster by clicking on **GO**
5. Below you will find a list of the clients enrolled in the group. To check a client in for group, enter the amount received under **Client Payment**.

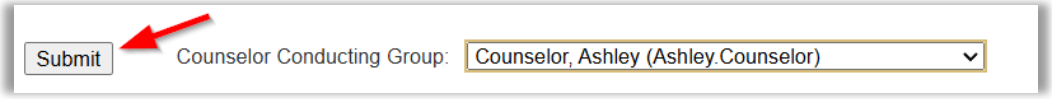

6. If the client is not paying anything, enter a 0 to check them in.
7. If the client has insurance, their copay (if any) is visible
8. If the client has voucher funds available their Co-Pay Per Session will appear in green.

Client Name	Treatment Description	Grps Req	Grps so Far	Grps Left	Grps Miss	Co-Pay Per Session	Voucher Payment	Client Payment	Pay	Attnd Code	Attendance Details
Albert, Edwin "Eddy"	Level II Track C	34	28	6	53	$0.00		50	$		
	Voucher funds available: $0.00	Client Owes: $767.00									
Allen, Bartholomew "Bart"	Relapse Prevention	0	27		52	$0.00		20	$		
	Voucher funds available: $0.00	Client Owes: $92.00									
Best, Elena M	Relapse Prevention	0	39		62	$40.00			$	ex	Called Out
	Voucher funds available: $0.00	Client Owes: $4,249.00									
Billinger, Henry	Relapse Prevention	0	11		17	$23.00	$23.00		$		
	Voucher funds available: $504.00	Client Owes: $4,042.00									

9. Click on the green numbers to auto-populate the voucher charge for this session.
10. If the client is a No Show for group, DO NOT enter any value (When the **Client Payment** is left blank ReliaTrax will generate an ns (no show) for the client.)
11. Make sure to hit **Enter** or **Submit** to save the entries
12. If you need to change the counselor conducting group this can now be done at the top of the list of the client using the drop-down and again clicking **"Submit"**

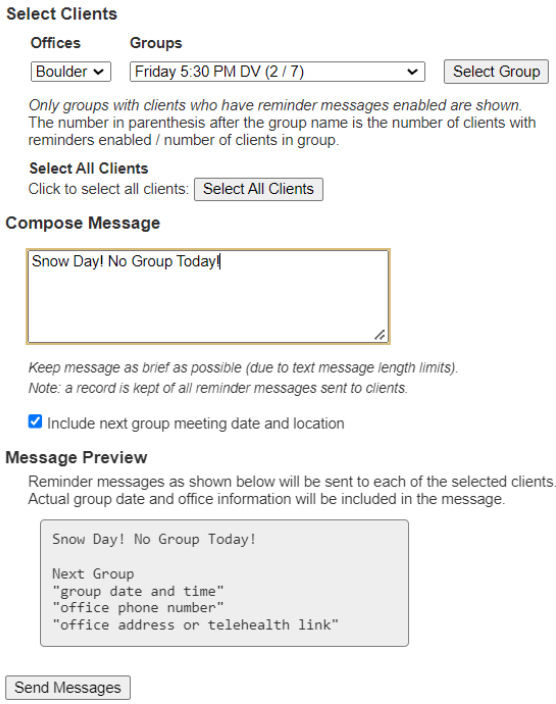

Group Reminder Message Blast

ReliaTrax allows you to send text/email reminders to an entire group or to all clients who have text/email reminders set up on their page.

To send out a group text/email reminder:

2. Go to **Client Info >> Send Reminders**
3. Choose the Office and Group you would like to send the message to
4. OR Choose "Select All Clients" to send a message to all clients
5. Type in your message under "Compose Message"
6. Click on "Send Messages" to send the messages

ReliaTip: User must have "All" offices and "Can Send Reminder Messages" permission to use this function.

ReliaTip: You can also send out a telehealth link, so group participants have the link directly on their device. Set this up on the group setup page (Treats/Groups -> Groups) or visit Chapter 8 for setup instructions.

Adding a Telehealth Link to a Group

1. Go to **Treats/Groups >> Groups**
2. Find the group you would like to add the telehealth link to
3. Click on the 
4. Click on 

5. Add the telehealth link into the telehealth link box

6. Click "Submit"

Adding the Telehealth Link to Group Reminder Messages

1. Go to **Client Info >> Send Reminders**
2. Choose the group or "Select All Clients" to select all active clients at your agency with phone text message or email reminders set up
3. If there is a telehealth link set up on the group page, it will show up in the message

Documenting Substituting Group Counselors

When a counselor is "covering" for the Primary counselor

1. To document a substitute counselor, open the group check-in screen by going to **Treats/Groups** and click on **Groups.** Then open the check-in screen by using the green check mark ✔ next to the group.
2. At least one client must be checked-in first and a drop down will be displayed above the roster, choose

the counselor facilitating the group for that day.

3. Be sure to save the change by clicking SUBMIT.

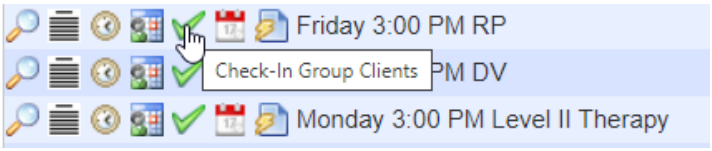

Equivalent Groups

An **Equivalent Group,** or "make-up" group, is when a client attends a group other than their regularly scheduled group. By using the Equivalent group feature, ReliaTrax can correctly log and report missed attendance and add the client to the QuickNote screen for easy counselor use.

ReliaTip: Set up equivalent groups under Treats/Groups -> Treatments.

Equivalent Groups from the Group Page

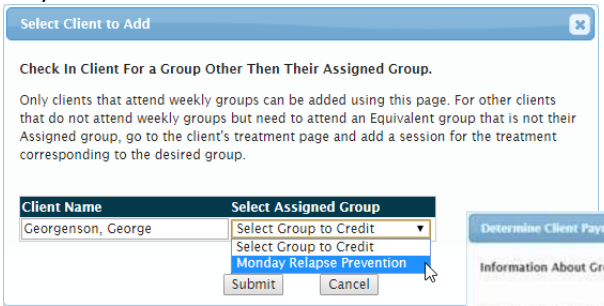

1. Scroll to **Treats/Groups** and down to **Groups.**
2. Click on the green check mark next to the group the client is attending as a make-up session.

3. Click on the **Temporarily Add Client to the Group** button.

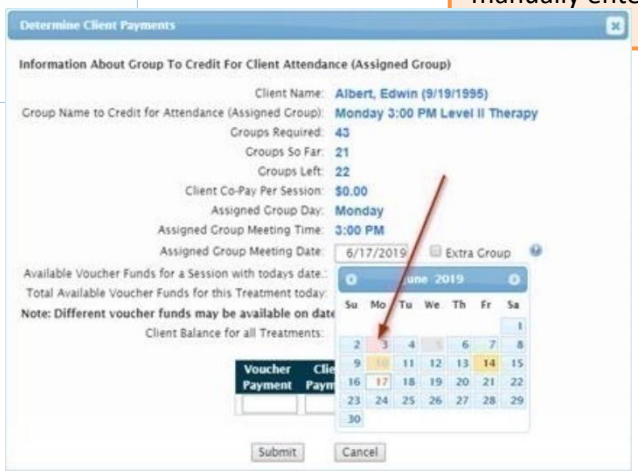

4. Select the client and the group they are *NORMALLY* assigned to. This is the group they *missed.*

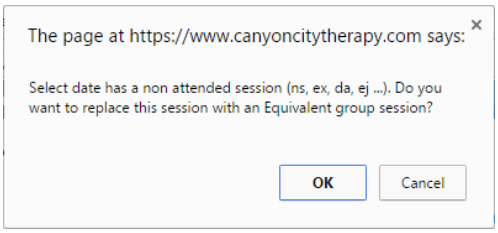

ReliaTip: The equivalent group function delays the creation of no shows by 6 days (may be manually entered).

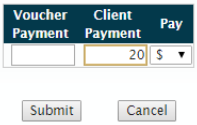

5. Dates that have an "ns", "da", "ex", "ej", "em", "ax", "ho", or "na" appear in the calendar as red (see the figure below). Make sure to select the date the client ***missed*** group.

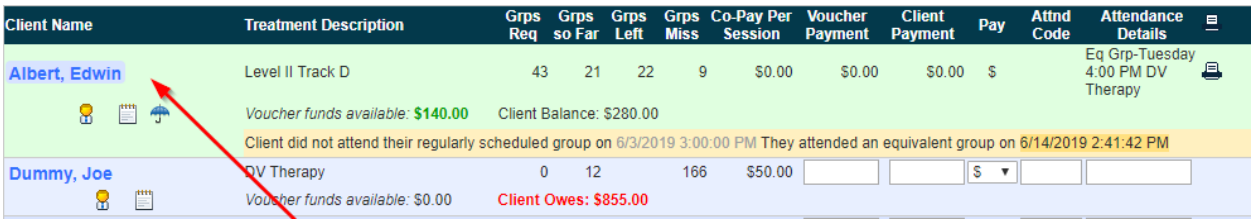

6. A confirmation message will appear, asking if you're sure you want to replace the Non-Attended session.

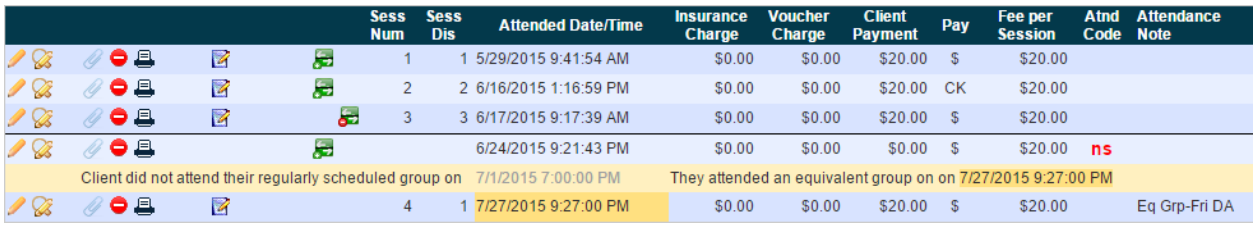

7. Enter the **client payment** and click **Submit**.

8. The client should now be on the group roster for this day only.

9. The equivalent group will have replaced the Non-Attended session.

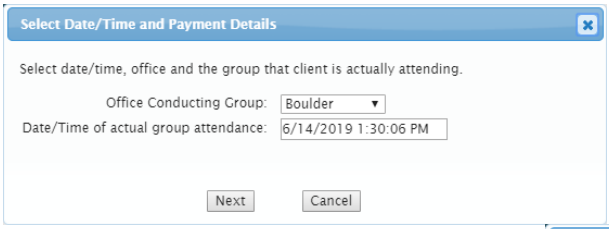

Equivalent Groups from the Client's Page

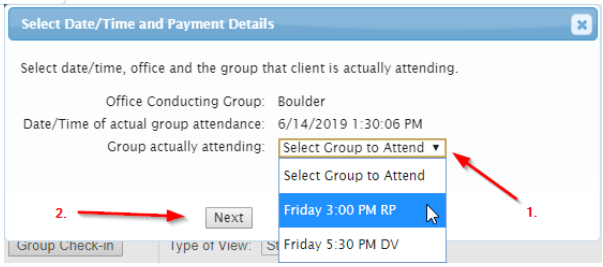

1. Once you are on the client's page, scroll down to the treatment line ***for the group the client was supposed to attend*** and click on the session log (White spiral notebook).
2. At the bottom of the page, click on **Check-in to an Equivalent Group or Float into a Group.**

3. Select the date the client **attended** group.

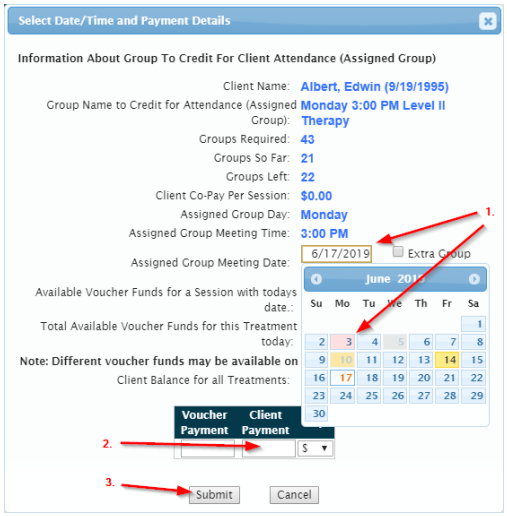

4. Select ***the group the client is attending today*** and click **Next**.

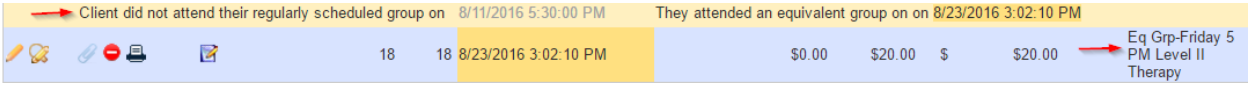

5. Confirm the client is getting credit for the correct date under **Assigned Group Meeting Date**.
    a. Missed sessions will show red on the calendar if you click on the date box.
    b. Enter the client payment.
    c. Click **Submit**.

6. Once completed you will see that the equivalent group will have replaced the Non-Attended session.

- The line item explains that the client did not attend their scheduled group on the light gray date but that they attended on the highlighted date.

- You will also see a note that the client attended an equivalent group.

Floating Groups

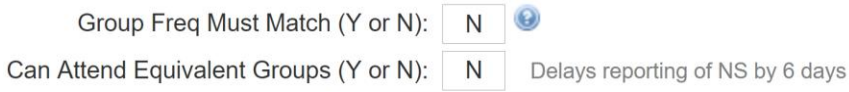

A **Floating Group** is a group that allows clients with different frequencies or durations to attend without accruing no-shows for unrequired sessions.

For example, a client who must attend one session per month can attend a group that meets weekly. ReliaTrax will wait until the end of the month to post no-shows if the client didn't attend at least once that month.

ReliaTip: Set up floating groups under Treats/Groups -> Treatments.

Setting a New Floating Group

1. If you are adding a new Treatment that is eligible for a Floating Group, go to **Treats/Groups** and down to **Treatments**.
2. Click on the green plus icon next to Add a new Treatment at the bottom of the page.
3. Fill out the Treatment information.
4. In the **Group Freq Must Match** field, enter a "N".
5. In the **Can Attend Equivalent Groups** field, enter a "N".

6. In the **Can Float between Groups** field, enter a "Y".

7. After you have filled in all the information for the treatment, click Save.
8. You can now add the treatment to a client's profile and allow them to be added to a group associated with that treatment.
9. To attach the treatment to a group, go to **Treats/Groups** and down to **Groups.**
10. Click on the icon next to the group that you would like to attach the treatment to.
11. Scroll down to the bottom of the page and select the treatment from the dropdown menu.
12. Click the green plus icon to add the treatment to the group.
13. That group can now be used as a floating group for that treatment.

Edit an Existing Treatment for Floating Groups

1. Go to **Treats/Groups** and down to **Treatments**.
2. Click the pencil icon next to the treatment you would like to edit.
3. In the **Group Freq Must Match** field, enter a "N".
4. In the **Can Attend Equivalent Groups** field, enter a "N".
5. In the **Can Float between Groups** field, enter a "Y."
6. Click Save.

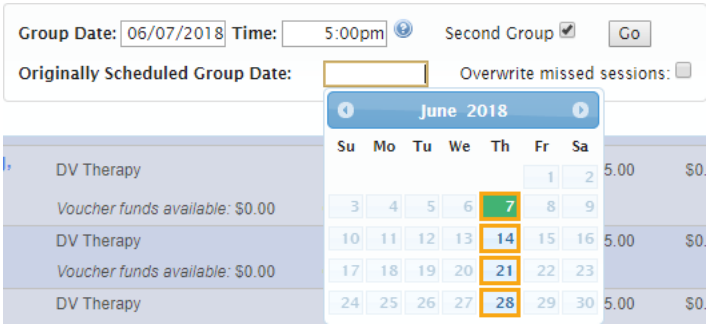

ReliaTip: if you edit an existing treatment, any client that has that treatment assigned to them will have the floating group function for any groups they are assigned to with that treatment attached.

Double Groups

A **Double Group** allows you to check-in the same group twice in one day.

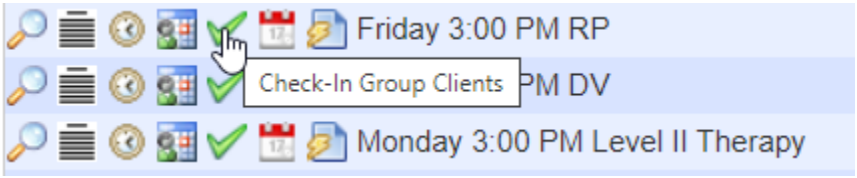

For example, if there is an 8:00 AM group and you decide to also have a 12:00 PM group, you can check-in the 8:00 AM group and check-in the 12:00 PM group as well as document no-shows.

ReliaTip: Set up double groups under Treats/Groups -> Treatments by putting a Y next to the Double Groups option.

Double Groups from the Group Page

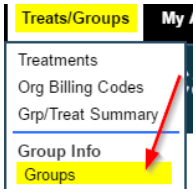

1. Scroll to **Treats/Groups** and down to **Groups.**
2. Click on the green check mark next to the group the client is attending.

3. You must check in the first group on time. If you do not, you'll need to click on

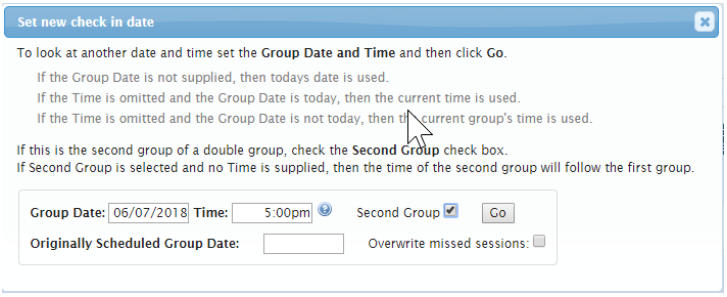

Change Date.

4. Change the date and select the correct time and click on **Go**.
5. Check in the first group.
6. Once that is complete, for the second group, click on **Change Date**.
7. Add the date and change the time using the dropdown.
8. Click on the **Second Group** checkbox.

9. Next to **Originally Scheduled Group Date**, select a past or future date that the group is originally scheduled for.
10. If the **Overwrite missed sessions** checkbox is selected it will override any, previously non-attended

sessions.
11. Click on **Go**.
12. Check in clients like you normally would.

Extra Groups

An **Extra Group** allows you to check-in a client for a make-up session without crediting a specific date. This is useful for SO and DV clients who may be making up a group from further in the past.

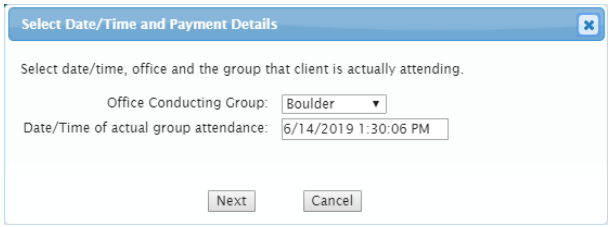

Adding an Extra Group from the Client's Page

From the client's page, scroll down to the treatment line *FOR THE GROUP THE CLIENT WAS **SCHEDULED** TO ATTEND* and click on the session log (White spiral notebook).

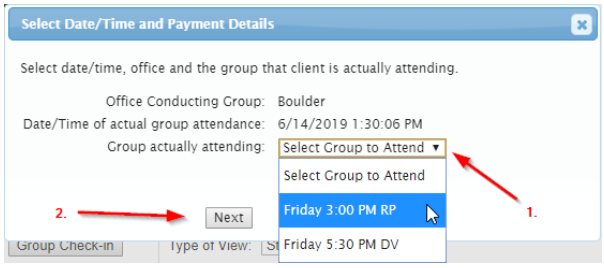

1. At the bottom of the page, click on **Check-in to an Equivalent Group or Float into a Group.**

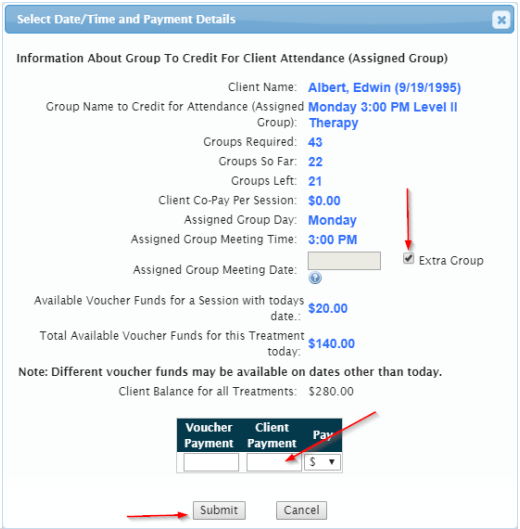

2. Select the date the client **attended** group.

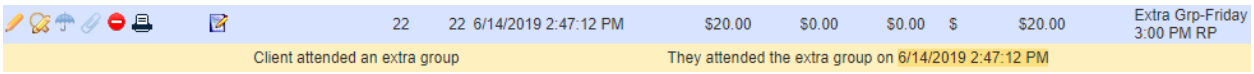

3. Select *THE GROUP THE CLIENT IS ATTENTDING **TODAY*** and click **Next**.

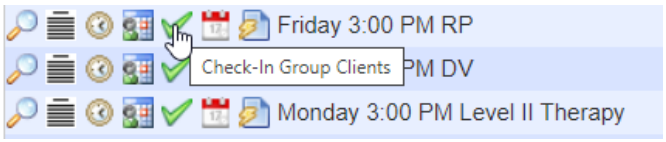

4. Confirm the client is getting credit for the correct date under **Assigned Group Meeting Date**.
    d. Missed sessions will show red on the calendar if you click on the date box.
    e. Enter the client payment.
    f. Click **Submit**.

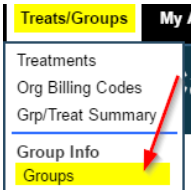

5. Once completed you will see the extra group in the attendance log.

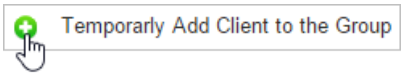

Adding an Extra Group from the Group Page

1. Scroll to **Treats/Groups** and down to **Groups.**
2. Click on the green check mark next to the group the client is attending.

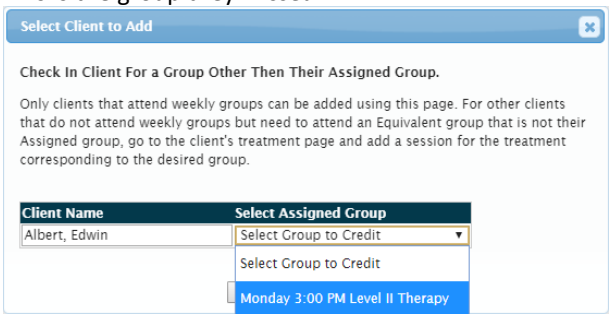

3. Click on the **Temporarily Add Client to the Group** button.

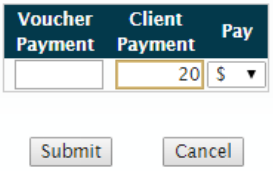

4. Select the client and the group they are *NORMALLY* assigned to. This is the group they *missed.*

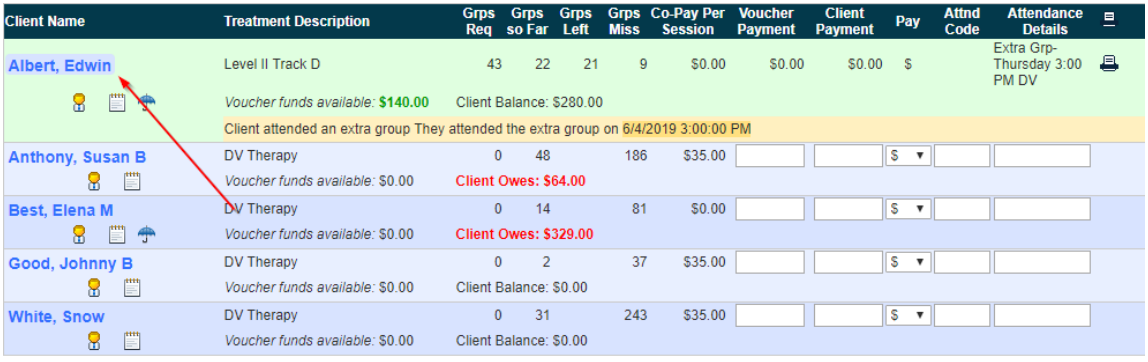

5. Check the box for **Extra Group**

6. Enter the **client payment** and click **Submit**.

The client should now be on the group roster for this day only.

The Extra Group will reflect on the client's session log.

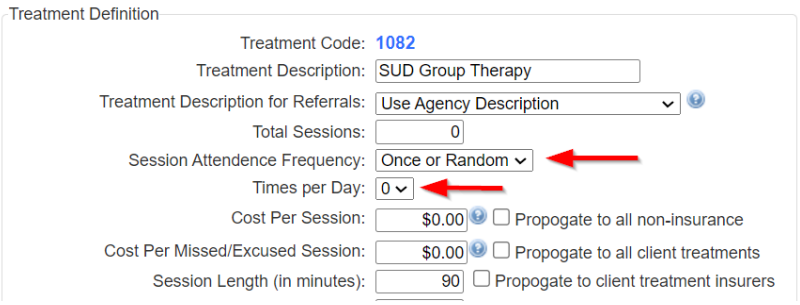

Random Groups

Some agencies have clients that attend multiple groups in one day regularly or may attend groups at a random frequency throughout the week based on their needs. To set up those groups…

Setting Up the Treatment

1. When you are creating the group treatment under **Treats/Groups >> Treatments**, you will need to set the frequency on the treatment to **"Once or Random"**
2. You will also need to set the **"Times per Day"** to "0"

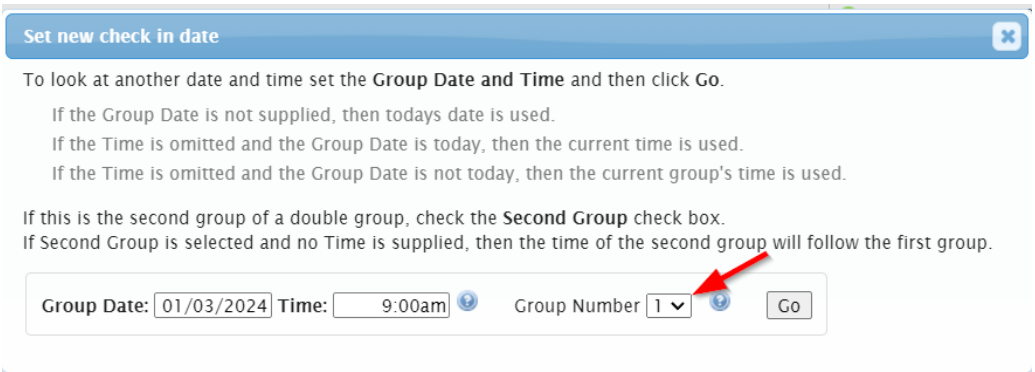

Setting Up the Group

1. Once you setup your treatment, you are ready to setup your groups under **Treats/Groups >> Groups**
2. Using the **"Add a New Group"** function you will set your group up with the same parameters "Once or Random" with a matching duration to the treatment

Checking in Multiple Groups

To check in the multiple groups you will use the same check-in feature that you use for regular groups

1. Go to **Treats/Groups >> Groups** and click on the  next to the group.
2. Change the date and time to match the group time and select which number group this is for the day
3. Enter client attendance by entering a payment or attendance code into the group attendance boxes
4. Repeat this for each attended group for the day

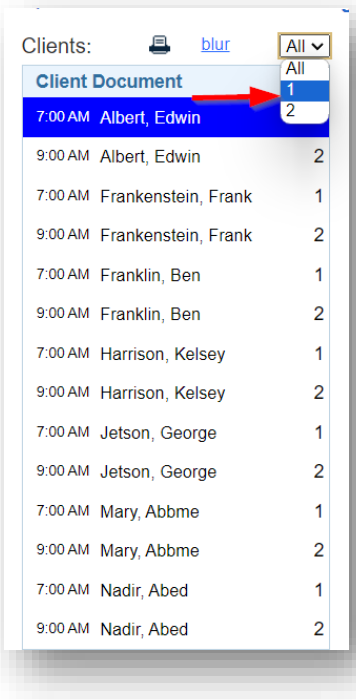

Completing Group Notes for Random Groups

Once a group has been checked in the notes will be completed by going to QuickNotes.

1. Go to your **Client Info >> Dashboard** or **Treats/Groups >> Groups** and click on the  icon next to the group you are wanting to complete your notes for

2. When you get into your notes you will notice that all group times are listed with the clients that attended over on the left

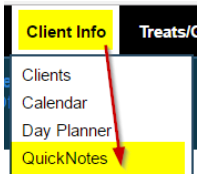

ReliaTip: The Release/Approve function will also only reflect the selected group rather than all group members/times for the day.

3. Click on the number at the top of the list to toggle between the specific group notes you would like to complete
4. Once the toggle has been selected, if the "copy note to all clients" function is used, this will only copy the note to the clients in the selected number group
5. Once group notes are complete, click on the green check mark in the top right hand corner of QuickNotes to Release or Release and Approve your group notes.

Chapter 6: Documentation

All clinical documentation can be done through QuickNotes in ReliaTrax.

This chapter will review:

- Template Changes
- QuickNotes – Individual, Groups and Other Documentation
- Fixing/Duplicating an Archived Document
- Confidential Documentation
- Bar Graphs
- The Treatment Thread
- Monthly Reporting
- Creating Phrases
- Replaceable Fields
- Client Signatures
- Managing Document Visibility
- Document Approval Options

Individual, Group Notes and Other Documentation Using QuickNotes were covered in Chapter 1: The Basics

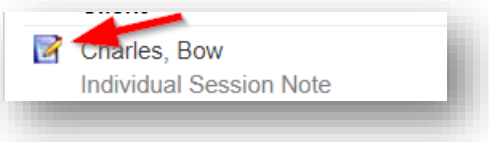

Requesting Template Changes

ReliaTrax stores your agency templates under **Treats/Groups >> Template Library** which are most often built by a ReliaTrax staff member. Since the templates in your site are written in HTML, it is recommended that template changes are requested from a ReliaTrax staff member to prevent errors that may arise if template changes are made without familiarity with the template building process. Please contact a ReliaTrax team member to request template changes for your agency.

Individual Session Notes using QuickNotes

Complete session notes for any individual sessions conducted whether its session notes, treatment plans, evaluations, etc.

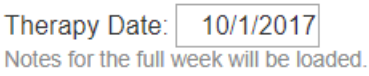

1. Scroll across the top navigation bar to **Client Info** >> **QuickNotes**
2. **OR Client Info >> Dashboard** and find the QuickNotes next to the session

3. Any individual sessions from the week will populate in the client list per counselor. If needed, you can change the counselor directly below the client list on the left side of the screen.

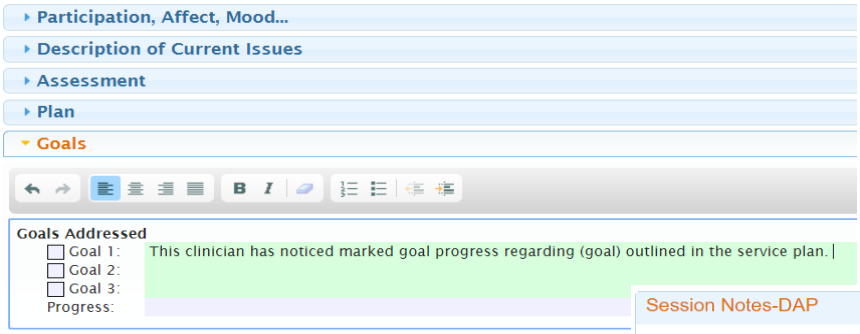

4. **QuickNotes** will open for the week of the most recent individual sessions. If needed, you can edit notes for a different week by changing the **Therapy Date** field on the left of the screen.

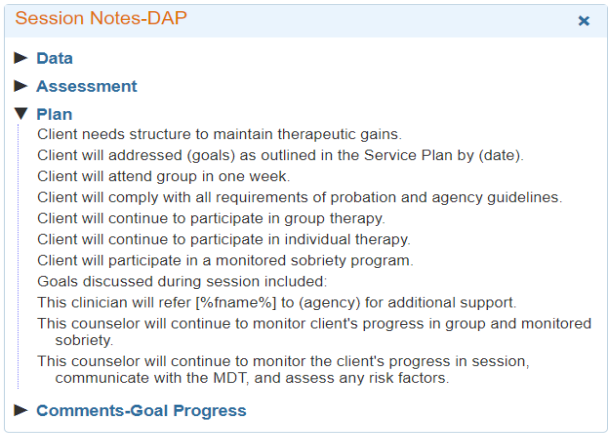

ReliaTip: QuickNotes will show you the entire week's notes.

5. Select a client from the list of clients on the left side of the screen.
6. Write a note for this client, filling in the various note sections on the right side of the screen.

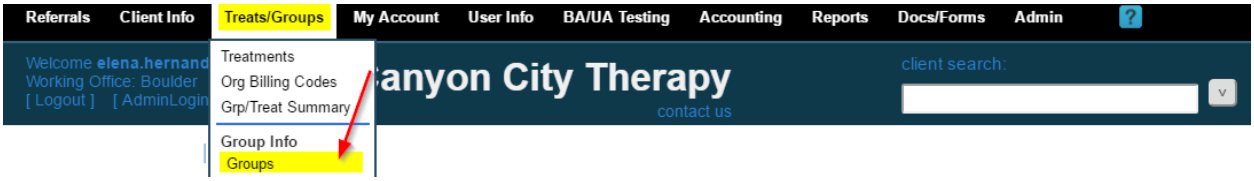

7. The *center* of the screen displays the phrase list with the different phrases you can build in ReliaTrax. Instructions for Creating Phrases for QuickNotes are linked here.
8. When you are finished, click the **Preview, Release, Archive** button in the *top right* corner.
9. Review the note contents, then click the **Release and Approve** button.
10. Depending on your system permissions, you may only have a **Release** button instead which allows your supervisor to review the note, attaching both signatures.

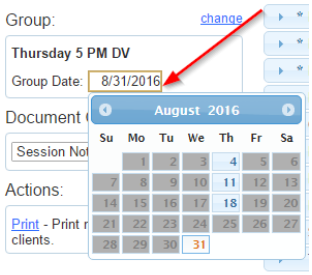

Group Notes Using QuickNotes

Quickly complete session notes for each client after each group meeting.

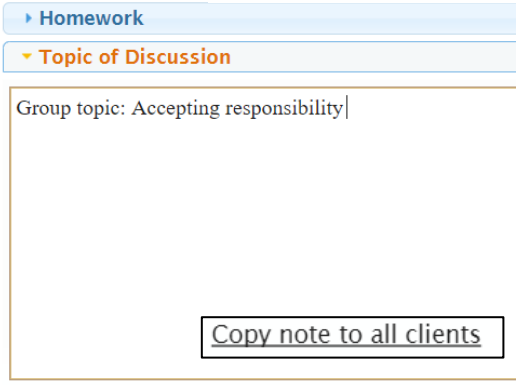

1. Scroll across the top navigation bar to **Treats/ Groups** and down to **Groups.**
2. Click on the **QuickNotes** icon next to the group you want.
3. **QuickNotes** will open for the date of the most recent group meeting. If needed, you can edit notes for a different date by changing the **Group Date** field on the left of the screen by clicking inside the date box. Notice that a calendar will appear, and you may click on the date you'd like.

4. Select a client from the list on the left side of the screen. To begin the note the name highlighted in blue will appear.

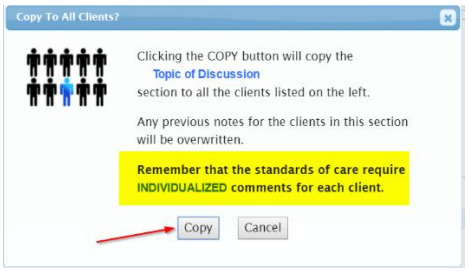

5. Write a note for this client, filling in the various note sections on the *right side* of the screen.
6. The *center* of the screen displays the phrase list with the different phrases you can build in ReliaTrax. Instructions for Creating Phrases for QuickNotes are linked here.

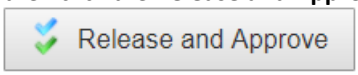

7. For group notes, **Copy note to all clients** is a feature that will save you time! Simply write the data note for the first client and then click on the underlined words in the lower right corner of the button.

   a. A pop-up will appear reminding you to personalize your notes.
   b. ReliaTrax strongly encourages all users to personalize each note especially after using **Copy note to all clients**. After reading the message, click **Copy**.

8. When you are finished, click the **Preview, Release, Archive** button in the *top right* corner.

9. Review the note contents, then click the **Release and Approve** button.

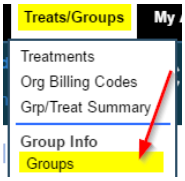

Depending on your system permissions, you may only have a **Release** button instead.

10. If you have the **Can Release / Approve Many Documents at once** permission, you can click on Release / Approve Multiple Docs and choose all documents or using the checkbox , choose which documents to Release and Approve or Release.

Other Documentation Using QuickNotes

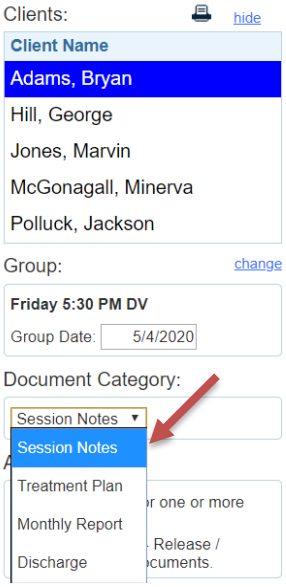

While having QuickNotes open you can change the Document Category to write different types of notes other than the session notes.

1. Go to the **Groups** page from the **Treats/Groups** menu
2. Click on the **QuickNotes** icon next to the group you want.

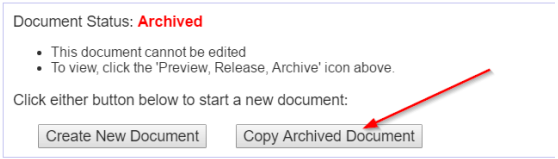

3. **QuickNotes** will open for the session notes of that group. On the left side of the screen is a **Document Category** option. Select **Treatment Plans, Monthly Report, or Discharge**
4. Select a client from the list of clients on the left side of the screen.
5. Type your notes as you would with Individual/Group notes.

Treatment Plan

- IF THIS IS THE 1ST TIME YOU ARE COMPLETING A TREATMENT PLAN FOR THIS CLIENT: Write a note for this client, filling in the comment sections on the right side of the screen. In the center of the screen may display different phrases that have been saved for your convenience.
- IF THIS IS **NOT** THE 1ST TIME YOU ARE COMPLETING A **TREATMENT PLAN** FOR THIS CLIENT: Click on **COPY ARCHIVED DOCUMENT**. This is **VERY** important to be able to access the previous goals defined. If you **COPY ARCHIVED DOCUMENT,** you can write a comment about the progress the client has made. If you click on create a new document, you will need to re-enter the information.

ReliaTip: Your system may or may not be setup to send completed Treatment Plans.

Discharge Summary

- When completing a discharge summary you do not need to fill out the top two buttons if you have been logging progress weekly as they should have been completed throughout treatment.

Monthly Report

Quickly complete monthly comments for each client if you are using ReliaTrax' default monthly report. Depending on your template, you may have the ability to write therapist comments. Remember to always personalize notes!

> **ReliaTip:** It's okay to leave the note unapproved until you meet with the client. It will be on QuickNotes when you return.

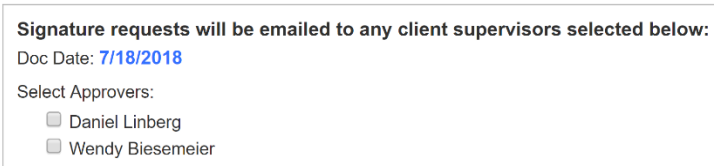

1. If your monthly reporting consists of a bar graph, the values will populate from your session notes. It will attach as a second page.
2. When you are finished, click the **Preview, Release, Archive** button or the top right
3. Review the note contents, then click the **Release and Approve** button.

Depending on your system permissions, you may only have a **Release** button instead.

4. Select to supervisors (i.e. probation, parole, human services, etc.) you wish to send the Treatment Plan to.
5. Click the **Release and Approve** button. Depending on your system permissions, you may not be able to approve notes.

6. Click on the Approve and Email button if you are ready to send it for approval. An email with the document will be sent to the users you selected in the previous step so that they can approve it.
7. If you need to cancel for any reason, you can click on the Cancel Release button to be taken back to the releasing step.

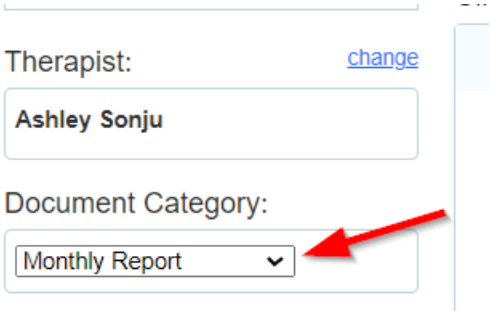

Monthly Reporting

Completing monthly reports in ReliaTrax can look different from agency to agency. ReliaTrax is able to produce a monthly report automatically from our database or we can prepopulate a report for you if a specific template is needed.

Completing the Report

1. Go to **Client Info >> Quick Notes**
2. Switch the document category (on the right) to **Monthly Report**

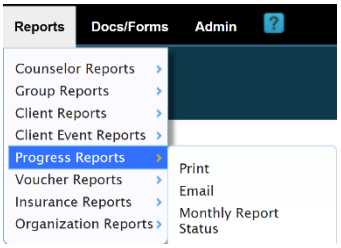

> **ReliaTip:** If you switch the document category and you notice there are clients missing, it means your name is not attached to the treatment on their page.

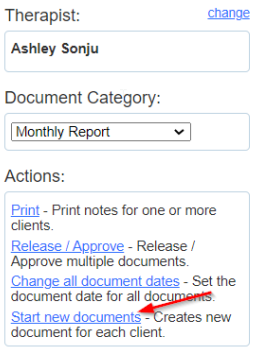

3. Scroll down and click on "Start new documents" and make sure the "document date" is correct
4. Click on each client's name to complete their monthly report
5. Once you have completed **ALL** of your monthly reports, click the  (upper right corner)
6. Click Release / Approve Multiple Docs or release/approve one at a time if you did not complete all of them

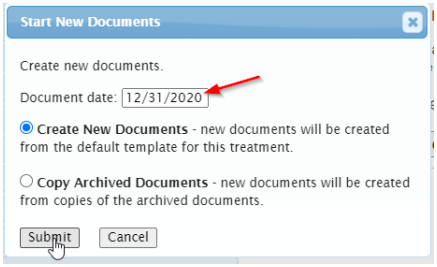

Sending your Monthly Report

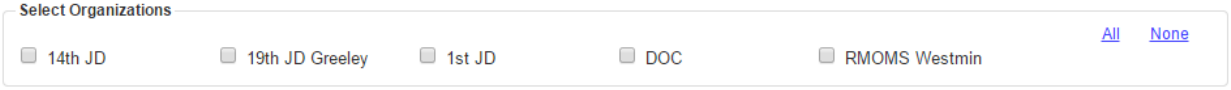

Sending Monthly reports is quick and easy*!* If a client supervisor needs information immediately it is easier than ever to send a report.

1. Scroll across the top navigation bar to **Reports** and down to **Progress Reports** and over to **Email**.
2. Select a single organization or **All** of them at once with the All button

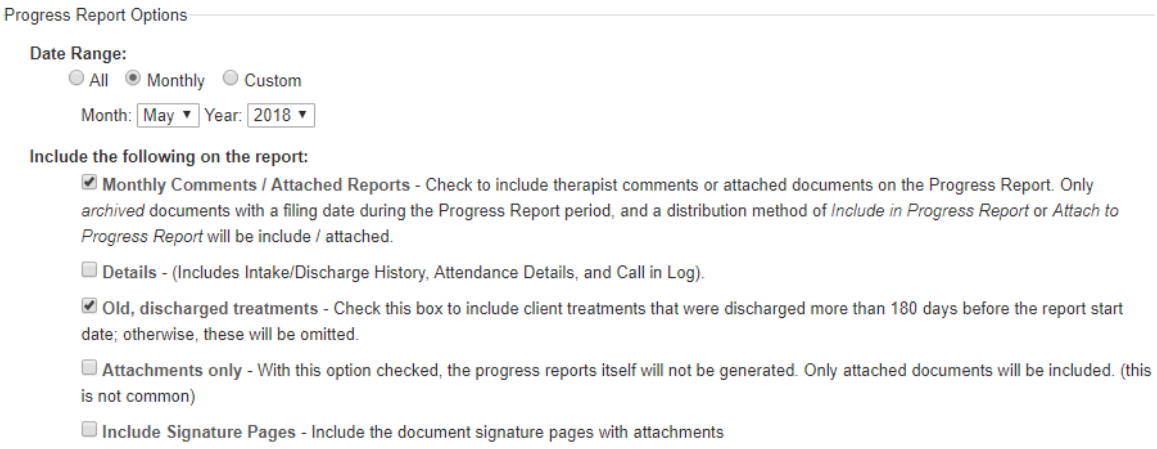

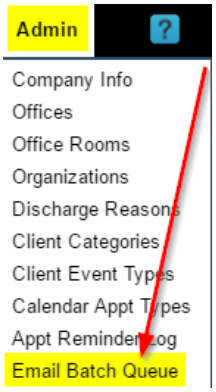

on the right.

3. At the top of the next page **reporting options** are defined.

4. Reports can be generated for the **current month, previous month**, or including details of the client's **entire enrollment (SEE SECTION BELOW FOR SENDING CUSTOM MONTHLY REPORTS)**

5. At the bottom of the page individual supervisors may be selected to then choose individual clients, or all may be selected at once
6. If you have your own monthly report document – select send "attachments only"
7. Hit **Submit** and you are done! Reports will go out automatically tonight!

   - If reports need to go out immediately scroll across the top navigation bar to **Admin** and down to **Email Batch Queue.**
   - Select the report you wish to send by checking the box to the left and click the **Send Selected** button at the top.

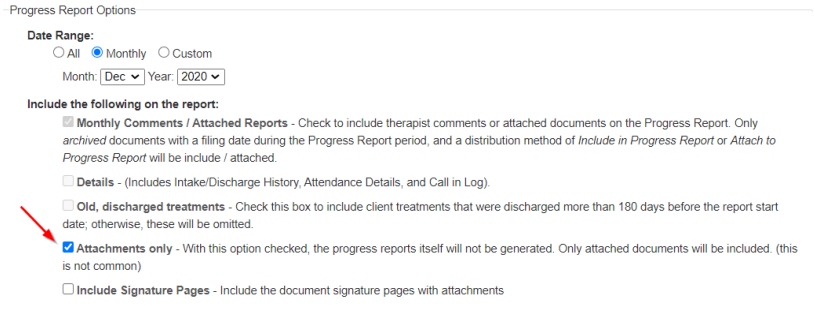

Example Monthly Report Email Formats Can be Seen in Appendix D

Sending Out Custom Monthly Reports

Sending the monthly reports can be done quickly and easily in ReliaTrax.

1) **Go to Reports >> Progress Reports >> Email**
2) Now you can choose "All" Organizations, or do one at a time and Click "Next"
3) Ensure that the month is correct and **MOST IMPORTANT** – Click on Attachments Only

(**Omitting this will turn the report into a multi-page report)

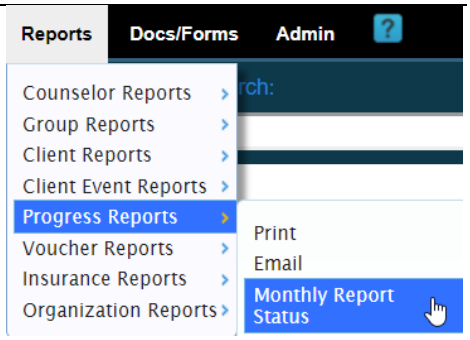

4) Choose "Select All" or choose clients under each external users name

5) Click on “Submit” to send out the reports

Seeing the Status of Monthly Reports

To verify that all monthly Reports were completed:

1. Go to **Reports** and down to **Progress Reports** and then over to **Monthly Report Status**.
2. Listed below are all counselors, the treatments they provide per client, and if they have completed their monthly reports.
3. Under filing date, completed reports will have a date and will listed in green.

	Filing Date
Done	5/31/2018
Not Done	

4. For users who cannot approve their own notes, supervisors must release and approve their notes so that they will be listed as complete on this page.

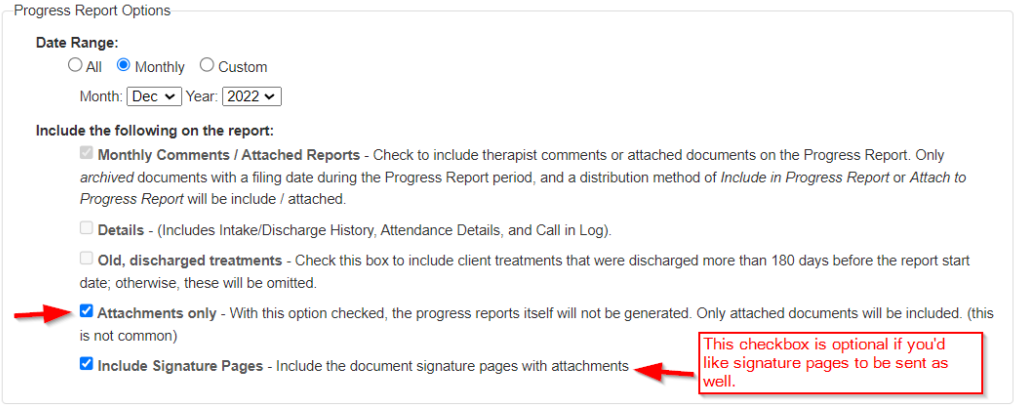

Printing Monthly Reports

This will generate progress reports for multiple active clients and combine them into one document which can be printed or saved to your computer. To get here, go to **Reports >> Progress Reports >> Print**.

Sending/Printing Custom Monthly Reports

For agencies that opt out of the built-in monthly reports created by ReliaTrax, custom reports are available. Reports are filled out the same way in ReliaTrax. However, when sending these reports, you will want to make sure to select the appropriate settings prior to printing or sending. They are as follows:

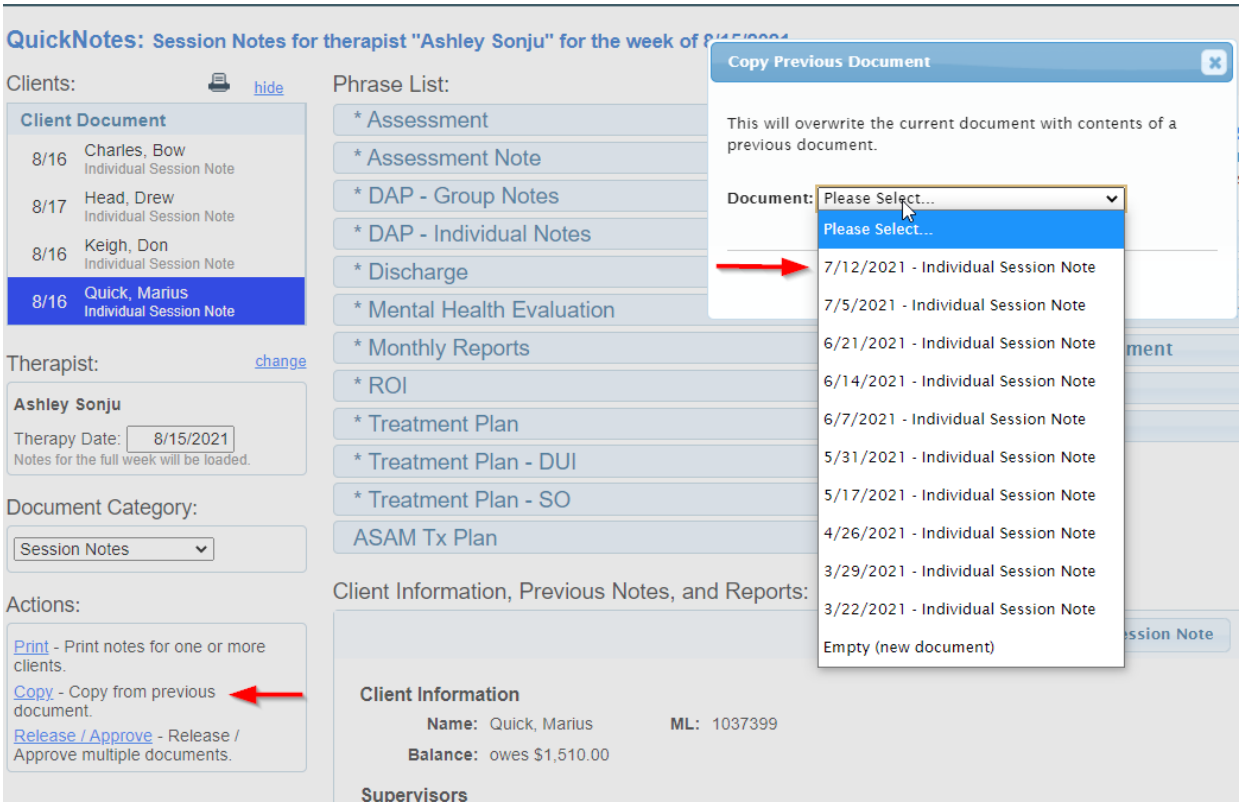

Fixing/Duplicating an Archived Document

ReliaTrax allows you to duplicate an archived document in two ways, depending on the document type.

Session Notes

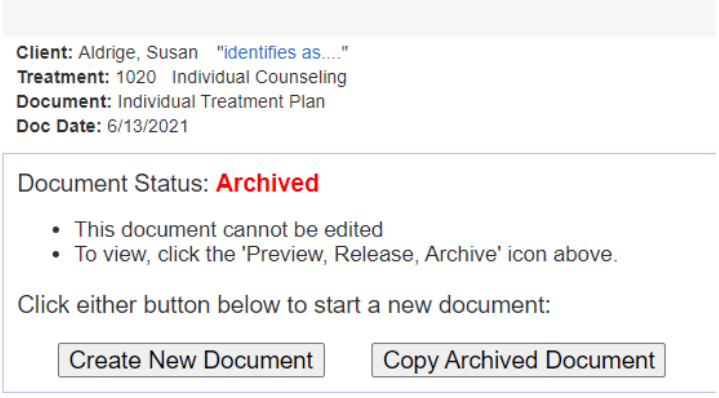

Fixing/Duplicating a session note can be done by deleting the session and then recreating it (which will detach the original note) and then in QuickNotes clicking on "Copy" and then choosing a document from the client archive.

Other Document Types

For other document types, once the document has been archived in Quicknotes you have two options:

- **"Create New Document"** will create a new, blank copy of the document
- **"Copy Archived Document"** will bring all of the information from the previous document to this document so you can make changes

Confidential Documentation

You can setup your documentation to be confidential in ReliaTrax by using the confidential doc function outlined below:

Setting Documents to Confidential

There are two ways to set a document to confidential. On the treatment, so that this document type is confidential or in the filing cabinet for a specific document.

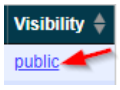

ReliaTip: Confidential documents cannot be manually attached to sessions, events, prescriptions, vouchers or UA/BA test sessions.

On the Treatment Line

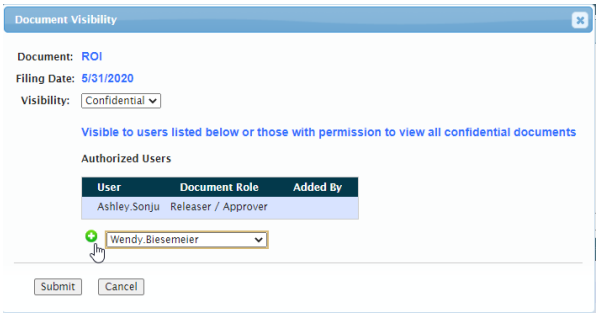

- Go to **Treats/Groups >> Treatments**
- Find the Treatment with the documentation you would like to have confidential attached to it and click on the pencil
- Scroll down and find the document you want to set as confidential and under "Doc Visibility" choose "Confidential"
- Save

On the Client Page (Filing Cabinet)

ReliaTip: Look for the **"Confidential"** flag in QuickNotes to easily see which documents have been set to confidential.

1. Go to the client page
2. Go to the filing cabinet
3. Find the document you want to make confidential 

and click on the pencil
4. Click on the pencil beside visibility
5. Choose "Confidential", Add anyone you would like to give access to, click the green +, and submit

Managing Access to Confidential Documents

The user permission "Can View Confidential Docs for All Clients" allows users who have not been granted access by the permission above to see all confidential documents. Manage this under **User Info >> Users.**

ReliaTip: A user without "View All Productivity" may not be able to see other counselors' confidential documents.

Utilizing Bar Graphs for Documentation

The ReliaTrax Bar Graph functionality allows you to measure competencies, participation, and other progress across various domains. These can be customized to your needs. Contact a ReliaTrax staff member to have a custom bar graph built for your agency (303) 222-0062. The values can also be exported across the agency for statistical data. An example is provided below:

In the tables below, fill in the **This Session**column for any competencies discussed / worked on during this session. The**Previous Rating** column gives the client's most recent rating for the given competency. It is automatically filled in by the system based on past ratings and cannot be edited.

	Competency Description	Previous	Current	0 1 2 3 4
1.	Maintain Sobriety	4		
2.	Participation and Cooperation in Treatment	2		
3.	Triggers, Cravings, and Urges	1	2	
4.	High Risk Situations	2		
5.	Thinking Errors	1		
6.	Addictive Cycle	1		
7.	Stages of Change	1		
8.	Motivation for Change	2		
9.	Prosocial Choices	3		
10.	Stress Management	3	0	
11.	Financial Responsibility	4	0	
12.	Accountability	2		

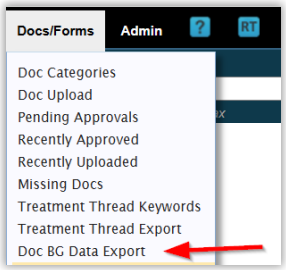

0 = Not introduced, 1 = Does not grasp/accept, 2 = Comprehends, 3 = Demonstrates, 4 = Internalized

	Homework	Previous	Current	0 1 2 3
A.	Autobiography	1		
B.	Relapse Prevention Plan	2	2	
C.	Aftercare	2	1	

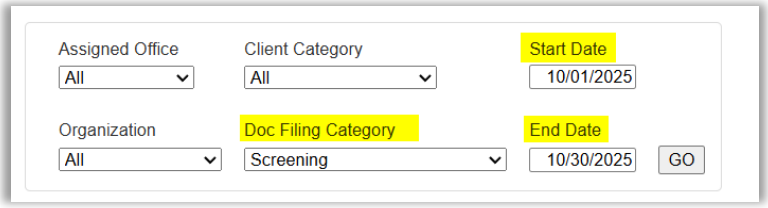

1 = Working on, 2 = Discussed in group, 3 = Completed

Exporting Bar Graph Data

The data that is collected in the bar graphs can be exported using our Doc BG Data Export.

1. On the navigation bar, go to **Docs/Forms >> Doc BG Data Export** (must be SuperUser)
2. Select the Parameters you would like such as the doc category, start and end dates

3. Click on Download zip'ed XML data (this will create a download on your computer)
4. Go to the Downloads Folder on your computer and you will see a zipped file that you can Right Click to "Extract All"

5. Choose a folder to extract to and click "Extract"
6. Now open Excell on your computer and choose **File >> Open**
7. Find the extracted file within the folder that you just chose to save it in
8. Choose "As an XML Table" and then "OK"
9. This will have all of the Bar Graph Scores for that date range

Treatment Thread

The thread begins with information from intake identifying clinical problems, next the treatment plan reflects goals that can then be populated and edited from any other documents in the client's file. You can view treatment plan goals on session notes making it easy to note progress and changes.

From Treatment Plan

Problem Statement:			
Consistently uses alcohol to the point of intoxication			
Goal:	"I want to get clean and stay clean"		
Objectives:			
1. Complete withdrawal management services 2. Attend therapeutic groups and individual therapy services			
Target Date:	6/16/2021	**Completion Date:**	
Therapeutic Interventions:			
1. Complete 3 days of withdrawal management services at Canyon City Therapy Inpatient services beginning 6/16/2020 2. Attend 3 intensive outpatient groups per week, starting upon discharge from withdrawal management services			
Goal Progress			
In progress			

PROBLEM #2

Problem Statement:			
"My health is bad since I started using"			
Goal:	"I want to get a doctor and feel good"		
Objectives:			
To obtain a primary care physician to address physical health needs			
Target Date:	07/16/2020	**Completion Date:**	
Therapeutic Interventions:			
1. Go to Canyon City Medical Center and make an appointment to establish a primary care physician 2. Bring care plan established with primary care physician to your behavioral health provider			
Goal Progress			
In Progress			

PROBLEM #3

Problem Statement:			
"I hate myself sometimes"			
Goal:	"I want to feel better and make my self-esteem better"		
Objectives:			
To improve self-reports of self-esteem and self-efficacy by the end of treatment services			
Target Date:	06/16/2021	**Completion Date:**	
Therapeutic Interventions:			
1. Read one chapter of the Self Esteem Handbook each week for the next 8 weeks. 2. Attend self-esteem group and complete all homework assigned prior to program completion			
Goal Progress			
In progress			

ReliaTip: The treatment thread can also be used for data collection. Contact ReliaTrax to get this setup at your agency.

To Session Notes

Goals Addressed

☐ Goal 1:	"I want to stay clean and sober"
☒ Goal 2:	"I want to get a doctor and feel good"
☐ Goal 3:	"I want to feel better and make my self-esteem better"
Progress:	Drew indicated in session that he went to the clinic and set up an appointment with his doctor. He was also able to discuss some of the benefits of focusing on his physical health in recovery.

Thread Report

To extract data from the threaded fields for your agency go to **Docs/Forms >> Treatment Thread Export** and select the thread fields that you'd like to export as well as the date range you would like to run the report for. This will extract data across your entire agency for the fields selected.

Other Features Available in Documents

Additional features that can be used with ReliaTrax forms depending on the needs of your agency.

Required Fields

These can be built into your client portal forms to ensure that clients fill out specific fields in a document. This must be requested through a ReliaTrax representative.

Signature Not Required

These can be added for additional signatures from staff, witnesses, or parents, if you have signatures that are on your forms but not necessarily required by the client. This must be requested through your ReliaTrax representative.

Managing Document Visibility

Document visibility can be managed for internally completed documents using the Managing Document Visibility feature on your treatments. For client portal documents, if you would like to have a certain visibility set for these document types, let your ReliaTrax representative know and this can be built into the template.

Read Only Docs

Documents can be made read-only in the client portal if you want to send a form that has already been prefilled internally to a client to have them sign. The read-only feature can be used on a portion of a form or on an entire form. Contact your ReliaTrax Representative to have this option added to your forms.

No Pull Thread

Information about the client thread is on the previous page. If you would like to have information not pull forward but still be threaded (perhaps for tracking only) we can also make it so that information in the thread does not pull forward to the next session or document. For more information or to implement this feature, contact your ReliaTrax representative.

Pre-filled Thread

Another option within threaded fields is to have the thread fields be pre-populated with information. If you'd like to have information that automatically shows up in a threaded document such as a keyword from the demographics or a phrase that is commonly used, let your ReliaTrax representative know and they can add that to your document.

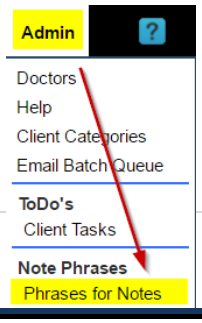

Embedded Due/Update Dates

Within a document, if you would like to have a certain due date or update date embedded in a form, we are also able to embed that due date on the client home screen so that you can easily track what forms are needing updates. These will also show up on your dashboard. This can be used for any document type and for both internal and client portal documents. Let your ReliaTrax representative know if this is a feature you would like to utilize.

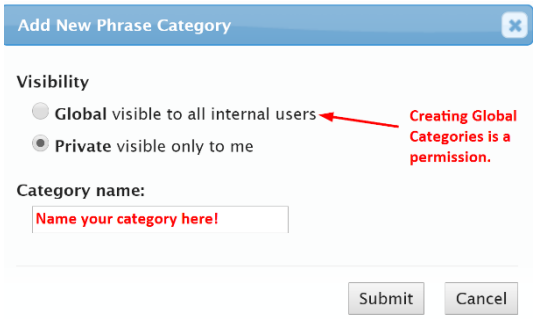

Creating Phrases for QuickNotes

Creating clickable phrases for QuickNotes is now much more organized.

1. Scroll to **Admin** and down to **Phrases for Notes**.

2. Click on the green plus sign to Add new category

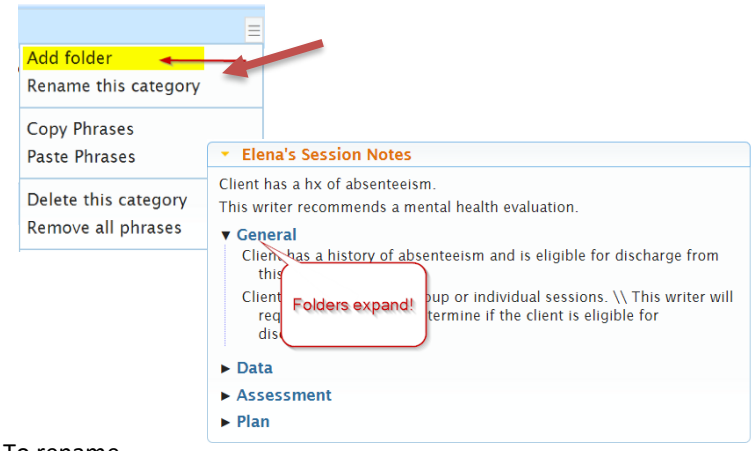

ReliaTip: Managing Global Note Phrases (phrases that everyone can see) is a permission.

This is what creates the button that will appear in QuickNotes.

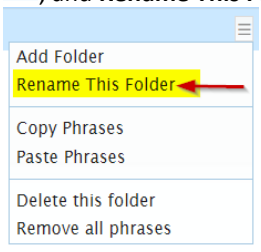

3. Once the category is created, add folders and subfolders by clicking on the menu icon and **Add folder.** The menu icon will also allow you to **Rename this category** if needed.

ReliaTip: Folders will help keep your phrases organized by subject in QuickNotes, folders are expandable.

4. To rename folders, click on the menu icon , and **Rename This Folder**.

5. To add phrases, click on the folder you wish to add a phrase to and click add phrase or hit the enter key.

6. You may add multiline line phrases but formatting them like the example below using \\ between lines:
   multiline phrases \\ can have multiple lines \\ and another one too
7. To edit phrases, click on the phrase, make the changes, and hit enter.
8. To delete phrases, click on the phrase, and  .
9. To move phrases from one folder to another, click on the folder click on the menu icon for the ability to
   a. **Copy Phrases** 
   b. **Paste Phrases** 
   c. **Remove All Phrases** 

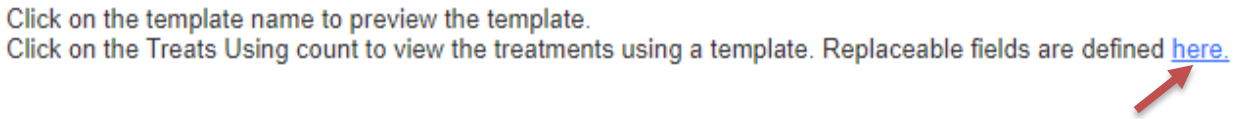

> **ReliaTip:** You cannot recover deleted phrases or categories.

Replaceable Fields

Terms placed in [%%] will auto-populate into a document or phrase for notes. The list below includes the various [%%] codes we have. (i.e. [%office%]) and what they will populate.

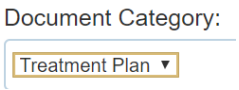

To find replaceable fields

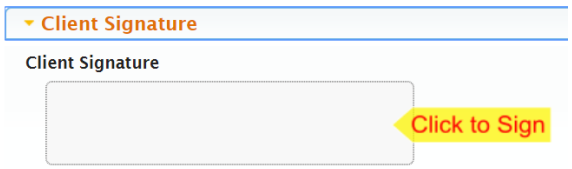

1. Go to **Treats/Groups** -> **Template Library**
2. Click on the blue "here"

Client Signatures in QuickNotes

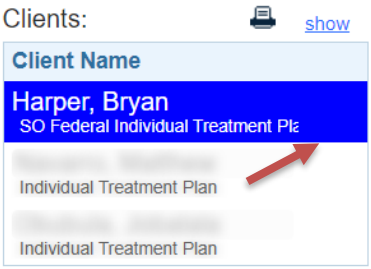

ReliaTrax can capture client signatures on any document.

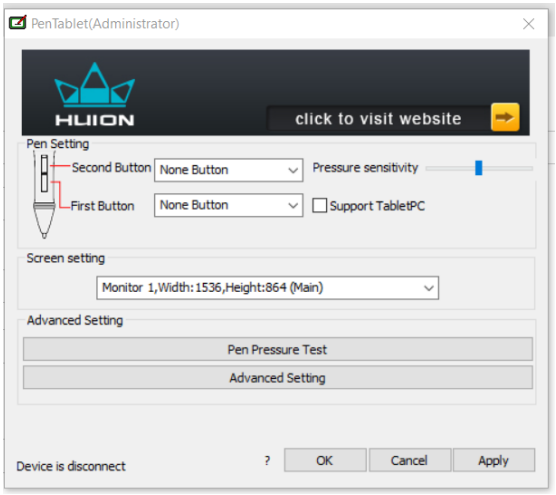

1. Go to the document by going to **Client Info** >> **QuickNotes**
2. On the left-hand side, select the appropriate category for the
   

   document you need.
3. Click on the blue button that indicates a signature.
4. Click within the box labeled **Click to Sign**.
   

5. When the pop up appears, other client names on the left are blurred out.
6. If you click 'show', all the names will appear.
7. Have the client sign on the line using one of the following methods:

> **ReliaTip:** Obfuscating – happens on the individual screen and non-session notes by default

a. If you have a touch screen, the client can sign using their finger.
b. You can use a tablet
c. You can purchase a Huion 420 signature tablet on Amazon. You will need to install the drivers on all computers that will use a signature tablet. The drivers can be downloaded from the Huion website.
   i. To complete the installation of the tablet, turn off the buttons on the pen by clicking on the dropdown menus for the Second Button and First Button and then selecting None Button.
   ***Note**: these options can be found in the PenTablet Administrator Settings.*
   ii. Click **Apply** and then **OK**

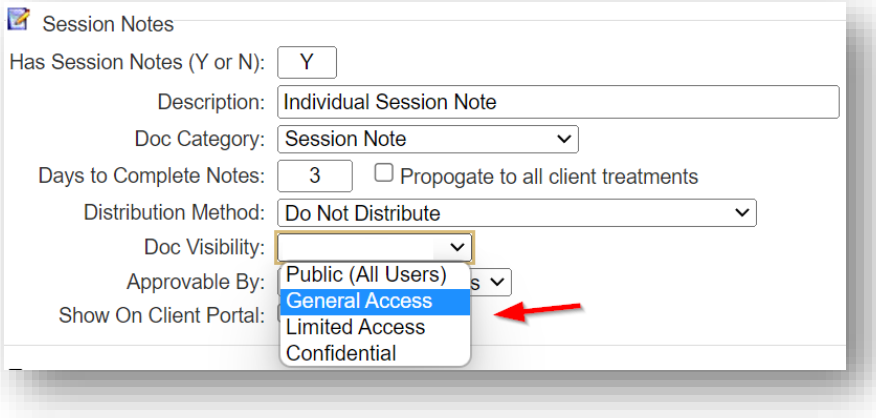

Managing Document Visibility

ReliaTrax allows you to manage visibility of each document in your system based on your needs for restricting access.

On the Treatment

Setting the document visibility up on the treatment will ensure that every time a document of this type is created, this visibility will occur.

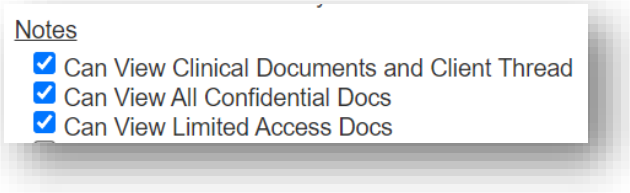

1. Go to **Treats/Groups >> Treatments**
2. Click on the pencil to edit a treatment that has documents attached 
3. Scroll to the bottom of the page, below all of the N and Y's to where the documents are listed
   - **Public (All Users)** - All Internal and External Users can view this document
   - **General Access** - All Internal Users can view this document
   - **Limited Access** - All Internal Users with permission to view Limited Access Documents can view this document
   - **Confidential** - Only Users with "Can View All Confidential Docs", the creator and those who have been granted access can view this document

Related Permissions

The associated permissions related to document visibility are the following:

- **Can View Clinical Documents and Client Thread** – Allows this user to have access to "General Access" and "Public" documents and to see client thread fields under the  icon on the client page

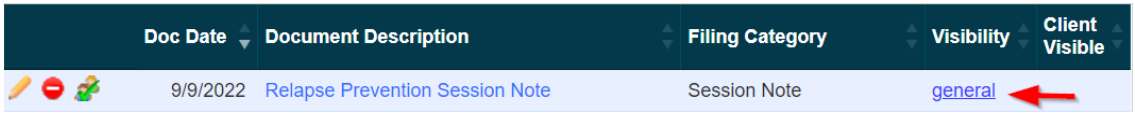

- **Can View All Confidential Docs** – Allows this user to have access to all confidential documents regardless of whether they have been granted access or if they created the document
- **Can View Limited Access Docs** – Allows this user to view all documents listed as "Limited Access"

In the Filing Cabinet

Visibility can also be managed on individual documents in the filing cabinet

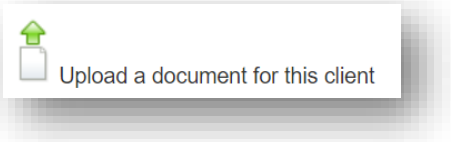

1. Go to the client page and click to see the filing cabinet 
2. Next to each document click on the blue word in the visibility column to change it

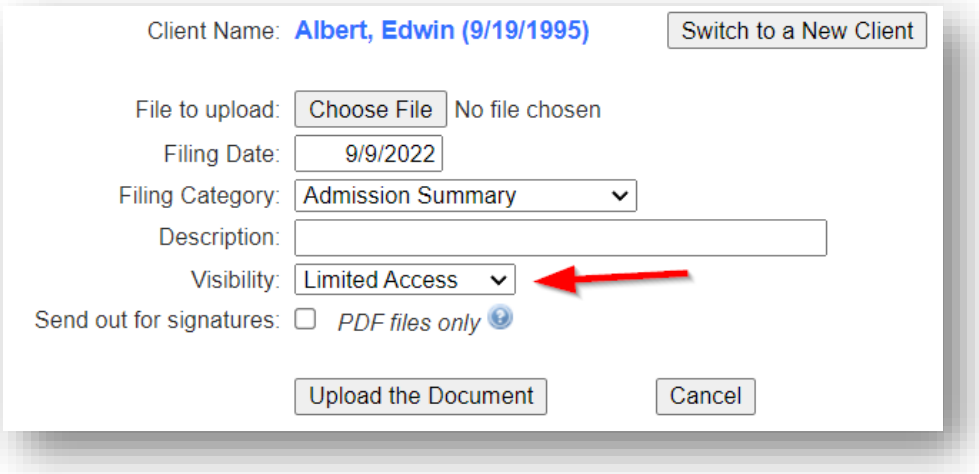

Upon Upload

Visibility can also be set when uploading a document into the filing cabinet for a client.

1. Go to the client page and click on the  **OR** into the filing cabinet and click on –> **OR** into **Docs/Forms >> Doc Upload**

2. Manage the visibility with the Visibility drop-down

Setting up Document Approval

ReliaTrax allows you to designate which documents require approval by a supervisor and which can be archived without a supervisor signature.

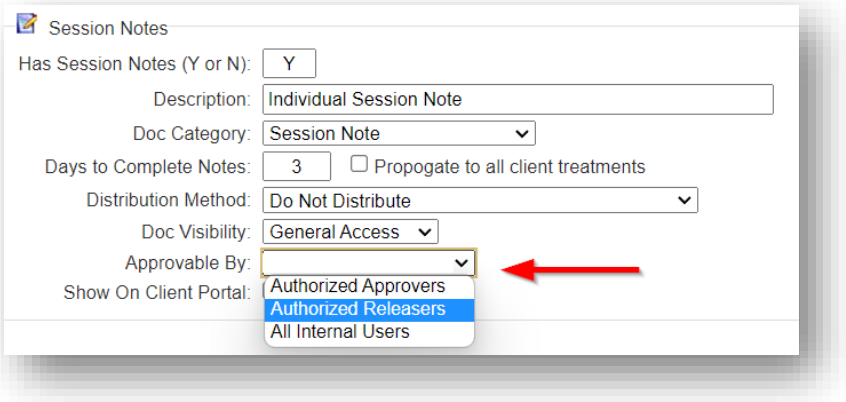

-Need to update photos of permissions

-Need to talk about document "Reviewing" feature

Setup on the Treatment

To setup the document approval for each document you will want to go to **Treats/Groups >> Treatments** and click to edit the treatment.

1. Scroll down to the bottom of the page where you can manage each document
   - **Authorized Approvers** – this document can be approved by any individual that has the permission to Release and Approve
   - **Authorized Releasers** – this document can be approved by any individual that has the permission to Release
   - **All Internal Users** – this document can be approved by any individual that can view clinical documents

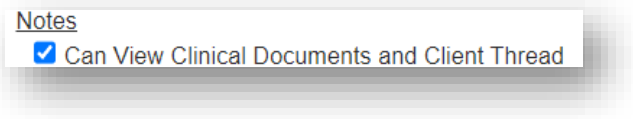

Associated Permissions

The permissions associated with Document Approval are under the Doc Release/Approval and Notes sections of the permissions table.

- **Can Release Their Own Documents** – allows the user to release a document when they are the assigned user on the treatment
- **Can Release Any Documents** – allows the user to release a document regardless of who is assigned on the treatment
- **Can Approve 'Approvable By Releaser' Docs** – allows the user to Release and Approve specific documents when the document visibility is set to 'Approvable by Releaser'
- **Can Approve Their Own Documents** – allows the user to approve documents when they are assigned on the treatment
- **Can Approve Any Documents** – allows the user to approve documents regardless of who is assigned on the treatment

- **Can View Clinical Documents and Client Thread** – allows user to view clinical documents that are "General" or "Public" access; user will also be able to release/approve "General" access documents.

Chapter 7: Supervision

There are many optional supervisory functions you may find useful for your agency.

The functions covered in this chapter are:

- Signing Off on Notes
- Reviewing Clinical Records
- Leaving Notes on a Clinical Chart
- Supervisory Reports
- Employee Files

Signing Off on Released Notes

There are two ways to review notes. The first, is a document that is still pending final approval before being placed in the file cabinet (this is common with trainee counselors). With the second, a document is put into the file cabinet and is awaiting a second signature on the already completed document.

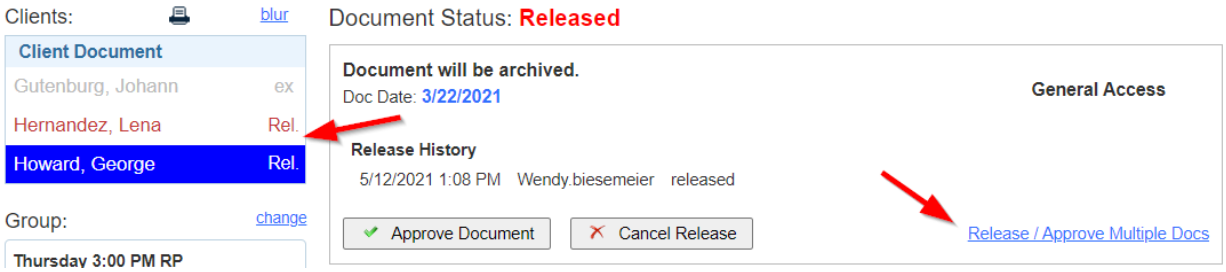

We recommend following this process at minimum, once per week, in signing off on documentation.

To learn more about setting up which documents need to get signed off on see Setting Up Document Approval

Signing off on Released Notes

To find notes that have been released to the supervisor,

1. Go to **Treats/Groups >> Released TPs/Docs**
2. Click on the name of the client to view the note
3. Review the document and choose “Approve” or “Cancel Release”
4. If you cancel the document, the clinician will receive an email with your feedback on the doc

5. If you have multiple docs to sign off on you can also use the ‘Release/Approve Multiple’ function but make sure if you are using this that you carefully review all of the documents prior to approving.

Signing Already Released and Approved Documents

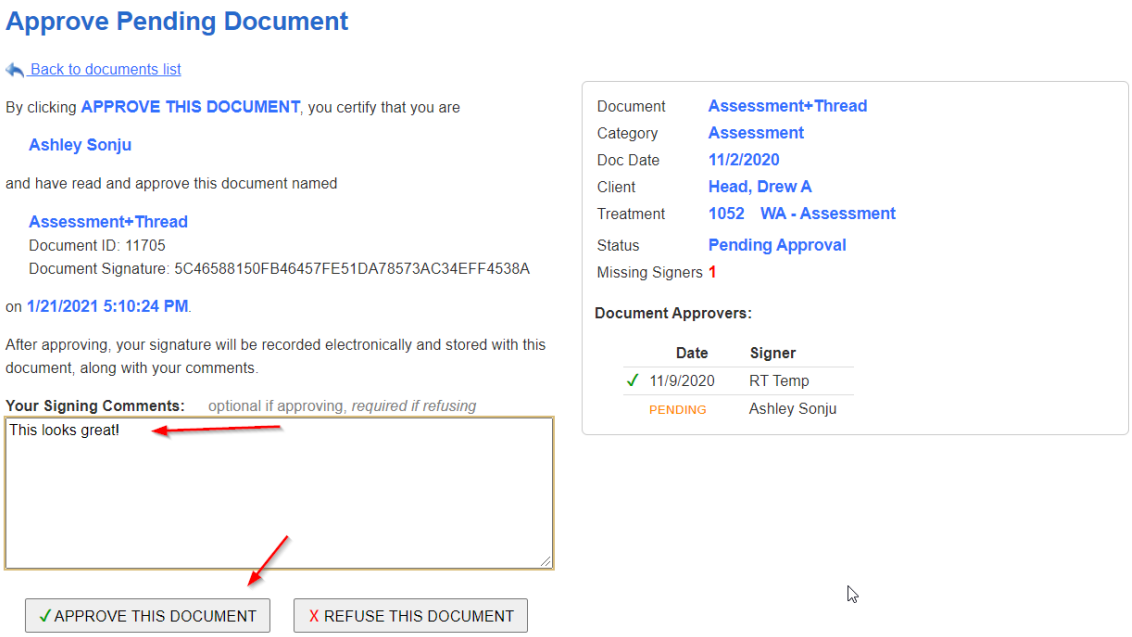

6. On your home screen or dashboard, find and click on this icon

7. Click on the green check mark to review the document to sign.

Client Name	Doc Date	My Signature Date	Signatures Complete	Document Description	Filing Category
Head, Drew A	11/9/2020	PENDING	No	ROI	Unspecified
Head, Drew A	11/2/2020	PENDING	No	Assessment+Thread	Assessment
Head, Drew A	10/30/2020	PENDING	No	Assessment+Thread	Assessment

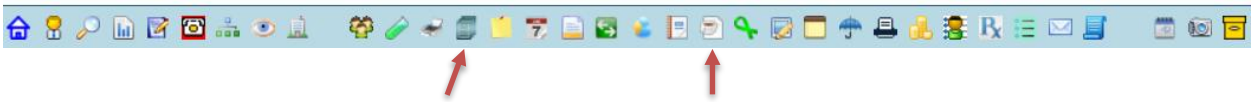

8. Review the document, add comments and then approve or refuse the document

9. The counselor will receive an email with the comments and the approval or rejection

Reviewing Clinical Records

On a client's page, there are a few places you can review the file. The first is the Client Notes Review, the second is the filing cabinet.

- The **coffee cup icon** (client notes review) is going to show you chronologically, the entire client file, including sessions that have been created where notes have not been completed.
- The **filing cabinet** is going to be organized by document category so if you are wanting to look at how often things are being updated, making sure certain documents are in there and/or doing a check on specific documents, you will want to use the file cabinet for that.

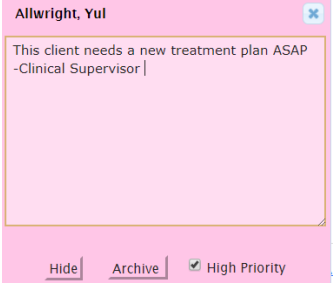

The third option for spot checking is **Docs/Forms >> Recently Approved** – you can sort by counselor, and document type to spot check documents for all clients rather than just one at a time.

Leaving Notes on the Clinical Chart

The best options for leaving notations of findings in the client file or things you want to remind the counselor of are sticky notes and general notes.

This icon is where you find the sticky note. It allows you to leave a note on the client page that will pop up whenever someone opens that client's page.

The yellow sticky note will show up on the side of the page, the pink "High Priority" sticky will be in the center of the client page. Once archived, it will go

into the client's "general notes" rather than their filing cabinet, or the note can be backspaced and exited out of if you do not want to keep a record.

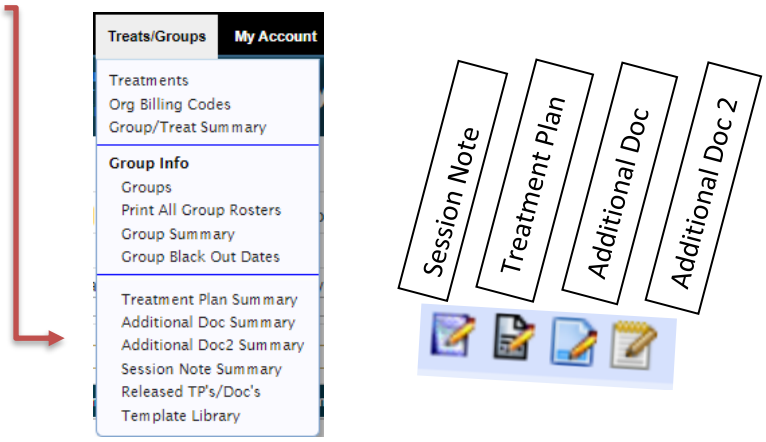

This icon is where you will find the general notes. The notes are kept in chronological order and this is also the place where archived sticky notes will be saved.

Supervisory Reports

There are a lot of reports available for supervisors but as they pertain to supervision, these are the most important.

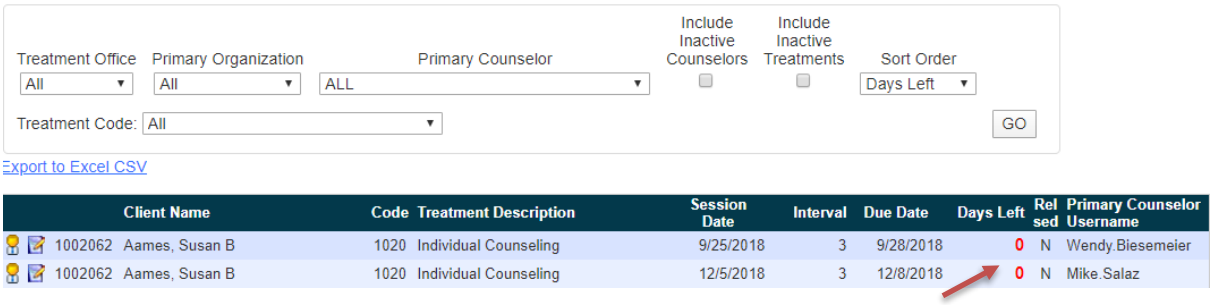

Treatment Plan/Additional Doc/Session Note Summary

In the top navigation bar go to Treats/Groups and you will see each of these reports at the bottom of the list.

These reports are created because of the due dates set on the treatment lines for each type of document. If you think of a treatment, there are 4 possible icons a document can be attached to (see above). This is what the reports are alluding to. Any document that is attached to a "session note" and has a due date, is going to show up on that report. Any document that is attached to the "Treatment Plan" icon and has a due date is going to show up on that report, etc.

When you click on one of those reports, you can search by counselor and see how many days there are left for that note to be done.

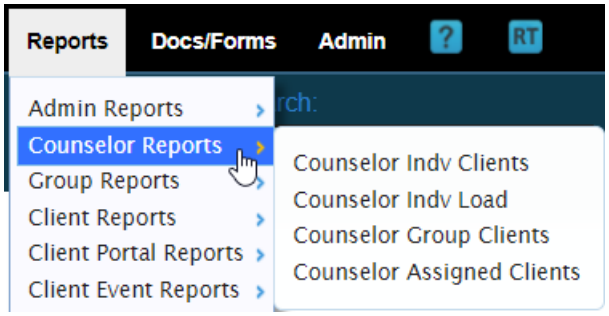

When counselors go to this report, they can only see their own outdated or upcoming documentation which can be a very helpful tool for them as well.

Counselor Reports

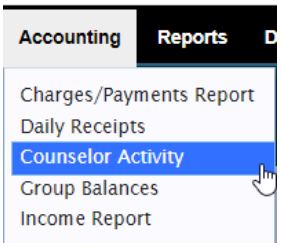

The "Reports" menu on our top navigation bar also has a section for "Counselor Reports".

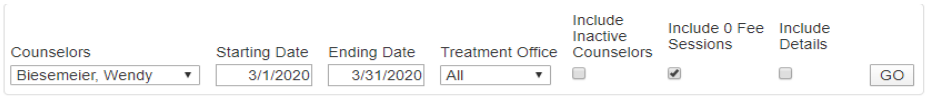

- **Counselor Indv Clients** – shows you a counselor's individual caseload with all treatment types
- **Counselor Indv Load** – shows you a counselor's individual caseload by treatment type
- **Counselor Group Clients** – Shows you a counselors list of clients they have in groups
- **Counselor Assigned Clients** – Shows you the clients assigned to each user using the icon

Counselor Activity/Productivity

Another helpful report for supervision is the Counselor Activity report, which the counselor's also have access to. This report shows productivity which can be helpful for counselors and supervisors to see how time is being spent. This is under **Accounting >> Counselor Activity.** You can use the filters to search by counselor and see how much revenue is being brought in and what the time is being spent with face-to-face contact.

Print This Page

Counselor Activity Summary — Download Summary csv

Counselor Activity Summary
Date Range: 3/1/2020 - 3/31/2020
Treatment Office: All

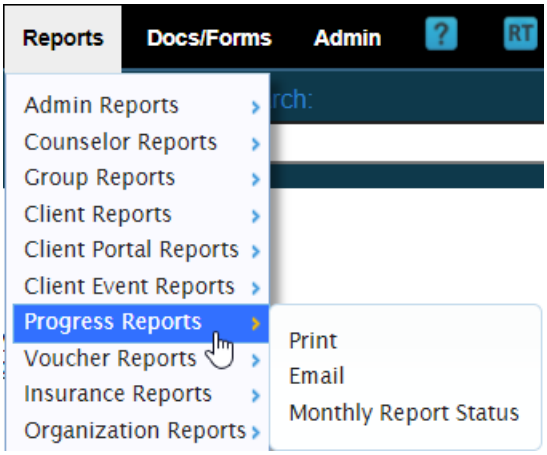

Counselor Name	Session Type	Number of Sessions	Number of Sess Unexcused	Number of Sess Excused	Number of Groups	Total Counselor Hours	Total Fees	Unattended Fees	Total Income	Counselor Fee Per Session	Counselor Income Per Session
Wendy Biesemeier	Group	1	6	0	1	2	$15.00	$0.00	$15.00	$15.00	$15.00
Wendy Biesemeier	Individual	6	2	1		6	$450.00	$0.00	$420.00	$75.00	$70.00
Counselor Total							$465.00	$0.00	$435.00	$66.43	$62.14
Totals											

ReliaTip: Counselors are not able to see the financial portion of the counselor activity report and they can only see their own activity on the report.

Monthly Reports

The final function, monthly reports, is a supervisor essential, especially if the supervisor is sending out the reports to probation for the month. Again, in the top navigation bar, the monthly reports can be monitored through **Reports >> Progress Reports**

- **Print** – Allows you to print reports for a given org, officer, etc.
- **Email** – Allows you to email out reports for a given org, officer, etc.
- **Monthly Report Status** – Allows you to see where counselors are at in completing their monthly reports

Setting Up Employee Files

ReliaTrax can also be used for managing employee files and/or completing supervision notes.

Creating an Employee/Supervision Office

1. Go to **Admin >> Offices**
2. Click on "Add a new Office"
3. Choose a name for your employee file office such as "Supervision" or "Employees"
4. Enter your contact information for the office and click "Submit"

Restricting Access to the Employee/Supervision Office

2. Once you have created your employee/supervision office, you will want to restrict access to that office
3. Go to **User Info >> Users** and click on the pencil next to your internal users
4. Under offices, remove the newly created office from those individuals that should not have access to the office

Creating Supervision/Employee Treatments

You can create treatments like "Supervision", "Onboarding", "Intern Hours", etc. based on the activity that you would like to track in the system. Treatments are setup under **Treats/Groups >> Treatments**, details for setting up a treatment can be found here.

Creating Your Employee Pages

1. You will create employees just like you create clients on the home screen or **Client Info >> Clients**
2. Enter their information and ensure that they are being added to the newly created office

Chapter 8: Scheduling

There are many optional scheduling functions you may find useful for your agency.

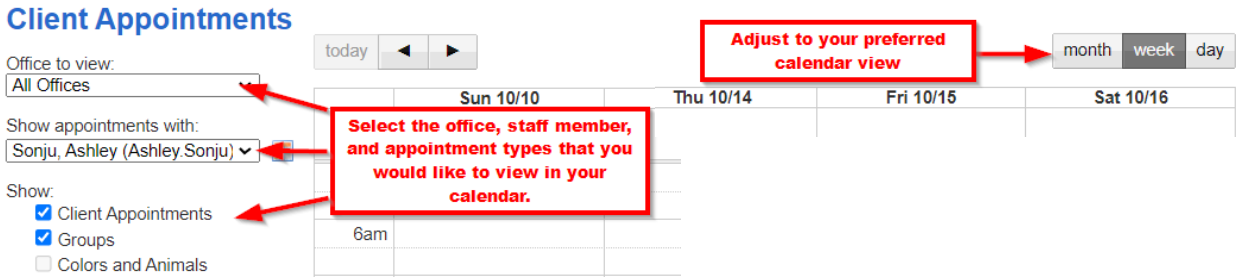

The functions covered in this chapter are:

- Making Appointments Calendar/Day Planner
- Telehealth Appointments
- Editing, Rescheduling, and Cancelling Appointments
- Availability Calendar
- Availability Finder
- Wait List
- Print Agenda
- Color Coded Appointment Types
- Linking Your ReliaTrax Calendar to Other Calendars
- Bed Reservations

For Calendar Basics , see Chapter 1: The Basics

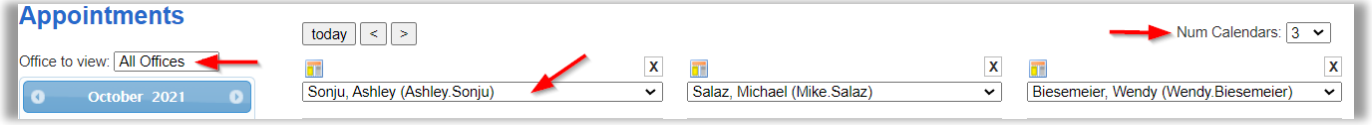

Administrative Setup of Calendar

To the left and right of the calendar, administrative settings can be chosen for your calendar.

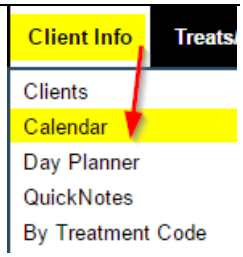

Administrative Setup of the Day Planner

- For the day planner, up to 20 calendars can be seen side by side for the current day. Adjust the number of calendars at the top of the day planner page, and add staff calendars using the drop down menu.

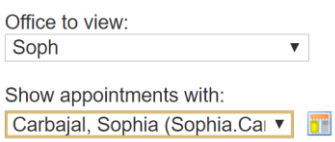

Making Appointments – Calendar

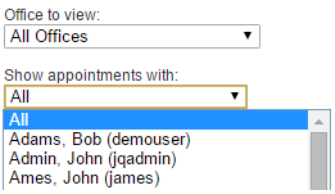

An option for creating and scheduling appointments is the **Calendar** function.

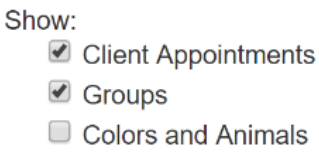

1. Scroll across the top navigation bar to **Client Info** and down to **Calendar.**

2. On the left side of the screen select the office the appointment is at and counselor for whom the appointment will be with. You can specify the office and the counselor, or you may select **All.**

3. You can select the type of appointment shown on the calendar.

4. You can select the view type for the calendar on the upper right-hand corner of the screen.

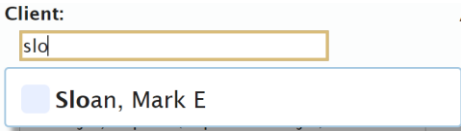

5. Appointments are made by clicking on a day or timeslot depending on the calendar view

6. Select an appointment type using the dropdown menu. This will select a color associated with the type of appointment.

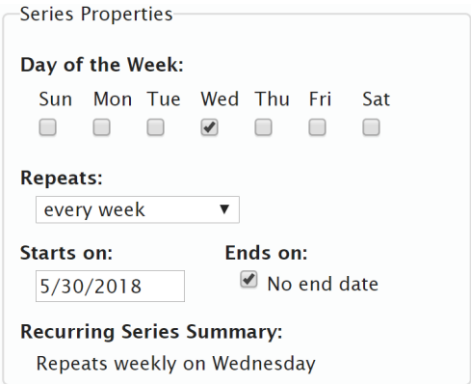

7. Enter the first three characters of a client's first or last name in order to attach the client to the appointment.

8. Select a counselor using the dropdown menu.
9. Select the office where the appointment will occur.
10. Select the treatment using the dropdown menu.

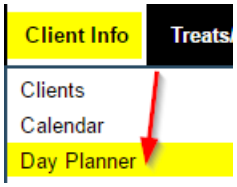

ReliaTip: To select a specific treatment, it must be added to the client's page.

11. You may add notes.
12. You can select whether it will be a onetime appointment or a weekly session.
13. You can set multiple days a week to repeat the appointment. You can also repeat it every week, every couple of weeks, etc.
14. Hit **Submit** to schedule the appointment.

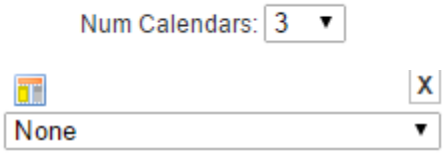

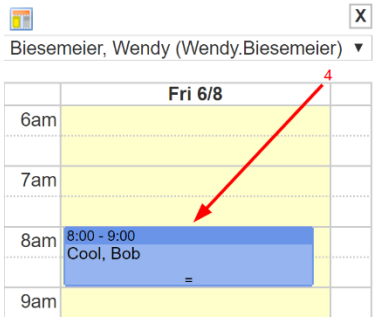

Making Appointments - Day Planner

Another way to make appointments within ReliaTrax is by using the **Day Planner**. The day planner allows you to display schedules for a single day for up to 20 counselors at a time.

1. Scroll across the top navigation bar to **Client Info** and down to **Day Planner.**
2. You can select the number of calendars you would like to view from the dropdown in the upper right-hand corner of the screen. You may select up to 20 counselors.
3. Above each column select the counselor you wish to display.

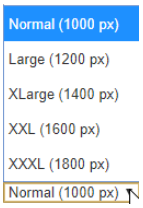

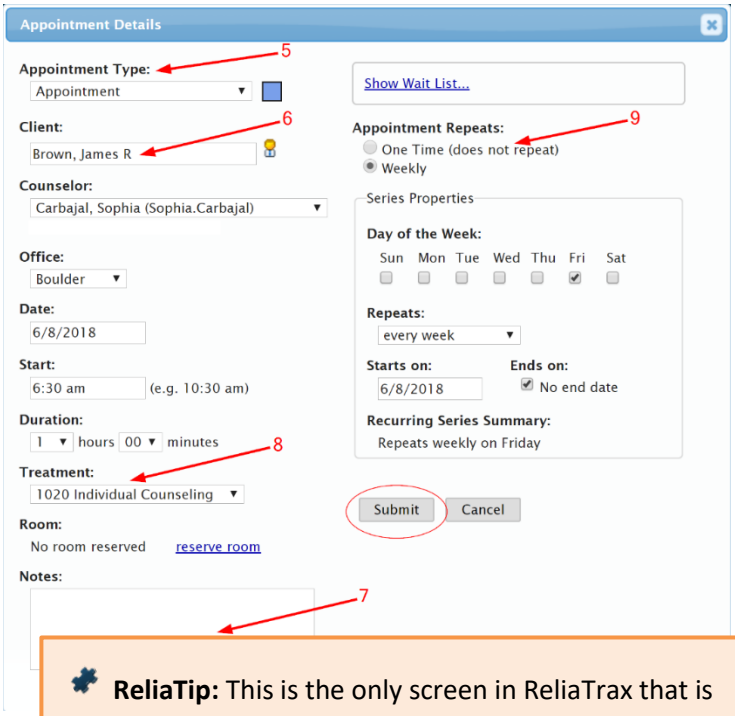

4. Click on the time slot you wish to create a new appointment for. A pop-up window will open and you can edit the appointment specifics.
5. At the top of the window you can specify the type of appointment. It is color coded and will show up on the main calendar.

6. Typing the first three letters of the client's first or last name in the **Client** box and it will auto populate the client.
7. If no client name is entered the **Notes** box will show up on the calendar. You can use this to schedule time to do administrative work, clinical documentation, or agency meetings.
8. If the appointment is linked to a specific treatment, the appointment will be reflected on the client's page and will report if missed.
9. The appointment may be scheduled as a onetime visit or as a weekly visit.
10. Click submit to have the appointment added to your day planner.

11. When displaying multiple calendars it may be useful to increase the screen width.

ReliaTip: This is the only screen in ReliaTrax that is size adjustable. This is done in the lower left corner of the day planner screen.

Adding the Telehealth Link to the Individual Appointment

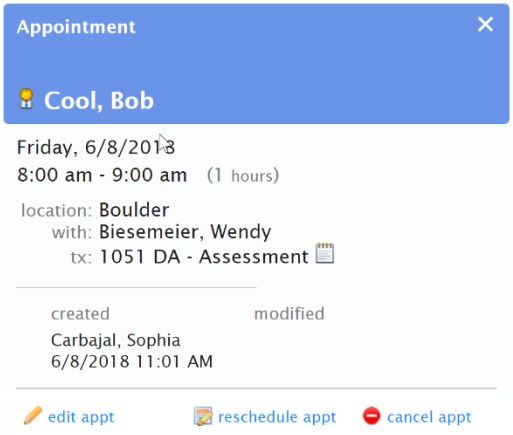

1. Go to **Client Info >> Calendar or Day Planner**
2. Click on the calendar to add an appointment
3. The telehealth checkbox will add the link from the counselor's page to the appointment reminder

******Telehealth for groups can be found here.**

Editing Appointments

Appointments can be edited from either the **Calendar** or the **Day Planner**.
***Note**: this is a permission!*

1. Scroll across the top navigation bar to **Client Info** and down to either **Calendar** or **Day Planner.**
2. Click on the appointment block on the calendar or day planner. This will open the appointment details.
3. When you click on the appointment, you can see who created the appointment and/or who the last person who modified the appointment.
4. At the bottom of the appointment detail pop up, there are three icons. You can edit, reschedule or cancel the appointment. To edit it, click on the pencil icon.
5. The appointment details editor will pop up and you can edit the details of that appointment.

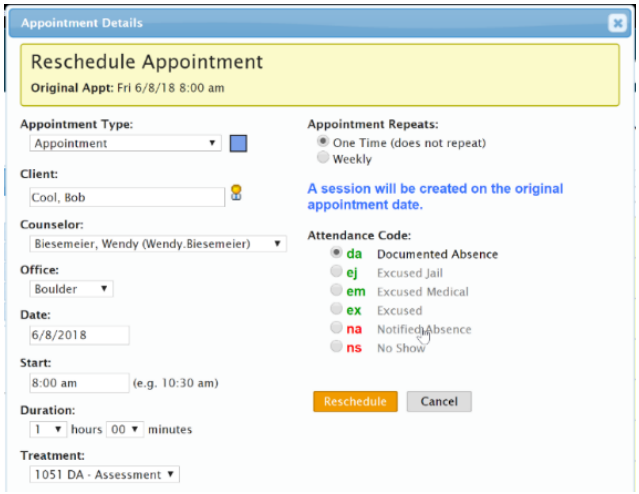

6. The editor will have an additional button that will allow you to delete the appointment if necessary. *Note: This is a permission*
7. Click **Submit** to complete 

your edit.

Rescheduling Appointments

Appointments can be rescheduled from either the **Calendar** or the **Day Planner**.

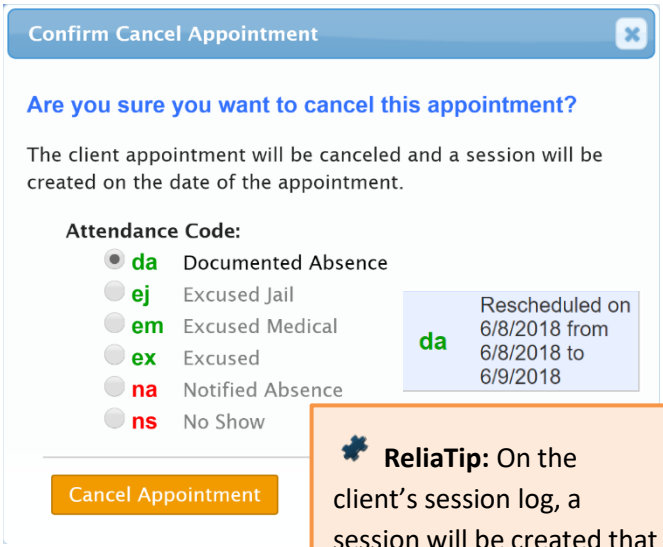

1. Scroll across the top navigation bar to **Client Info** and down to either **Calendar** or **Day Planner.**
2. Click on the appointment block on the calendar or day planner. This will open the appointment details.
3. When you click on the appointment, you can see who created the appointment and/or who the last person who modified the appointment.
4. At the bottom of the appointment detail pop up, there are three icons. You can edit, reschedule or cancel the appointment. To edit it, click on the reschedule  icon.
5. Change the date of the appointment to the new date.
6. Select an attendance code.
7. Click **Reschedule**

ReliaTip: On the client's session log, a session will be created with an attendance note that will state that the appointment has been rescheduled. This will not check them in, it is simply an attendance note.

Cancelling Appointments

Appointments can be rescheduled from either the **Calendar** or the **Day Planner**.
*(**Note**: this is a permission!)*

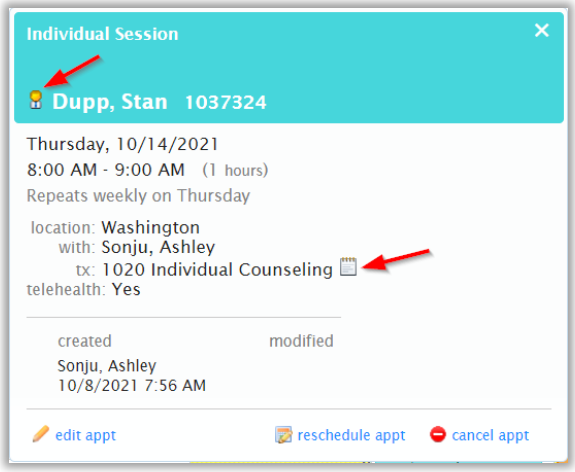

1. Scroll across the top navigation bar to **Client Info** and down to either **Calendar** or **Day Planner.**
2. Click on the appointment block on the calendar or day planner. This will open the appointment details.
3. When you click on the appointment, you can see who created the appointment and/or who the last person who modified the appointment.
4. At the bottom of the appointment detail pop up, there are three icons. You can edit, reschedule or cancel the appointment. To edit it, click on the cancel appt  icon.
5. Select an attendance code.
6. Click **Cancel Appointment.**

ReliaTip: On the client's session log, a session will be created that will state that an appt has been cancelled.

da Canceled appt. on 6/8/2018

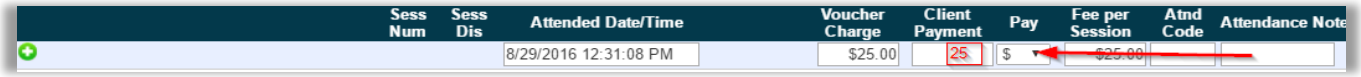

Checking Individual Appts in from the Calendar/Day Planner

There are multiple ways to check a client in in ReliaTrax. You can check them in using the dashboard, using the client page, or using the calendar (described below):

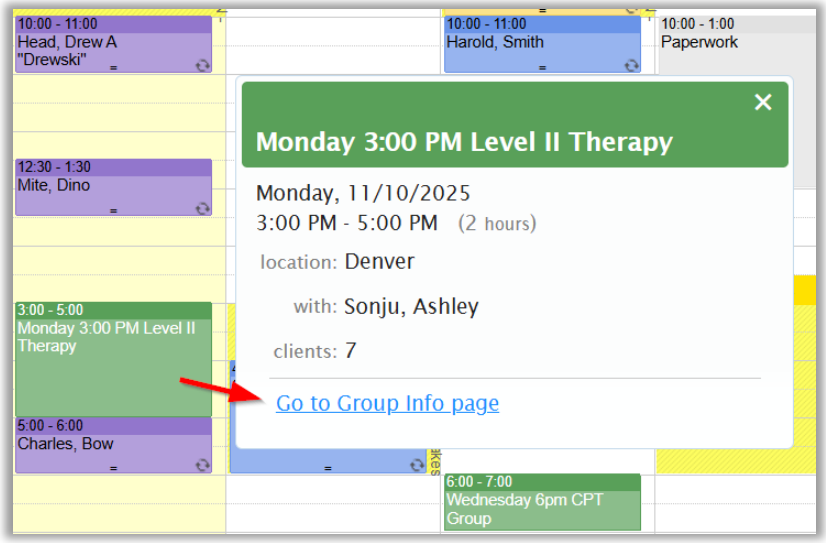

One option is from the calendar. To do this:

1. On the **Calendar/Day Planner** page, click on the appointment you are checking in.
2. The session note icon will be on the appointment window. You can click on the icon to be taken to the session page.
3. Enter the Date and Time of the session and a payment (if any) and click the green + to check them in.
4. The calendar will reflect the check-in on the corner of the appointment with either a green check mark or attendance code

Checking Groups in from the Calendar/Day Planner

The process for group check in from the calendar is similar to check-in for Individual appointments on the calendar. You can check-in groups using the dashboard, the group check-in page or using the calendar (described below):

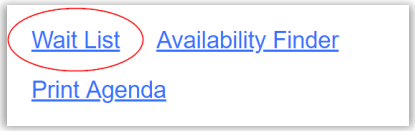

1. Navigate to the calendar/day planner
2. Groups are displayed in green
3. Click the group appointment and you will see a link to “Go to Group Info Page”
4. Here you will see the prompt for client check in

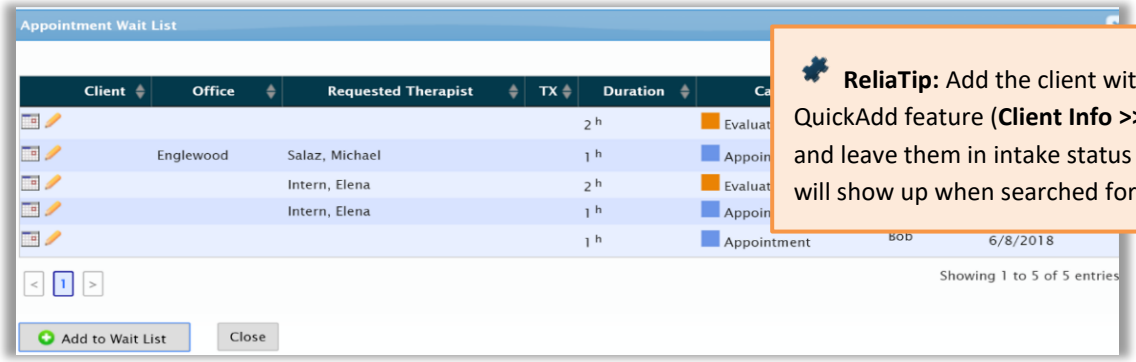

5.

Wait List

The **Wait List** is a tool in the Calendar/Day Planner used to enter clients waiting on appointments with individual counselors with an office.

1. On the calendar/day planner, click on the **Wait List.**
2. Click on the  button.

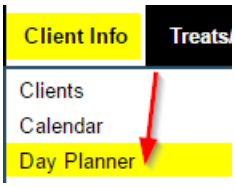

ReliaTip: Add the client with the QuickAdd feature (**Client Info >>Clients**) and leave them in intake status so they will show up when searched for.

3. Select an appointment type, client, office, counselor and/or duration of appt requested.
4. If the client has not been created in ReliaTrax, you can add the client information in the note section. Don't forget to Submit!

Availability Calendar

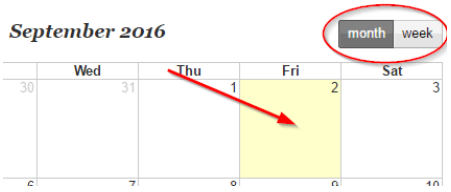

The availability calendar is a useful way to schedule time to do certain agency tasks like intakes, assessments, meetings, etc.

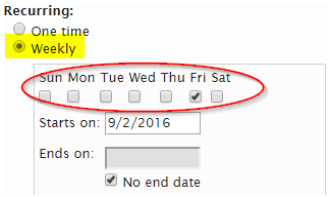

1. Scroll across the top navigation bar to **Client Info** and down to **Day Planner.**
2. Select the user you wish to display then click on the **Availability Calendar** icon.

3. The Counselor's Availability Calendar screen will appear. You have the option to view the calendar per month or week. Click on the day you wish to add availability.
4. The **Details** pop-up will appear.

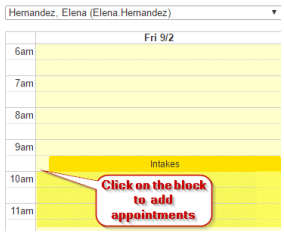

5. Enter the following information
   a. Verify the **start and end** time you wish to schedule
   b. Choose whether the **Type** of if the time is available or out of the office. This is especially useful for vacation time, etc.
   c. Verify the **office.**
   d. Identify if this time is **One time or Weekly**. If this is a weekly occurrence at the same time you are able to add other days and modify the start and end date.

   e. Entering a **Note** is a description for the type of availability you are scheduling. For example, if you have time allotted for weekly intakes or an upcoming vacation type-in "Intakes" or "Vacation" the notes section.
   f. Click **Save**
6. The Availability Calendar will display the block of time added
7. Click on the blue link to return to the day planner

8. On the day planner, you can schedule appointments for those available time slots.

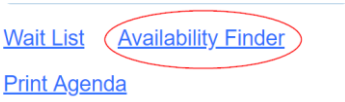

ReliaTip: The availability calendar is not where you schedule appointments, you will want to do this in the Calendar or Day Planner.

Availability Finder

The Availability Finder is a tool in the Calendar/Day Planner used to find availability amongst users for certain appointments.

On the calendar/day planner, click on the **Availability Finder.**

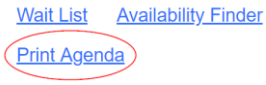

1. Enter the duration of the appointment in minutes.
2. You can search from 30 – 90 days out using the dropdown menu.
3. Select at least one office and one therapist.
4. Click **Go**.
5. A list of therapists will appear with office names, date and time available, length of time available. Notes will describe their type of availability.
6. Select either the calendar or day planner icon to schedule the appointment within the selected availability.
7. Schedule the appointment.

ReliaTip: Want to use the Availability Calendar to its fullest capacity? Set up availability for all counselors/users.

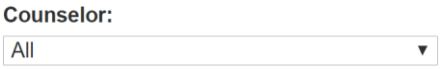

Print Agenda

Print Agenda is a tool in the Calendar/Day Planner used to create a full agenda of appointments for counselors that can be printed.

1. On the calendar/day planner, click on the **Print Agenda**.
2. In the **Select Options** section, choose the start and end date you want to print the agenda for.

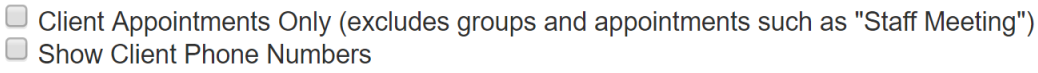

3. Select the counselor whose agenda you would like to view and print.

4. Select the office where the appointments will take place.

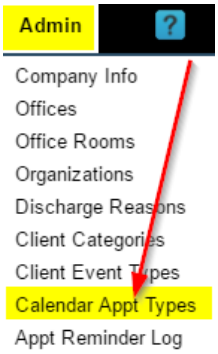

5. You can further filter the results of the agenda by using the two checkboxes. The first will filter the results so that only client appointments will show. The second will filter the results to include client's phone numbers.

6. Click **Reload Agenda.**

Creating Color Coded Appointment Types

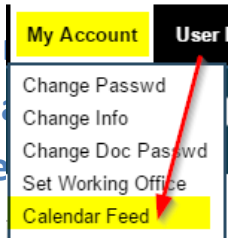

1. Scroll across the top navigation bar to **Admin >> Calendar Appt Types.**
2. At the bottom of the page, click on 

3. Define the appointment type and description.
4. Personalize the color of the displayed appointment in the calendar. Colors are customizable by agency.
5. Set a default appointment length.

Linking

ReliaTip: You can still change the duration for specific appointments when you are setting up the appointment. The duration setup here is how much time it will **Default** block off if you don't make changes.

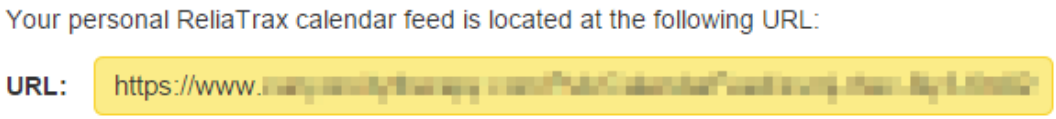

You Relia Cale

Other Devices

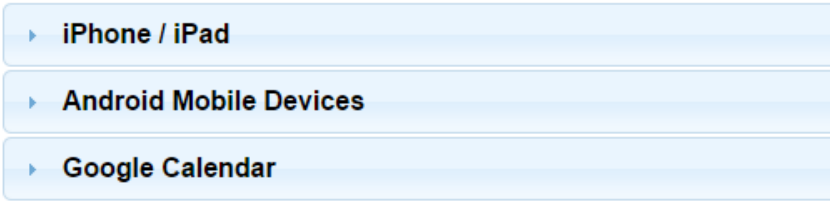

You're able to export a HIPAA compliant copy of your ReliaTrax calendar to your devices!

1. Go to **My Account >> Calendar Feed**
2. Click on **Enable Your Calendar Feed**

3. Treat this URL like a personal password. Copy and paste it into your personal calendar.

4. Directions are given for various devices by clicking on the blue buttons shown below.

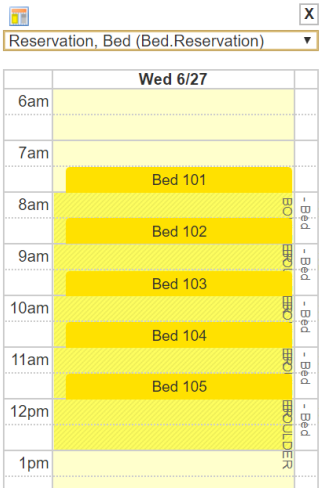

ReliaTip: ReliaTrax will only show initials for your appointments on your personal devices so you do not have to worry about seeing protected information on your calendar.

Bed Reservations

Bed reservations can be managed in the system using the Day Planner.

1. Create a "Bed Reservation" user with minimal permissions. The user will need to have the "Is A Therapist" permission checked. See the User Permissions section for more information on setting up the permissions.
2. Go to **Client Info >> Day Planner**.
3. Select the "Bed Reservation" user from the dropdown menu.
4. To list availability per bed, click on the availability calendar icon and choose the "Bed Reservation" user from the dropdown menu on the right-hand side.
5. Create availability slots by clicking on the calendar. List the beds in the notes section of the availability slots. For more information on availability slots, see the Availability Calendar section.
6. Go back to the Day Planner where bed availability will be listed.
7. To reserve a bed, click within the availability slots and complete details for the reservation.
8. Set the **Appointment Repeats** to **Weekly** and give it an end date.
9. You can also click on **Show Wait List** to see who is waiting on a bed.
10. You can use the **Availability Finder** to see when you have an available bed slot.

Chapter 9: Administrative Functions

Administrative functions are involved in setup and maintenance of your site. Setup is done in 3 days (outlined in this chapter).

Functions covered in this chapter are:

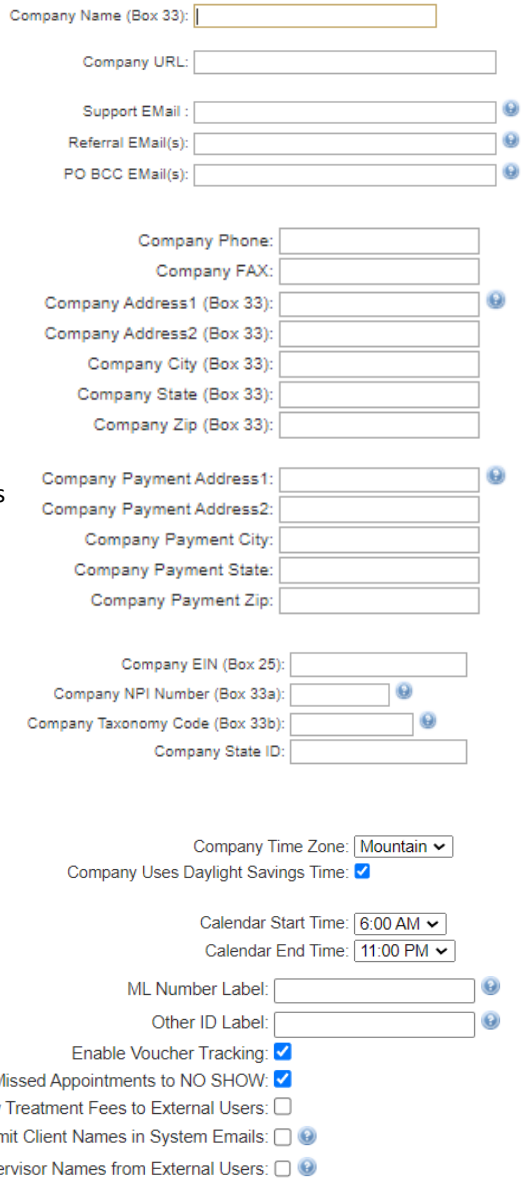

- Company Info, Offices, Rooms
- Users/User Permissions
- Adding Agency Treatments/Groups, Adding Clients
- Setting up Documentation/Client Pages
- Behavioral Reporting Organizations
- Client Events
- Counselor Activity, Session Summary, Inactive Clients, and Monthly Summary Reports
- Helpful Tools for Auditors
- Paying Your ReliaTrax Bill
- Signature Pads

Company Information

During setup, will enter company, insurance, staff information, and discuss importing your clients into your new site. If you need to revisit these settings you will go to…

Admin >> Company Info

The company info page holds many of the administrative functions for agency setup and maintenance.

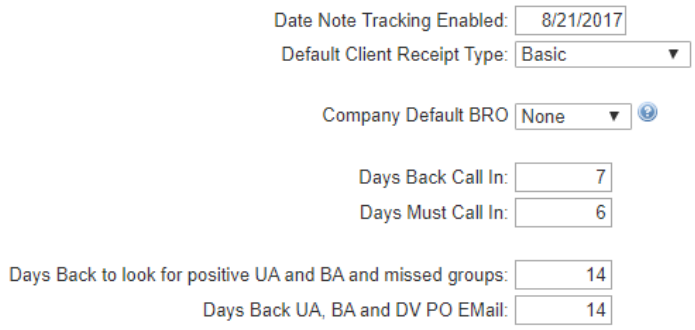

- **Company Name**: Full business name
- **Company URL**: Your company website
- **Support Email**: Multiple daily emails containing company overview activity reports
- **Referral Email**: Email notifications of referrals made by external users to your agency
- **PO BCC Email**: To receive a copy of everything ReliaTrax sends to external users

*See information below on setting up email rules

- **Company Phone/Fax/Address**: Enter the company's contact information
- **Company Payment Contact Info**: If the payment address differs from the company address, enter that information here
- **Company EIN**: Tax ID
- **Company NPI Number**: Used for Medicaid billing
- **Company Taxonomy Code**: This is the facility taxonomy not the providers
- **Company State ID**: Usually Blank
- **Company Time Zone**: Set time zone
- **Company Uses Daylights Savings Time**: yes or no
- **Calendar Start Time:** When you want the calendar to begin (before the actual first appt time)
- **Calendar End Time**: When you want the calendar to end (after the last appt time)
- **ML Number/Other UD Label**: Labels for additional client IDs
- **Enable Voucher Tracking**: check if using vouchers
- **Set Missed Appointments to NO SHOW**: This will create a no show for clients not checked in for sessions they were scheduled for (RECOMMENDED)
- **Show Treatment Fees to External Users**: On a client's page, shows how much you charge to POs
- **Omit Client Names in System Emails**: will only send out emails to external users with Client ID if not checked
- **Hide Supervisor Names from External Users**: When you send out a prog report to external users, it won't show the users, the other external users (i.e. separate pages per user)
- **Date Note Tracking Enabled**: Day to start sending reminder messages to counselors about notes
- Choose a Client Receipt Type

- **Company Default BRO**: Default BRO to be added for company
- **Days Back Call In**: Days back that the UA/BA Call-In Log is kept
- **Days Must Call In**: Number of days per week that a client must call in to the call-in line
- **Days Back to look for positive UA and BA and missed groups**: for reporting purposes and the amount of time there is a red flag notification
- **Days Back UA, BA, and DV PO Email**: Days back to look when sending out emails to external users

Setting Up Email Rules

If you would like to setup email rules so that the ReliaTrax emails go into a certain folder in your email, these are the instructions.

Option 1:

1. Click on the specific email in your inbox you are wanting to set up a rule for.
2. Click the (...) button on the top right corner of the email you would like to set a rule for.
3. Hover over "Advanced Actions" and then click on "Create Rule".
4. Select a folder you would like emails that come from this sender to go to.
5. Click "OK" and you have created a rule directly from the email.

Option 2:

1. Access your email settings -> mail -> Rules.
2. Add new rule.
3. Enter the details into the following fields, "Name your rule", "Add a condition", and "Add an action".
4. Save this rule and you are good to go!

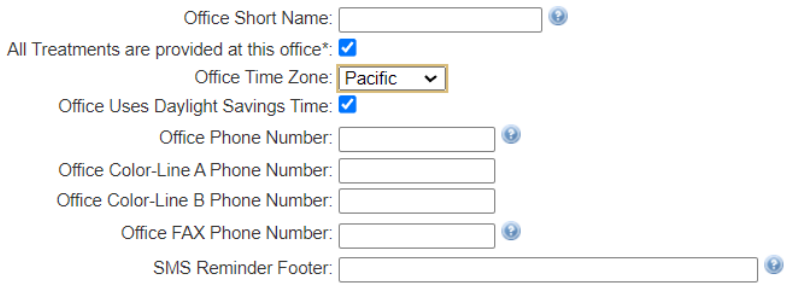

Creating/Editing Offices

Company offices can be used to separate clients per location or per modality, if needed. Offices can also be restricted per user

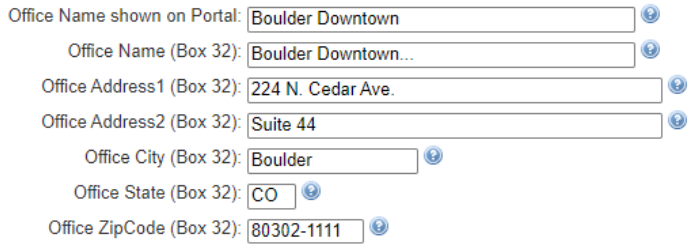

1. Go to **Admin >> Offices**
2. To edit an existing office click on the 
3. To add a new office, Click to "**Add a new Office"** 

4. Enter information for the Office **(see below)**

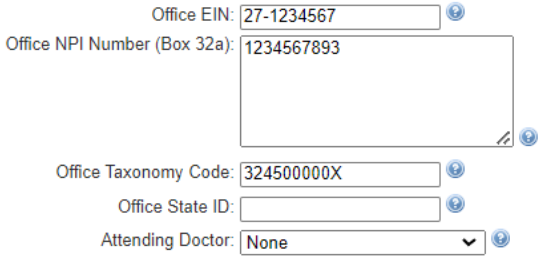

ReliaTip: Once you create a company office, you cannot change the name

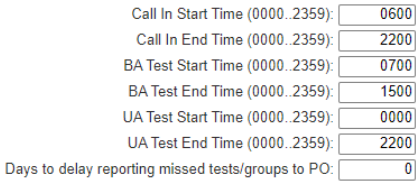

1. **Short Name:** A name for the office for internal use
2. **All Treatments are provided at this office**: Do you want to be able to add all of the company treatments to clients added to this office
3. **Color Line A Phone:** Can be Office phone number if you are not using the randomizer
4. **SMS Reminder Footer**: this is the phone number/message that shows on text messages going out to clients

5. **Office Name shown on Portal**: This is the office name that will show up in the client portal
6. **Office Name**: Can be blank, fill in if you want this office name to be displayed on receipts and invoices
7. **Office Billing Information** (EIN, NPI, Taxonomy, etc): This is only needed if you will be billing per office rather than under the company

8. **Call In/Testing Information:** Used to designate the specific call-in and testing times for this office (if using the randomizer)
9. Days to delay reporting tests/group

10. Click Save
11. Repeat for all locations

ReliaTip: Some agencies also use offices when they need to restrict access to clients and/or if they want to track their employee files and supervision in ReliaTrax. Contact a ReliaTeam member to explore your options if these situations apply to you. 833-222-0062 option 2

Office Rooms

Office rooms are set up for group sessions. They are set up per office.

Creating a New Office Room

1. Go to **Admin >> Office Rooms**
2. Under the drop down, choose which office you would like to room to be added to
3. Enter the Room Name
4. Click on the Green +

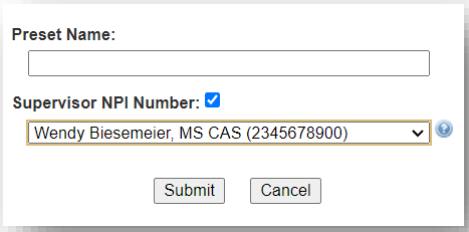

Setting Up User Presets

The **User Info >> User Presets** function are combinations of settings and permissions that you can apply to existing users to use to create new users with consistent permissions.

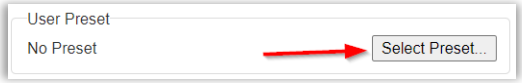

To create a preset:

1. Go to **User Info >> User Presets**
2. Click on "Add User Preset"
3. Name the preset and determine if this preset type should all be supervised by certain person
4. Choose a "Role" for this Preset
5. Select the permissions for this Preset

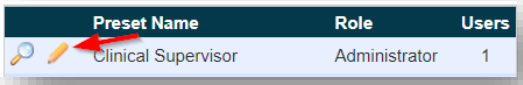

To apply a preset:

6. Go to User Info >> Users
7. Click to Add a New User or Edit an existing user with the pencil icon
8. To the top right click on "Select Preset"
9. Select the preset to use and "Apply Preset"

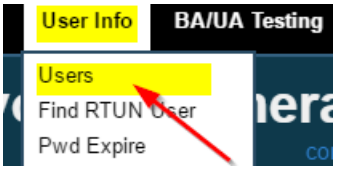

To modify a preset:

1. Go to **User Info >> User Presets**
2. Click on the pencil next to the preset to make changes
3. To apply changes to existing users click on the magnifying glass on the preset and then Apply Preset to Attached Users

User Permissions

Go to **User Info >> Users**

- **Usernames**: Use a standard format for defining all usernames, such as firstname.lastname, i.e. John.Doe. *Usernames are not case specific.*

- **Passwords**: It is important to set up passwords for all users. The login passwords grant access to the ReliaTrax system. The document passwords are for external emails. At the bottom of the page, you can turn the email function on.
- **Roles**: Each user is assigned a role within your ReliaTrax system (i.e. Admin, Receptionist, Counselor, Probation Officer, etc.). Each role is granted different access and permissions by default. These permissions can be fine-tuned.

ReliaTip: As a precaution, we recommend that SuperUsers are cautious in providing the permission to delete clients.

INTERNAL USERS

- **SuperUsers (LIMIT)**: **can set permissions for other users**. They can do, see, edit, and delete everything. They are the only ones who can add staff. They also can download Bar Graph data.
- **Administrators**: one step below a SuperUser. They can access the Admin Menu capabilities but cannot add new users
- **Counselor**: these users have the basic functionality for completing daily tasks at the agency (documentation, contracts)
- **Receptionist**: the most restricted access level for users that are doing more clerical duties

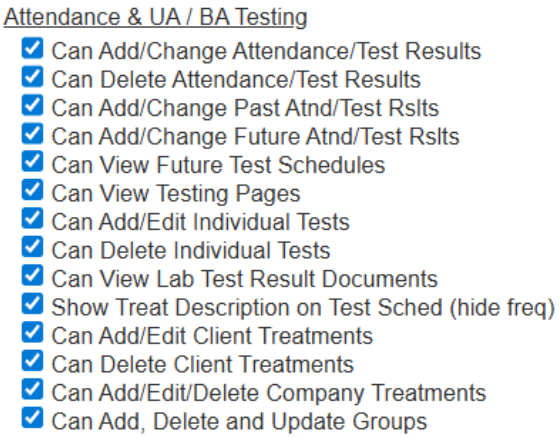

EXTERNAL USERS

Can see attendance and testing information, appointments, and documents that have been chosen to share. They can be given some basic editing functions.

ReliaTip: The indicator **LIMIT** below indicates a permission that ReliaTrax does not recommend giving to all users. A good rule of thumb is that any time we have a "Delete" capability, there is always another option to "Discharge". Taking away the Delete, takes away the opportunity for users to remove the record. They will still be able to discharge or modify.

ATTENDANCE & UA/BA TESTING

Permissions under this section give the user abilities to add, delete or modify any attendance.

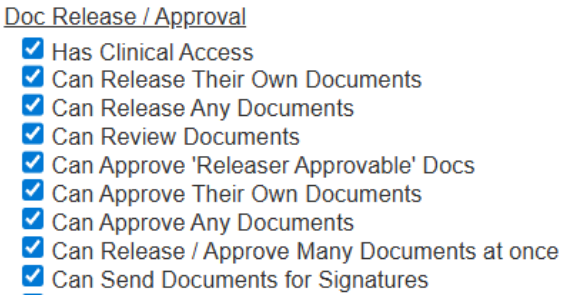

- **Can Add/Change Attendance/Test Results:** Can add attendance/test results and payment for the current day.
- **Can Delete Attendance/Test Results (LIMIT):** user will be able to ***delete*** attendance/test results and payments
- **Can Add/Change Past Atnd/Tst Rslts:** can add/modify any attendance/test results and/or payments from the past.
- **Can Add/Change Future Atnd/Tst Rslts:** can add/modify any future attendance/test results and payments. User will also be able to put in future excused absences with this permission.
- **Can View Future Test Schedules:** can see upcoming test schedules for clients. The user will be able to see what colors are being called for UAs and what animals are being called for BAs.
- **Can View Testing Pages:** user can view the pages on the BA/UA Testing menu in ReliaTrax. If this box is left unchecked, the user will not have access to the BA/UA Testing menu.

- **Can Add/Edit Individual Tests:** Can add a suspected use/individual UA/BA Test on the **BA/UA Testing >> Individual Tests** page
- **Can Delete Individual Tests:** Can delete a suspected use/individual UA/BA Test on the BA/UA Testing >> Individual Tests page
- **Can View Lab Result Documents:** Can view the lab test result pdf received from the UA/BA Test Lab
- **Show Treat Description on Test Sched (hide freq):** can see the treatment description and frequencies on the test schedule.
- **Can Add/Edit Client Treatments:** can add and/or edit individual or multiple client treatments to the client page
- **Can Delete Client Treatments (LIMIT):** can completely remove treatments from a client's page. ***Note:*** *deleting a treatment from a client's page will completely unenroll them from the treatment. It will remove all attendance and financial transactions for that client.*
- **Can Add/Edit/Delete Company Treatments (LIMIT):** user can add, change, or ***delete*** treatments for the entire agency. This can change things such as treatment costs, reporting NS's to probation, and/or deleting the treatment entirely.
- **Can Add, Delete and Update Groups (LIMIT):** user can add, change, or ***delete*** groups for the entire agency.

DOC RELEASE/APPROVAL

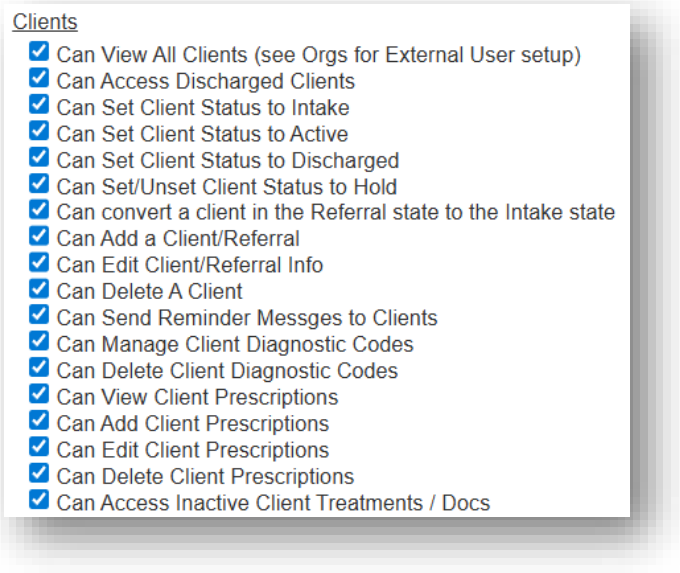

Permissions under this section give the user abilities to release and/or approve their own documents or all documents.

- **Has Clinical Access:** marks the user as a therapist and can then be selected to run any type of treatment.
- **Can Release Their Own Documents:** user will be able to release documents with them added as the counselor for approval.
- **Can Release Any Documents:** user will be able to release any counselor's documents to be approved.
- **Can Review Documents:** if there is someone who reviews documents before approval, this will create a "review" step/capability.
- **Can Approve 'Releaser Approvable' Docs:** On each template attached to a treatment, if designated "Releaser Approvable", this permission will allow those documents to be approved by releasers with this permission.
- **Can Approve Their Own Documents:** If the user has credentials to approve documents, they will be able to approve any documents with them listed as the counselor. This is the final step of the note writing process and puts the approver's electronic signature on the note.
- **Can Approve Any Documents:** If the user has credentials to approve document, they will be able to approve any counselor's documents.
- **Can Release/Approve Many Documents at Once:** User will be able to release and/or approve multiple documents at one time. This permission respects the release and approval permissions above.
- **Can Send Documents for Signature:** user will be able to send documents (PDFs) for approval and comments to internal/external users

CLIENTS

Permissions under this section allow the user to change the client status in ReliaTrax as well as edit client information.

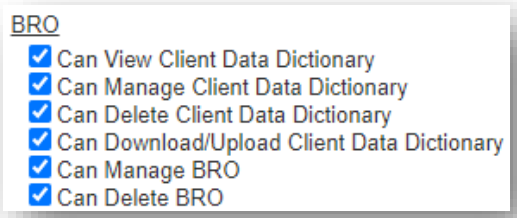

- **Can View All Clients:** Allows the user to see all clients regardless of if assigned to them;

  Uncheck this and use the  or attach the person to a treatment on the client page to grant access
- **Can Access Discharged Clients:** Allows user to access discharged clients in the system
- **Can Set Client Status to Intake:** user can place clients into the ***Intake*** state.
- **Can Set Client Status to Active:** user can place clients into the ***Active*** state. Clients must be ***Active*** to be checked in
- **Can Set Client Status to Discharged**: user can place clients into the ***Discharged*** state
- **Can Set/Unset Client Status to Hold:** user can place client on ***Hold*** status and can also remove them from ***Hold*** status. This status is useful for restricting clients who have high balances.
- **Can convert a client in Referral State to Intake State:** When a referral is created, user can convert the client from Referral state to Intake state.
- **Can Add a Client/Referral:** user can add a client to the system including adding them via a referral. Adding a client automatically places them in the Intake state or from the referral page, into the referral state.
- **Can Edit Client/Referral Info:** user can edit information such as address, phone, demographic information, etc.
- **Can Delete a Client (LIMIT):** user can remove clients from the system. Deleting a client will remove the client's entire record! ***WARNING*: once a client is deleted, it *CANNOT* be recovered. ReliaTrax backs up data continuously but deleted data will have to be manually re-entered. Limit this permission to as few users as possible.**
- **Can Send Reminder Messages to Clients:** user can send text or email reminders to clients.
- **Can Manage Client Diagnostic Codes:** users with this setting checked can manage client diagnostic codes including discharging them
- **Can Delete Client Diagnostic Codes (LIMIT):** users with this setting checked can delete client diagnostic codes.
- **Can View Client Prescriptions**: users with this setting checked can view client prescriptions
- **Can Add Client Prescriptions**: users can add prescriptions to a client
- **Can Edit Client Prescriptions**: users with this setting can discharge and edit prescriptions for a client including discharging them
- **Can Delete Client Prescriptions** (LIMIT): users with this setting checked can delete client prescriptions
- **Can Access Inactive Client Treatments/Docs:** Allows user to be able to see treatments on a client page that have been discharged and the documents associated with those treatments.

ReliaTip: Clients in Intake, Discharged and Hold, cannot have attendance or payments logged on their page.

BRO

Permissions under this section allow the user to view, manage, delete, and/or download client Data Dictionaries and BRO (Behavioral Reporting Organization).

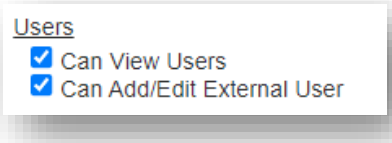

- **Can View Client Data Dictionary:** the ability to view the client Data Dictionary.
- **Can Manage Client Data Dictionary:** the ability to add/edit client data dictionary.
- **Can Delete Client Data Dictionary (LIMIT):** can delete a client's data dictionary.
- **Can Download Client Data Dictionary (LIMIT):** the ability to download the client data dictionary to send to reporting organizations.
- **Can Manage BRO (LIMIT):** the ability to activate and/or deactivate the BRO for the entire agency.
- **Can Delete BRO (LIMIT):** the ability to delete BROs for the entire agency.

ReliaTip: Some BRO's cannot be deleted. It may be specific to the BRO. We recommend limiting these permissions to as few users as possible.

USERS

Permissions under this section allow the user to add or edit external users.

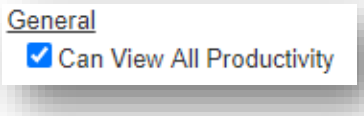

- **Can View Users**: Allows the user to access the **User Info >> Users** Page to see other users' names and contact information
- **Can Add/Edit External User**: user will be able to add external users, such as Probation Officers, to the system from the RTUN Portal or manually

GENERAL

Permissions under this section allow the user to see all user productivity.

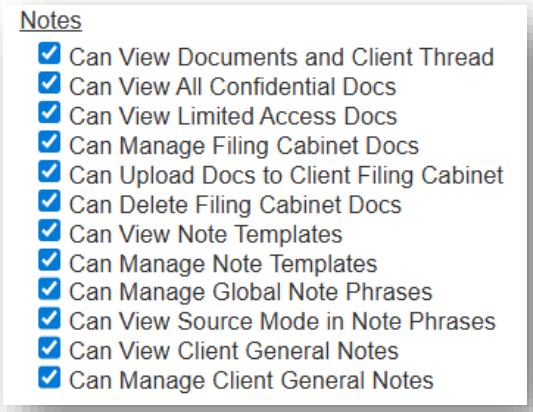

- **Can View All Productivity (LIMIT):** User will be able to view other individual's activity on the Counselor Activity Report. User will also be able to view the Session Note Summary, Treatment Plan Summary, Additional Document Summary, Additional Document 2 Summary, and missing or due documentation for other individuals.

NOTES

Permissions under this section gives users the ability to edit templates and phrase categories.

- **Can View Documents and Client Thread:** User can view documents in the archive and client thread fields; can see all documents marked as "General Access" on the treatment or in the client file
- **Can View All Confidential Docs (LIMIT):** User can see all confidential documents regardless of if they have been given permission to view the doc
- **Can View Limited Access Docs:** Can view all documents marked as "Limited Access" on the treatment or in the client file
- **Can Manage Filing Cabinet Docs:** User is able to change the name or category of a document in the client file
- **Can Upload Docs to the Client Filing Cabinet:** Allows user to upload to the client file
- **Can Delete Filing Cabinet Docs (LIMIT):** Allows user to delete the documents from a client's file
- **Can View Note Templates:** User is able to view the company templates in the template library

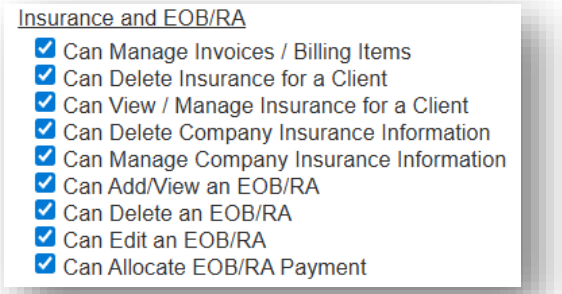

- **Can Manage Note Templates:** user can make changes to the templates in the template library.
- **Can Manage Global Note Phrases:** Users will be able to create and manage QuickNote phrases that can be used by everyone in the agency. *If unchecked, the user will only be able to create Private Phrase categories, which only appear for their specific login.*
- **Can View Source Mode in Note Phrases (LIMIT):** user can edit categories, subfolders, and phrases from HTML.
- **Can View Client General Notes:** Users with this setting checked can view client general notes
- **Can Manage Client General Notes:** Users with this setting checked can edit client general notes

INSURANCE AND EOB/RA

Permissions under this section allow the user to add, edit, or delete EOB/RAs from Insurers.

- **Can Manage Invoices/Billing Items (LIMIT):** can view and create insurance invoices and billing items, and view Explanation of Benefits and Accounts Receivable.
- Can Add Insurance to a Client: can view and add insurers to a client.
- **Can Delete Insurance for a Client (LIMIT):** can delete the insurance attached to a client.
- **Can View/Manage Insurance for a Client:** can make changes and manage the insurance and HCPCS codes that are attached to a client.
- **Can Delete Company Insurance Information (LIMIT):** can delete any insurers in the system.
- **Can Manage Company Insurance Information (LIMIT):** user will have the ability to make changes and manage insurers in the system.

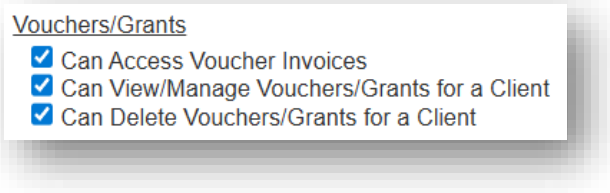

- **Can Add/View an EOB/RA (LIMIT):** can view all EOBs and upload or manually create an EOB/RA.
- **Can Delete an EOB/RA (LIMIT):** can remove any EOB/RA in the system.
- **Can Edit an EOB/RA (LIMIT):** Can make changes to the EOB and allows access to information stored on the sessions level umbrella 
- **Can Allocate EOB/RA Payment (LIMIT):** user will have the ability to reconcile and EOB/RA.

VOUCHERS/GRANTS

Permissions under this section allow the user to delete and/or manage vouchers and grants

- **Can Access Voucher Invoices**: Users with this setting checked can access voucher invoices and accounts receivable.
- **Can View/Manage Vouchers/Grants for a Client**: user can add and/or edit client vouchers/grants
- **Can Delete Vouchers/Grants for a Client:** user can delete client vouchers/grants

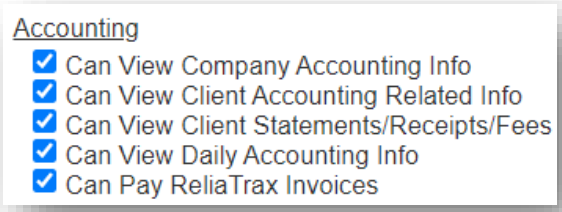

ACCOUNTING

Permissions under this section allow the user to view and generate company and client accounting reports and pay ReliaTrax invoices.

- **Can View Company Accounting Info:** Allows user to see weekly, monthly, and yearly accounting info, monthly projections for the entire agency and the top summary on the Counselor Activity Report.

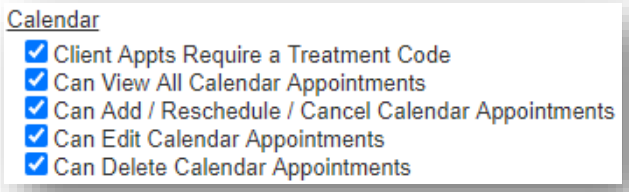

- **Can View Client Accounting Related Info:** user will be able to see the bottom details on the counselor activity report and can see clients that have balances.
- **Can View Client Statements/Receipts/Fees:** Can access to Session Summary and Treatment Summary icons on client pages, can print group statements and can see fees for services
- **Can View Daily Accounting Info:** user will have the ability to view and generate Daily Receipts Report. This can be used to balance the drawer at night.
- **Can Pay ReliaTrax Invoices:** Users will have the ability to view and pay ReliaTrax invoices.

CALENDAR

Permissions under this section allow the user to view, add, delete, and edit calendar appointments.

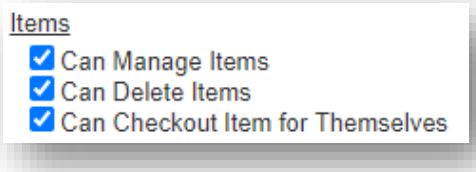

- **Client Appts Require a Treatment Code:** user will be required to link calendar appointments to a treatment on the client's page. *ReliaTrax requires a treatment code to place an ns and to send reminders.*
- **Can View All Calendar Appointments:** user will have the ability to view all appointments for the entire agency on the calendar.
- **Can Add/Reschedule/Cancel Calendar Appointments:** user will have the ability to add, reschedule or cancel any appointments on the calendar. This permission respects the calendar visibility permissions above.
- **Can Edit Calendar Appointments:** user will have the ability to edit any appointments on the calendar. This permission respects the calendar visibility permissions above.
- **Can Delete Calendar Appointments (LIMIT):** user will have the ability to delete any appointments on the calendar. This permission respects the calendar visibility permissions above.

ITEMS

Permissions under this section allow the users to manage, delete and checkout items on the client page. Removing these permissions will remove the items icon.

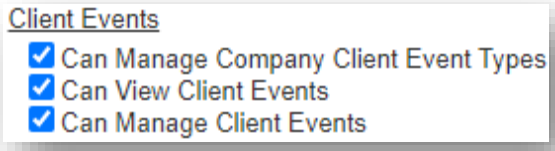

- **Can Manage Items (LIMIT):** users with this permission can MANAGE items.
- **Can Delete Items (LIMIT):** users with this permission can DELETE items.
- **Can Checkout Item for Themselves (LIMIT):** users with this permission can CHECK OUT items for themselves.

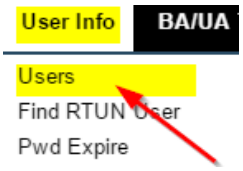

CLIENT EVENTS

Permissions under this section allow the user to manage company and client events and view events. This is done on the client page or under admin, client event types.

- **Can Manage Company Client Event Types:** users with this permission can ADD, EDIT, and **DELETE** client event types and values.
- **Can View Client Events:** users with this permission can VIEW client events.
- **Can Manage Client Events:** users with this permission can ADD, EDIT, and DELETE client events.

Entering Internal Users

Entering users can be done using the **User Info >> Users** menu at the top of the screen.

1. Click on the green plus sign to **Add a new User** at the bottom of your screen.

Selecting Permissions/Presets on the Right Side of the Screen

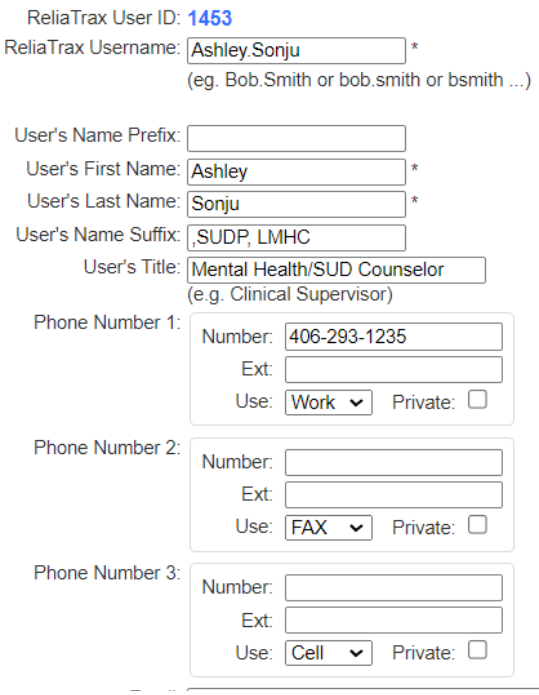

Using the steps above you can Create User Presets which then can be selected on the right side of the page.

If you do not select a preset, you will need to manually select permissions for each user.

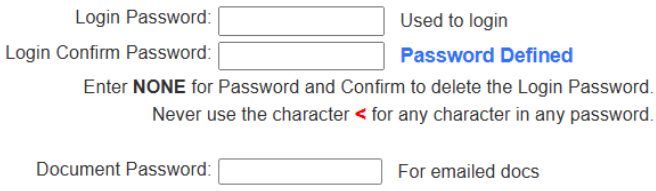

Left Side of the Add User Screen

1. Fill in all the fields marked by a *****. These fields are required.
2. You can enter user credentials in the **User's Name Suffix** field.
3. **Phone numbers** are optional but can be viewed by other users (if given permission) or can be embedded into documentation
4. **User email** is required for any communication about missing documentation.
5. **User Location** – can be used to document which office the staff member works from but is an optional field

> **ReliaTip:** You must be a SuperUser to add new users.

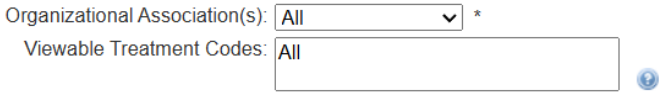

6. **Login passwords** require 7 characters, one capital letter, and a number.
7. **Document Password** – this is for adding a password to all documents going out of ReliaTrax from this user – must let external users know

8. Choose the **Office(s)** you would like the user to have access to:

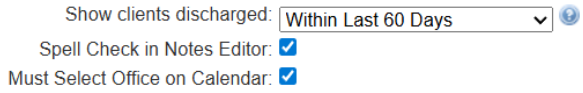

9. **Organizational Association**: this is used for external users to limit access
10. **Viewable Treatment Codes**: enter a range or a list of specific treatment codes that the counselor is able to see in the system

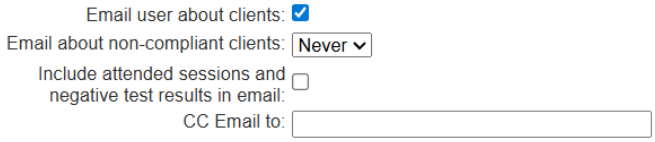

ReliaTip: The following permissions require "**All**" under "User Office Associations":

1. No Match Results
2. Insurance Invoices
3. Insurance EOBs/ERAs
4. Insurance Accounts Receivable
5. Voucher Invoices
6. Voucher Org Billing Codes
7. Voucher Accounts Receivable
8. Grants
9. Reports >> BRO Reports
10. Email Batch Queue

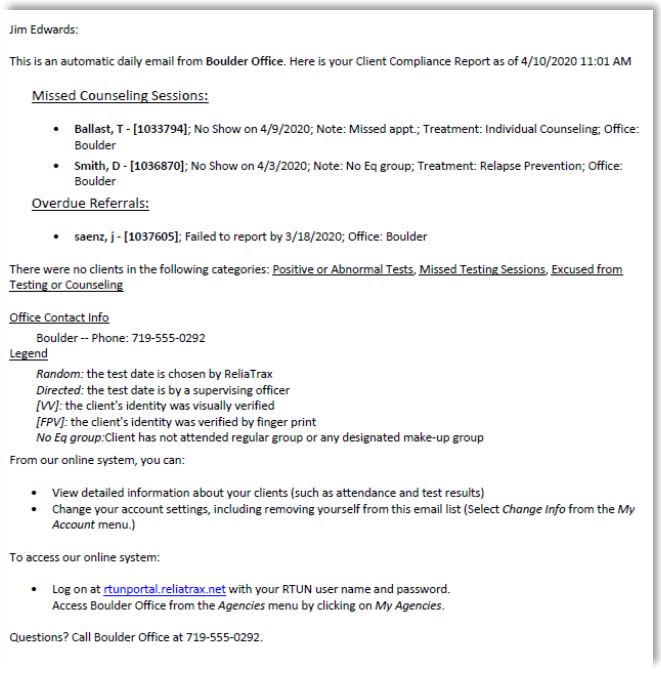

11. **Show clients discharged**: this is to set what the user sees by default on the **Client Info >> Clients** screen.
12. **Spell Check in Notes Editor:** use spell check
13. **Must Select Office on Calendar:** when scheduling appointments, require the counselor to select an office for each appointment

14. **Email user about clients**: check for daily emails about client compliance for clients linked to this user (on treatments or eyeball icon)

15. **Email about non-compliant clients**: Select daily for automatic daily emails (see below example)

Jim Edwards:

This is an automatic daily email from **Boulder Office**. Here is your Client Compliance Report as of 4/10/2020 11:01 AM

Missed Counseling Sessions:

- **Ballast, T - [1033794]**; No Show on 4/9/2020; Note: Missed appt.; Treatment: Individual Counseling; Office: Boulder
- **Smith, D - [1036870]**; No Show on 4/3/2020; Note: No Eq group; Treatment: Relapse Prevention; Office: Boulder

Overdue Referrals:

- **saenz, j - [1037605]**; Failed to report by 3/18/2020; Office: Boulder

There were no clients in the following categories: Positive or Abnormal Tests, Missed Testing Sessions, Excused from Testing or Counseling

Office Contact Info

Boulder -- Phone: 719-555-0292

Legend

Random: the test date is chosen by ReliaTrax
Directed: the test date is by a supervising officer
[VV]: the client's identity was visually verified
[FPV]: the client's identity was verified by finger print
*No Eq group:*Client has not attended regular group or any designated make-up group

From our online system, you can:

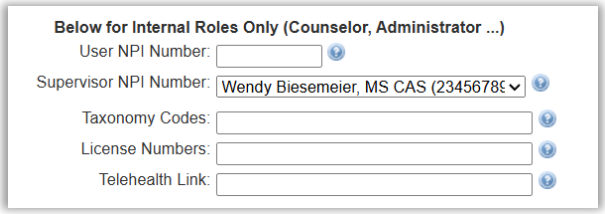

- View detailed information about your clients (such as attendance and test results)
- Change your account settings, including removing yourself from this email list (Select *Change Info* from the *My Account* menu.)

To access our online system:

- Log on at rtunportal.reliatrax.net with your RTUN user name and password.
  Access Boulder Office from the *Agencies* menu by clicking on *My Agencies*.

Questions? Call Boulder Office at 719-555-0292.

16. **Include attended sessions and negative test results in email**: If you want to send all attendance rather than just positive and no shows
17. **Provider and supervisor NPI's**/Taxonomy, License and Telehealth can be entered at the bottom of the page

Instructions for adding External Users (Probation, Case Workers, Etc.) Can be found here

Restricting Access & Managing Confidentiality

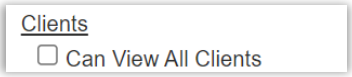

ReliaTrax has a few ways to restrict access including limiting access per office, document, client/caseload, or treatment range. These are outlined below.

Limiting Access by Client/Caseload

The most restrictive option is limiting access to only the clients a person works with. This is managed on the client level.

Using the Eyeball Icon

1. On the client page, using the  icon, scroll down to "Internal Assigned Users"
2. Click on "Add Internal Supervising User"
3. Attach any internal users working with the client and/or temporarily needing access to that client
4. Once you have assigned the internal users needing access to each client, go to **User Info >> Users** and click on the pencil next to the user that you would like to restrict access for
5. In the permissions list, unchecking "Can View All Clients" will restrict access to that user

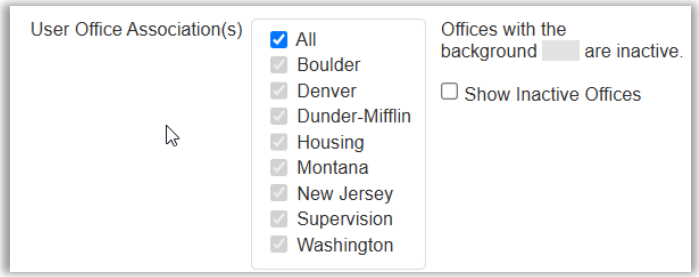

Using Treatments/Groups

You can also assign a staff member to a treatment or group on a client page/on the group page and if they are assigned to a client on a treatment/group, they will be able to see that client utilizing the same permission restriction listed above

Limiting Access Per Office

The next option is to **limit access to an office**.

This can be done under **User Info >> Users** >> clicking on the pencil next to the user and then selecting the offices that you would like that user to have access to (must be a superuser to change access)

- Some agencies choose to create a "Limited Access" office that they can put specific clients in and then take away access to that office by a certain staff member
- This can also be used for offices like "Supervision" or "Employee Files", granting access only to users that should be able to see the clients in those offices

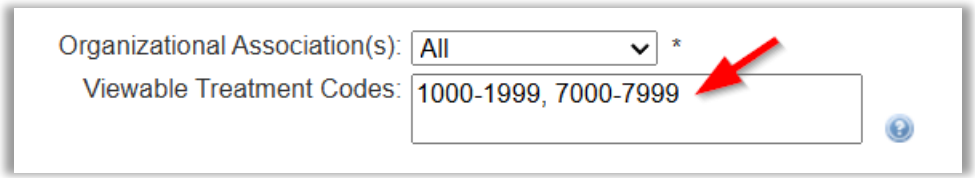

Restricting Treatment Ranges

If you want to make it so staff members can see clients but cannot see all of the services/documents on their page, you can use restricted treatment ranges.

If you look at your **Treats/Groups >> Treatments** you can see the number associated with each treatment

When you are setting up your **User Info >> Users >>**  and scroll down about halfway, on the left side of the screen there is a **"Viewable Treatment Codes"** section. Here you can enter specific codes, ranges, or enter "All" to be able to see all treatments on a client page.

Restricting access to a treatment also restricts access to all documentation associated with that treatment.

Confidential Documents

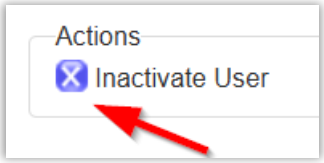

Another restriction that can be added is confidential documents. This allows you to setup certain documents or all documents as confidential viewable only to the creating user and anyone with the "Can View All Confidential Docs" permission

- Documents can be set to confidential by default when completed internally or in the client portal
- Documents can also specifically be set as confidential from the filing cabinet
- Users can be manually granted access to confidential documents from the filing cabinet as well

Offboarding Internal/External Users

When staff members or probation officers are no longer working at the agency or with clients, you will want to ensure that you remove access to your site. These instructions will walk you through this process.

1. Navigate to **User Info >> Users**
2. Search the user or click the pencil next to their name
3. In the top right hand corner, you can "Inactivate User"

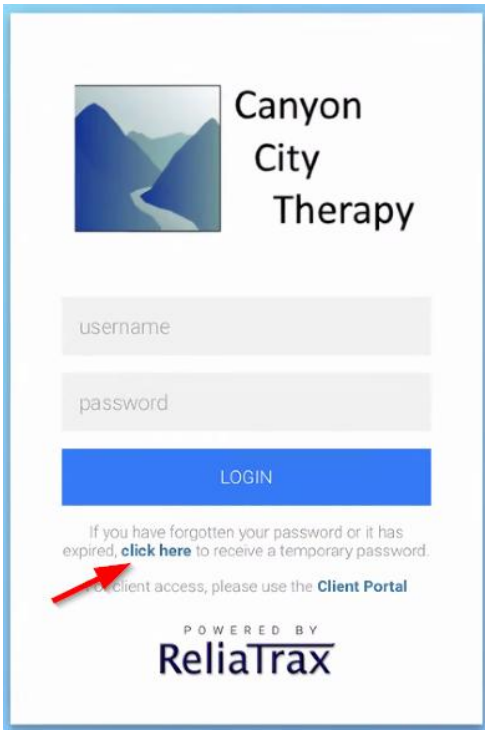

For transferring a caseload prior to inactivating an external user, click here

Login Issues

Internal and External Users may report issues with logging into your site for the first time. Here are some things you may want to consider in resolving these issues:

- The user is trying to login to the wrong site – have them check their URL
    - Error that will display: Unknown Username
- The user forgot their password – click on "Click Here" under the login button to reset your password

Adding A Company Treatment

Agency treatments (a.k.a. services) can be found under **Treats/Groups >> Treatments**. This is different from groups which is outlined in the next section.

1. Go to **Treats/Groups >> Treatments**
2. Look at the codes you are already using and decide what you would like this new treatment code to be
   - **Treatment Code**: Use a code that you have not already used. Look at the treatment code ranges to place the treatment into the correct category.

> **ReliaTip:** Treatment codes are used for internal sorting/reporting purposes only. These are not your billing codes.

3. Click on 

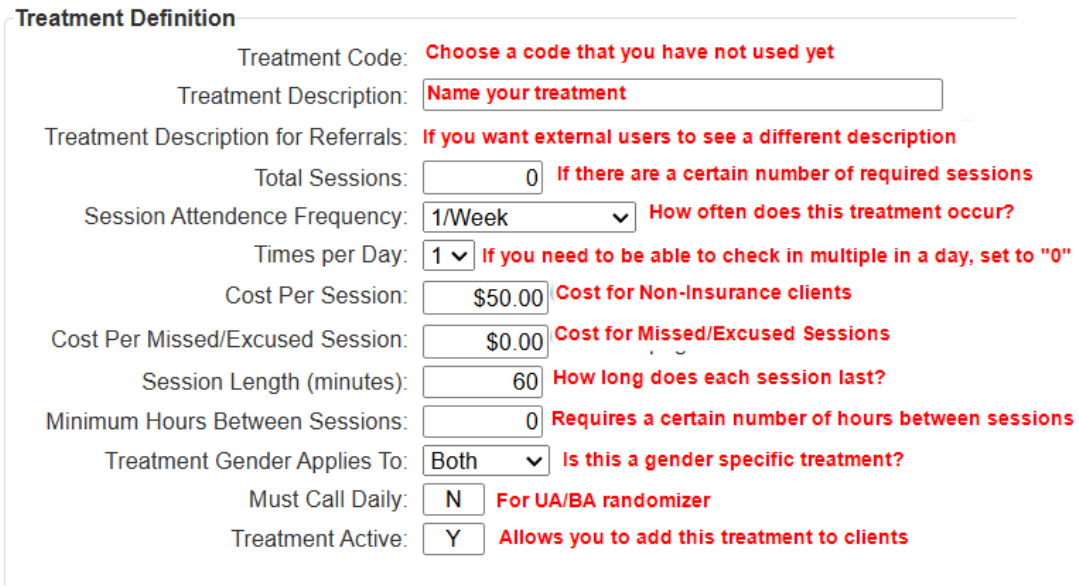

Notes:

Treatment Code Ranges

Range	Type	Description
0..999	AC	Accounting **
1000..1999	DA	Drugs and Alcohol
2000..2999	DV	Domestic Violence
3000..3999	VE	VE/Cognitive Restruct
4000..4999	AM	Anger Management
5000..5999	SO	Sex Offense
6000..6099	TE	Testing - BA
6100..6199	TE	Testing - UA/SA
6200..6299	TE	Testing - Other
6400..6499	TE	Polygraph
6500..6599	TE	OSM Events
6600..6699	AT	Assessment Tools
7000..7999	MI	Miscellaneous
8000..8999	PR	Private Clients
9000..9999	EV	Evaluations
10000..10999	MH	Mental Health
11000..11999	MD	Medical
12000..12999	MA	MAT Services
13000..13999	CO	Co-occurring
14000..14999	PH	Psychiatric
15000..15999	PS	Peer Services
19000..19999	RX	Medication Administration
20000..20999	SS	Support Services
25000..25999	VS	Veteran Services
26000..26999	VI	Victim Services
30000..30999	RE	Residential
31000..31999	TC	Time Clock In/Out
35000..35999	CM	Case Management
37000..37999	RT	Restoration
50000..50999	TR	Transportation
98000..98999	SU	Supervision
99000..99999	AD	Administrative

Describe the Type of Treatment

The top of the Add a New Treatment page is where you setup the parameters for your treatment.

Assign Treatment Settings

Groups

Has Groups:	N	If "Y" if it will have groups, "N" if not a group treatment
Group Length (minutes) Must Match:	Y	Requires group and treatment to have the same duration
Group Freq Must Match:	Y	Choose a frequency (if group, should match your group)
Can Attend Equivalent Groups:	N	If "Y", allows clients to do a makeup group
Double Group Sessions allowed:	N	This allows for a check-in twice in one day for a client
Can Float between Groups:	N	Allows the client to attend any group instead of an assigned group
Auto Check Into Group:	N	This is usually set at "N"; will check group in automatically

Visibility

Show On Referral Page:	Y	"Y" will allow external users to make a referral to this treatment
Show To External Users (PO's):	Y	"Y" will allow external users to view attendance for this treatment
Show on Progress Report:	Y	"Y" will show this treatment/attendance on progress reports
Show On Client Portal:	N	"Y" will show this treatment/attendance on client portal

Notify External Users

Notify If Missed or Positive:	N	"Y" will include Missed/Positive on automatic daily emails
Notify If Attended or Negative:	N	"Y" will include Attended/Negative on automatic daily emails
Notify If Excused or da:	N	"Y" will include Excused Sessions on automatic daily emails

Billing

Bill If Session Missed:	N	"Y" will bill clients for missed sessions
Bill If Excused or da:	N	"Y" will bill clients for excused/documented absence sessions

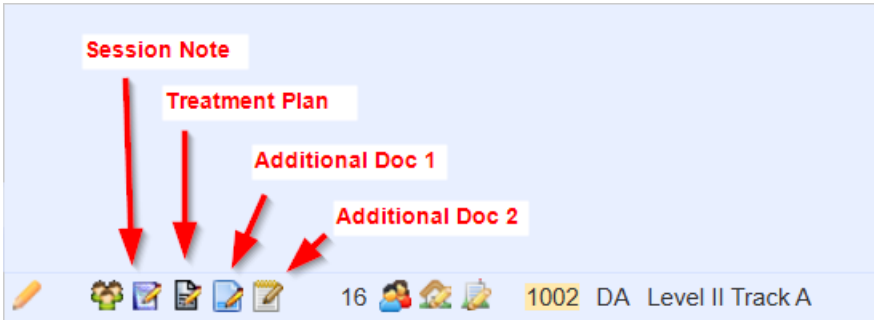

Misc.

Session Alerts if No Counselor:	Y	"Y" will require counselor/group to be attached to Treatment
Default To Check-In Counselor:	N	"Y" will use check-in staff to attached to session

****Below this point is where you set up the treatment documentation (outlined below). If you are still in the Onboarding process, you can likely save your page here and documentation will be completed at a future session with a ReliaTrax team member.**

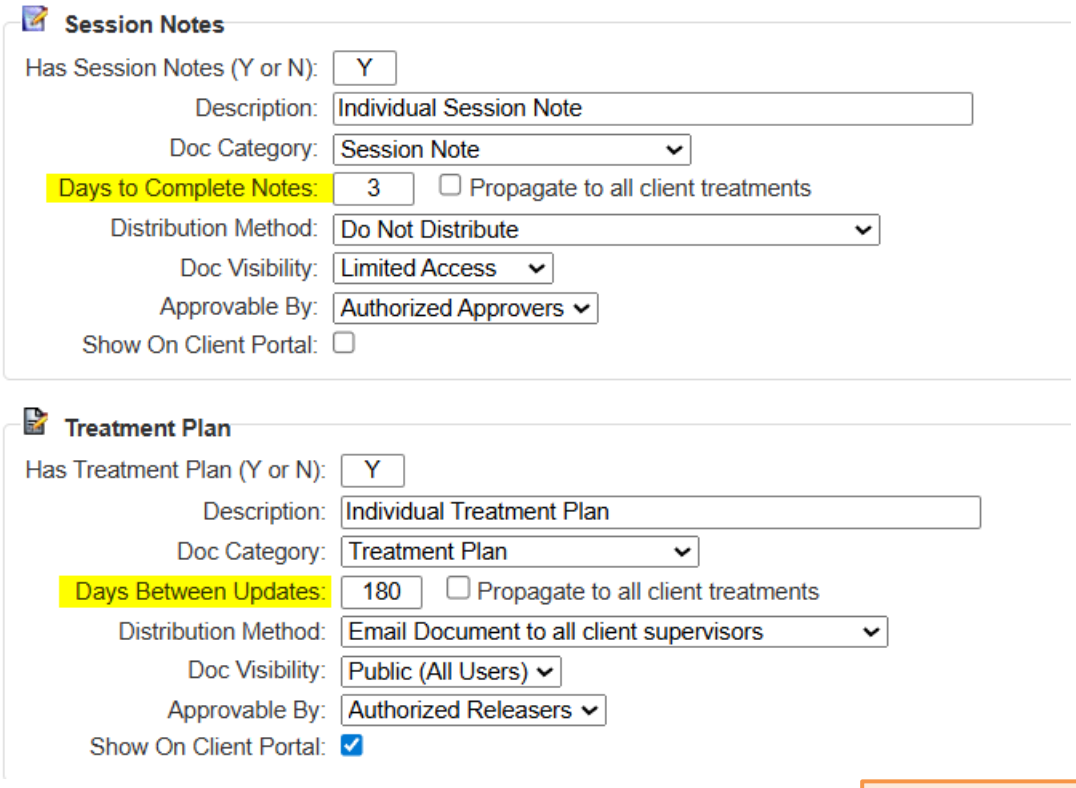

Setting up Documents on your Treatments

There are four document spots available on each treatment: *Session Notes, Treatment Plans, Additional Doc 1 and Additional Doc 2*. These are merely the names of the icons, not necessarily the document/packets you may place in each spot.

Managing the Document Settings

For each treatment, you will have 4 document types as outlined above. While most of the settings are the same, there is one setting that differs:

1. Activate the template by placing a **Y** at the top of the box.
2. Type a description in the next field.
3. Select a category for the Template.
4. **Days to Complete Notes:** You can define a due date for counselors to complete **session notes**. These create automated emails that go

ReliaTip: Clicking "Propagate to all client treatments" will set all clients to have the "days between updates"

out reminding counselors of upcoming/out of date notes and cause the notes to show up on their dashboard.

5. **Days Between Updates:** This allows you to set a number of days when you would like counselors to get reminded to update the document. This will show up on the counselor/staff dashboard as well.

- **Distribution Method**:
  a. **Do Not Distribute** the document to external users such as probation. The document is only available for internal users.
  b. **Email Document to all client supervisors**: Emails the document as a PDF attachment (password protected optional) to external users.
  c. **Email Notification to all client supervisors**: Sends a notification email to external users that a document is available online.
  d. **Email Approval Requests to all client supervisors**: Sends a notification email to external users that a document requiring their approval is available online. Once users have approved the document their electronic signature will be added to the bottom of the document.
  e. **Include Comments in Progress Report**: Includes comments directly in the Recent Activity section of the Progress Report. The document must be Released and Approved before the Progress Report is generated with the comments included.
  f. **Attach to Progress Report**: Attaches the document to the Progress Report. The document must be Released and Approved before the Progress Report is generated with the document attached.

> **ReliaTip:** If **Days to Complete Notes** is set to 3, the "ticker" begins the day of group, not the day after.

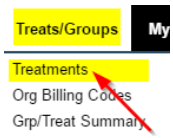

- **Doc Visibility**
  a. Public – viewable by internal and external users
  b. General – viewable by all internal users with permission to view clinical documents
  c. Limited – viewable by all internal users with permission to view "limited access" documents
  d. Confidential – viewable by all internal users that are granted permission or who have permission to view all confidential documents
- **Approvable By:**
  a. Authorized Approvers – must have permission to release/approve to approve this document
  b. Authorized Releasers – must have permission to release to approve this document
  c. All Internal Users – no permissions for release/approve required to approve this document
- **Show on Client Portal** – when available, this will allow a document to be viewable to the client in the client portal upon approval in their archive

Attaching a Template to a Treatment

Once you have activated the template ability on the Treatment edit screen (step 1 above), you can attach a specific template form. This is the form QuickNotes will auto populate when you do your notes.

> **ReliaTip:** Ask ReliaTrax staff about templates we have on file, we are happy to share.

To attach your templates:

1. Scroll across the top navigation bar to **Treats/ Groups** >> **Treatments.**
2. If the note has been turned on icons (see below) will appear next to the treatment name.
3. Icons still waiting to have notes attached appear "ghosted" out or lighter. Click on each icon to attach a note.

4. Select the template you would like to use in that spot and make sure to click "Submit"

5. After notes are attached the icons appear darker.

Making Changes to a Treatment

1. Go to **Treats/Groups >> Treatments**
2. Click on the pencil

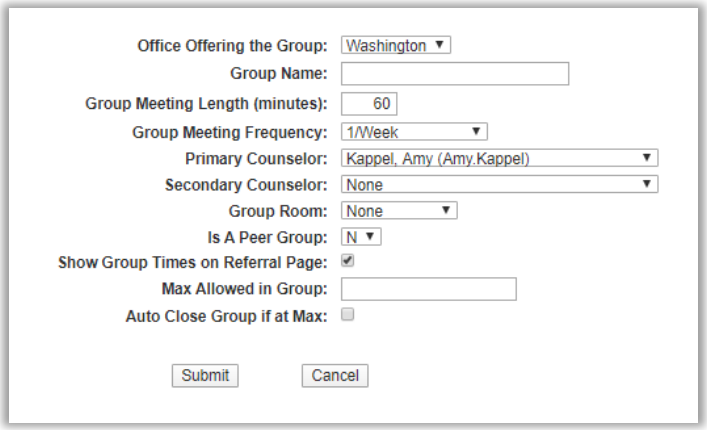

3. Make the necessary changes
4. Click Submit

Click here to see instructions for changing the documentation attached to treatments

Adding a New Group

1. Go to **Treats/Groups >> Groups**
2. Click on 

3. Set up the Group
   a) **Office Offering the Group**: Choose the office where the group will take place
   b) **Group Name**: Give the group a name (i.e. Monday 3pm IOP)
   c) **Group Meeting Length (minutes)**: set the duration of the group.
   d) **Group Meeting Frequency**: set the frequency of the group (i.e. 1/week)
   e) **Primary Counselor**: this is the primary counselor conducting the group
   f) **Secondary Counselor**: if there is a secondary counselor they can be listed here.
   g) **Group Room**: This designates where the group is taking place
   h) **Is a Peer Group**: This will label the group as a peer group for tracking purposes.
   i) **Show Group Times on Referral Page**: This will show external users the times of the groups so they can refer directly to those groups/times.
   j) **Max Allowed in Group**: This puts a cap on the number of clients who can be added to the roster of a group
   k) **Auto Close Group if at Max**: This will prevent clients from being added to the roster once the maximum number of clients have been added to the group

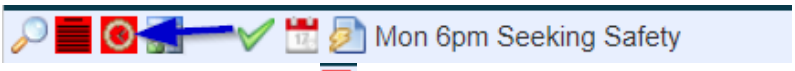

ReliaTip: You will need to have a treatment that is set up with the same duration and frequency to be able to use this group.

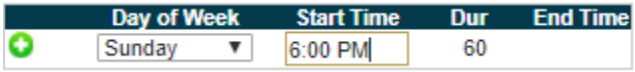

Attaching Times/Treatments to the Group

Now that you have added the group, you will need to set the time and Treatment to be attached to the group.

1. Go to **Treats/Groups >> Groups** page

2. **To Attach the Time** - add the day(s) of the week the group takes place as well as time.

3. **To Attach the Treatment** - Choose from the drop-down the treatment that you want this group to be attached to.

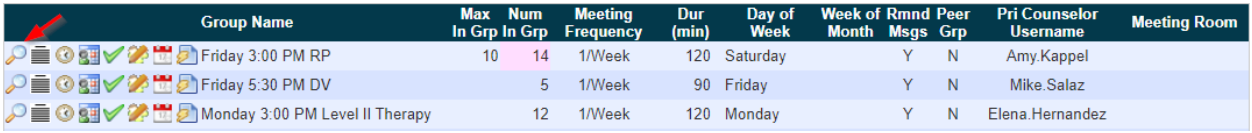

ReliaTip: Don't see the treatment you are looking for? Make sure the duration and frequency of the group match the duration and frequency on the treatment.

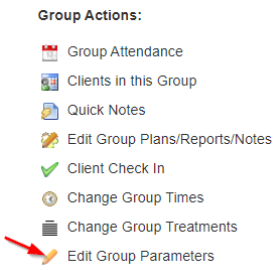

Making Changes to a Group

Wanting to make changes to an already existing group? You can change the primary counselor, time, day, and more on the Groups page.

1. Go to **Treats/Groups >> Groups**
2. Click on the magnifying glass next to the group you would like to make changes to
3. Click on the pencil to edit

Group Name	Max In Grp	Num In Grp	Meeting Frequency	Dur (min)	Day of Week	Week of Month	Rmnd Msgs	Peer Grp	Pri Counselor Username	Meeting Room
Friday 3:00 PM RP	10	14	1/Week	120	Saturday		Y	N	Amy.Kappel	
Friday 5:30 PM DV		5	1/Week	90	Friday		Y	N	Mike.Salaz	
Monday 3:00 PM Level II Therapy		12	1/Week	120	Monday		Y	N	Elena.Hernandez	

ReliaTip: You must create a new group to change the duration or frequency of a group. You cannot do this on the group edit page.

4. Make any changes and click "Submit"

Chapter 9 will walk you through how to add treatments/groups to your agency

Chapter 5 will provide more information on group types

Managing Company Programs

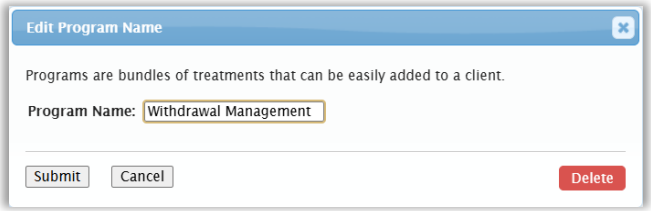

Programs are used to group multiple treatments together so they can be added to a client page with ease.

Agencies often use programs for the various programs they offer (i.e. Domestic Violence Program, Mental Health Program, Substance Use Program).

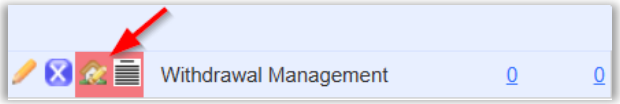

Building Company Programs

The first step in using programs is building your company programs which is completed under **Admin >> Programs.**

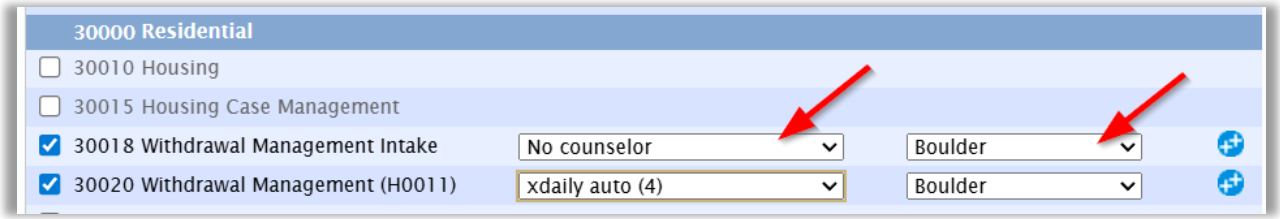

4. Navigate to **Admin >> Programs**
5. Click to **"Add Agency Program"**
6. Enter a name for your program and click submit

7. Add the offices that this program is available to

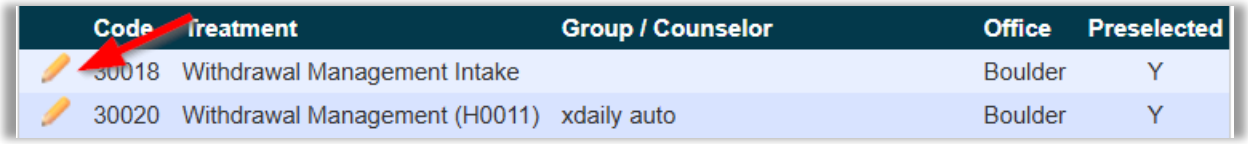

8. Next assign the treatments to the program 

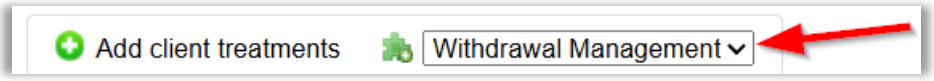

- If you have a default group, counselor, or office for these services you can select them here
- Use the blue  to add multiple of the same treatment to a program (i.e. multiple group treatments) as needed.

9. Adjust whether this treatment is preselected by default by using the pencil

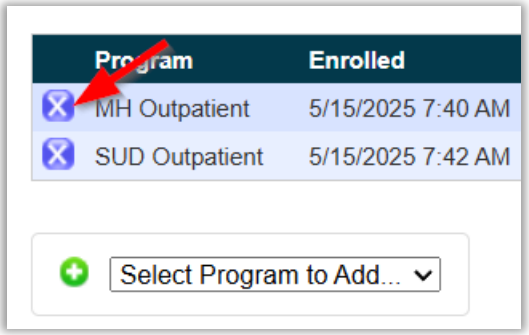

Adding/Managing a Program to a Client

On a client's page, programs are added just like treatments at the bottom of the screen:

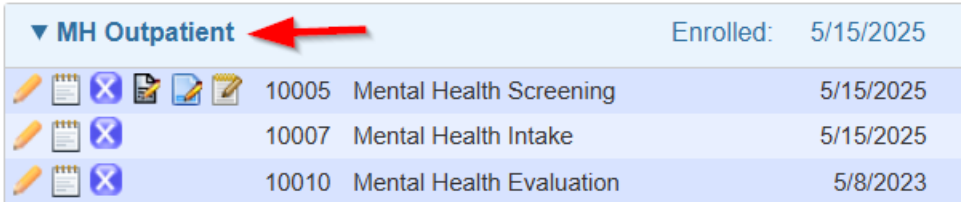

To manage programs on a client's page, you can also use the  icon.

You can also add and discharge programs from this screen:

Programs will display in their own grouping at the bottom of the client page that can be collapsed and expanded as needed

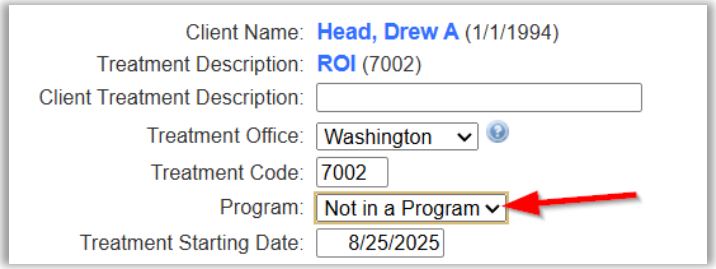

Moving and Adding Single Treatments to a Program

You can also add treatments to a program from the "Add client treatments" menu on the client screen using the drop-down at the top.

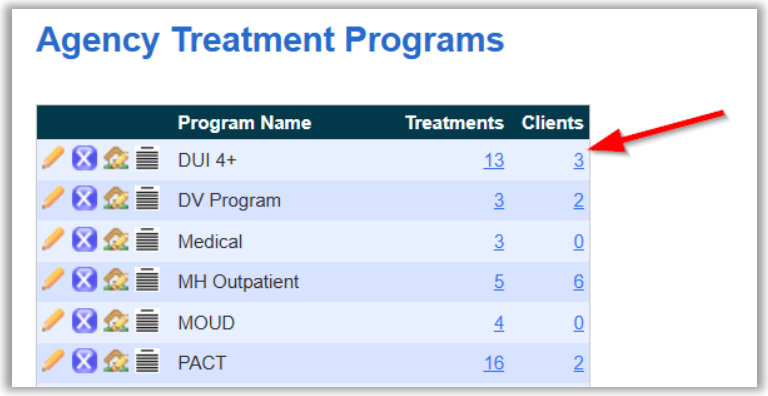

Or on an existing client treatment on the client page by clicking on the pencil and selecting a program

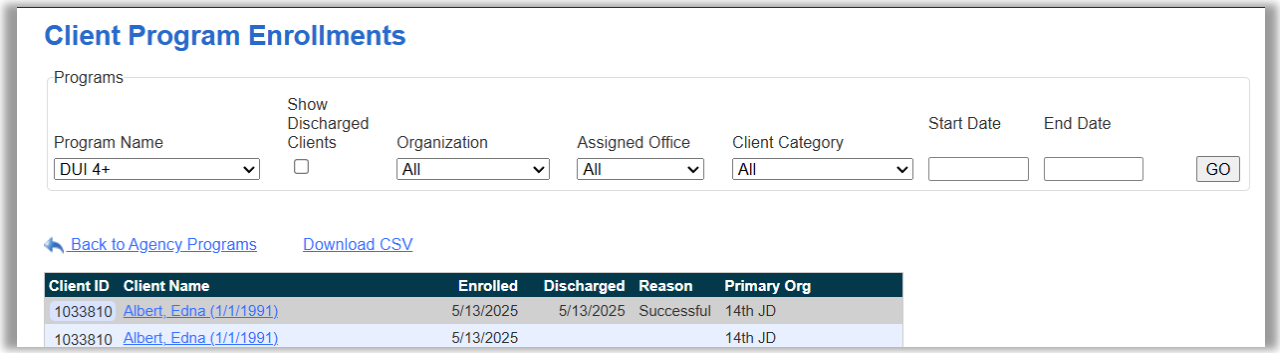

Running Program Reports

Running reports on Programs can be done from the programs page.

1. Navigate to **Admin >> Programs**
2. Click the number next to the program under the “Clients” heading

3. From here you have various search parameters and Download options

Behavioral Reporting Organizations (BRO)

What is a BRO?

A BRO is a Behavioral Reporting Organization. This feature is used to report data collected in ReliaTrax to another entity. For each state, the BRO and receiving entity are different (i.e. Salish and MCO>>WA, DVOMB>> CO, MOTS>>OR etc.)

1. To get started using the BRO, contact ReliaTrax.
2. The deactivate icon will turn off the BRO. This will prevent you from editing a new or existing data dictionary. *Note: ReliaTrax recommends limiting permissions that allow managing, deleting and downloading the BRO or data dictionary.*

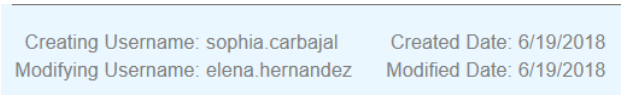

***To set up your system to automatically send BRO data, contact someone on our team.**

ReliaTip: Managing and deleting BRO's are permissions.

The Data Dictionary

To turn on the BRO, you must enter the client's home state when entering their information in the **Edit Client Info Details** page. Information added on the **Edit Client Info Details** page will autofill the demographics tab in the data dictionary (not vice versa).

1. The BRO icon will appear on the client's icon bar.
2. Click on the BRO icon .
3. Select the desired BRO from the dropdown menu and then click on the green plus icon to add the BRO.
4. Next, select the Data Dictionary icon.
5. Use the pencil icon to edit the client's demographic information and address.
6. Use the green plus icon to add new tabs in the data dictionary.
7. You will not be able to move on to the next tab in the Data Dictionary until all required fields are completed in the current tab.
8. Use the pencil icon to edit a submitted tab in the data dictionary.
9. You can delete the data dictionary transaction by click on the red minus sign.
10. ReliaTrax will display the creating and modifying usernames as well as the date it was created and/or modified.
11. ReliaTrax will automatically download the data dictionary each day which you can see under **Admin** and down to **BROs**. Click on the **View BRO Downloads/Uploads** icon .

12. Click on the magnifying glass to the left to see the data that was sent

ReliaTip: If you are seeing "No BRO to Add" make sure the client has an address entered on their page. If the "DD" is greyed out, make sure they are in **"active"** status.

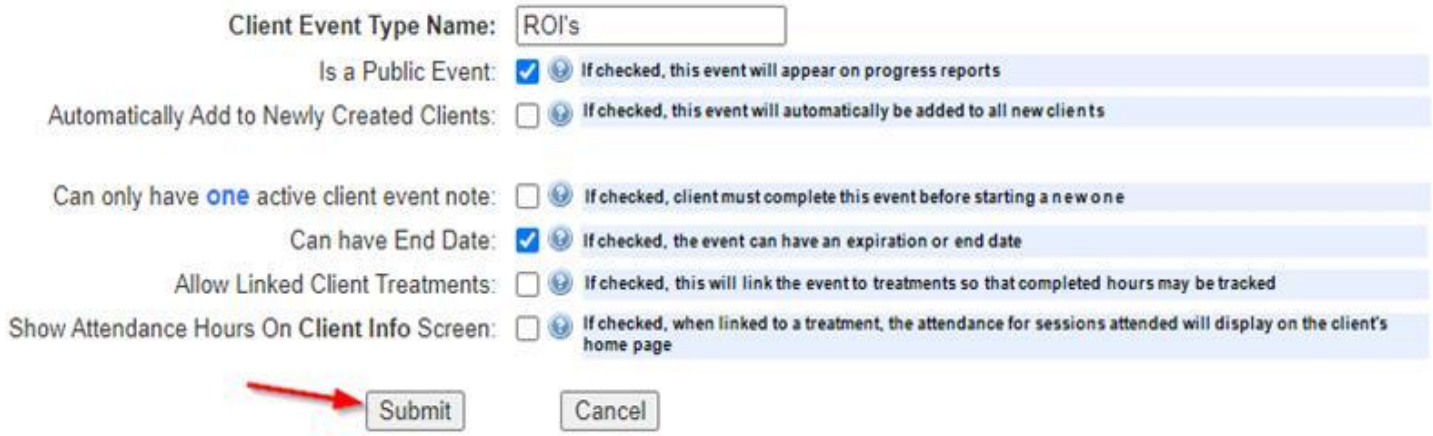

More information on Specific BRO's can be found on the Reliatrax help site or below:

1. Colorado BRO (DVOMB)
2. Oregon BRO (MOTS)
3. Washington MCO BRO and ASO BRO

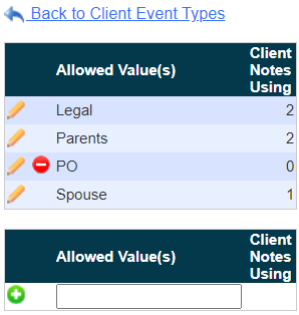

Adding Client Events to Your Site

1. Before you can add **Client Events** to a client you must first define event types.
2. Scroll across the top navigation bar to **Admin** and down to **Client Event Types.**

3. Click on the Add a new Client Event Type, to add a new event type.

4. Click on the next to the event type  to add possible values for the client events.
5. Click on the green plus sign to add the specific event values. See figure:

Visit Chapter 3 to see how to add a Client Event to a Client's Page.

See Appendix K for Client Event Tracking for Medication, ROIs, Treatment Hours and DV Safety Plans

Running Client Event Reports

Client event reports can be found under **Reports >> Client Event Reports**

1. **Client Events –** Allows you to see all client events per office
2. **Expired Events** – Allows you to see all client events that have reached the end date, if designated
3. **Completed Hours Events** – Allows you to see events that have hours required that are nearing completion
4. **Linked Session Times** – Allows you to see events that have been linked to treatments so you can see the sessions for those treatments per client

Counselor Activity Report

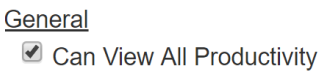

A report of counselor activity can be generated in this section. This report will give users a wide range of productivity information.

Permissions Associated with Counselor Activity Reports

Users can always view a summary of their own activity. However, depending on their permissions, their view of their activity can be limited. The following permissions can be customized per user to limit or expand what they can see:

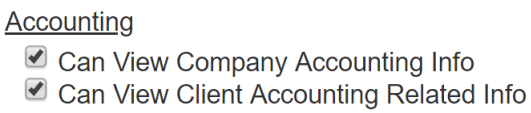

General Permissions:

- **Can View All Productivity**: This permission will allow the user to view all of the counselors in the agency on the activity report.

Accounting Permissions: With the following permissions granted to the user, they will be able to view accounting information related to counselors.

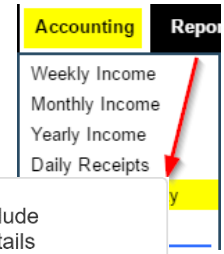

- **Can View Company Accounting Info**: This permission will allow the user to generate the report and view accounting information but only information related to the agency itself.
- **Can View Client Accounting Related Info**: This permission will allow the user to generate the report and view accounting information but only information related to clients.

Generating the Counselor Activity Reports

ReliaTip: Turning on all of the permissions above will give the user the ability to see a full summary of ALL counselor activity in addition to other document and accounting reports.

1. Scroll across to top navigation bar to **Accounting**, click on **Counselor Activity.**
2. You can elect to view activity by counselor, date, and/or office. If you do not specify a view, the activity displayed on the report will default to a summary of all counselors, the current month and all treatment offices.
3. Click **Go** to run the summary.

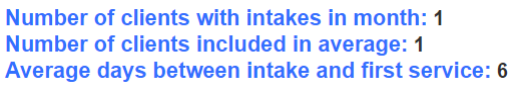

4. The summary will generate. To print the summary, click on the **Print This Page** button and it will automatically pop up the print menu.

5. For a more detailed view of this report, click on the Download Details csv
6. For more information how to navigate the detailed counselor activity report, click on the Details csv Info

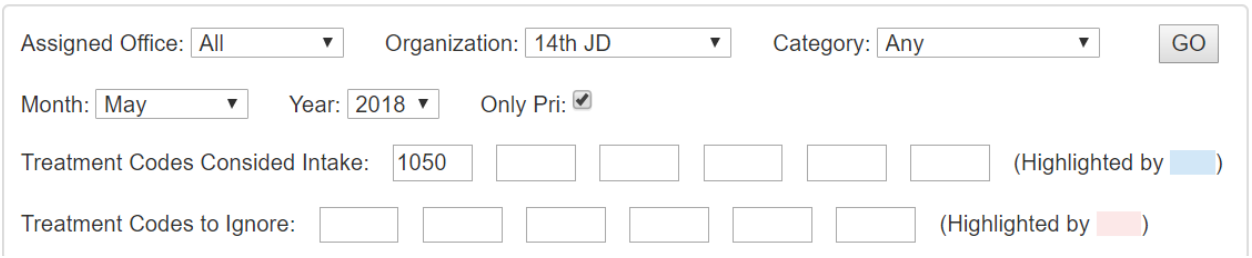

Monthly Summary Report

This report tells you the time it took for a client to go from intake into services. It also gives information about the number of intakes in a month.

1. Go to **Reports >> Organization Reports >> Monthly Summary**
2. Select an organization from the dropdown menu.

3. Select the month and year from the corresponding dropdown menus.
4. If the **Only Pri** checkbox is checked, it only searches for clients that have the chosen organization listed as primary.
5. Enter Intake Treatment Codes in the boxes next to **Treatment Codes Considered Intake**.
6. Enter treatment codes to ignore in the boxes next to **Treatment Codes to Ignore**. These codes can be left blank.
7. Click **Go.**

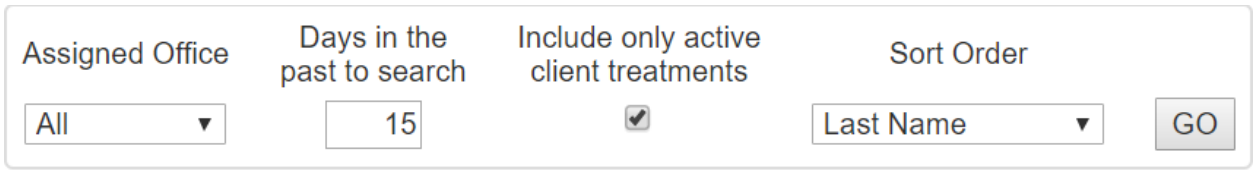

Inactive Clients Report

This report lists the clients that have not attended a session in the specified number of days. This can be sorted per office.

1. Go to **Reports >> Client Reports >> Inactive Clients**.
2. Choose an office from the dropdown menu.
3. Enter the Days in the past to search in the provided box.
4. Checking the **Include only active client treatments** checkbox will list clients that have active treatments.
5. You can choose how to order your report using the **Sort Order** dropdown menu.
6. Click **Go**.

ReliaTip: Run this report periodically to avoid paying a higher rate for clients that should have been discharged.

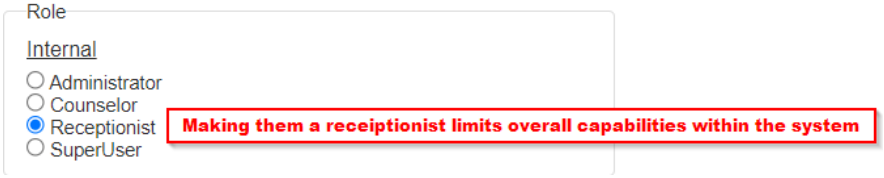

7. You can create and download a CSV report by clicking on the Create CSV Report link.

Setting Up for an Audit

You can set up a login for an auditor with reduced access to make your next audit easier than ever. You must be a SuperUser to complete this task!

Create a Login for the Auditor

1. Scroll across the black toolbar to **User Info >> Users**
2. Click on the green plus to Add a New User
3. On the right side of the screen, assign your auditor an internal Receptionist user role.

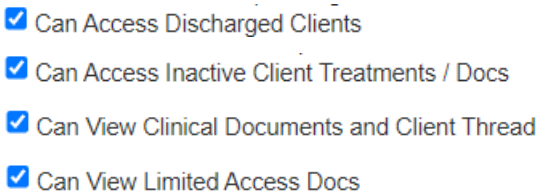

4. Enter a username, the first and last name, and email (can do a@b.com)
5. Create a password
   (*Passwords must be 8 characters or more, contain a Capital letter and a number).*
6. Identify permissions for the user (See Below for Recommended Permissions)
7. If you want to limit access to specific clients only, be sure that "Can View All Clients" is unchecked.
8. You can limit their office association if they only need access to clients in a certain location

Recommended User Permission for Auditor

The following permissions are generally needed/recommended for a typical audit:

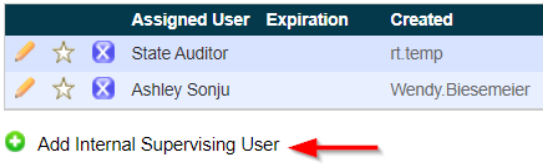

Assign Clients to the Auditor User

You may know which client files are going to be audited and want to grant access to these clients ONLY:

1. Go to the client page
2. Click on the 
3. Click on "Add Internal Supervising User"
4. Add the newly created Auditor to the client

Internal Assigned Users

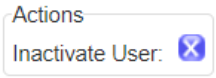

5. Add an expiration date to automatically remove access to that client after a certain date
6. Once all clients have been added to the Auditor, you can provide the Auditor their login and they will be able to login and see just those clients

After-Audit Steps

Once the auditor has completed their tasks in the system, you can remove their access

1. Go to User Info >> Users

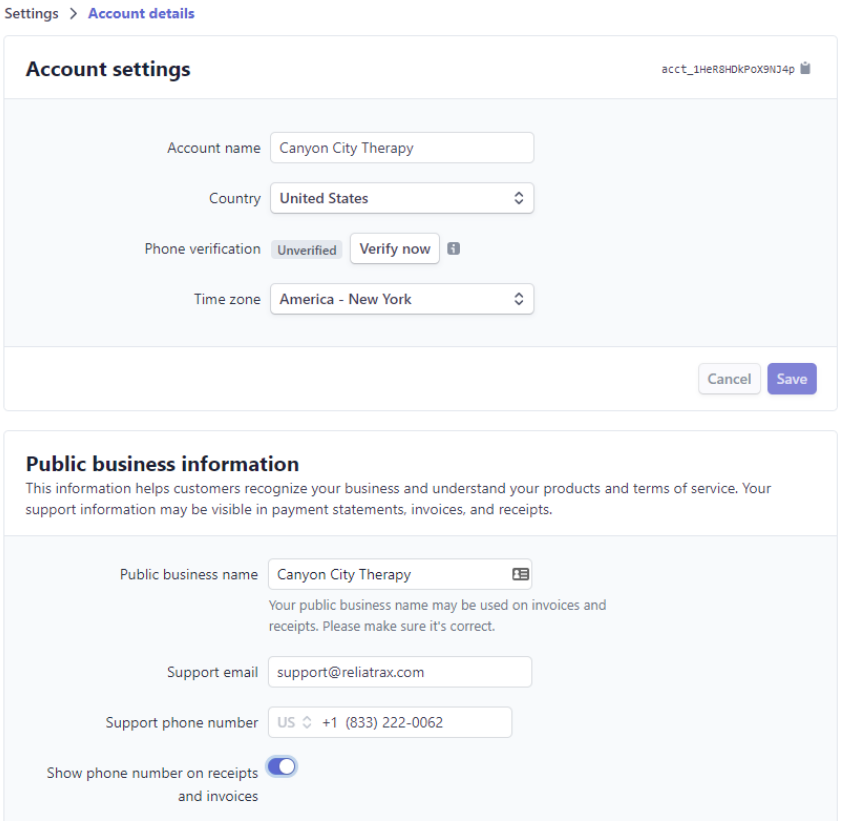

2. Use the search bar to find the auditor from the users list and click on the  to edit
3. In the top right, click on “Inactivate User” to deactivate the profile

Stripe for Client Credit Card Payments

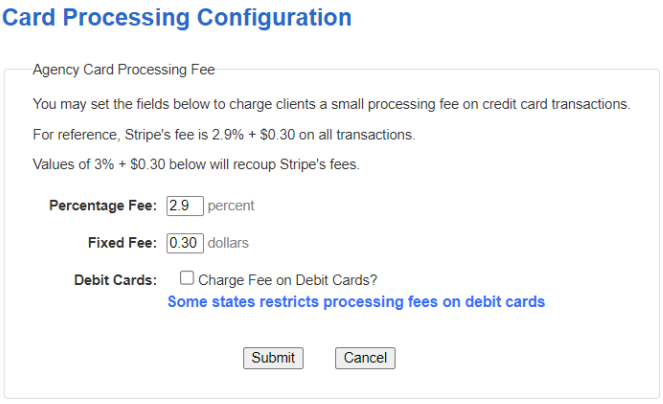

ReliaTrax is integrated with Stripe to allow you to take credit card payments from the system. To set up your account, contact your ReliaTrax representative for a link to create an account or for help with linking a pre-existing account. These instructions will help you to setup some important settings in Stripe:

Under **Settings >> Business Settings >> Account Details** make sure your "Public Business Name" reads with your Company Name.

Passing the Credit Card Processing Fee to the Client

If you would like to setup your Stripe account to pass the credit card processing fee to the client, this is done under **Admin >> Card Processing Config.**

Paying Your ReliaTrax Bill

You can pay your ReliaTrax bill in ReliaTrax with a few clicks.

1. Go to **Accounting >> Pay ReliaTrax Invoice**
2. Click on "Pay"

3. Click on 

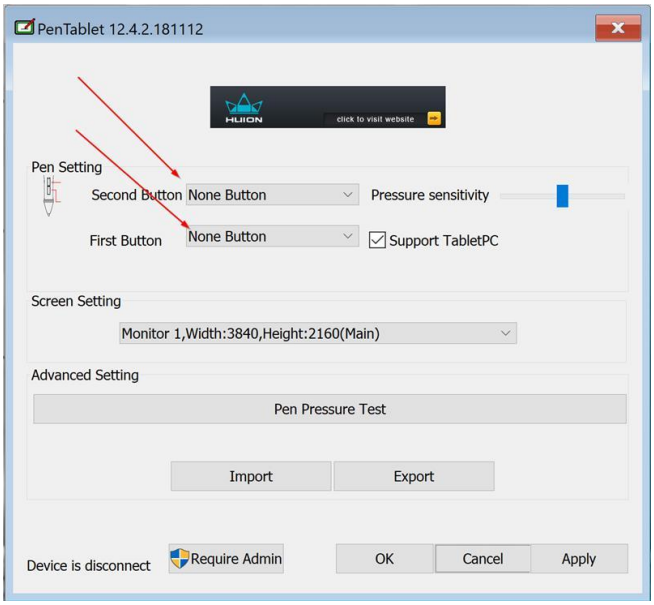

4. Enter your payment information and click "Pay"
5. You can also setup autopay through this portal – verify small deposit amounts from them

Signature Pads

You can purchase a Huion 420 signature tablet on Amazon. You will need to install the drivers on all computers that will use a signature tablet. The drivers can be downloaded from the Huion website.

1. To complete the installation of the tablet, turn off the buttons on the pen by clicking on the dropdown menus for the Second Button and First Button and then selecting None Button.
   ***Note**: these options can be found in the PenTablet Administrator Settings.*

2. Click **Apply** and then **OK**

Chapter 10: Managing Funding

ReliaTrax has many accounting features that will assist as you complete billing of insurance, vouchers, and individual clients.

The functions covered in this chapter are:

- Recording a Client Payment
- Bad Debt
- Tracking Balances
- Transferring Funds Between Treatments
- Printing out Client Statements/Receipts
- Vouchers
- Grant Tracking
- Insurance

Private Pay (Cash/Credit/Write Offs)

In this section you will learn about taking cash, credit, check and other payments as well as completing write-offs for clients that are paying out of pocket for treatment.

Recording Client Payments Without Attendance Credit

When a client arrives to make a payment, but not attend a session, you can enter the payment directly on their page.

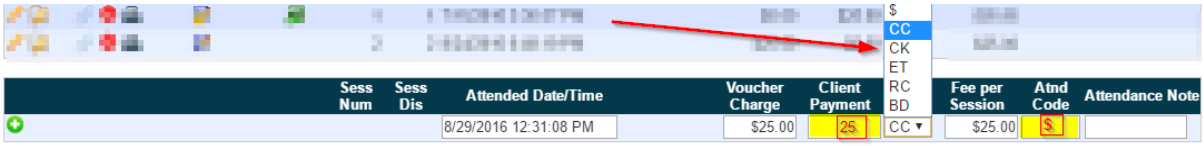

Paying Toward a Specific Treatment

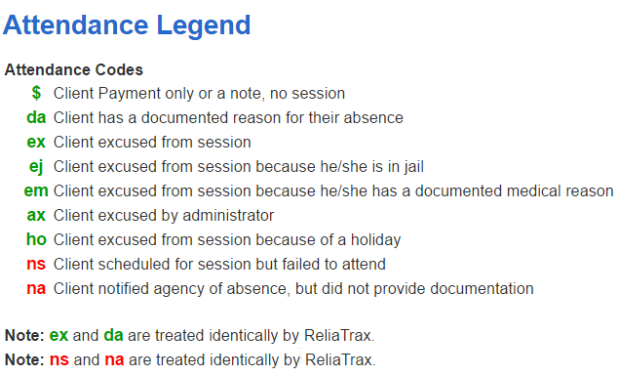

1. Go to the client page
2. Click the session note icon  ***next to the treatment the client is making a payment for***.

3. Enter the amount of the payment in **Client Payment**. Using the drop down menu under **Pay** define the type of payment (i.e. $= cash, CC=Credit Card, CK=check).
4. ***IMPORTANT:*** Under **Attd Code** enter a **$.** This denotes a financial transaction (NOT an attended session).
5. Hit enter or click on the green plus sign 

> **ReliaTip:** Attendance notes show up on ALL reporting and supervising organizations can see them.

Paying on the Payment Line

Other Helpful Payment Functions

 - This icon will show you each of the client treatments and the allocation of funds to each

- You can collect a payment from the "Payment" treatment line to apply the payment to the overall balance for the client instead of to a specific treatment

Accepting Credit Card Payments

ReliaTrax has an integration with stripe for online credit card processing. If you are interested in having this capability, please contact the ReliaTrax team to get an access link or to link your existing Stripe Account to ReliaTrax.

Information on setting up a stripe account can be found in Chapter 9

Taking a Credit Card Payment

Once you have setup your account to take a client payment:

1) Go to the client page and click on the  icon
2) Click on 
3) Choose where you would like to apply the payment and add the amount that will be paid

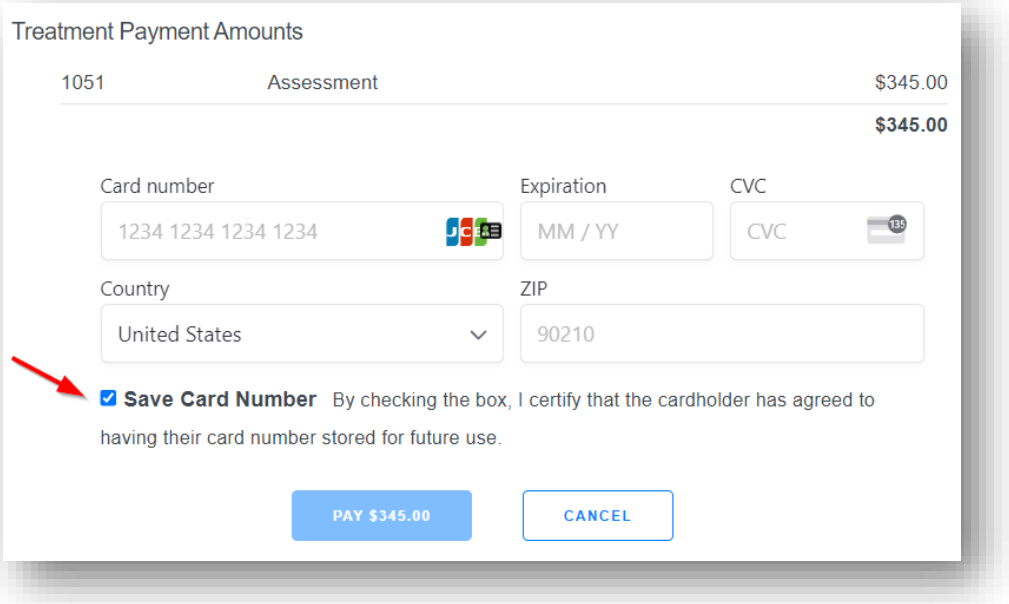

4) Now click on "Pay with Card" and enter the payment information and click "Pay".

ReliaTip: Client will only get an email receipt of payment if they have an email on their client information page.

Saving Client Credit Card

When taking a credit card payment, the option to "Save Card Number" will appear in the Stripe payment prompt.

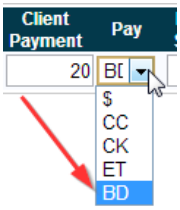

Issuing a Credit Card Refund

You will need to issue a refund using your Stripe.com login. The refund will reflect in the client's ReliaTrax page when it is complete. These are the instructions from Stripe:

From the Dashboard

1. Find the charge to be refunded in the Payments overview page.
2. Click the ••• icon to the right of the charge and select **Refund charge**.
3. Enter the amount to be refunded. The default is a full refund. For a partial refund, enter a different amount to be refunded.
4. Select a reason for the refund. If you select **Other**, you must provide an explanatory note that is attached to the refund.
5. Click **Refund**.

Bad Debt (Write-Offs)

Unfortunately, sometimes agencies "absorb" some of their client's outstanding debt. ReliaTrax has added a new payment feature to the client payment box. By selecting BD on the payment drop down when entering a session, you can remove the outstanding balance from the client's account.

Bad debt amounts are recorded on the financial statements, which can be viewed by scrolling across the top navigation bar to **Accounting** and down to either **Weekly Income, Monthly Income** or **Yearly Income.**

Type	Code	Treatment Description	Voucher Charges	Total Client Payments	Client Payments Cash	Client Payments Check	Client Payments Credit	Client Payments EFT	Client Payments Bad Debt	Insurance Charges	Total Payments	Total Income
DA		Drugs and Alcohol	$5.00	$158.00	$158.00	$0.00	$0.00	$0.00	$0.00	$15.30	$178.30	$880.00
DV		Domestic Violence	$0.00	$20.00	$20.00	$0.00	$0.00	$0.00	$0.00	$70.00	$90.00	$715.00
TE		Testing	$0.00	$15.00	$15.00	$0.00	$0.00	$0.00	$0.00	$0.00	$15.00	$60.00
PR		Private Clients	$0.00	$0.00	$0.00	$0.00	$0.00	$0.00	$0.00	$0.00	$0.00	$34.00

Tracking Balances

Easily track client balances per treatment! Entering a payment not only checks the client in for treatment but adjusts the client's balance accordingly.

If a client needs to make a payment towards their balance you can do so like you would normally check them in, making sure to use a $ for the attendance code.
Doing so allows you to apply payments to specific treatments without giving the client extra attendance. (The $

	Sess Num	Sess Dis	Attended Date/Time	Insurance Charge	Voucher Charge	Client Payment	Pay	Fee per Session	Atnd Code	Attendance Note
			1/19/2015 5:05:08 PM			30	$	$0.00	$	

prevents the system from generating an attended session, see figure below)

	Sess Num	Sess Dis	Attended Date/Time	Insurance Charge	Voucher Charge	Client Payment	Pay	Fee per Session	Atnd Code	Attendance Note
	1	1	1/15/2015 5:09:34 PM	$0.00	$0.00	$25.00	$	$25.00		
			1/19/2015 5:05:08 PM	$0.00	$0.00	$30.00	$	$0.00	$	

Individual Client Treatment Balances

Another helpful tool for seeing client balances per treatment is on the client page under the  icon.

Code	Treatment Description	Insurance Charges	Insurance Adjustment	Voucher Charges	Voucher Adjustment	Client Payments	All Payments + Charges - Adjustments	Cost	Balance
1	Payment	$0.00	$0.00	$0.00	$0.00	$100.00	$100.00	$0.00	$100.00
1005	Level II Track D	$80.00	$0.00	$0.00	$0.00	$414.00	$494.00	$740.00	($246.00)
1011	Relapse Prevention	$600.00	$0.00	$0.00	$0.00	$525.00	$1,125.00	$1,000.00	$125.00

Transfer Funds Between Treatments

If you need to move funds from one treatment to another enter a $ in the attendance code (to ensure that the client does not get credit for a session they did not attend) and a negative amount (i.e. -15.00) under client payment, be sure to add a note like "transferred to UA"

Client Payment	Pay	Fee per Session	Atnd Code	Attendance Note
($15.00)	$	$0.00	$	transferred to UA

Then go to the treatment to receive the funds and again enter the $ in the attendance code and the amount (i.e. 15.00) to be transferred, and add a note "transferred from Tx"

...er ...ge	Client Payment	Pay	Fee per Session	Test Rslt	Test Result Note	Creat Rslt
...0.00	$15.00	$	$0.00	$	transferred from Tx	

This will ensure that the books are always correct!

1002	DA - Track A Detail: transferred to UA	12/3/2014 5:05:03 PM	$0.00	$0.00	($15.00)	
6300	UA Walk-in ETG Detail: transferred from Tx	12/3/2014 5:08:31 PM	$0.00	$0.00	$15.00	$

Printing Client Statements/Receipts

Default Receipt Types

Default receipt types can be setup for the entire company or per client. Setup for the default receipt type can be setup under **Admin >> Company Info.**

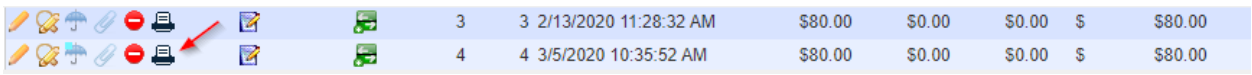

Per client, to setup the client receipt type:

1. Go to the **client page >> magnifying glass >> pencil**
2. About mid-way down the page find “Receipt Type” to set the receipt type for that client

To see receipt types, visit Appendix A

Printing a Client Receipt

1. After adding a session to the client’s page

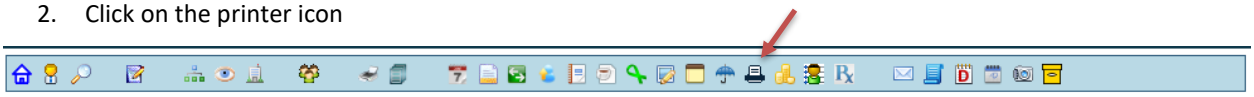

2. Click on the printer

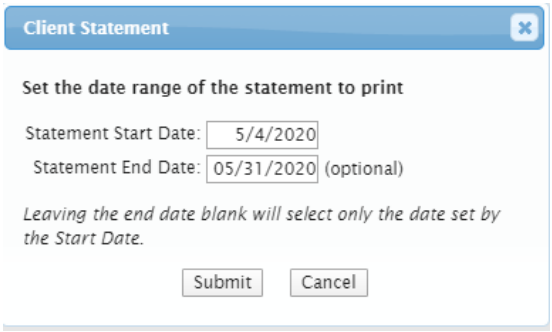

3. Choose “Print this Page”

Printing a Client Statement

1. On the client’s home page
2. Click on the printer icon

3. Choose a date range
4. Click submit

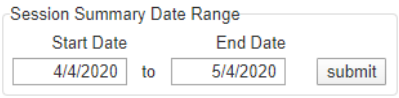

Printing a Client Treatment Session Summary

1. On the client’s home page and click on the printer icon

2. Enter a date range
3. Click “Submit”

Treatment Session Summary

Boulder Office
200 Arapahoe Ave 204
Boulder, CO 80302-1111
Tel: 719-555-0292
Fax: 719-555-0292
canyoncitytherapy.com

Client: **Abrams IV, John J**
DOB: 9/1/1966
Client ID: 1023134
Date printed: 5/4/2020

Activity: 4/4/2020 - 5/4/2020

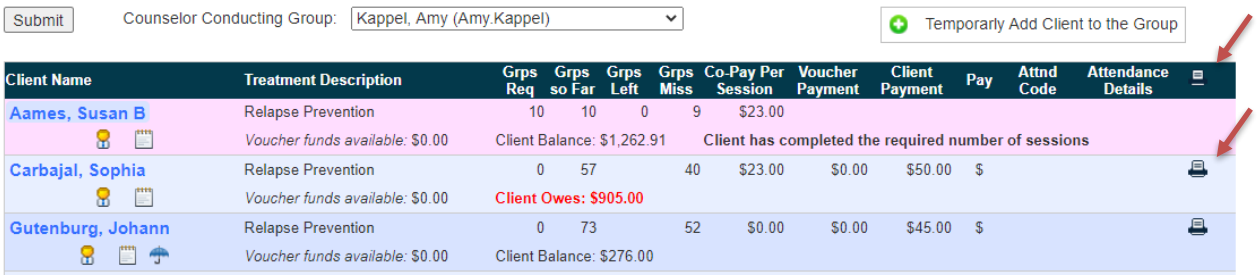

Date	Code	Description	Result	Cost	Paid	Voucher	Insurance	Balance
4/21/2020	1020	Individual Counseling		$80.00	$0.00	$0.00	$80.00	($182.94)

Overall Payment Summary

Total cost:	**$997.97**	
Client payments:	**$390.03**	
Insurance:	**$330.00**	total insurance charges minus any refused amount
Voucher:	**$95.00**	total voucher charges minus any refused amount
Balance:	**($182.94)**	note: a balance in () indicates the client owes money.

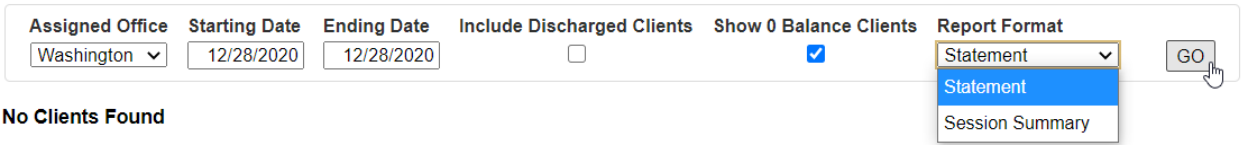

Printing all Receipts from a Group

After checking the group in, you can print all of the receipts for a group and/or each receipt individually with these icons (respectively).

Printing All Client Statements for the Month

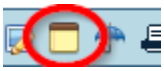

1. Go to **Accounting >> Client Statements**
2. Set the parameters for the office, start/end date, whether you want to show discharged or clients with 0 balance
3. Choose the report format and click “Go”

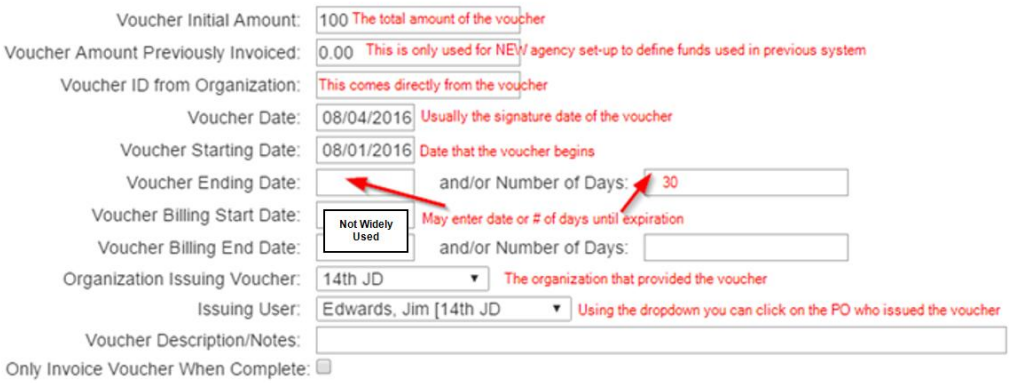

2. You can click on Print This Page to then print all of the statements at once to mail out.

Vouchers

1. On the client's home page click on the voucher icon at the top of the page. This will display the voucher information page.

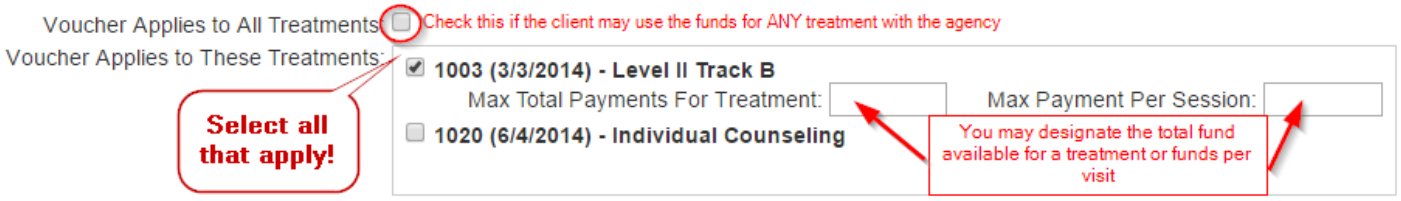

2. Click on the green plus sign to enter a new voucher into the system by filling out the form.

Note: if you're billing regularly you DO NOT enter dates for

***Billing Start Date** or **Billing End Date**.*

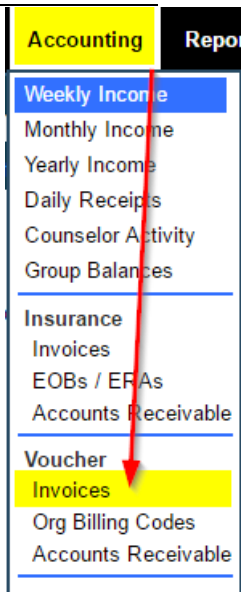

3. You will notice the option to select to invoice a voucher ONLY when the voucher is completely used or expired. If this is checked, you will not be able to invoice a voucher until it is used or expired.

4. Make sure to save the form with the button at the bottom of the page 

ReliaTrax will automatically charge the voucher for invoicing!

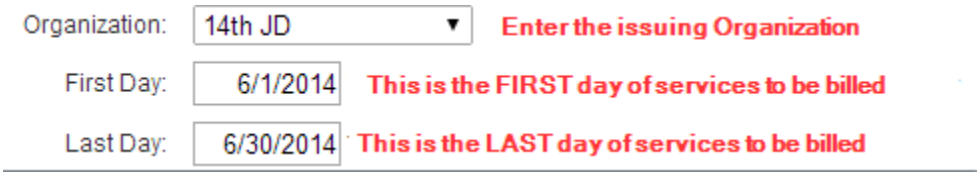

Invoicing Vouchers

ReliaTrax makes it easy to invoice vouchers!

1. Scroll across the top navigation bar to **Accounting** and down to **Voucher - Invoices** to open the voucher invoice information page.
2. To create a new invoice, click on 

and fill in the information on the first 3 lines of the form

3. View the invoice by clicking **Preview Invoice.** If it looks correct you may

4. If your referral source (4th Judicial) requires a spreadsheet format for voucher invoices click the checkbox next to the newly created invoice. 
5. Then select **Print Selected Invoices – Spreadsheet Format**.

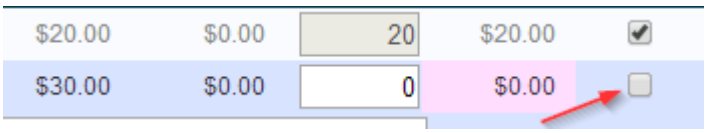

ReliaTip: Most probation districts are still requiring that a copy of the original voucher accompany the invoice.

Recording Voucher Payments

1. Scroll across the top navigation bar to **Accounting** >> **Voucher - Invoices** to open the voucher invoice information page.
2. To log a payment, click on the gold coins  next to the voucher you have received payment for then click

3. Enter the amount received if the total matches the amount invoiced you are done!
4. If the amount received is different ReliaTrax will give you the option to designate exactly where the funds go. Enter the amount to be paid to each invoiced item. A checked box means that you have received all the monies that you will receive and will put any outstanding balances back onto the client's responsibility!

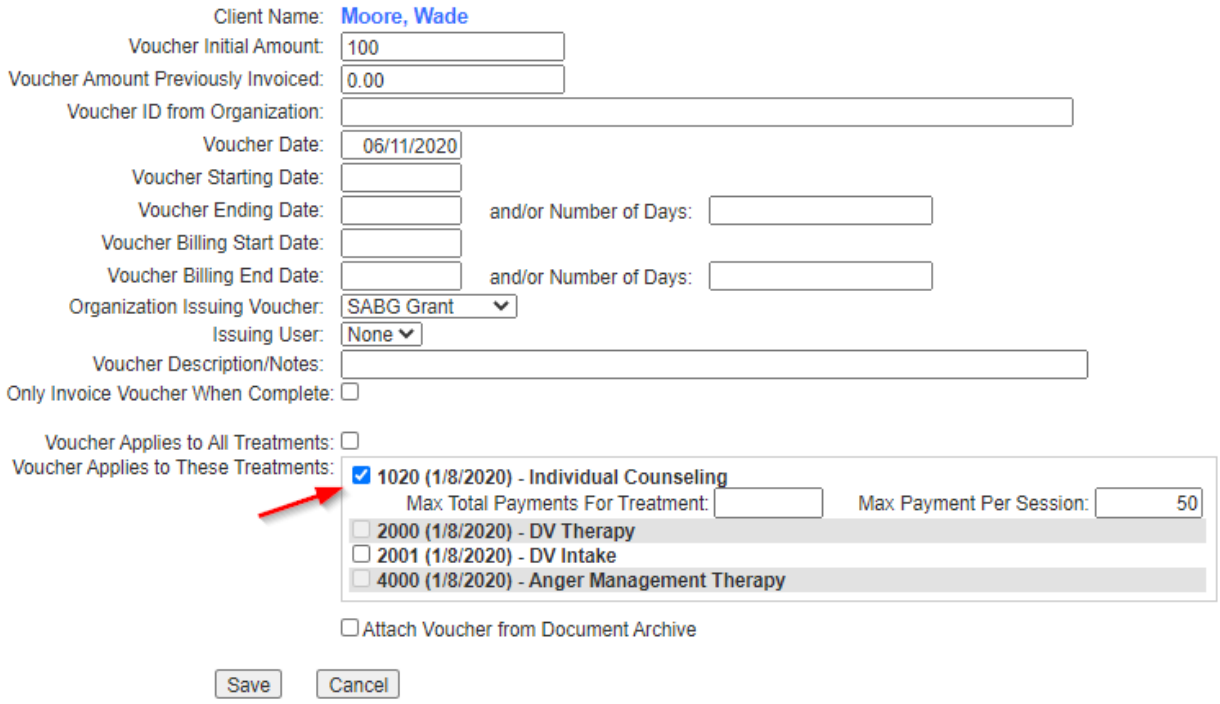

Grant Tracking

ReliaTrax allows you to easily track grant funding and can be done in two ways, depending on the file format you want and if rebilling is required

Using Vouchers to Track Grants

Tracking grants is done on the client page. First, you must create an organization with the name of your grant (i.e. SABG Grant).

6. Add an Organization with the grant name
7. Go to the clients' page you'd like to add the grant funding to
8. Enter a Voucher with the Organization being the name of the grant and the treatment you want to apply the grant funding to along with the max total and session payments and the treatment you want to apply

the grant funding to along with the max total and session payments

9. Invoice the Voucher to see the total charges to the voucher per client for a given time frame

Using Insurance to Track Grants

You can also track grants through insurers just as you would set up a client with an insurance company. This is beneficial if you are going to have to rebill from one grant to another or if you need an 837.

1. Create an insurer with your Grant Name as the Title
2. Add the insurer to the client page and link it to the treatments you want to bill to the grant
3. Create the encounters by checking the client in
4. Create an insurance invoice for the "Grant Name" insurer

Managing Insurance

ReliaTrax has made it easier than ever to conquer the dreaded billing nightmares.

Glossary of Billing Terms

Gy78

Insurer - This is the payer of the invoice such as an insurance company, Medicaid, Medicare, etc

Payer ID – A unique identification number assigned to an insurance company that serves as a digital address for electronic healthcare claims and transactions.

Managed care – A system of health insurance that coordinates and delivers healthcare services to members by integrating financing and delivery of care.

RAE- Regional Accountable Entities- This is an organization contracted to manage and process Medicaid claims. For more information, go to www.colorado.gov/pacific/hcpf/accphase2.

MCO – Managed Care Organization that delivers health benefits through the state's Medicaid program.

ASO – Administrative Service Organization that provides services that help clients navigate through mental health or substance use disorder (SUD) treatment services when needed.

CCO

Hcpf/provider one – state Medicaid system thing

CMS – Centers for Medicare & Medicaid Services, a federal agency within the US Department of Health and Human Services that administers national healthcare programs, including Medicare, Medicaid, the Health Insurance Marketplace, and the Children's Health Insurance Program.

Clearing House - A clearing house is an organization that processes and submits insurance forms to Medicaid as well as different insurance companies. They perform validation before forwarding to the payer and will facilitate resubmissions in the case of errors in a claim.

Claim - All the sessions for one client on an Insurer Invoice. Claims are accepted or rejected as a unit which means ALL the Sessions for each client are accepted or rejected. Individual sessions are not accepted or rejected.

Insurer Invoice - An Insurer Invoice is a collection of claims and includes a list of sessions for each client for a single Insurer during a specified period.

ICD 10 Codes – International Classification of Diseases codes are used to define the purpose for a need for treatment, they align with the DSM V and are currently the ONLY codes used for Medicaid billing.

DSM V Codes – these are codes from the diagnostic and statistical manual from the American Psychiatric Association

HCPCS Codes - Healthcare Common Procedure Coding System numbers- are used to define the **type**of service provided, i.e. group therapy, individual therapy, case management, etc. A client may have more than one HCPCS code associated with their file.

CPT Codes – Current Procedural Terminology codes, are a standardized five-digit numerical system used by healthcare providers to report medical, surgical, an diagnostic procedures and services.

CMS 1500- this is the name for the form used for traditional paper submission

UB04 (CMS 1450) – This is the name for the form used for traditional facility paper submission

837P - (eInvoice) – This is the name for the electronic version of a CMS 1500.

837I - (eInvoice) – This is the name for the electronic version of a UB04 (CMS 1450).

999 - (Overall Status Report)– This is generated by an insurer and sent to ReliaTrax. The 999 describes the overall status of a submitted 837p document (**eInvoice**).

277CA - (Individual Claim Status Report)- This is generated by an insurer and sent to ReliaTrax. The 277CA describes the status of each claim in the 837p document (**eInvoice**).

NPI -National Provider Identifier- Agencies will need an NPI Number for every counselor, as well as for every office within the agency.

EIN Employer Identification Number is a unique nine-digit number assigned by the Internal Revenue Service (IRS) to business entities operating in the United States.

SFTP – The electronic communications method that ReliaTrax uses to send and receive information to the **Clearinghouse**

BRO - this stands for Behavioral Reporting Organization and is used for reporting demographic and service data to the state for Medicaid clients in certain states.

EOBs/ERAs (835) –

Billing Icons

1. **SECONDARY BILLING CODE**: Allows you to add a secondary billing code on one treatment
2. **UNINVOICED SESSION**: greyed out means attached to insurance but not invoiced
3. **INVOICED SESSION**: This session has been invoiced but has not been paid
4. **PAID SESSION**: This session has been reconciled from an EOB
5. **EXTENDED EDIT**: This allows you to make an edit to a session after it has already been created
6. **VIEW CLAIMS**: for an individual client or for the agency
   - **CLAIM SENT**
   - **CLAIM ACCEPTED**
   - **CLAIM REJECTED**
7. **AUTHORIZATIONS**: add authorization codes for client insurance.
8. **VIEW INVOICE**: displays an invoice.
   - **INVOICE CREATED BUT NOT SENT**
   - **INVOICE CREATED AND SENT**
   - **INVOICE NOT CREATED OR SENT**
9. **MANAGE PAYMENT INVOICES**: view invoices that have already been paid
10. **MANAGE UNALLOCATED PAYMENTS**: enter payment of the invoice and manage unallocated funds.
11. **EOB**: View and manage your EOB
    - **EOB UNRECONCILED**
    - **EOB UNBALANCED**

Company Insurance Setup

Here are the steps that need to be completed when you are setting up insurance in your site for the first time. The detailed information for completing these steps is provided in the sections below.

1. Choose and Connect your Clearinghouse (**Admin >> Clearinghouses**)
    a. Fill Out/Submit ERA Forms/Complete ERA Enrollment
2. Add your HCPCS/CPT Codes (**Admin >> HCPCS/CPT**)
3. Setup your Company Insurance Information (**Admin >> Company Info**)
4. Setup your Company Insurers (**Admin >> Insurers**)
5. Setup your Insurer Defaults (**Admin >> Insurers >>** )
6. Setup your Staff Billing Information (**User Info >> Users**)
7. **Optional:** Add Doctor Information (for 837I/UBO4 only) (**Admin >> Doctors**)
8. **Optional:** Add Box 19 values (**Admin >> Claim Notes**)

Choose and Connect Your Clearinghouse(s)

Claims are sent from ReliaTrax to your Clearinghouse and ERAs are returned from the Clearinghouse to ReliaTrax.

If you haven't already, you will need to set up an Office Ally and/or Availity Account(s).

Choosing a Clearinghouse

Some agencies choose to use one or multiple clearinghouses. Often, agencies choose to use clearinghouses based on which payers are "participating" with each clearinghouse.

- **Availity Payer List**: https://essentials.availity.com/static/public/onb/onboarding-ui-apps/payer-list-ui/#/
- **Office Ally Payer List**: https://cms.officeally.com/payerlist

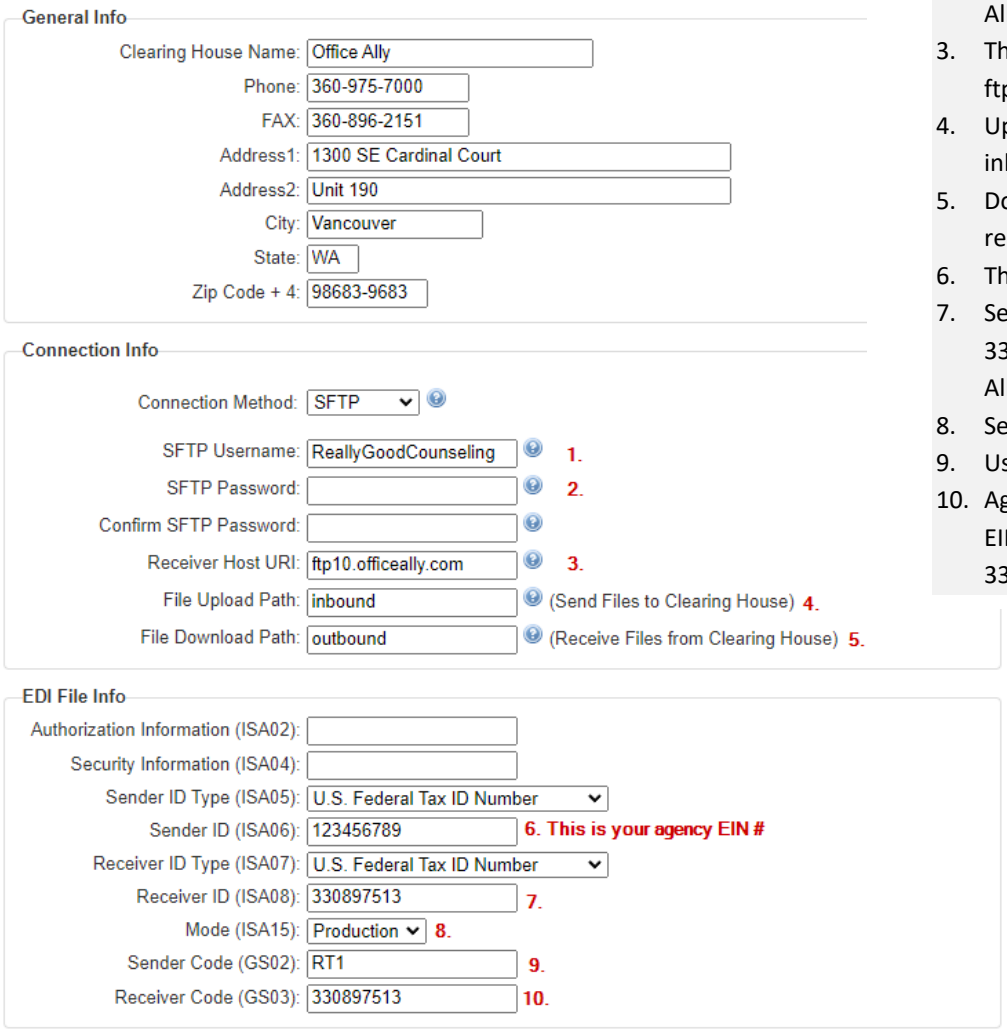

ReliaTrax can accommodate the use of one or both clearinghouses and you are able to assign a clearinghouse to each of your payers.

Office Ally

If you choose to use Office Ally as your clearinghouse the information for setting this clearinghouse up is provided below:

Requesting an Office Ally Account: **Office Ally Instructions**

Once you have your account and you have received two emails from Office Ally with your Username and Password for the SFTP, you can setup your clearinghouse under **Admin >> Clearing Houses**

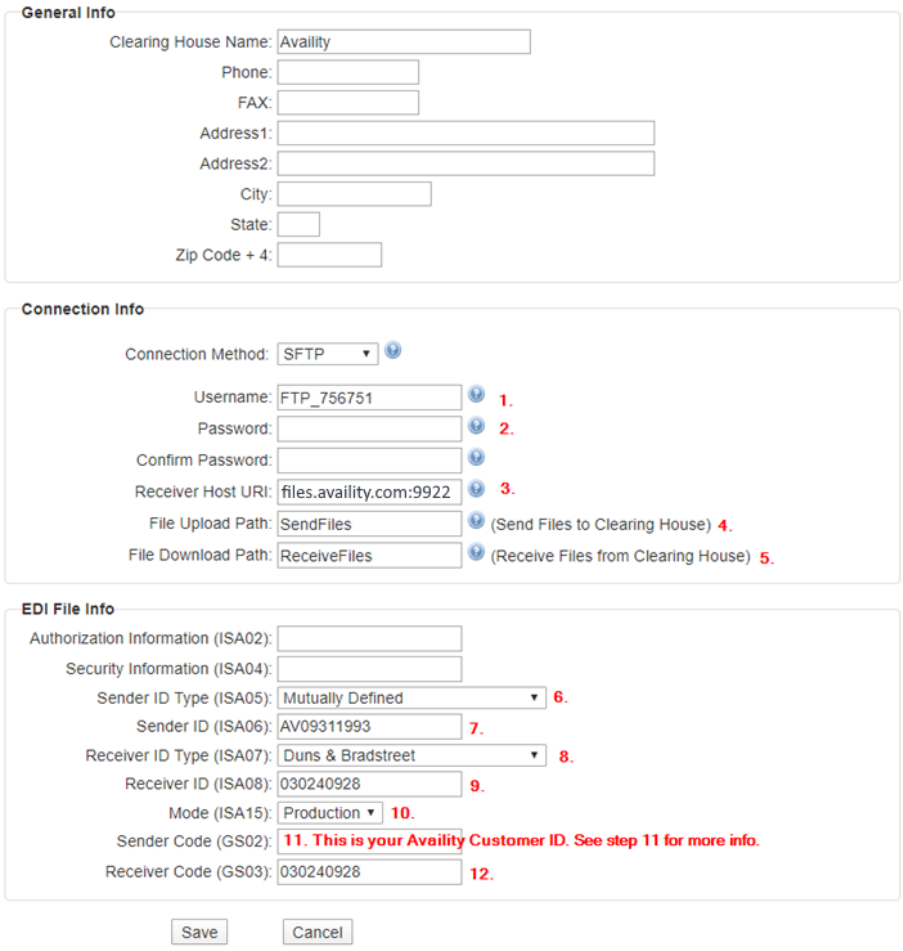

1. This comes from Office Ally.
2. This comes from Office Ally
3. The host is ftp10.officeally.com
4. Upload Path should read inbound.
5. Download Path should read outbound.
6. This is your Agency EIN #
7. Set the Receiver ID to 330897513. This is Office Ally's EIN #.
8. Set to production.
9. Use this version of RT
10. Again, this is Office Ally's EIN #. This should be set to 330897513.

Availity

If you choose to use Office Ally as your clearinghouse the information for setting this clearinghouse up is provided below Requesting an Availity Account:

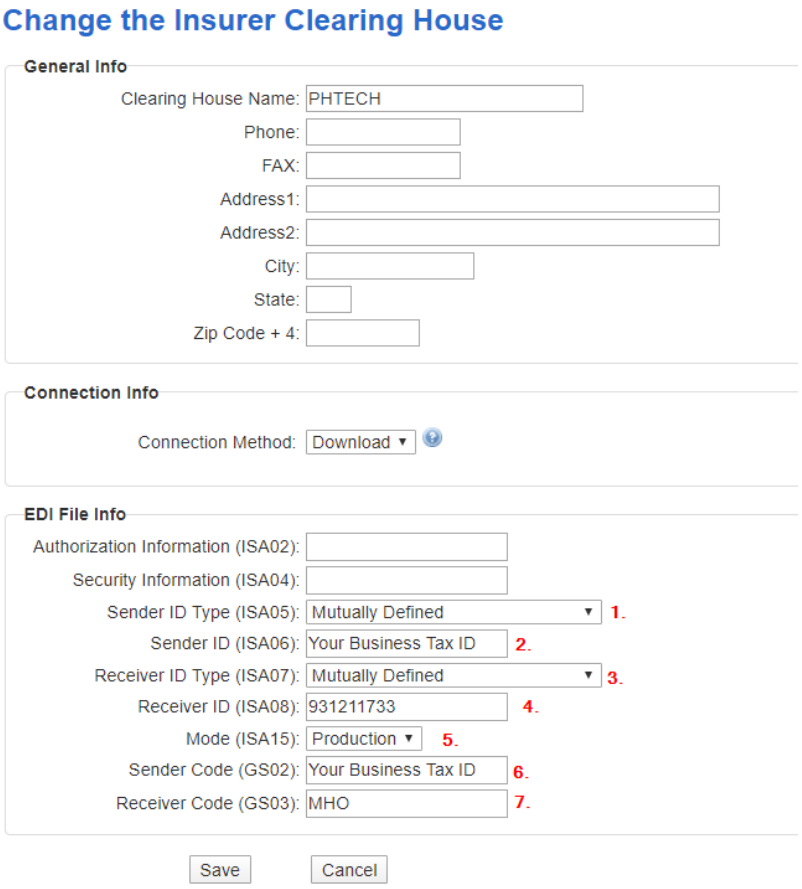

Availity Instructions

1. This is the username you set up in step 5 under CREATE SFTP ACCOUNT.
2. This is the password you set up in step 5 under CREATE SFTP ACCOUNT. Confirm the password below as well.
3. The host is files.availity.com. The port is 9922. This field should read files.availity.com:9922
4. Upload Path should read SendFiles.
5. Download Path should read ReceiveFiles.
6. Set Sender ID Type to Mutually Defined. This will read as ZZ when you save.
7. Set this field to AV09311993
8. Set the Receiver ID Type to Duns & Bradstreet. This will read as 01 after you save.
9. Set this field to 030240928
10. Set to production
11. Check your **Availity account** in the upper right corner to find your **Customer ID** and use it as the Sender Code.
12. Set this field to 030240928

PHTech

If you need to send claims to **PHTech** see the below example for setting them up in your ReliaTrax system.

1. Set Sender ID Type to Mutually Defined. This will read as ZZ when you save.
2. This is your Agency EIN #
3. Set Receiver ID Type to Mutually Defined. This will read as ZZ when you save.
4. Set the Receiver ID to 931211733. This is PHTech's EIN #.
5. Set to production.
6. This is your Agency EIN # again.
7. Set this field to MHO.

Salish

To send to Salish, ReliaTrax will need to setup a SFTP directly to Salish. Please contact your ReliaTeam to have this Clearinghouse added to your site. (833) 222-0062 option 2

Adding Company Insurers

These instructions will guide you through adding insurance companies to your ReliaTrax site.

ReliaTip: Please refer to your insurance company contract for billing parameters.

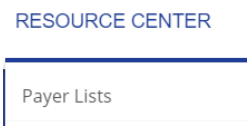

1. Navigate to **Admin >> Insurers**
2. Click on the green plus icon to add a new insurance company
3. Fill in the Insurance Company Name, select the Electronic Billing Clearing House, and select the appropriate Claim Filing Code.

Change the Insurance Company

Insurance Company Name: Medicaid — This is your internal name for the insurer
Electronic Billing Clearing House: Speedy Clearing House — This is the clearinghouse you will utilize for this insurer
Claim Filing Code (Box1): Medicaid — Select the type of insurer this is
Insurance Company Payer ID: VALOP — This is the payer ID you will be submitting all claims to for this insurer.
Is Public: N — This allows external users to see this insurer (Not commonly used)
Auto Add to Client Treatments: — This sets the insurer on the client to automatically add to services on the client page

4. Enter the Insurance Company Payer ID. If you do not know the Insurance Company Payer ID, you can search for it here:

   i. Go to https://cms.officeally.com
   ii. Using the Navigation Bar, go to Resource Center and down to Payer Lists.
   iii. Click on the Professional & Institutional icon.

   iv. Search by Payer Name. A list will display under the search tool and the Payer ID will be the left column of the table. This is the ID to use for the **Company Payer ID** field.

EDI Claim Type: 837P — Select 837P for standard CMS 1500 and 837I when UB04 billing
Transaction Type Code (BHT06): CH - Chargeable (fee for service claims) — CH - used when services are billed on a fee for service basis; RP - used when sending services with a $0 fee - generally used for capitated contracts (not commonly used)
Billing Provider NPI (Box 33A): Company NPI — Unless different credentialing per office, this is generally set as "Company NPI"
Sessions Rendering NPI (Box 24J): Supervisor NPI — This is the NPI of the rendering provider (Generally supervisor or counselor)
Rendering Provider Reporting Mode: Standard - Claim or Service level — Standard - Claim or Service Level - places all services on the CMS 1500; Service Level Only - places each service on a separate CMS 1500 (not commonly used)
Facility Code (Box 24B): 11 - Office — This is the place of service for this insurer - can be adjusted per service in the insurer defaults or per client
Notification Days Before Auth Expiration: — Number of days you want it to flag for an authorization running low or expiring on the Client Limits report
Prior Authorization Code Reporting Mode: Report Prior Authorization Code — If you need the authorization code to show up on the CMS1500 in Box 23 (Prior Auth Code) or 24J (Claim Level Only)
File Name Mode: ReliaTrax Default — WA Medicaid should be chosen for agencies billing Salish in Washington state. Otherwise leave "ReliaTrax Default"
Service Grouping: Standard — The way we break down the claims - Standard: all services per date range for a client or By Date of Service: one invoice per client per day
HCPCS Codes Billed In Minutes: Ignore this field - Not used
Include Payer Address: — Used when printing paper claims or if the insurer requires it (not common)
Requires BRO for Billing: None — This prevents billing when a BRO required by your payer has not been completed ahead of time for a client
BRO Secondary ID: — MOTS NMS Parent Provide ID Only
Box 19 / NTE Mode: None — Information that payers require for Box 19; can also be managed under Admin >> Claim Notes
Include Provider Credentials in Service NTE: — Not commonly used
Allowed Provider Credential Codes: — Not commonly used - restricts credential codes allowed for this insurer
Facility Location Additional Info: — Override Function - to add information into G2 (WA DOH #) - Be sure to enter BLANK in the NPI field when using this
Reduce Amount Billed By Copay: — Not Commonly Used - Reduces amount on invoice to exclude the client copay
Lab CLIA Number: — If submitting billing for a treatment in the 6000 range (Lab Testing) (Not Commonly Used)

5. Select Sessions Rendering NPI using the dropdown menu. If you select the Supervisor NPI, it will use it if it is available. If not, it will use a Counselor NPI instead.
6. Facility Code: 11-Office will be the default code but it can be edited using the dropdown menu. *Note: This can also be managed per client, per treatment*

7. Notification Days Before Auth Expiration: this Is how many day in advance you want to be alerted before an authorization expires in the reports >> insurance >> client limits.
8. Reduce Amount Billed By Copay: this checkbox is ***rarely*** checked.

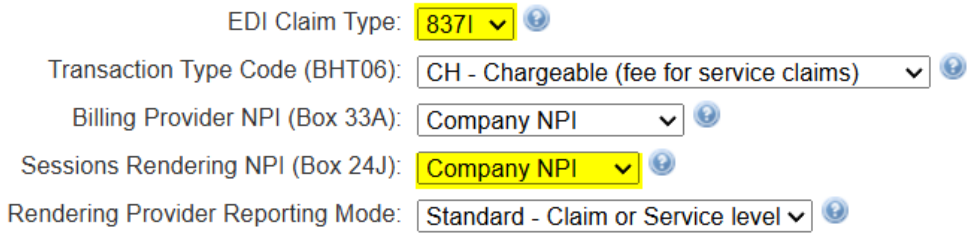

9. The address, city, state and zip + 4 are required in order to **Save** and will print on paper claims.

UBO4 (837I) Insurer Setup

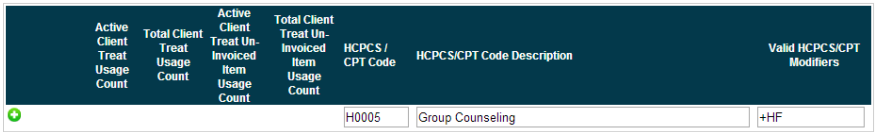

Daily Rate Bed Reservation (Residential) on 837i Claims

For agencies using 837i claims, the following settings may be needed in order for claims to be accepted by the clearinghouse.

Adding Company HCPCS/CPT Codes

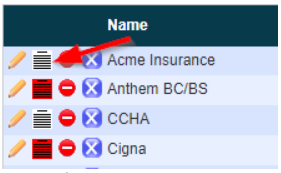

Under **Admin** >> **HCPCS/CPT Codes,** enter HCPCS/CPT codes for services you provide and remove codes that are not used. This is an internal table that is only used in ReliaTrax so you can enter a description that works best for you.

- If you leave the Modifier field blank, you can add specific modifiers when you set up your insurance defaults. (Recommended)
- If you add a Modifier here, you must add all Modifiers you may want to use as ReliaTrax will limit your choices to what is listed here.
- If you enter a + sign, ReliaTrax will require you to use that Modifier every time you use that HCPCS/CPT code.

Setting Up the Insurance Defaults

ReliaTrax makes keeping track of your insurance contracts easy with our Insurer HCPCS Defaults table. The table allows you to setup your default billing codes and settings, per treatment, that can be easily applied to a client's account with the click of a button

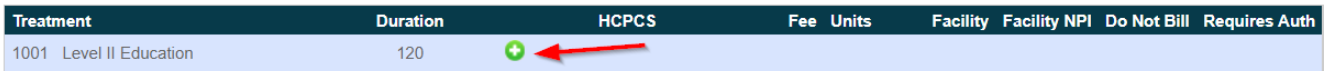

ReliaTip:

- No defaults assigned

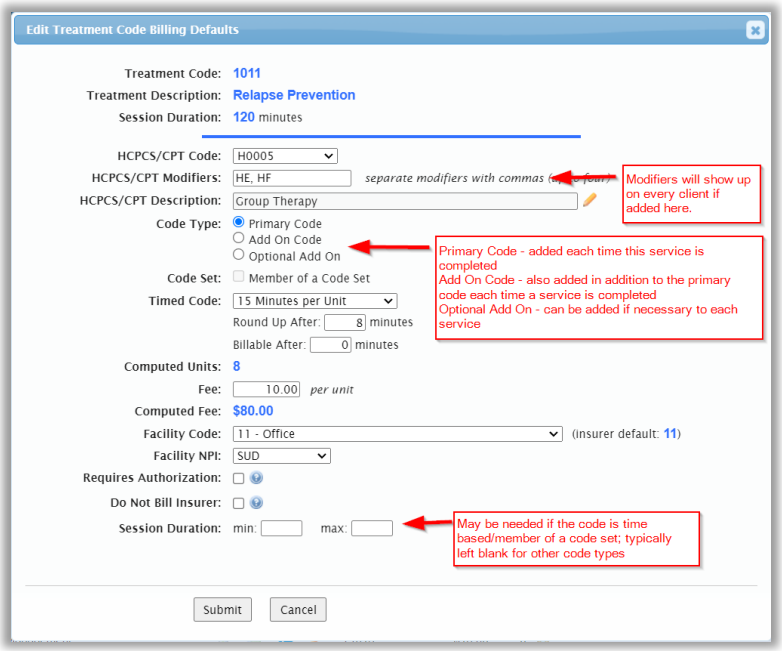

- Defaults assigned

1. Go to **Admin >> Insurers**
2. Click on the treatments Icon next to the insurer you'd like to setup

3. Click on the green + next to the service you would like to add your HCPCS codes to

4. Setup your HCPCS/CPT for this service

5. Once you submit, **<u>to add an additional billing code</u>** on a service, click on:

6. To **<u>copy these settings to other treatments</u>** on the same insurer click on:

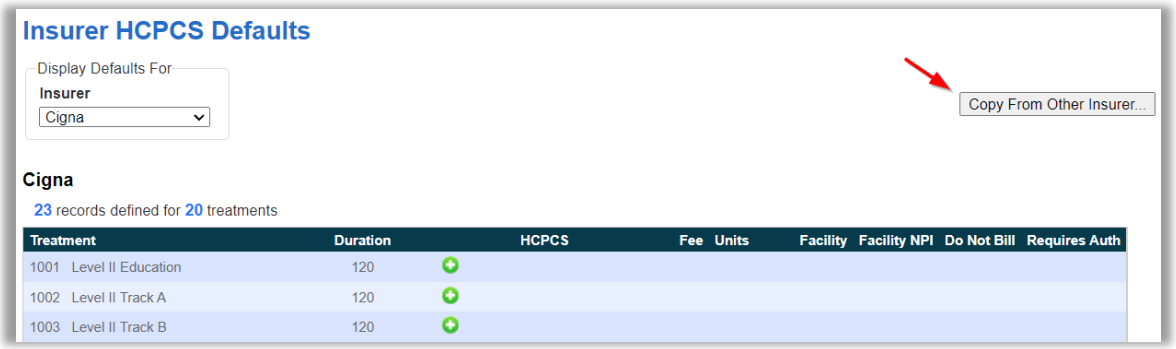

Copying Insurer Defaults to Another Insurer

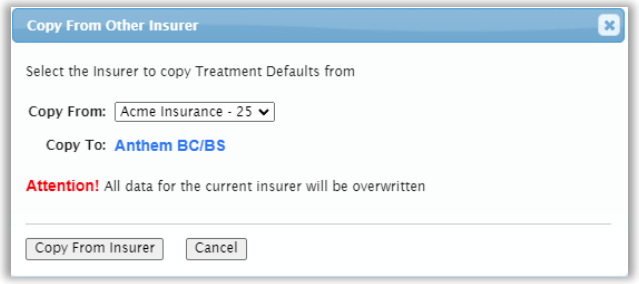

To copy your insurer defaults to another insurer..

1. Go to **Admin >> Insurers**

2. Go to the  icon next to the insurer you would like to copy to

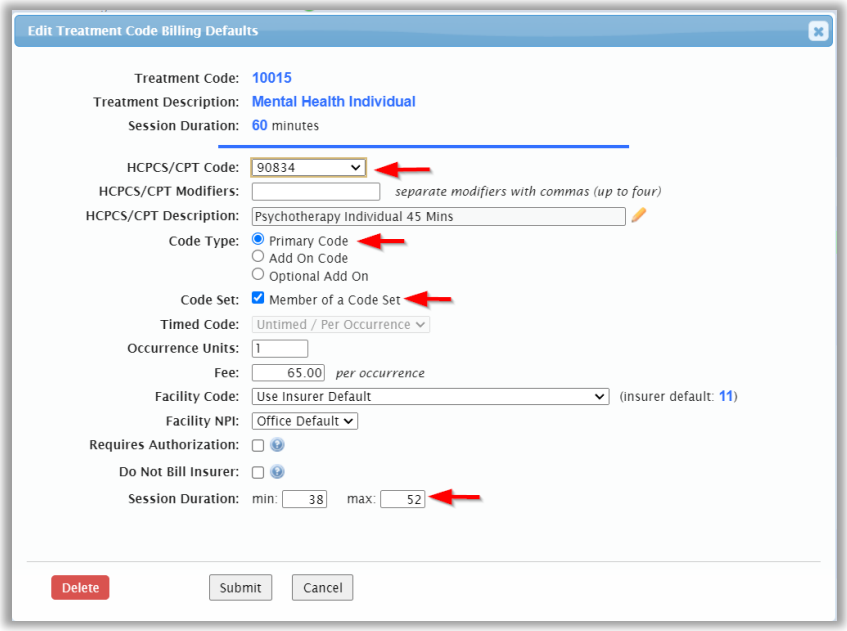

3. Choose which insurer you would like to copy from and then hit “Copy from Insurer”

Timed Codes

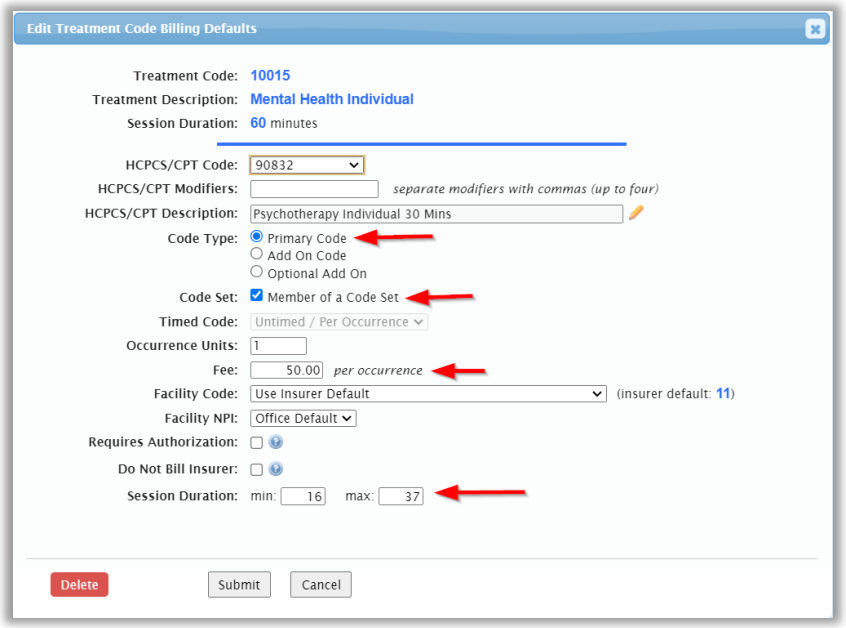

When working with the insurer defaults for time-based codes (i.e. when the HCPCS/CPT code changes based on the amount of time spent with the patient), you will want to use the “Member of a Code Set” option. ReliaTrax will choose the correct code to bill based on the length of the session and the defaults that are assigned.

For example for the **psychotherapy codes 90832, 90834, and 90837**:

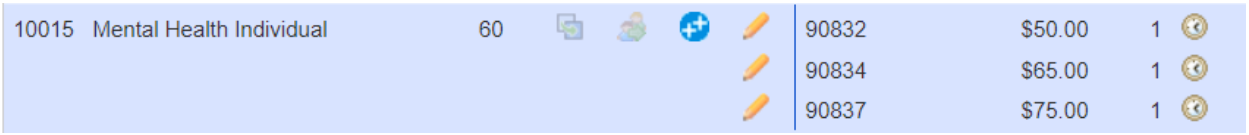

Then you will add the next code:

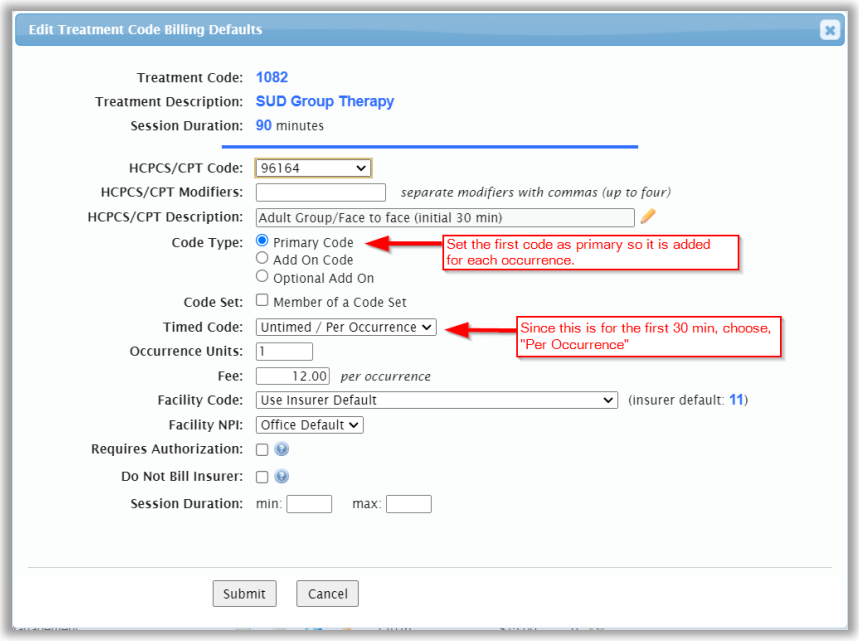

Until your code list has all of the code set members:

Add-On Codes

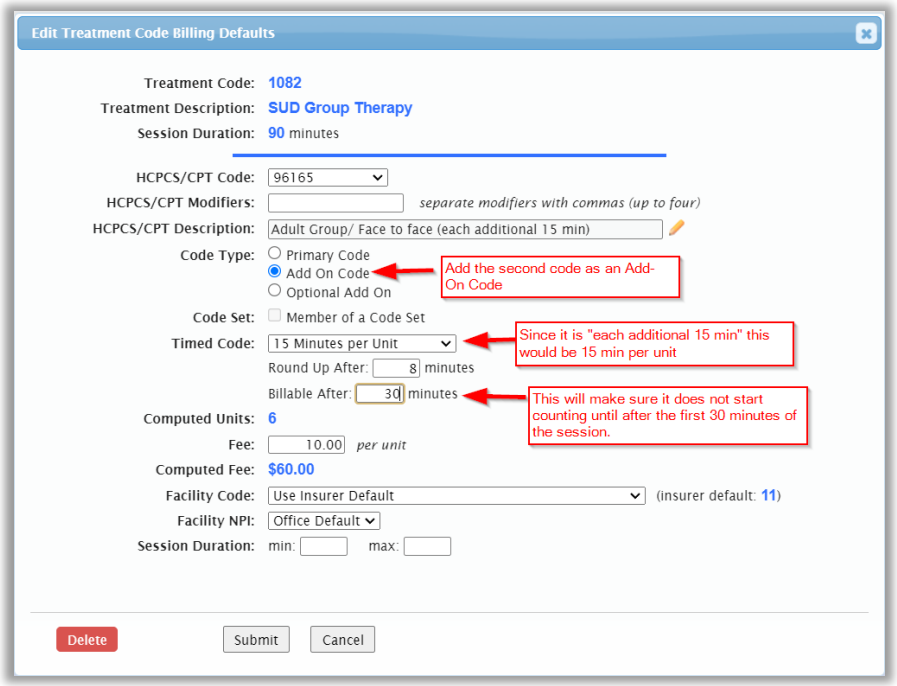

If you have codes that require more than one HCPCS code for each service, you are going to use Add-On Codes.

For example the Medicaid **96164 and 96165 group codes** in Washington state:

The Add-on Code can be added using the

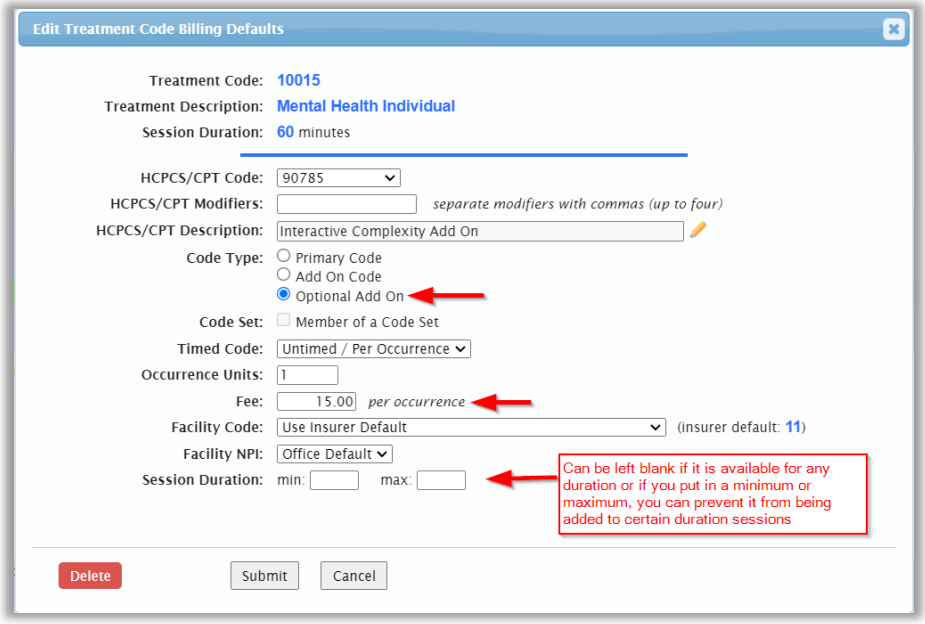

Optional Add-On Codes

There may be instances where you would like to add optional add-on codes that can be added during the time of the service. This is where you would use the Optional Add On function in ReliaTrax.

An example may be for **Interactive Complexity (90785)**

For optional add-ons you are going to use the same add function:

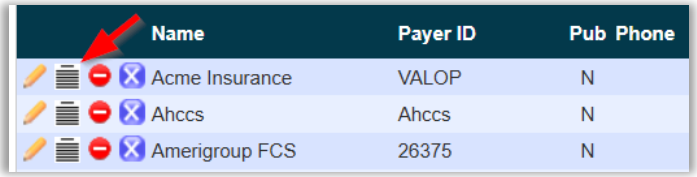

BA/UA Testing Insurer Defaults

For UA testing, you may need to send insurance information for the client to the laboratory, but you do not want the session to show up on your invoices. These are the instructions for setting up the UA insurer defaults in this circumstance.

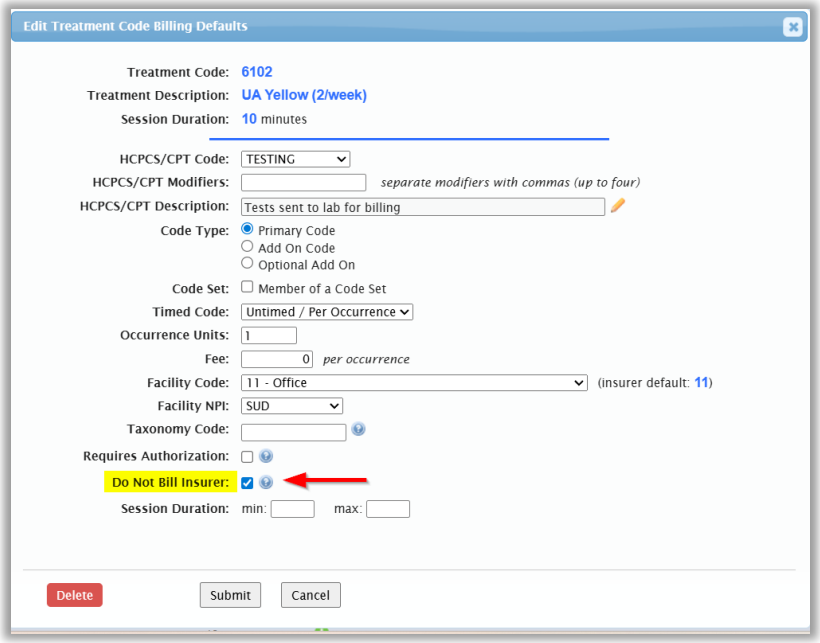

1. You will first need to add a HCPCS Code into **Admin >> HCPCS/CPT**
2. You can add a pretend one like TESTING

3. Next Navigate to **Admin >> Insurers**
4. Click the white notepad next to each insurer

5. Click the Add button next to the first UA Treatment 
6. The most important button on this screen is the “Do Not Bill Insurer” which tells ReliaTrax to attach the insurance information to the treatment but only for sending that information to the laboratory, not for internal insurance billing.

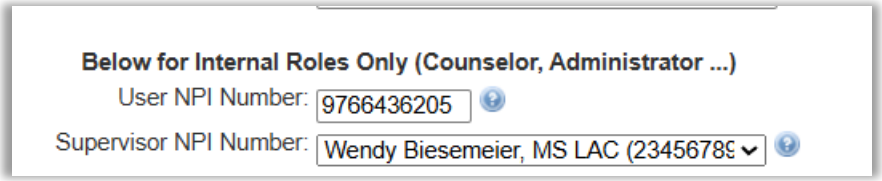

7. Once you save, you can copy these settings to the other UA treatments using the 

Adding Staff NPI Numbers

National Provider Identification numbers are required by most insurers.

1. There are 3 types of NPI numbers:
   a. The **Facility or Company NPI**
      i. This identified the billing entity
      ii. Entered under **Admin>>Company Info**
   b. The **Location or Office NPI** (this may be the same as the company one if there is only one office)
      i. This identifies the location the services were provided
      ii. Entered under **Admin >> Offices**
   c. The **Provider NPI** numbers
      i. This number identifies the facilitator of the services.
      ii. This is done under **User Info** and clicking on **Users.** Enter the counselors name in the search box and an edit screen will open. There is a NPI box near the bottom of the screen.
      iii. For Interns or uncredentialled users, add a Supervisor NPI.

2. Need an NPI? (its free and painless): https://nppes.cms.hhs.gov/#/

Adding Claim Notes (Box 19)

Adding Insurance to the Client Services

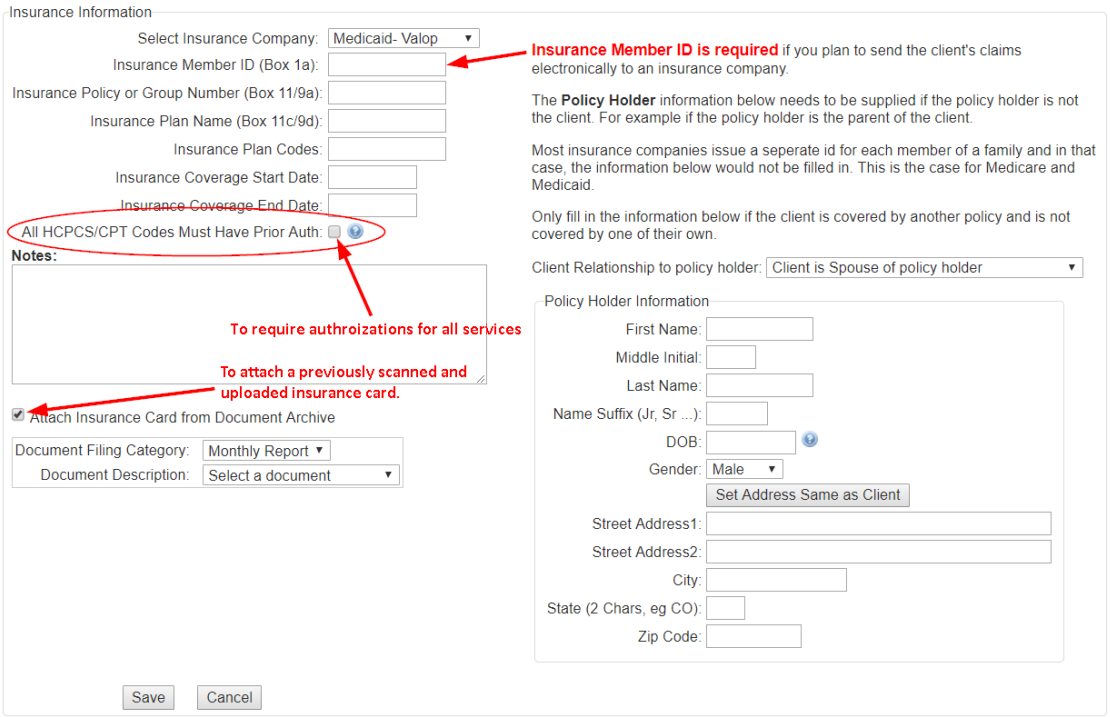

The following is a general checklist for insurance setup/steps for each client:

1. Add Diagnostic Codes to the Client
2. For 837i – Add your Admitting Diagnosis
3. Add Insurance Company to the Client
4. Apply Insurer Defaults to Client Treatments
5. Add Authorizations to the client *(as needed)*
6. Add Copay/Client-Specific Modifiers *(as needed)*
7. For 837i – Add your Referring Doctor

Adding an Insurer to the Client

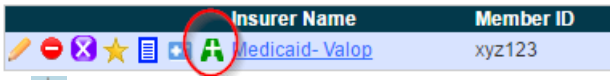

1. Under the main icon bar, click on the **blue umbrella** . Click on the to **Add new insurance company for this client.** Select the insurer from the drop down of any insurers that you have previously added to the system. Be sure to include the Insurance Member ID.
2. If the **All HCPCS/CPT Codes Must Have Prior Auth** checkbox is checked, all services will require authorization. You can also manage authorizations per treatment.
3. You can scan and upload an insurance card and link it to the insurance by clicking on the **Attach Insurance Card from Document Archive** checkbox. Then select that **Document Filing Category** and **Document Description** from the corresponding dropdown menu.

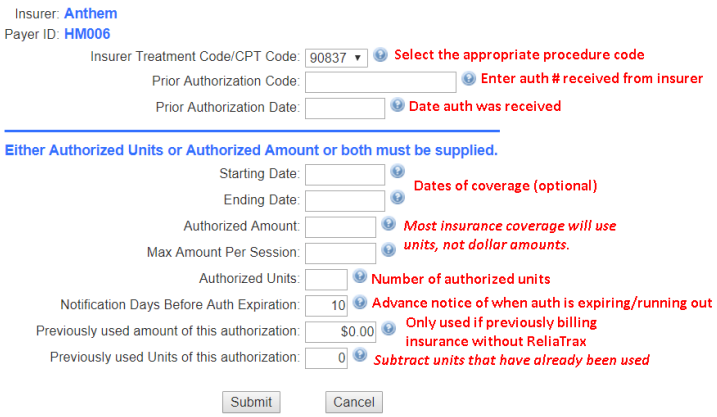

Adding an Authorization to a Client

Add an authorization per HCPCS/CPT code (this is the code stating what kind of treatment you are performing). If the All HCPCS/CPT Codes Must Have Prior Auth checkbox is checked, all HCPCS/CPT codes will require authorization. You can also manage authorizations per treatment.

1. Click on the blue umbrella in the icon bar at the top of the client's screen and then click on the green **Authorization icon** next to the insurer. The screen below will appear.

Authorization may be either for $$$ or for units or max per session value- (most commonly this will be in units). If an authorization field is left blank, then there are no limits on that field.

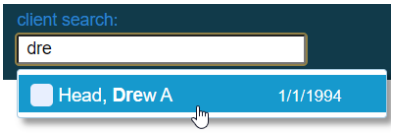

2. To add new/more authorizations, click on Add a new authorization at the bottom of the **Manage insurance company information for a client** page.

ReliaTip: Multiple billing codes will need an authorization for each code.

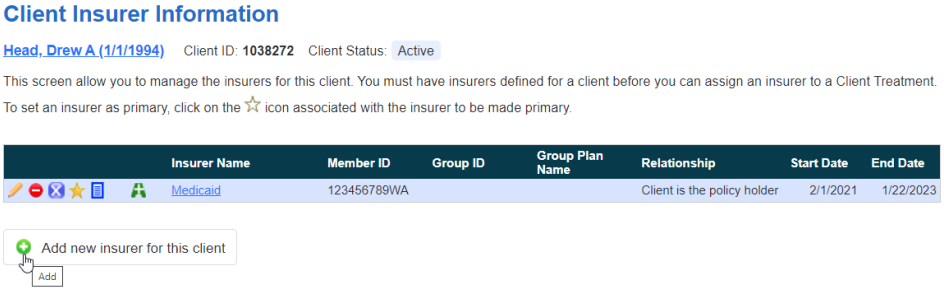

Apply Insurer Defaults to Client Treatments

To utilize your insurer defaults on client pages…

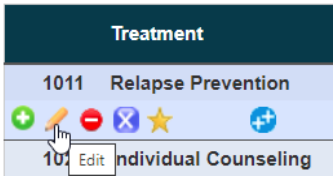

1. Search and click on the client's name in search bar to go to their page
2. Go to the icon at the top of their page
3. Ensure that the client has insurance listed here
4. **OR** if they do not, add their insurance and member ID by clicking **"Add new insurer for this client"**

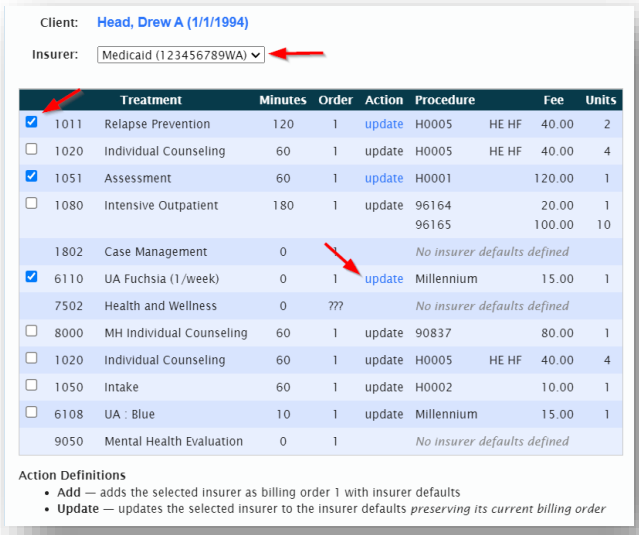

ReliaTip: Refer to your contract for information on what is covered, modifiers/billing units.

5. Once their insurance has been added, you can apply and/or update insurance defaults by clicking **"Set Insurer Treatment Defaults"**
6. Choose the insurer and services to add or update insurance on and submit to apply these changes.
7. Individual modifications (i.e. copays) can be modified/added per client using the pencil icon:

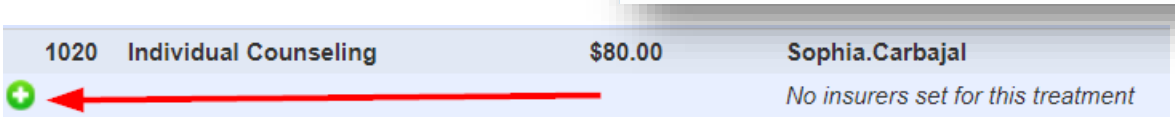

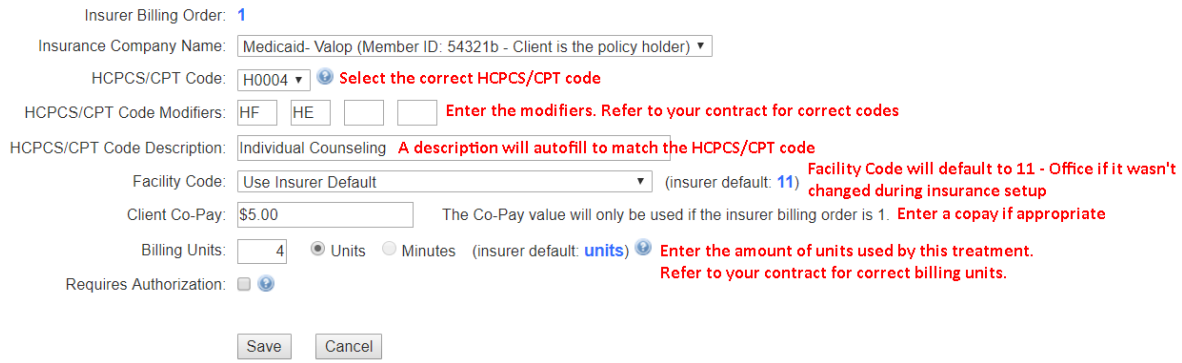

OR Individually Attach the Insurance/Authorizations to a Treatment

You must attach the insurer and referring doctor to **each treatment.**

1. Click on the blue umbrella icon on the client's icon bar.
2. Click on next to a covered treatment.

3. Select the HCPCS/CPT Code from the dropdown menu.
4. Add modifiers in the fields provided.
5. Ensure that the **Billing Units** are correct.
6. To manage authorizations per treatment, click on the **Requires Authorization** checkbox.

7. Click **Save**.

Verify that the Client has Insurance for the day

- If everything has been set up correctly **AND** there are funds available for the day, a blue umbrella will pop up next to the treatment.
- If there is an error (missing information) **OR** there are no funds authorized for the day, the umbrella will be red. The red umbrella means that authorization is required for all treatments, but none were found or that they are expired.

Insurance Billing - The Short Version

Insurance billing in ReliaTrax generally follows the following flow:

1. Setup Company Insurance
2. Setup Client Insurance
3. Check in Sessions
4. Create the Insurance Invoice
5. Create Electronic Invoice
6. Send/Download Electronic Invoice (837P – Paper version is called CMS 1500)
7. Wait for Status Responses (999 and 277CA)
8. Get Paid
9. Reconcile EOBs
10. Correct or Rebill as Needed

Insurance Billing - Step-By-Step

This is a general step-by-step to assist you as you complete your insurance billing in ReliaTrax.

Creating a Billing Item (i.e Attendance)

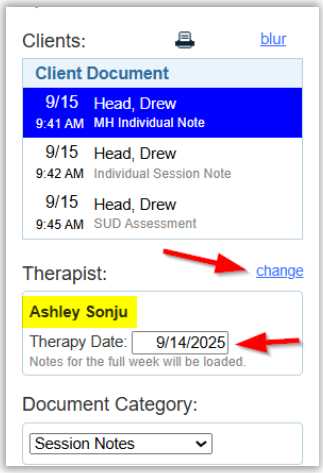

Depending who is checking clients in, this step may already be complete.

Find instructions

Managing Billing Items in QuickNotes

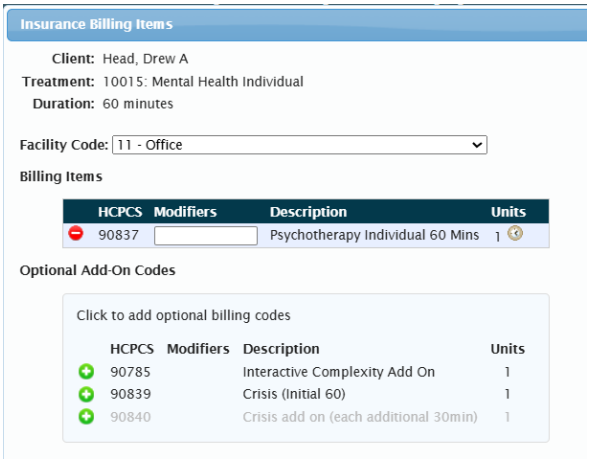

Insurance information can be adjusted from within QuickNotes for a session if you need to add additional billing codes, adjust the primary code for a session, and/or allow counselors to manage billing information while doing their notes.

1. Navigate to **Client Info >> QuickNotes**
2. Adjust the Therapist and Date to find the session you are wanting to adjust

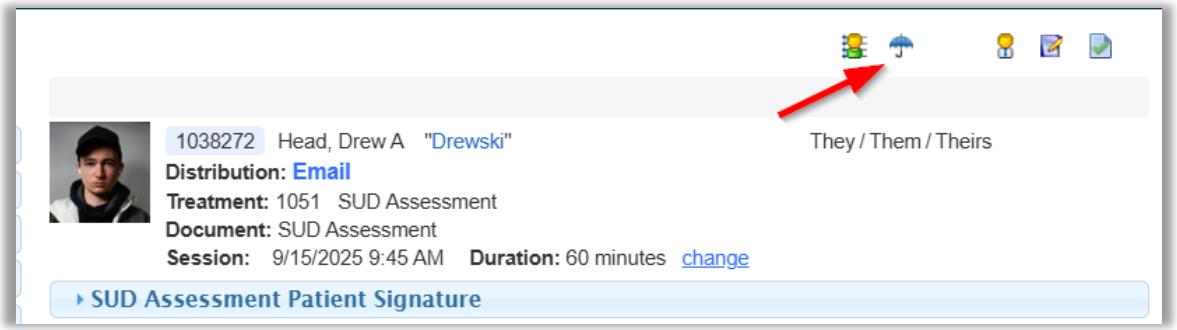

3. Find the Umbrella in the top right corner and click to find the pop-up

4. Here you can adjust:
    a. Facility Code
    b. Modifiers
    c. Units (if not a timed code)
    d. Primary and Add-On Codes

5. Click “Save” and these changes will reflect on the Billing Invoice

2. Complete Pre-Billing Checks

These reports will help you fix any issues that will come up while you are doing your billing.

I. CHECK ELIGIBILITY REPORT

ReliaTrax can do automated daily eligibility requests for Medicaid clients. They can be found under **Reports >> Insurance Reports >> Eligibility Requests**. To set up this function, contact a ReliaTrax team member. If available in your region, there is a nominal fee for this service.

More information on eligibility requests can be found in Appendix B

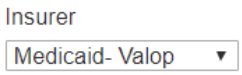

II. COUNSELOR ACTIVITY

The counselor activity report (**Accounting >> Counselor Activity**) will show you sessions that have happened within a designated time frame. It will also show you whether there is insurance attached to the session.

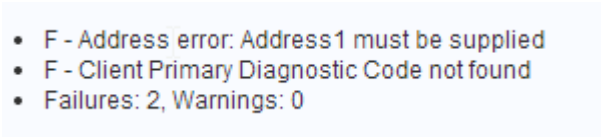

III. E-BILLING AUDIT

It is important to check that you have all of the correct information entered before submitting a bill. This is easily done by going across the Navigation Bar to **Reports** >>**Insurance Reports** >> **eBilling Audit.**

1. Select the Insurer that you are billing, and a list of clients will be displayed with the error messages associated, as well as any agency information that may be missing.
2. Click on the little man icon next to the client's name to go to their page and fix ALL the errors and

recheck the report.

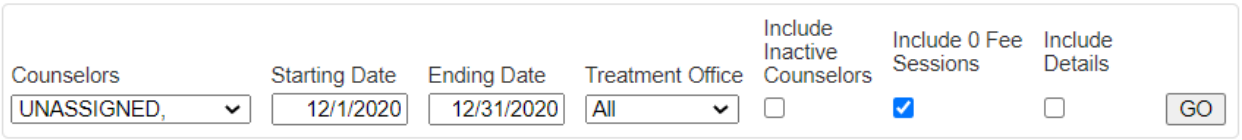

ReliaTip: It's easier to right click and open in a new tab or click down on the mouse scroller. This way, you can go back and forth between tabs.

Billing Insurance – Creating the Invoice

Finding Sessions with Missing Counselors

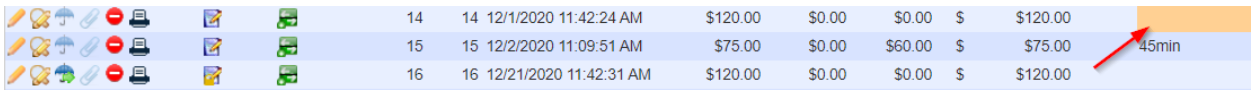

There are a few ways to find sessions with missing counselors.

1. Go to **Accounting >> Counselor Activity**
2. Choose "Unassigned" under counselors and choose your parameters and then "Go"

You can also find the sessions on the client page. You will want to make sure that on the treatment under **Treats/Groups >> Treatments** you have a "Y" next to "Alert if no Session Counselor"

1. Go to the client page to the white notepad next to the treatment you are looking for sessions missing a counselor will have a orange box next to them which you can fix by going to the icon and assigning a

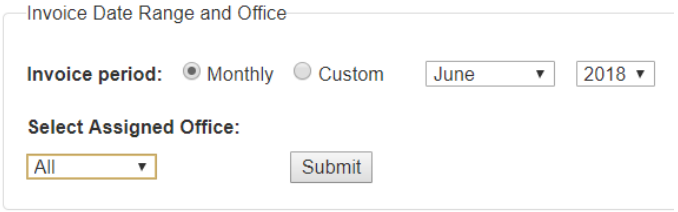

counselor.

Create an Insurance Invoice

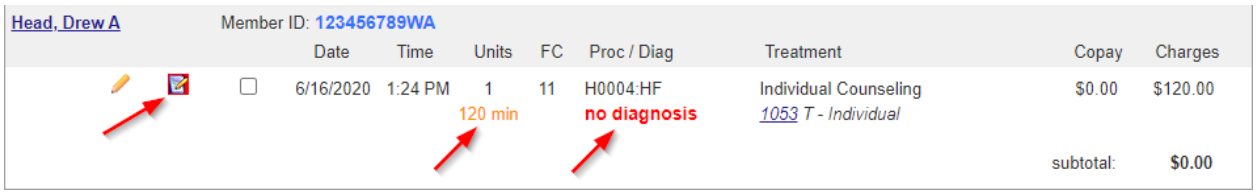

Create an invoice in ReliaTrax by going across the Navigation Bar to **Accounting** >> **Insurance >> Invoices**.

1. At the bottom of the page click on the  to **Create a New Insurer Invoice.**
2. Define the period you are billing for and click **Submit.**

> **ReliaTip:** We recommend setting your start date back a few months to catch any services that may have been missed or added late.

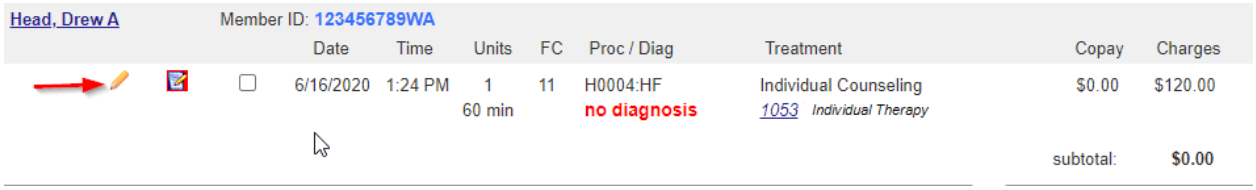

3. Select insurers to invoice and click **Next**.
4. ReliaTrax will do an initial scrub on the invoice. Any errors will be noted on the next page.
5. If you find errors, you can find **Missing Diagnosis** and/or **Missing Notes**. Clicking on **show details** beside the **Missing Notes** will display which counselor(s) is missing notes.

- If the duration entered for the session is not the same as the default on the treatment line, you will also see this here.

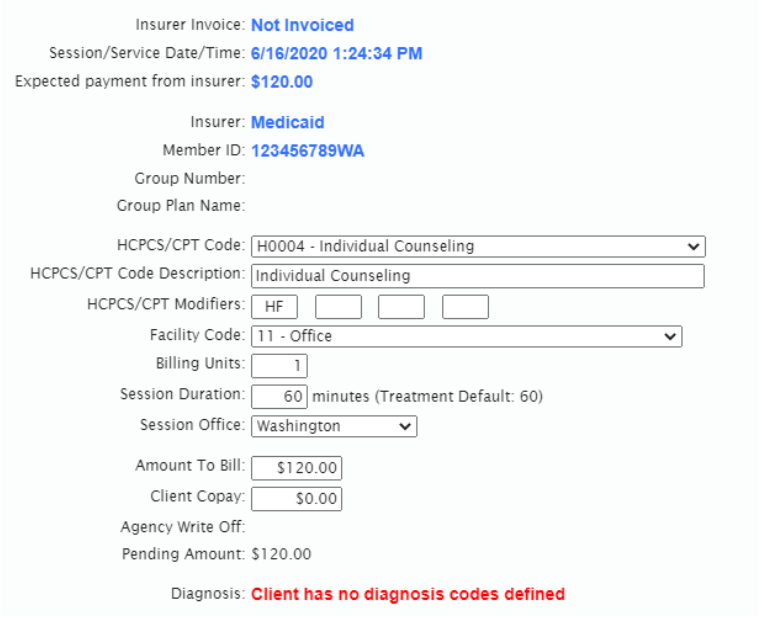

6. To edit the diagnosis, you can click on the client's name to take you directly to the client's page and then click on the client diagnostic codes icon  to add a diagnosis.
7. To view or approve session notes, click on the no archived session note icon  .
8. Edits for the session (Units, duration, can be made by using the pencil

> **ReliaTip:** ReliaTrax will not invoice claims without a diagnosis.

9. Once edits have been made, click **Generate Final Invoice.**
10. Back on the Insurance Invoices page,
    1. To edit the invoice, click on the  icon. To view the invoice, click on the  icon.
    2. To delete the invoice, click on the  icon.
       Note: this is a permission.
    3. If you are ready to send your invoice, move to the next section

> **ReliaTip: WARNING:** You cannot make any edits after the invoice has been sent!

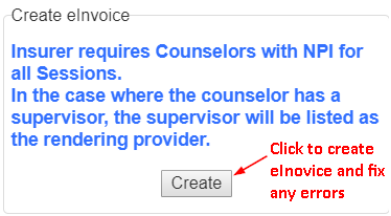

Create and Send an Electronic Invoice

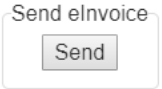

Invoices can be submitted electronically. ReliaTrax will do a secondary scrub of the invoice.

1. Go **to Accounting >> Insurance >> Invoices** and create an invoice
2. Click on the (moneybag) Create/Send e-invoices icon 
3. If there are errors, ReliaTrax will do a secondary scrub and will provide you with error codes. Below is a list of common errors:
   a. Subscriber address error: Address1 must be supplied
   b. Rendering NPI
4. To fix any errors, go to the client's page.
   a. **To fix client address**, click on the magnifying glass icon and then the pencil icon.
   b. **To fix the rendering counselor**, click on the sessions log. Then click on the magnifying pencil.
   c. **To fix rendering NPI**, go to User Info >> Users. Search for the counselor, scroll down and add the NPI number.
5. If the invoice doesn't have any errors, click on **Create** to create the eInvoice.
6. After the eInvoice is created, you can submit the claim by clicking on the **Send** button under the Send eInvoice section.

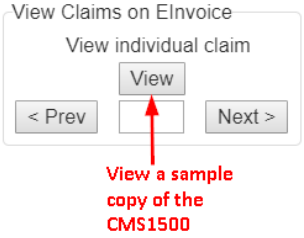

ReliaTip: The document in the PDF viewer is NOT what is sent to the insurer.

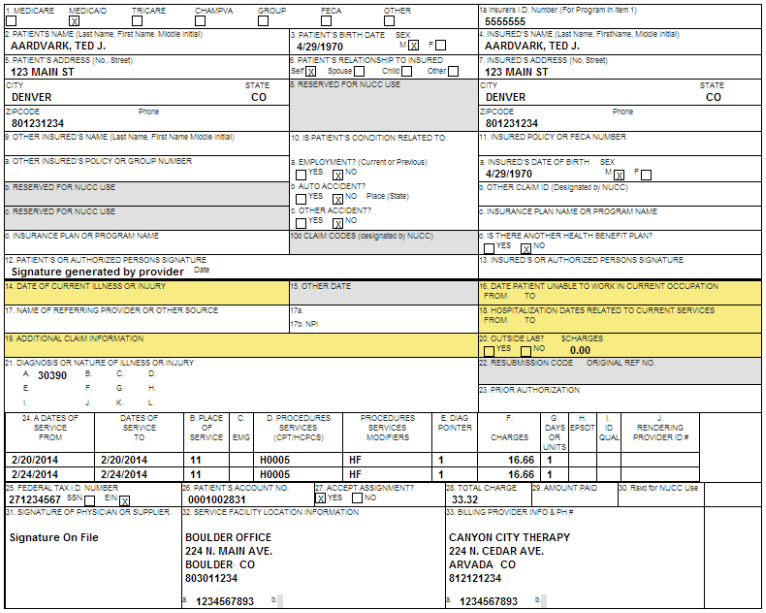

ReliaTip: If you see a "download" button instead, the insurer is not setup to a clearing house. This will allow you to manually download the 837 file to upload to your clearing house.

7. You can view or print the client's CMS1500 by clicking on View under the **View Claims on EInvoice** section.
8. You can download the 837P File, which is the electronic version of the CMS1500, by clicking on the **Did this 837P File** button.
9. You can download and print the CMS1500 PDF by clicking on the appropriate button in the **Print CMS**

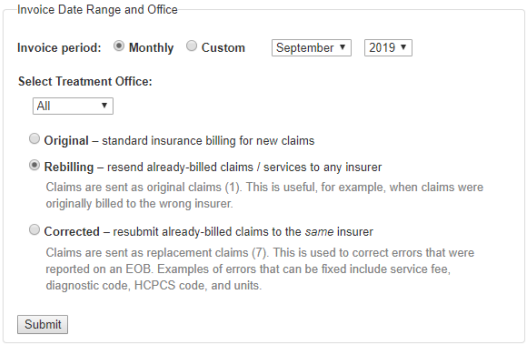

1500 section. You can also align your printer by clicking on the **Printer Setup** button. Clicking the **Include Template** checkbox will include the table while it prints. (This is not an approved for submission, use the official HCFA paper)

10. If the claim was successfully submitted the eInvoice icon will be green .
11. If there was an issue with the submission the eInvoice icon will be yellow illustrating that the claim was created but not submitted. Downloaded files will remain yellow.

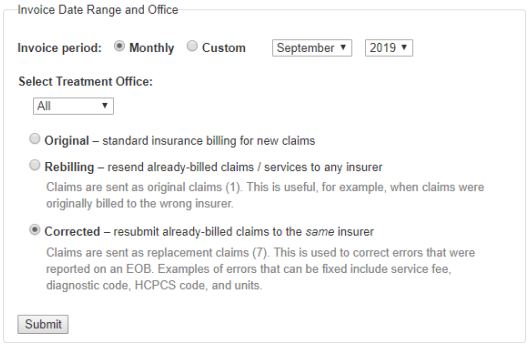

Rebilling: this option is used for creating a new **initial** claim to a different insurer (useful for when a claim is originally billed to the wrong insurer). Rebilling allows you to select individual dates of service to bill.

- When creating an invoice, select the bubble for Rebilling.
- Select the insurer you wish to bill and on the following page click Add client to invoice.

Corrected Claims: this option is resubmitting a whole claim with corrections to the same insurer (used to correct errors that were reported on an EOB).

- When creating an invoice, select the bubble for Corrected.
- Reference claim numbers are required either by reconciling an EOB or manually entering.
- Select the insurer you wish to bill and on the following page click Add claim to invoice.

View Invoice Status

Once the invoice has been created and sent, you can track its status.

1. Go to **Accounting** >> **Insurance >> Invoices**.
2. The Claim Status Icon next to the invoice in question will change colors to indicate the claims progress.
   a. A blue icon means the claim has made it to the clearing house.
   b. A green icon means it has been accepted to the insurer.
   c. A purple icon means one or more claims on the invoice have been rejected.
   d. A "no" symbol means the entire claim was rejected, this can be resubmitted using rebilling once the errors are fixed.

ReliaTip: This does not mean the claim will be paid, but that it has been received by the insurer for processing

Reconciliation

EOB's can be manually or automatically uploaded into ReliaTrax to allow you to reconcile paid amounts to the client file.

To see the manual download and upload process click here

Automatically Uploaded EOB (Explanation of Benefit) Forms

The clearing house can receive the 835 files automatically and forward them to ReliaTrax, no need to go to the payer's sites to upload them. The directions can be found here for Office Ally: https://cms.officeally.com/Pages/ResourceCenter/PayerERAEnrollmentForms.aspx

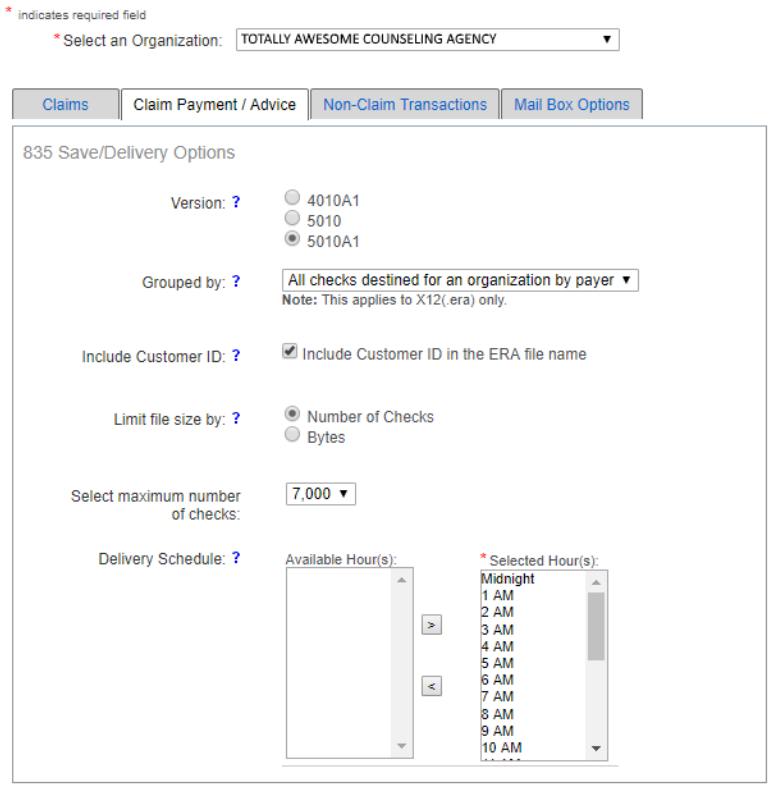

Enrolling in the 835 ERA delivery option for Availity is done in 2 steps.

Set up the ERA Enrollment by logging in to Availity. Click **Enrollments Center**. Click **ERA Enrollment** in the **Multi-payer Enrollments** section. For more information click here: https://apps.availity.com/availity/documents/QRC_WP_PR_ClearinghouseCustomers_QuickStartGuide.pdf

Follow the below steps to setup your 835-file delivery.

1. Log in to your Availity account.
2. Click Claims & Payments >>> EDI Reporting Preferences.

Click the Claim Payment/Advice tab and make sure 5010A1 bubble is checked then save.

Reconciling Automatically Uploaded EOB's

Go to **Accounting >> EOB's/ERA's**

4/19/2020	Medicaid	$160.00	58741346	CHK	
4/12/2020	Medicaid	$160.00	75635211	CHK	
2/27/2020	Medicaid	$200.00	123456	CHK	From Office Ally
2/13/2020	Medicaid	($52.00)	123	CHK	
1/16/2020	DSHS	$1,000.00	123546	CHK	

The orange icon means the EOB has not been reconciled

The pink icon means the EOB is unbalanced, the payment amount does not match the item total

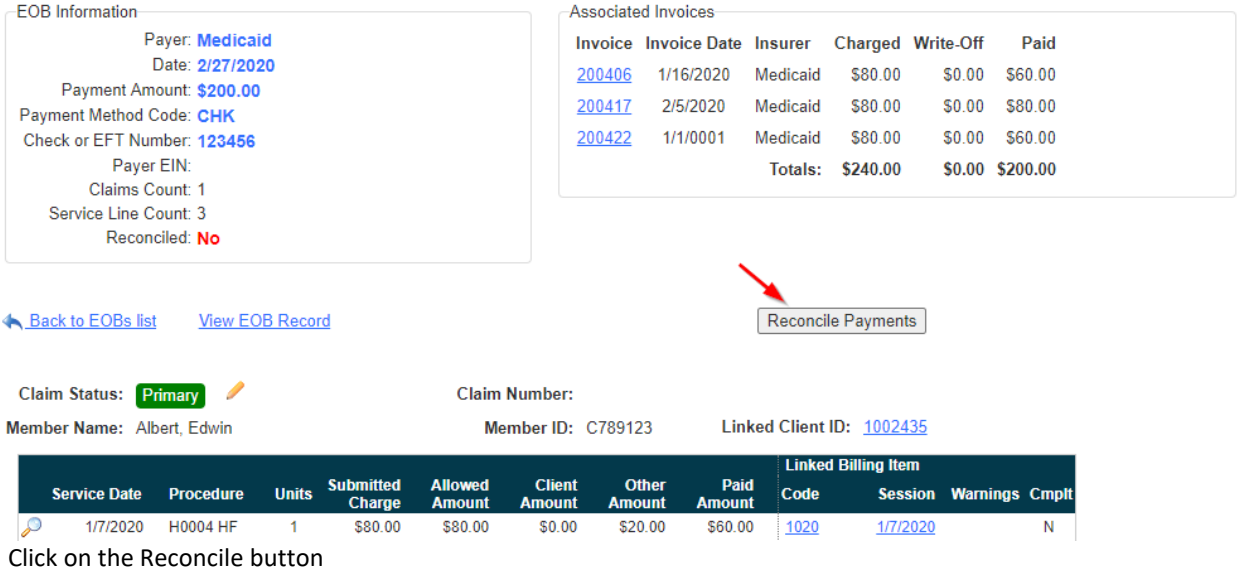

The white icon means it is balanced and reconciled

Clicking on the magnifying glass will allow you to see the details of the EOB and make edits to it

Reconciling an EOB/ERA

1. Go to **Accounting >> EOB's/ERA's**
2. Click on the EOB  which you would like to reconcile

3. Click on the Reconcile button
4. Adjustments will automatically update on the client's page
5. Balance will be added to the client page if the client is responsible for remaining amount
6. If "Other Amount" was used for balancing, amount will show as write-off on the client page and the service line will be balanced to the paid amount

If No Reconcile Button is Available

1. Scroll down to find the claims needing attention, Items needing attention are designed in red

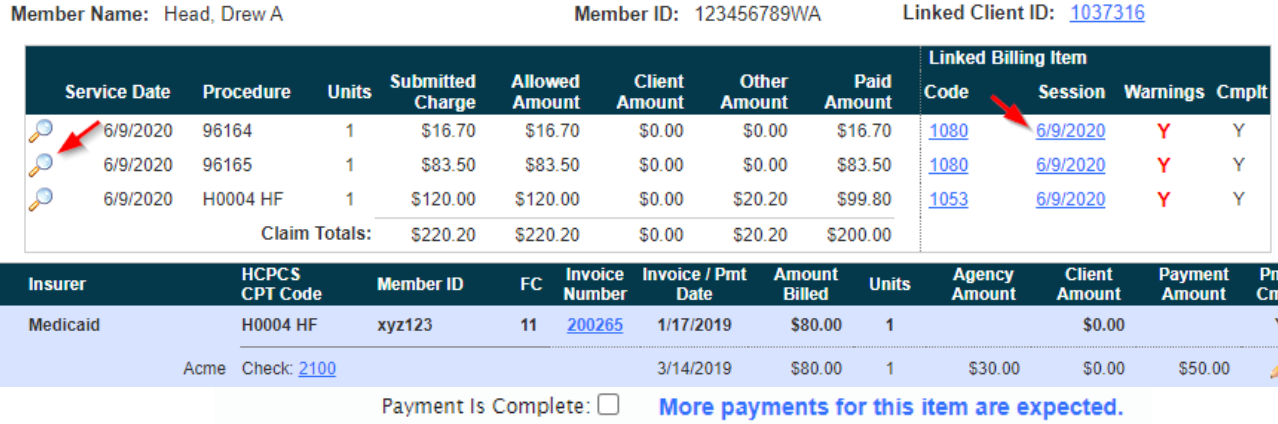

2. Pink lines with “no matching item” designate items that ReliaTrax could not match. Click on the blue words to manually link a session or you can set it to “do not reconcile”.

3. Click on the magnifying glass to see more details

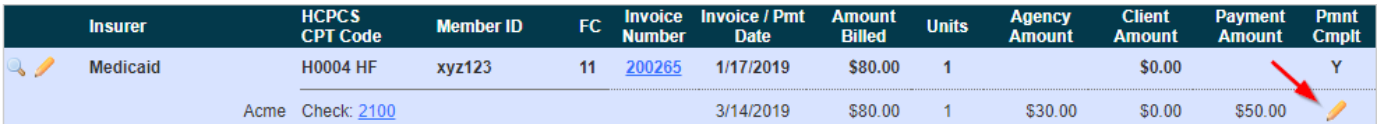

4. Sessions with a Y under the complete column on the right designate items that ReliaTrax has previously marked as a complete billing item, no other action will be allowed on this item without re-opening the billing item. Click on the blue session date and click on the pencil on the left side at the top of the billing record and uncheck the payment complete box.

- You can also click on the pencil on the right at the bottom to have more editing ability over the billing

records.

- A warning saying the item total does not equal the EOB Payment amount indicates the need to add

services to the claim and/or to force reconcile so the EOB can be balanced.

Manually Adding Payments

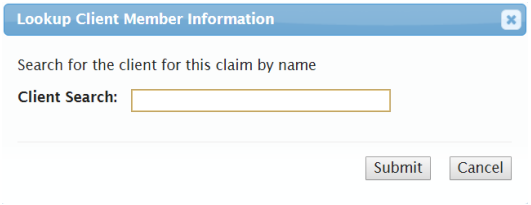

1. You can manually add EOBs by going to **Accounting >> Insurance >> EOBs/ERAs**.

2. Click on **Manually Input A New EOB** at the bottom of the page.
3. Select the insurer using the dropdown menu, the payer name, and Date of EOB.
4. Select the 835 Payment Method using the dropdown menu.

- ACH is direct deposit

5. Enter the check or EFT number.
6. Enter the amount of the EOB.
7. The Provider Adjustment is **RARELY** used.
8. Click on **Submit.**
9. Click on **Manually Input EOB Claims**
10. Select the Claim Status Code from the dropdown menu.
11. Select the Member name by clicking on Select client... .

ii. Search for the client on the popup and click submit.

12. Click Add service lines to this claim. Select the service lines using the checkbox, click **Submit.**
13. The amounts paid MUST match the Remaining Amount on each line.

	Line #	Date	Proc Code	Units	Submitted Amount	Allowed Amount	Agency Amount	Client Amount	Other Amount	Paid Amount	Remaining Amount
⊖	0	5/15/2018	H0004 HF	1	80.00	80.00	$0.00	0.00	0.00	0.00	$80.00
⊖	1	5/23/2018	H0004 HF	1	80.00	80.00	$0.00	0.00	0.00	0.00	$80.00
			Claim Totals:		$160.00	$160.00	$0.00	$0.00	$0.00	$0.00	

i. The **Allowed Amount** can be changed to how much was paid or how much was on the contract.
ii. The **Client Amount** is how much the client is responsible for.
iii. The **Paid Amount** is how much has been paid on this EOB.
iv. The **Remaining Amount** must be balanced, and the red dollar amounts must disappear.

14. Once the EOB is balanced, you will be taken back to the EOB Claims page.

Claim Status: Primary Claim Number:
Member Name: Albert, Edwin Member ID: xyz123 Linked Client ID: 1002435

	Service Date	Procedure	Units	Submitted Charge	Allowed Amount	Client Amount	Other Amount	Paid Amount	Linked Billing Item Code	Session	Warnings	Cmplt
🔎	5/15/2018	H0004 HF	1	$80.00	$50.00	$0.00	$0.00	$50.00	1020	5/15/2018		N
🔎	5/23/2018	H0004 HF	1	$80.00	$50.00	$0.00	$0.00	$50.00	1020	5/23/2018		N
		Claim Totals:		$160.00	$100.00	$0.00	$0.00	$100.00				

15. Click on

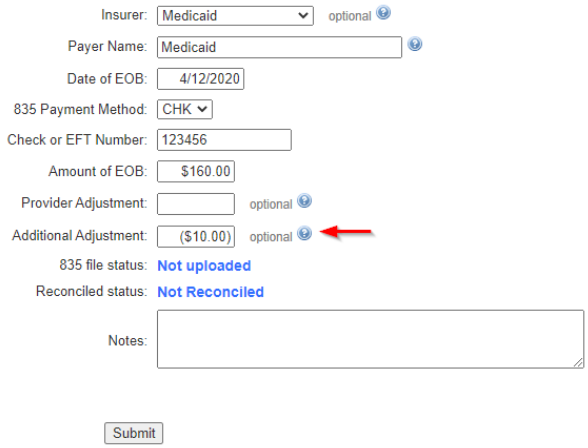

Reconcile Payments

Click on Adding an Adjustment to Force Reconcile an EOB

This function can be used when an insurance company sends an EOB that lumps together payment amounts from multiple invoices. To add an adjustment:

1. Go to **Accounting >> EOB's/ERA's**
2. Click on the magnifying glass next to the EOB to be adjusted
3. Click on **Edit EOB record**

   Here, you can enter an adjustment by adding parentheses and the reconciliation will no longer require you to assign that amount to a client page.

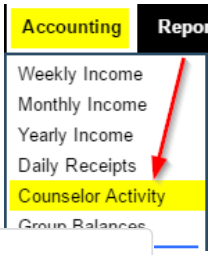

Troubleshooting Insurance Issues

This section will show you common issues that come up with insurance billing/reconciliation and the solutions that may be useful.

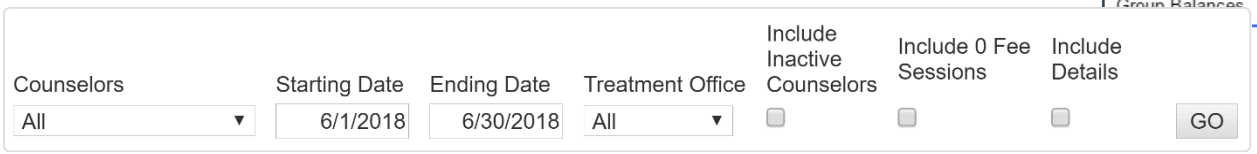

Helpful Accounting Reports

ReliaTrax has many reports that are helpful for accounting purposes.

Generating the Counselor Activity Report

1. Scroll across to top navigation bar to **Accounting**, click on **Counselor Activity.**
2. You can elect to view activity by counselor, date, and/or office. If you do not specify a view, the activity displayed on the report will default to a summary of all counselors, the current month and all treatment offices.
3. Click **Go** to run the summary.

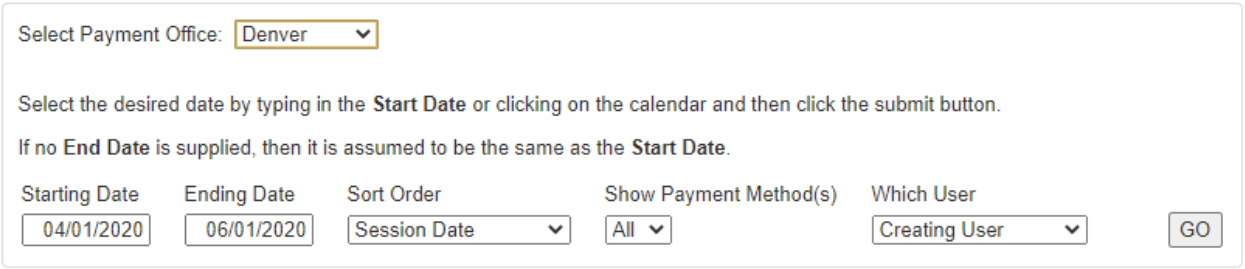

4. The summary will generate. To print the summary, click on the **Print This Page** button and it will automatically pop up the print menu.
5. For a more detailed view of this report, click on the Create CSV Report
6. For more information how to navigate the detailed counselor activity report, click on the Details csv Info

Daily Receipts

The daily receipts report displays session payment information for the specified date. It can be used to balance the drawer so you can see information about money that was collected as well as the collector.

1. Go to **Accounting >> Daily Receipts**
2. Enter the office, date range, payment method, etc. and click "Go"

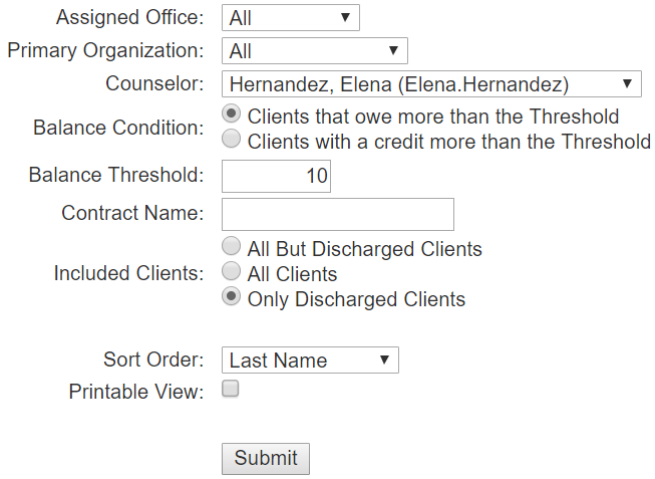

3. View the tables which will provide total payments including payment type, by user, treatment code, and by client.

Clients with Balances Reports

This section will allow you to find all clients whose total account balance due exceeds a specified threshold.

1. Go to **Accounting** >> **Clients with Balance**
2. You can specify your search by office, organization, and/or counselor.
3. Select the Balance Condition and specify the Balance Threshold.

4. You can include all clients or choose specific clients by choosing **All But Discharged Clients, All Clients** or **Only Discharged Clients**.

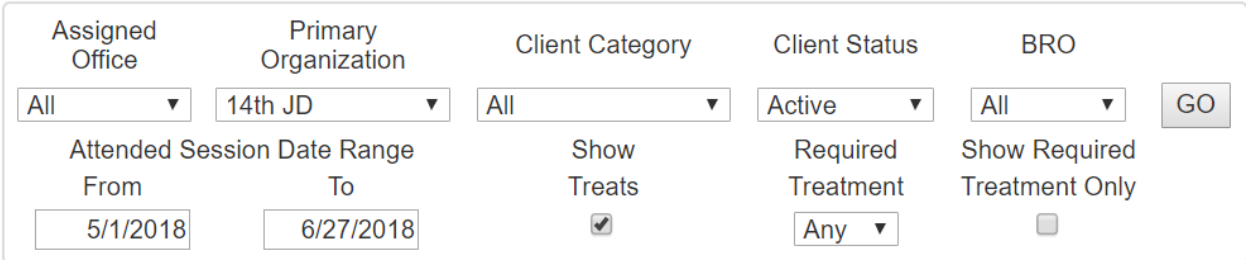

5. Click **Submit.**

Session Summary Report

This section allows you to get a list of clients who have attended sessions during a specified time period. The report shows sessions attended per client, assigned office or organization. It also shows if the client has a BRO and insurance per treatment.

Client ID	Client Name Treatment Code - Treatment Description	Assigned Office # of Sess - # of Wks	Primary Org First Sess - Last Sess	Has BRO	Treat Insurer Name
1002831	Aardvark, Ted J (4/29/1970)	Boulder	14th JD	N	
	1005 Level II Track D	5 8	5/2/2018 6/26/2018		

1. Go to **Reports >> Client Reports >> Session Summary**
2. Using the sort function, enter the parameters for your search and click **Go**.

3. For more information use the sorting functions to create and download a CSV report by clicking on the Create CSV Report link.

Chapter 11: UA/BA Testing

ReliaTrax works with testing labs including: Millennium, Drug Scan, Nepenthe, Cordant, Dominion, Genesis, Emerald, Precision, and GTI to allow for the sending and receiving of UA/BA test results directly from/to our system. ReliaTrax also has a randomizer that can alleviate taking on the added expense of an extra UA/BA call-in line or waking up at 5am to post the colors.

The functions covered in this chapter are:

- Setting up Testing Labs/Lab Tests
- Setting up a Client for UA/BA Testing
- UA/BA Results
- Linking No Match Results
- Managing the UA Randomizer
- UA/BA Black Out Dates
- Adding an Individual Scheduled Test
- UA/BA Reports
- UA/BA Troubleshooting

Find UA/BA Walk-In Instructions in Appendix E

UA/BA Testing Icons

The following icons found in a client's page or UA session are specific to UA/BA testing:

- **Orange Paper:** Click this icon on a UA session line to send the electronic test order to the lab, view the Chain of Custody document, and print the label.
- **Chain of Custody:** This icon will be displayed on a UA session when a test has previously been ordered.
- **Link to Unmatched Test Results:** Click this icon to link unmatched test results under **Client Info >> No Match Results**.
- **Add Confirmation/Correction Test:** Click this icon on a UA session with results to order a confirmation or correction test.
- **Confirmation/Correction Test:** This icon is displayed on a new UA session line to indicate that a confirmation or correction test has been ordered.
- **Red Sun:** This icon is displayed in the Test Result column when a session has been created, but a test order has not yet been placed by clicking the orange paper icon.
- **Green Sun:** This icon is displayed in the Test Result column after an order has been placed, but results are still pending from the lab.
- **Gold Sun (blank):** This icon is displayed in the Test Result column after a confirmation or correction order has been placed, but results are still pending from the lab. If the order is for a Dip Cup or Rapid Test, click this icon to enter the test results.
- **Call-In Log:** Click this icon to view each time a client has called into the color line. Will be highlighted red if the client has not called in regularly in recent days.
- **Reminder Log:** will show all messages that have been sent out to a client (if setup for UAs)
- **Monthly Testing Summary:** Click this icon to display a client's Monthly Testing Summary or show/print their Call-in Instructions.
- **Red Pencil:** The pencil on a client's UA treatment will be highlighted red if a Default Primary Drug Test or Ordering Doctor is not assigned. After assigning the Default Primary Drug Test and Ordering Doctor, the pencil will revert to its normal color.

For more icons on a client's page, click **here**.

Setting Up Testing Labs

ReliaTrax Staff can assist you with the setup of your testing labs and lab tests including the bidirectional functionality. Please contact ReliaTrax to start this process at 833-222-0062 Option 2.

Partnering Laboratories

Below are a list of laboratories that ReliaTrax has interfaces with.

- **Millennium Health** - https://resource.millenniumhealth.com/contact
- **Nepenthe** - https://nepenthelab.com/contact/
- **Drug Scan** - https://www.drugscan.com/index.cfm?Page=Contact-Us
- **Precision Diagnostics** - https://www.precisiondxlab.com/contact
- **Dominion Diagnostics** - https://domdiag.com/contact-us/

- **Cordant** - https://cordantsolutions.com/
- **Genesis Labs** - https://genesislaboratory.com/contact-us/
- **GTI** - https://www.gtilaboratories.com/contact
- **Emerald National** - https://emeraldnational.com/#contact

Types of Interfaces

There are two types of interfaces that are possible through ReliaTrax, bi-directional and unidirectional.

- **Bi-Directional** – this is where the order comes from ReliaTrax directly from the client page and the results come and link to the client automatically
- **Unidirectional** – this is where the order happens from the Laboratory's LIS system and then the results come into ReliaTrax

**Generally, interfaces with ReliaTrax are set up bi-directional, if possible, for ease of use. However, some interfaces, such as those for granted Sentry clients, are set up unidirectional.

Setting Up UA/BA Treatments

Depending on when you implement UA Testing in ReliaTrax, you may have pre-built UA/BA treatments that you are able to modify or you may need to add new UA/BA Treatments to your site.

For full instructions on building a Treatment click here.

UA Walk-In (Once or Random)

This type of treatment is going to be used for clients who are not going to be on the randomizer. You can name it anything you want that matches your agency's purpose for it (i.e. UA Sentry, UA Assessment, etc.)

The important settings you will want to pay attention to for this type of treatment are:

These settings will insure that the client is not included on the randomizer and that they are not considered as missing their call-in because no call-in is required for this treatment type.

UA Random

These are going to be treatments setup with a frequency for the UA/BA Randomizer.

The settings you will want to consider for these treatment types are:

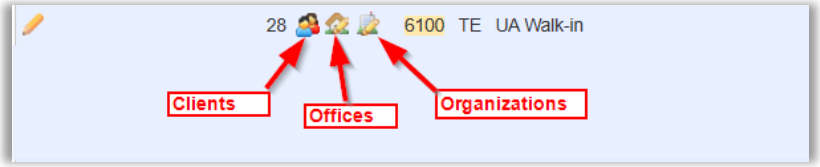

You do not have to gender your UAs but it does allow for some flexibility when you are managing the randomizer if you need to turn off a specific gendered color because you do not have a collector on site of that gender.

Restricting UA/BA Treatments

If you need to restrict treatments so they are only available to certain organizations or users, you can do so from the **Treats/Groups >> Treatments** page.

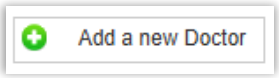

- **Clients** – see how many and which clients are assigned to this treatment
- **Offices** – manage which offices have access to this UA treatment
- **Organizations** – manage which organizations have access to this UA treatment

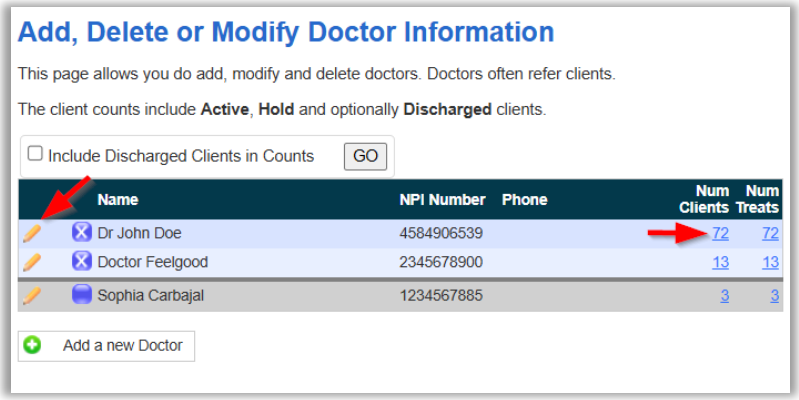

Managing your Ordering Doctor (for Insurance Billing)

Ordering doctors can be set up in ReliaTrax prior to ordering UA tests. To add a new doctor into your system, you can take the following steps:

- Go to **Admin >> Doctors**
- Click **+ Add a new Doctor**

- Enter the doctor's First/Last Name, Credentials, NPI Number, and any other relevant information. Click **Submit** to save the doctor into the system.
- To edit any information for a doctor, click the pencil icon next to their name under **Admin >> Doctors**.

**You can view all clients assigned to a doctor by clicking on the number of clients next to the doctor's name. If you would like to include discharged clients use the checkbox and "Go" at the top.

Assigning the Ordering Doctor to a Testing Lab/Office

You can set a doctor as the Default Ordering Doctor for UA orders under your Testing Lab and each Office location. This will ensure that an Ordering Doctor is automatically assigned to client UA treatments going forward.

To assign a Default Ordering Doctor to a Testing Lab, you can take the following steps:

1. Go to **Admin >> Testing Labs**
2. Click the pencil next to your Testing Lab
3. Select your doctor under the **Default Ordering Doctor** dropdown menu. To assign the Ordering Doctor to existing client UA treatments and all unordered tests, check the **Propagate Ordering Doctor** box.

4. Click **Save**.

To assign an Attending Doctor to an office, you can take the following steps:

1. Go to **Admin >> Offices**
2. Click the pencil icon next to an office.
3. Select your doctor under the Attending Doctor dropdown menu.

4. Click **Save**.

**Follow the same steps to change if the ordering doctor at your agency has changed. If you adjust the ordering doctor instead of on the laboratory (i.e. if you have different ordering doctors per office), you will need to manually adjust each existing client's ordering doctor if your ordering doctor changes. This can be done on the UA treatment on the client's page by clicking the pencil.

Building UA/BA Panel(s)

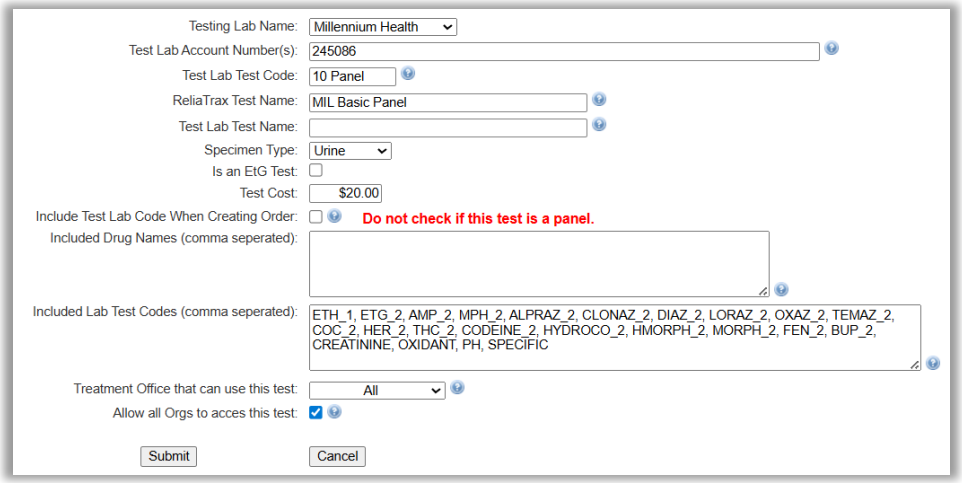

Panels can be set up and modified within your ReliaTrax site. If you need assistance, please contact your ReliaTeam and/or laboratory representative.

Building a UA Panel

UA panels can be built in ReliaTrax by taking the following steps:

1. Go to **Admin >> Lab Tests**
2. Select your lab under the **Test Lab** dropdown menu and click **GO**
3. This page will display your test panels along with the lab's drug test compendium.

4. Click **+ Add a new Drug Test** on the bottom of the page to begin building your UA panel.

5. **Testing Lab Name:** Your test lab should be selected from the dropdown menu.
6. **Test Lab Account Number(s):** Enter the Lab Account number(s) found on the Lab Tests page in the **Lab Account(s)** column.
7. **Specimen Type:** Urine, Saliva, or Unspecified
8. **Is an EtG Test:** This can be left blank
9. **Test Cost:** Enter the cost of the test here.
10. **Include Test Lab Code When Creating Order:** Uncheck this box to make this test a panel.
11. **Included Drug Names (comma separated):** this can be left blank unless you are building a rapid test
12. **Included Lab Test Codes (comma separated):** Enter the Test Code for each drug you want included in the panel, separated by a comma. Lab Test Codes can be found on the **Admin >> Lab Tests** page in the **Test Code** column.

	Test Name	Specimen Type	Cost	EtG Tst	Lab Account(s)	Test Code	Office Using Test	Clients Actively Using	Total Clients Using
	NEP EIA 11-Panel + ETG	Urine	$0.00	N	9999	11 Panel-O	All	3	6
	Alcohol Biomarkers	Urine	$0.00	N	9999	LC2-AlcoBiom		3	6
	Alcohol Metabolite Oral Fluid	Saliva	$0.00	N	9999	ABOF	All	0	0
	Alkaloid not otherwise specified	Urine	$0.00	N	9999	LC2-AlkaNOS	All	0	0

13. **Treatment Office that can use this test:** If you want this panel available for a specific office, select that office from the dropdown menu.
14. **Allow Orgs to access this test:** Check this box to allow clients with any primary organizations to access this test.
15. Click **Save**

Panels will be displayed with orange highlighting under **Admin >> Lab Tests** at the top of the page.

	Test Name	Specimen Type	Cost	EtG Tst	Lab Account(s)	Test Code	Office Using Test	Clients Actively Using	Total Clients Using
	drug cocaine panel	Saliva	$12.00	N	245086	drug	All	1	3
	-Illicit substance Oral Test	Saliva	$0.00	N	245086	Illicit OF	All	0	1

**You can also view clients that are assigned to each panel by clicking on the number next to each panel on this page.

Building a Dip Cup (Rapid Test)

Dip cup or rapid tests can also be built in ReliaTrax by taking the following steps:

1. Go to **Admin >> Lab Tests**
2. Select **INTERNAL** from the **Test Lab** dropdown menu and click **GO**.
3. Click **+ Add a new Drug Test** on the bottom of the page to begin building your dip cup or rapid test.
4. Enter the name of your test in the Test Lab Test Code and ReliaTrax Test Name fields (i.e. Instant 12 Panel)

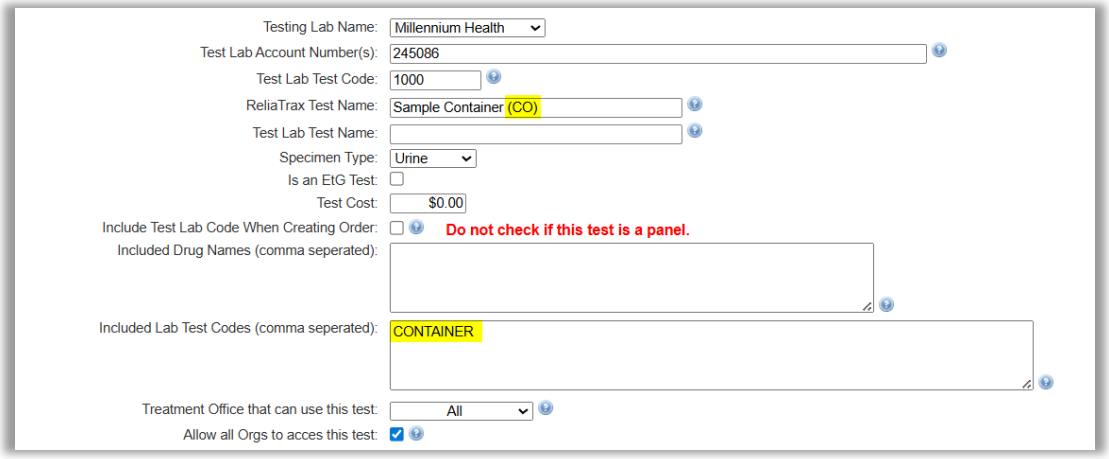

5. **Specimen Type:** Urine, Saliva, or Unspecified
6. **Is an EtG Test:** This field can be left blank
7. **Test Cost:** Enter the cost of the test here.
8. **Include Test Lab Code When Creating Order:** This box should be checked for dip cup or rapid tests.
9. **Included Drug Names (comma separated):** Enter the abbreviated name of each drug you want to test for, separated by a comma (i.e. COC, BUP, THC, PCP, MDMA, etc.).
10. **Treatment Office that can use this test:** If you want this panel available for a specific office, select that office from the dropdown menu.
11. **Allow all Orgs to access this test:** Check this box to allow clients with any primary organizations to access this test.
12. Click **Save**.

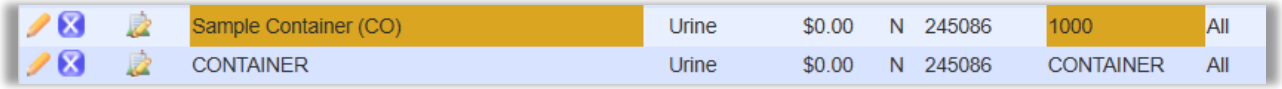

Container Only Tests

This option is used for agencies that would like to initially check in a client UA session and then assign a panel or additional test(s) later.

Container only panels can be created once you have added a container test to your site. A container only panel must contain (CO) in the ReliaTrax Test Name and will contain just the "CONTAINER" test that was added to your compendium.

Once you have both the CONTAINER test and container panel added, they will appear on your **Admin >> Lab Tests** like this:

This new "Sample Container" panel can now be added to client using the instructions below.

These orders will also utilize the Confirmation Test option for adding additional tests.

Specifying the Payment Source within the Lab Test

To indicate the payment source (agency, patient or insurance) within the testing panel, the following suffixes should be included at the end of the Test Lab Test Code, ReliaTrax Test Name, and Test Lab Test Name fields:

- **-AP-** for Agency Pay/direct billing

- **-PP-** for Patient Pay

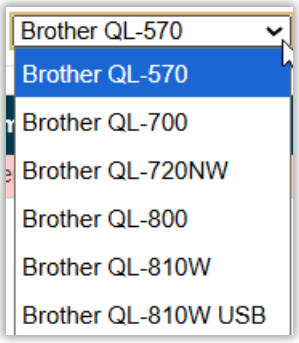

- **-IP-** for Insurance Pay

Setting Up Your Label Printer for UA Testing

In order to print labels for UA testing, you will need to connect a printer that works with ReliaTrax. The list of printers that are compatible with ReliaTrax are:

The most common models are the **QL-800** and the **QL-810W (Wireless).** The laboratory generally will provide you with this printer and the accompanying **DK-2214** labels that are needed.

Printers can be setup by your laboratory representative, with a ReliaTeam member, or by following the steps outlined here.

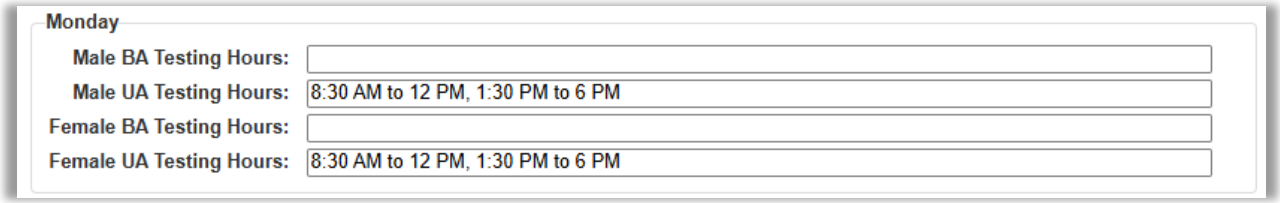

Additional Admin Setup for Randomizer

If you are using the randomizer, you will need to complete the following set-up items:

Set Testing Hours

To utilize the randomizer, you will need to set the time frame that clients are able to come in and test. This can be done by taking the following steps:

1. Go to **BA/UA Testing >> Set Testing Hours**
2. Select your Office and Language from the dropdown menu.
3. Set your testing hours for Male BA Testing, Male UA Testing, Female BA Testing, and Female UA Testing for each day of the week. Testing hours can be set by entering a range of two times separated by the word “to”. Multiple testing hours can be entered by separating with a comma.

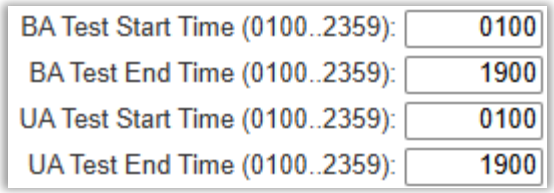

4. Testing hours can also be set for each office under **Admin >> Offices** in the BA/UA Testing Start/End Time fields using military time (0100 – 2359).

Set Call-in Times

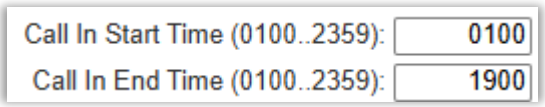

As a part of the randomizer, clients can call into a color line to see if they are scheduled for testing that day. You can set the time range in which clients are able to call in by taking the following steps:

1. Go to **Admin >> Offices**

2. Click the pencil icon next to an office

3. Set the Call In Start Time and Call In End Time using military time (0100 – 2359). Note that Call In Start Time can be set no earlier than 1:00 AM (0100).

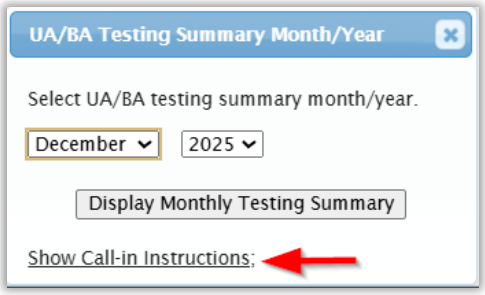

4. Once call-in times are set, clients will need to call in during that time range in order to be credited for calling in. If a client calls in after the cut-off time, they will be marked as having not called in that day.

Optional: Distribute Call-in Instructions to Clients

Depending on the method you decide to use for notifying clients that they have a UA, you may need to distribute call-in instructions to the client. There are a few options for this process.

1. Use our built-in instructions which can be found on the client page under the test tube icon 

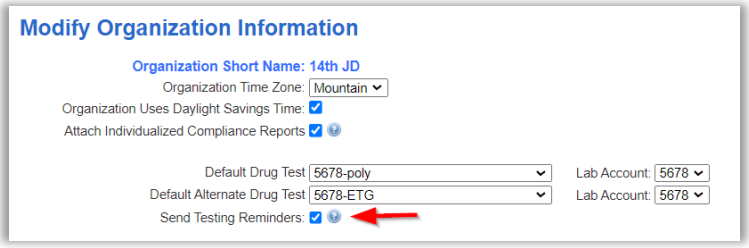

2. Create your own custom instruction pages or ask your ReliaTeam for a template that you can assign to the UA treatment and then print for clients (or to have them sign).
3. Use the client list in **Admin >> Download >> Active Clients** to get a list of the clients and their client ID's. Create a card or sticker for the clients that has your phone line/URL and the clients ID number so they can put this somewhere they can access any time they need to check if they have a UA/BA test.

Optional: Setting Up Testing Text Reminders

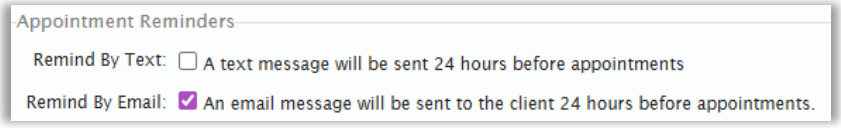

ReliaTrax can remind clients of UA test appointments on the randomizer. This is setup on the organization that the client is assigned to. To setup this function:

1. Go to **Admin >> Organizations**
2. Find the organization you would like to setup for clients to get the text reminders for
3. Click on the pencil next to the organization

4. Check the box next to “Send Testing Reminders” and click **Save**.

Clients will receive reminders about upcoming UA test appointments at 6AM via text or email if their demographics page  contains a valid phone number and/or email address and is set up for Appointment Reminders.

Note: You can easily see if a client is setup for text notifications by looking at their home screen and looking for the bell icon next to their phone/email

Setting Up Clients for UA Testing

This section will walk you through how to setup a clients’ UA treatments so they are ready for UA/BA Testing.

Settings on the Client Page

There are a few settings on the client page that should be addressed when setting up a client for UA/BA Testing.

On the client’s home screen, click on the magnifying glass icon

1. Make sure that the client is in “Active” status
2. If using a lab for ordering, ensure that the client also has an Address entered

Adding UA/BA Treatment to a Client’s Page

This section will assist in setting up a client for UA/BA testing.

1. Go to the client’s homepage
2. Click on Add Client Treatments 

3. Choose the UA Treatment that the client will be assigned to

   a. If you would like a counselor to get notified of results, you can connect them in the second drop-down
   b. The office and insurance (if applicable) should autofill but be sure to verify the information is correct/present

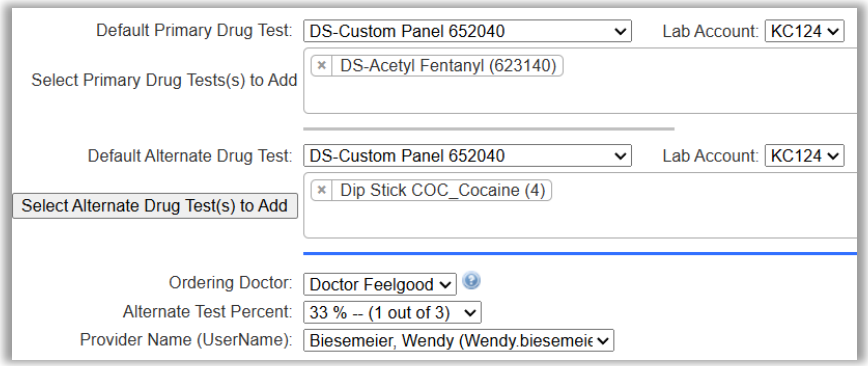

Choosing/Changing Testing Options for the Client

Once you have added the UA treatment to a client, you will need to assign your panel(s), doctor, and/or provider to the treatment. This is also the process you would follow if you are needing to change/modify any of these options for a client later on.

1. Find the pencil next to the UA Treatment on the client page

2. Add a **Default Primary Drug Test** – the main type of test you want this client to have
3. If you would like to add "**Add-On Tests**" you can do so under the panel selections For more on add-on tests click here.
4. Add a **Default Alternate Drug Test + Frequency** – any secondary tests you want to have happen and how often you would like them to happen

5. **Add an ordering doctor** – required for lab bi-directional
6. **Provider Name** – indicate the user that would like alerts for positive/missed UA/BA tests (if desired)
7. Click Save

Optional: Entering Prescriptions

Some agencies choose to have the lab test the client for their prescribed medications or want to include medications in the order.

Prescriptions for a client can be entered on the client's page using the Rx icon. Ensure that you spell the drug completely and correctly to ensure

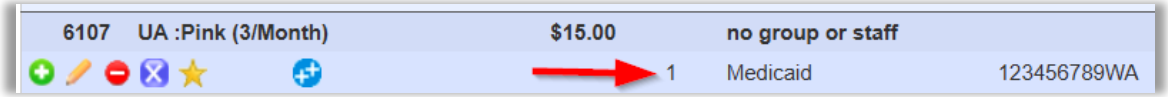

For more information on entering Prescriptions click here.

Additional Setup for Insurance Clients

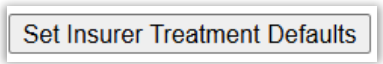

For clients where insurance is going to be billed for the UA, a few additional setup steps are needed. If you have not already set up the insurer defaults for your UA treatments, you will want to do that first.

Add Insurance to the UA Treatment

- Go to the client's page and click on the umbrella icon to ensure that their insurance information has been added AND that the UA treatment has insurance attached to it
- It should look something like this:

- If there is no insurance on the client UA treatment, use the button to apply insurance.

Verify Diagnostic Codes are Added to the Client

If this client has already had active services and billing on their page, they may already have diagnostic codes on their page. To Verify:

1. Go to the client page and click on the 
2. Here you should see a list of the client's diagnoses, or you can add additional diagnoses as needed

For more information on entering diagnostic codes for a client click here.

UA Add-On Tests

ReliaTrax can accommodate customization to UA orders per client and/or per UA order using the UA Add-On test feature which will be outlined below.

There are a few things that must already be in place for using this feature.

1. You must have lab test panels already built in your site
2. You need to have a bidirectional interface with a participating laboratory

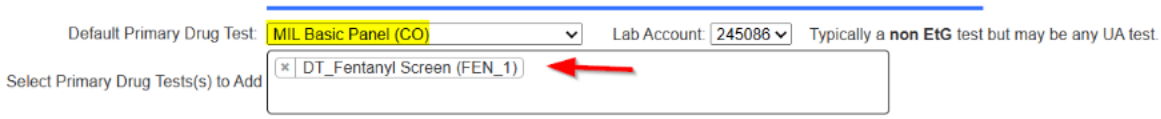

Setting Every Order for a Client to a Custom Test Selection

This setting is used when you have a custom selection you would like to use on **every** order for a client.

1. Go to a client's page
2. Click on the pencil next to their UA treatment

3. Add a Primary Drug Test Selection
4. Then click in the Select Primary Drug Test(s) to Add and type in the tests you would like to add for this client. Up to 5 additional tests can be added.

5. This can also be added on alternate tests as needed
6. Once this has been adjusted, UA orders can be placed as usual, checking in the client and clicking on the orange paper icon

Setting One Specific Order for a Custom Test Selection

This setting is used when you just want to add an additional test to **one** order for a client.

1. Go to a client's page.

2. Click on the white notepad next to their UA treatment.

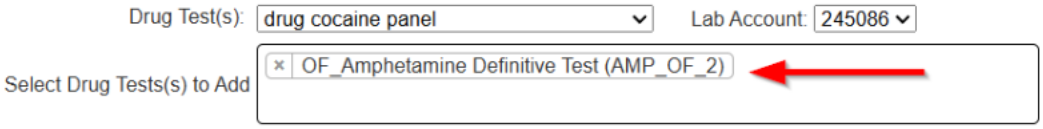

3. At the bottom of the screen, check in a UA session.

4. BEFORE clicking on the orange paper icon to order the test click on the extended edit pencil next to the session.

5. Add any additional tests you would like to have for this order.

6. Click **Save**.

7. Now click the  to place the order.

Placing UA/BA Orders

Once your UA treatments are setup, you can begin to place orders on the UA/BA Treatment.

Placing your Order and Printing Label

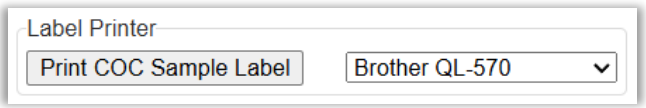

Chain of Custody forms can be printed (as needed) directly from ReliaTrax.

> **ReliaTip:** Sentry COC forms must be printed from the Sentry system at this time.

1. Click on the session icon  next to the UA treatment to add a new session.
2. Enter the client payment and click 
3. In the session line a paper chain of custody will appear. Clicking the orange paper icon will send the electronic order over to the lab while allowing you to view the Chain of Custody page. On the following page you can print a paper chain of custody as the order form or print a label for the UA sample with a bidirectional order.

4. To print your label, select your Brother printer from the dropdown menu and click **Print COC Sample Label.**

5. After the order is sent, the orange paper icon will change to a chain of custody icon on the session line.

Printing a Label for a Date in the Past

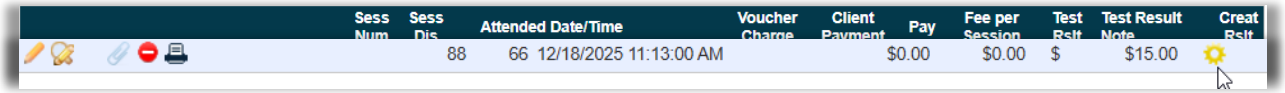

There may be times when you need to access a label/chain of custody form for a session that was checked in in the past. To do this:

1. Go to the client's page
2. Click on the white "Sessions" notepad next to their UA Treatment
3. Next to the session you are wanting to access, click on the extended edit pencil

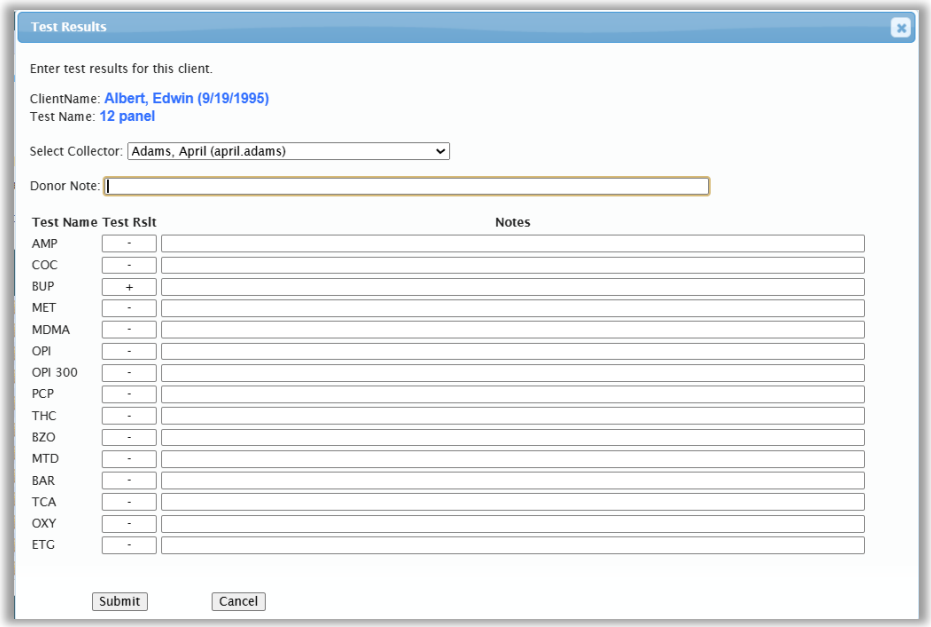

Entering Attendance for and Logging Results for Rapid Test/Dip Cups

When you are logging rapid test/dip cups, you are able to enter the instant result into ReliaTrax and a lab test report will be generated and saved into the client file. These are the instructions for checking in and logging the rapid test/dip cups.

1. Go to the client's page and click the white "Sessions" notepad next to their UA treatment
2. Check the client in by entering the date/time and payment (if applicable) into the boxes at the bottom of the screen

3. Next to the session, click on the cog icon
4. Here you can enter the test results from the rapid test

5. Click Submit
6. You will now see the test result reflected next to the session and you can access a printable report by going to the client's filing cabinet

UA/BA Results from the Lab

ReliaTrax can import UA test results directly from the testing lab! If there is a UA testing treatment line and the client's name, DOB and ML number is entered on the client's home page (using the) and matches the ML number on the specimen label, the test results will auto link directly to the session. Sessions that are not able to be linked will go into No Match Results. For information on finding and fixing these results, click here.

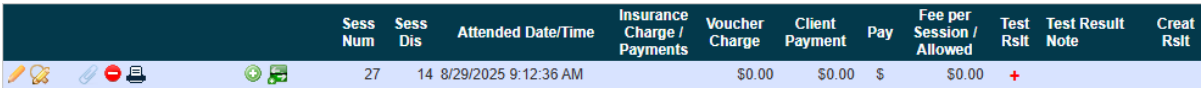

To View Individual Test Results

1. Go to the client's page

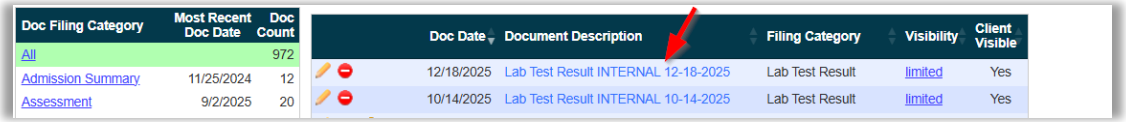

2. Find the UA Treatment line and click on the notepad

3. The test results will be displayed in the Test Rslt column in each session line. Click the test result to view the lab PDF.

4. Test results will also be uploaded into a client's Filing Cabinet under the Lab Test Result Doc Filing Category.

To View All Test Results

1. Go to Client Info
2. Click on "Test Results"
3. Enter the date range you would like to see the results for
4. Click Submit

To View Only Positive Results

1. Go to **Client info >> Positive Test**
2. Positive results can be sorted by Treatment Office, Organization, Sort Order, and Linked Staff.

Ordering/Recording a Confirmation Test

If you need to retest a sample or confirm a recent result, you can order a **Confirmation Test** by clicking the next to the positive test.

If you want to use a different drug test panel for your confirmation test, click the Extended Edit pencil on the confirmation test line *before* clicking on the orange paper icon.

After updating the Drug Test for the session, click Save and then select the orange paper icon to order the confirmation test.

**Note: Confirmation tests can only be added for sessions that have a result in ReliaTrax. Container Only initial sessions will automatically generate a negative result.

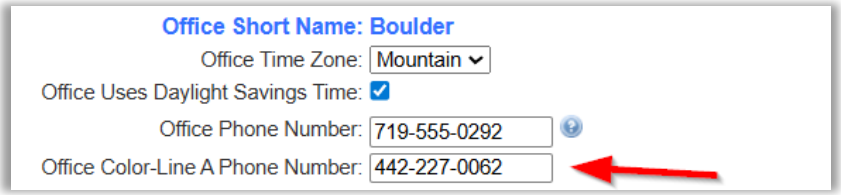

Managing the UA/BA Randomizer

ReliaTrax has a UA Randomizer that you can utilize to reduce the added time and effort spent recording a message each day for UA call-ins. Contact our team if you would like to have this function set up.

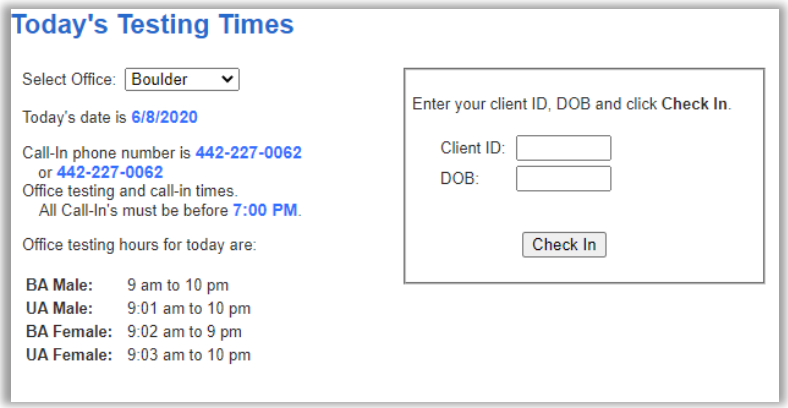

Options that are available for the UA Randomizer include:

5. **Call-in Line** – clients can call-in to find out if they are required to test

a. Find your call-in phone number under **Admin >> Offices** and click the pencil next to the office
b. The number will be listed under Office Color-Line A Phone Number

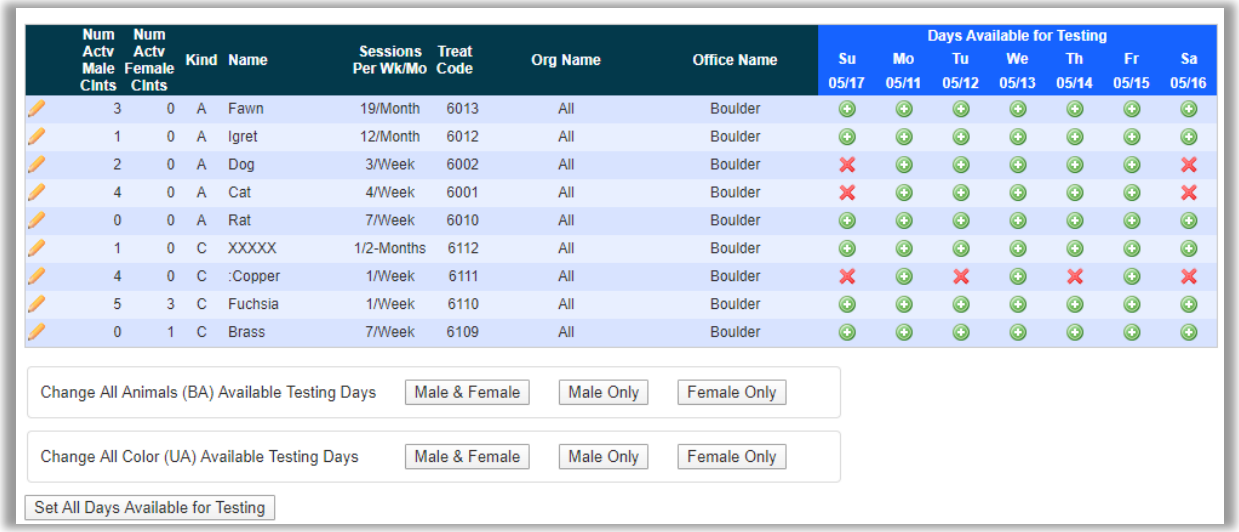

6. **Check Online** – clients can check online to find out if they are required to test
   a. This can be found at your personal URL: yoursite.reliatrax.net\pub\testingtimes

7. **Text Reminders** – clients can receive a text message that indicates if they are required to test

Setting Testing Days Per Color/Animal

1. Go to **BA/UA Testing >> Colors and Animals**
2. Here you can set available days for testing per color/animal

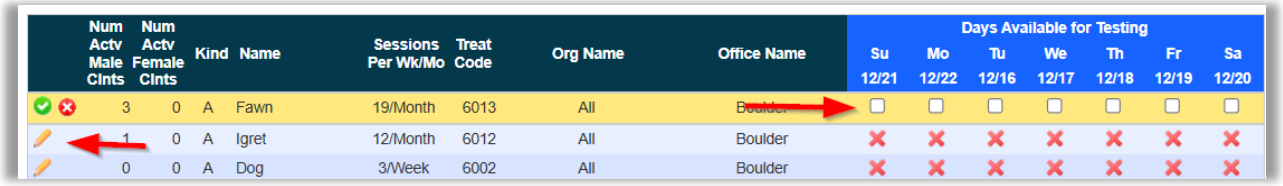

Clicking the buttons at the bottom of the screen allows you to make adjustments to all or groups of colors/animals:

You can also click on the pencil next to each color/animal to adjust them line by line:

UA/BA Black Out Dates

	Num Actv Male Clnts	Num Actv Female Clnts	Kind	Name	Sessions Per Wk/Mo	Treat Code	Org Name	Office Name	Days Available for Testing Su 12/21	Mo 12/22	Tu 12/16	We 12/17	Th 12/18	Fr 12/19	Sa 12/20
	3	0	A	Fawn	19/Month	6013	All	Boulder	☐	☐	☐	☐	☐	☐	☐
	1	0	A	Igret	12/Month	6012	All	Boulder	✗	✗	✗	✗	✗	✗	✗
	0	0	A	Dog	3/Week	6002	All	Boulder	✗	✗	✗	✗	✗	✗	✗

If there are certain dates you know you will not have people coming in to UA (i.e. holidays), you might consider a blackout date.

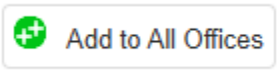

1. Go to **BA/UA Testing >>Black Out Dates**
2. Select your office.
3. Enter the Black Out Date, Reason Code, and Reason Details

8/3/2017	ax	Fun Day
11/1/2017	ax	snow cancellation
3/8/2019	ax	snow day
10/31/2019	ho	halloween

Black Out Date	Reason Code	Reason Details
05/11/2020	ax	Staff Training

> **ReliaTip:** Black out dates must be managed per office so don't forget to enter the dates in each office.

4. Click on the green "+"to add the Black Out Date to your assigned office or click **Add to All Offices** to add the Black Out Date to each of your offices.

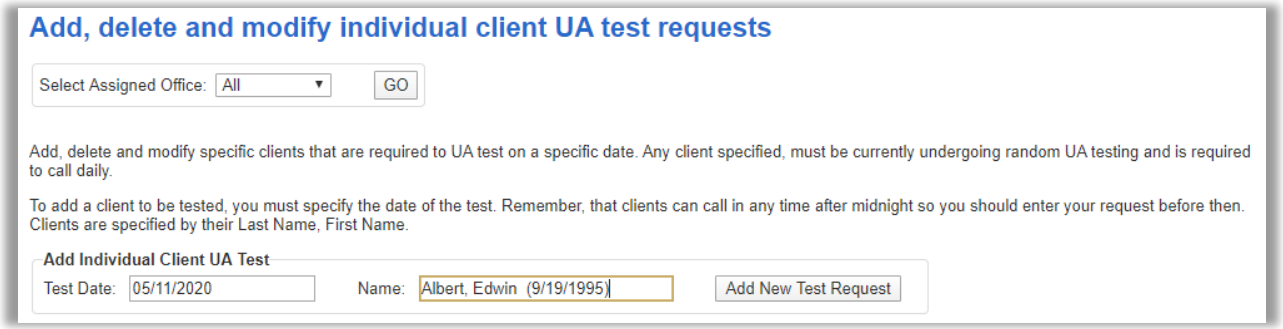

Adding an Individual (Scheduled) Test

Individual tests are often utilized for testing that is scheduled and/or where suspicion occurs on a date where a client is not scheduled to test.

1. Go to BA/UA Testing
2. Individual Test
3. Type in the date and the client's name
4. Click "Add New Test Request". The client can be checked into their active UA treatment on the assigned date for their individual test.

> **ReliaTip:** If the client does not have a color assigned to their page, this function will not work.

Adding or Deleting Individual Tests for Bulk Clients

You can also add or delete individual tests for bulk clients by taking the following steps:

1. Click **Add/Delete Individual Test for Bulk Clients**

3. Select the **Treatment Office**, **Organization**, and/or **Client Category** to specify which clients you wish to test.
4. Select the **Test Date**
5. Click the **Add** or **Delete** button to schedule or delete the bulk individual tests.

NOTE: To schedule an individual test, clients must be assigned to no more than one active UA treatment under a specified frequency (i.e. 1/week or 2/month). Clients that are assigned to a "Once or Random" treatment (such as a UA Walk-in treatment) are not included.

Viewing the UA Call-In Log

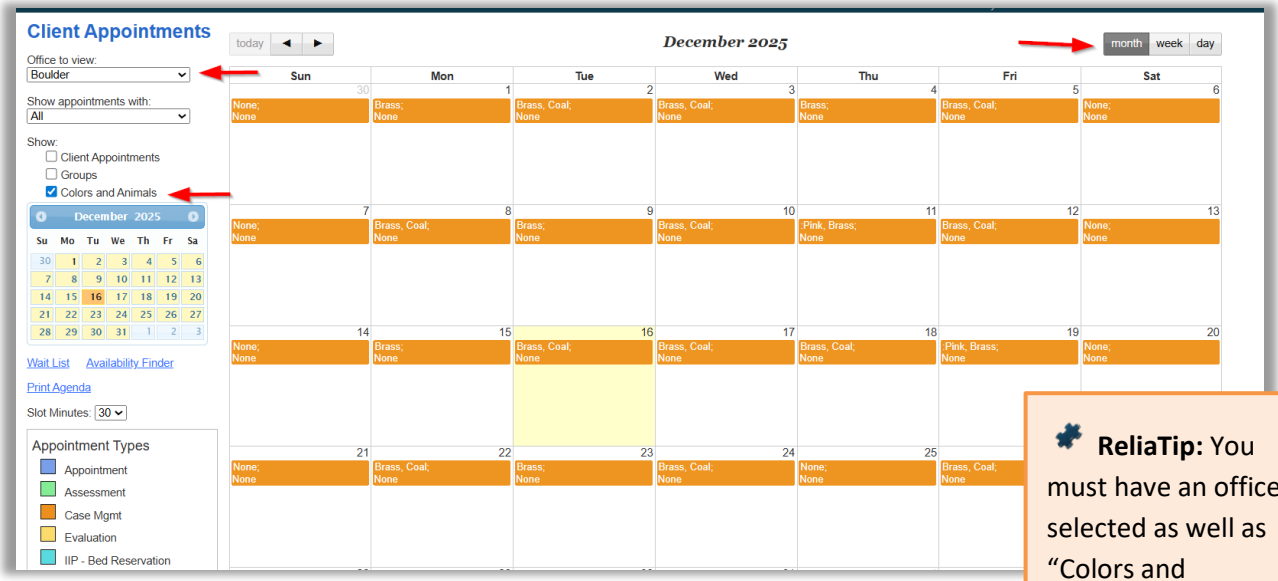

1. Go to the client's page
2. Click on the telephone icon 
3. Here you can see when the client called as well as whether they called by phone or looked on the web and what phone number they called from

ReliaTip: ReliaTrax can connect with Cordant's call-in log as well.

Viewing the Test Schedule

There are a few pages where you can see the test schedule, you can choose which one you prefer.

1. **Client Info >> Test Schedule**: Shows UA's scheduled for one day at a time
2. **BA/UA Testing >> Sched History**: Shows colors/animals called per day
3. **BA/UA Testing >> Test Workload**: Shows # of clients being called from each group per day over the next 2 weeks
4. **Client Info >> Calendar**: will show all colors being called for the week/month/day

ReliaTip: You must have an office selected as well as "Colors and Animals" selected.

***NOTE:** Whenever changes are made under BA/UA Testing >> Colors/Animals, the test schedule will be re-randomized and colors may be assigned to a different date.

Changing a Client's Frequency

If you need to change a client's frequency, you will want to follow the steps outlined below:

1. Navigate to the client's page
2. Find their UA treatment listed at the bottom of the page
3. Click the purple X icon next to the existing UA treatment 
4. Next click to add a new client treatment 

5. Find the new frequency that you would like to have the client on, click the checkbox next to it and "Submit"

***Note: you may want to adjust the start date of the new UA treatment to a day in the future just in case that color happens to be called on the current day. You can adjust the start date by clicking the pencil next to the UA treatment on the client page.

BA/UA Testing Reports

ReliaTrax has a variety of reports regarding UA/BA testing that you can view. The following reports are available under the **BA/UA Testing** menu:

RANDOMIZER SPECIFIC REPORTS

BA/UA Testing >>

- **Client Count:** View the number of clients assigned to Colors or Animals.
- **Test Workload:** View the number of clients tested over the next 14 days.
- **Todays Schedule:** View all colors and animals scheduled for the current day.
- **Sched History:** View the previously scheduled colors and animals for a specified month and year.
- **Sched Summary:** View the weekly and monthly testing schedule summary for a specified month and year.

GENERAL UA REPORTS

BA/UA Testing >>

- **No Default UA Test:** View clients who have a UA treatment but are missing an active or default UA test.
- **UA Test Orders:** View UA test orders from a selected date range.
- **Test Summary Report:** Find and print a monthly summary for all active clients with BA or UA treatments.

You can also view additional UA/BA Testing reports under the **Client Info menu:

RANDOMIZER SPECIFIC REPORTS

Client Info >>

- **Irregular Call In:** View clients who have not been calling in regularly.
- **Called In:** View clients who have been calling in on time.
- **No Call In:** View clients who have not called in or called after the cut-off time.
- **Tested:** View clients who have tested on today's date within the time limits.
- **No Test:** View clients who *should* have tested today, but did not.
- **Test Schedule:** View all clients scheduled for a certain day.
- **Colors/Animals:** View a summary of assigned UA colors for all active clients.

GENERAL UA REPORTS

Client Info >>

- **Pending Results:** View test orders awaiting results from the lab.
- **No Match Results:** View test results that have not been automatically populated in the client's testing session record for reasons listed within.
- **Test Results:** View received test results within a selected date range.
- **Positive Test:** View all clients that have been tested in the last 7 days that missed their testing, tested after the cut-off time, tested positive, and/or tested negative but the UA sample was too diluted for a reliable result.

Linking No Match Results

No match results happen for a few reasons:

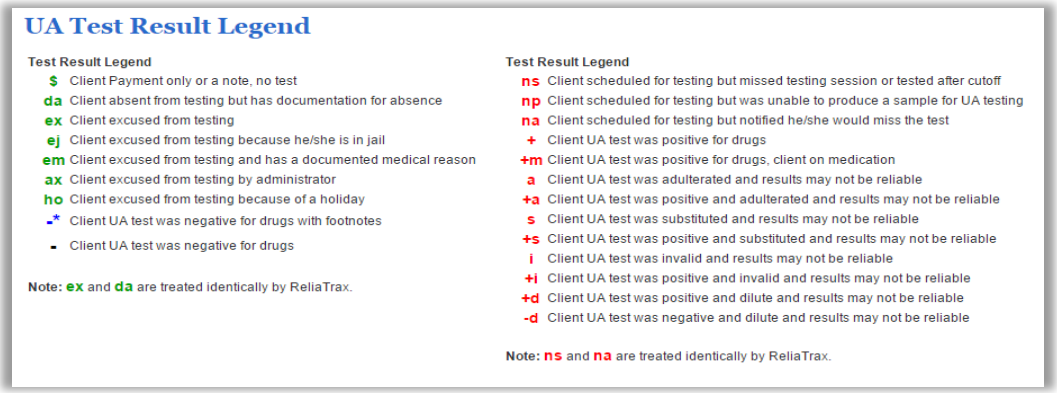

1. If you are using a unidirectional interface, you must enter the ML Number into the Lab's database so that when the result comes in, it links to the appropriate ReliaTrax client
2. If the test was ordered from the lab system with the wrong DOB, Gender, or Name, this will cause the result to go into the no match
3. If you don't have a UA treatment on the client page, the results for the client will also go to the no match results

Unmatched results can be found by scrolling across the top navigation bar to **Client Info** and down to **No Match Results**. You will see a list of all the results that did not match to a specific client or session. Highlight and copy the **Test Result ID**. Make sure to note which **Collection Date** the result is for. If the session in the UA treatment is missing, you can create a new session using the timestamp from the Collection Date in the No Match Results page.

Client Name	Test Result ID	Test Result	Accession	COCID	ML Number	Collection Date	Completion Date
Doe, John	TR00003004	-	AB1234567	X1234567	123456	5/12/2020 6:30:00 PM	5/21/2020 12:53:00 PM
Doe, Jane	TR00002923	-	AB1234568	X1234578	123457	5/15/2020 4:00:00 PM	5/20/2020 1:21:00 PM

1. You can hover over the client's name and ReliaTrax will give a best guess of who the test results belong to.
2. If the name appears, click on it to go to the client's page and follow the steps below:
   a. Click on the next to the UA treatment.
   b. The line item for the **Collection Date** will include an icon used to link unmatched results.
   c. Paste the copied **Test Result ID** into the designated spot. Test Result ID:
   d. Click **Link Results.**
   e. The test results will link to the specified date and will automatically remove from the no match results list.

f. Click on the Test Result icon on the right side of the line item to view a detailed report of the test results. The Figure below provides a legend for all test result icons:

The UA Test Result Legend can be viewed at any time in the session page of a client's UA treatment.

View the Test Result Legend

UA Frequently Asked Questions

This section will walk you through common UA/BA testing questions/concerns and how to solve them.

Here are some of the frequency asked questions related to UA/BAs:

Q: The test type is not showing up in the dropdown for a certain client.

A: Check to see what organization the client is assigned to, then go to **Admin >> Lab Tests** and next to the test you are wanting that client to have, click on the to find out if the organization has that test available to them.

Q: I have pending results that are old in my Pending Results page, what do I need to do?

A: You can verify with the lab that the test was received/done, they may need to re-send the results over if it has been completed **OR** if the client was mistakenly checked in, you can either delete the session and add a "ns" or other attendance code into the result spot.

Q: A client's results are not coming in and linking to their page automatically.

A: If you are ordering bi-directional this should not happen. If you are ordering from the laboratory interface, verify that you have entered the ML Number from the ReliaTrax client page into the appropriate spot in your laboratory interface. You may also want to check the date of birth to ensure that it matches. If there is a disconnect between the two systems, the results should go into **Client Info >> No Match Results**. See instructions for correcting this above.

Q: How do I add in a new test selection/panel for my agency that I can assign to clients?

A: New test selections can be added under **Admin >> Lab Tests**, check out or request our bi- directional help sheet for this or you can send your selection to a ReliaTrax staff member to be built.

Q: Why is a client showing as positive when they are on a medication?

A: Check to see if they have the prescription entered on their page under the  . You may also need to verify that the prescription is spelled correctly. If the prescription was added after the test was ordered, this may be the issue.

Q: What are the basic steps for the client page setup again?

A: Check out our bi-directional Help Sheet for the step-by-step. The basics are: 1) Add the UA treatment to the client page 2) Add prescriptions 3) Add diagnosis 4) Add insurance to the client AND to the UA Treatment line 5) Select a default primary drug test and ordering doctor 6) make sure the client has an address added to their page.

Q: What if the client is doing an instant read cup?

A: Instant read cup can be added as a test type in ReliaTrax under the "Internal" laboratory. Ask your ReliaTrax staff member to add this as an option for you.

Q: What if the client doesn't have insurance?

A: If the client doesn't have insurance, you can skip the "Add Insurance to the Client and Add Insurance to the UA Treatment" step of getting the client page setup.

Q: What if the practice is billing for collection or the client has a copay/fee?

A: When adding insurance to the UA treatment, you can add a copay and/or fee for collection into the "Client Copay" and/or "Fee for Service" and leave the "Do not bill insurer" unchecked if you want to bill the insurer for collection at your agency. Check the "Do Not bill insurer" box if only the lab is billing the insurance company.

Chapter 12: External Users

One of the unique features of ReliaTrax is the ability to coordinate and collaborate with external users, like probation, parole, case workers, etc. that are often in client care. ReliaTrax has an external user portal and many functions that make multidisciplinary care happen with ease.

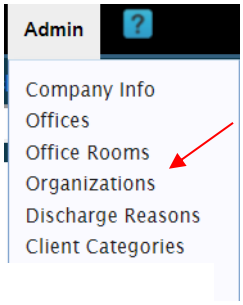

The functions covered in this chapter are:

- Adding an External User and Organization
- Connecting a Client to an Organization
- Connecting a Client to an External User
- Sending Documentation to an External User
- Victim Advocates
- Parents/Guardians of Juveniles
- Referrals
- Moving a Caseload from One External User to Another

Visit Appendices H and I to see example reports sent to external users

Adding an External Organization

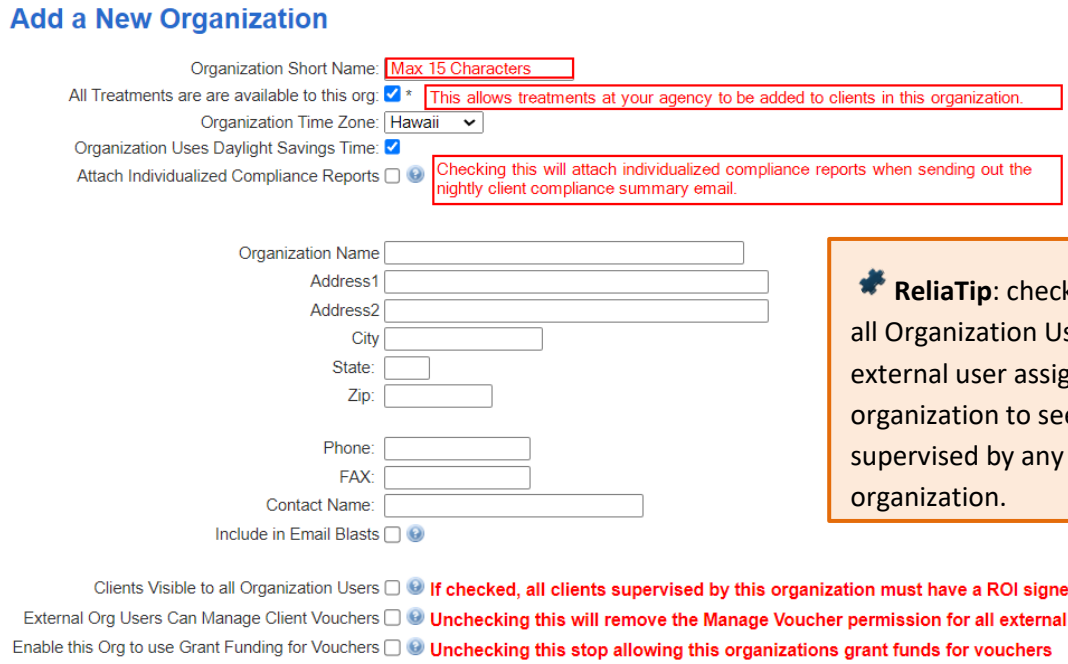

Organizations are your referral sources. Ex. Probation/Parole Departments.

1. Scroll to the top of the navigation bar to **Admin** and then down to **Organizations**.
2. At the bottom of the page will be a green plus sign to add an organization

3. Fill in fields – make sure to select Organization Time Zone

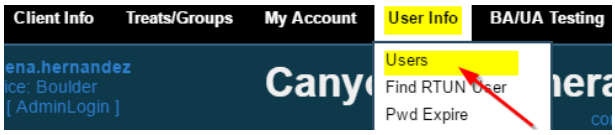

ReliaTip: checking "Clients Visible to all Organization Users" will allow an external user assigned to this organization to see any client supervised by any user in this organization.

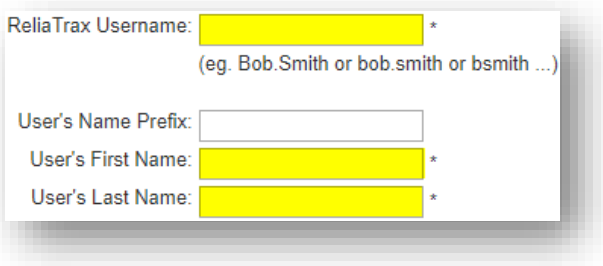

4. Click Save

Adding Probation Officers/Other External Users

How to Enter an External User who is not in the RTUN Portal

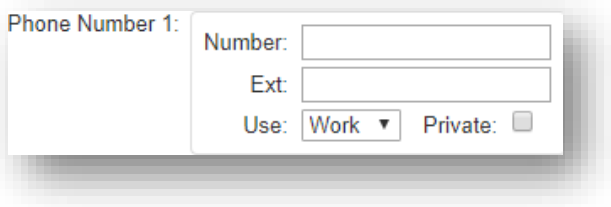

1. Scroll across the top navigation bar to **User Info** and down to **Users**.
2. Click on the green plus sign to **Add a new User** at the bottom of your screen.
3. Select an **External User** role.
4. Fill in all the fields marked by a *. These fields are required.

ReliaTip: You must have the "add external user" permission checked to add new external users.

5. Enter the user phone number and its use.

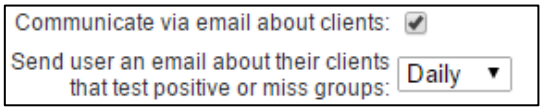

> **ReliaTip:** The phone numbers entered are used to verify the accuracy of user information when requested to be added to the RTUN Portal.

6. User email is required for any communication and to link them to the RTUN Portal.
7. Enter **NONE** as the user password. This requires external users to login through the portal and keep up with their own passwords.
8. Set the **Organizational Association** to the appropriate organization using the dropdown menu. This option is required.

9. Check the **Communicate via email about clients** box (if you want the automatic daily emails to go out to this person) and set the frequency to Daily. Don't forget to **Submit**!

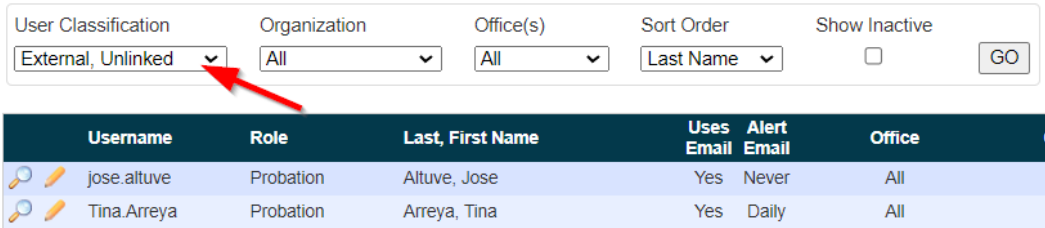

- **To see an example compliance report sent to compliance visit Appendix D**

10. Request to add the user to the RTUN Portal

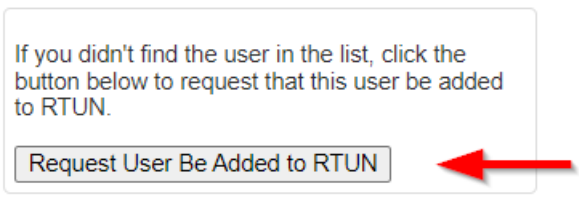

Request a User be Added to the RTUN Portal

Once a user has been added to your ReliaTrax, you can request that they be linked to the RTUN Portal to be granted access to the clients you have linked them to.

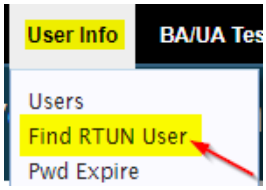

a. Go to **User Info >> Users**
b. Select one of the external options and click "Go"
c. Use the "P" to the left of the user

d. If the user is already in the RTUN you will see the option to link them. Otherwise, click "Request User Be Added to RTUN"
e. This will notify our team to verify the individual and then we will email you and the individual with instructions on how to login and navigate the portal.

How to Search and enter an External User who is in the RTUN Portal

1. Go to **User Info** >> **Find RTUN Users**.
2. Type the last name of the PO or Case Manager that you want, choose the state you want to search and click Submit.

3. In the list provided below the search, click the blue link icon next to the user you want to add.

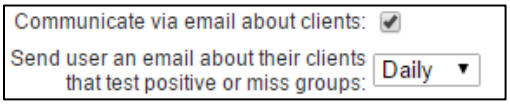

4. On the following page, set the password to NONE (all capital letters). Doing so will require the user to access your site through the RTUN portal (www.rtunportal.com) and will relieve the agency from the responsibility of managing passwords.

ReliaTip: ReliaTrax can do a one-time import of these external users.

5. Set the **Organizational Association** to the appropriate organization using the dropdown menu. This option is required.

6. Check the **Communicate via email about clients** box and set the frequency to daily. Don't forget to **Submit**!

- **To see an example compliance report sent to compliance visit Appendix H**

Connecting a Client to an Organization

1. To add an Organization to a client, click on the
2. Choose the org you'd like to add and click on the green "+"

Connecting an External User to a Client

1. To add a probation officer or external user, click on the icon.
2. Using the dropdown menu, select the correct user and hit the green plus sign.

Sending Documentation to an External User

There are a few different methods for sending documentation to an external user: when releasing and approving, progress reports, and from the client page.

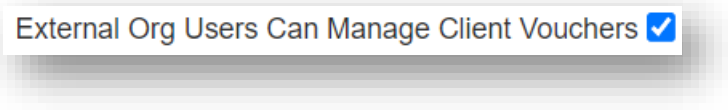

1. To setup your treatments so that the document (or notification of document, or approval request) is sent to supervisors when releasing and approving, click here (Chp. 9 in the Help Manual)
2. To learn how to send out batch progress reports, click here. (Chp. 6 in the Help Manual)

3. The third option, sending documentation (or individual message) to an external user from the client page, is outlined here. This might be considered when a document needs to be sent out immediately and/or if it is a document that is not typically sent to an external user.
    a. Go to the client's page
    b. Click on the 
    c. Type in the email(s) you would like to send the document to
    d. add attachment to link a document from the client's file cabinet to the message
    e. Type a message, if desired, below
    f. Click "Send"

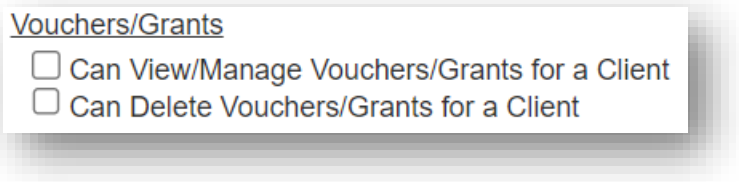

Allowing External Users to Issue/Manage Vouchers

If you have external users managing voucher funding, you can allow them to do this through ReliaTrax with a few simple steps.

1. Go to **Admin >> Organizations**
2. Click on the organization and click on the pencil next to it
3. Find the checkbox at the bottom of the page that allows this org to manage vouchers

4. Once enabled, go to the **User Info >> Users** page
5. Choose a user from that organization and click on the pencil next to their name
6. You will now have voucher specific permissions you can grant these users as you prefer

7. Once enabled, the user will now be able to manage vouchers from their external user login

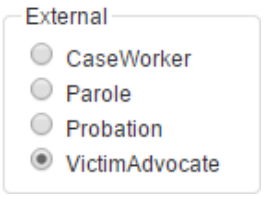

Setting up Victim Advocates

Victim advocates can be set up within ReliaTrax to electronically sign MTT/CST documents.

1. Scroll across the top navigation bar to **Admin** >> **Organizations**.
2. Add a new organization called **Victim Advocacy.**
3. Then, go to **User Info** and down to **Users.** Add a new user.

ReliaTip: Make sure to uncheck the Clients Visible to All Organization Users Checkbox.

4. Be sure to make this user an external user and select **Victim Advocate.**

5. Fill in the required* user information.
6. Select **Victim Advocacy** from the **Organizational Association** dropdown menu**.**

7. Click **Submit** and the Victim Advocate will now be able to log in and electronically sign documents.

ReliaTip: Victim Advocates can also be added to the RTUN Portal. Once added to the portal, they can login to www.rtunportal.com to gain access to the agency's site to sign off on documents.

Setting up Parents/Guardians of Juveniles

The parent/guardian of juveniles can be set up to view documents such as monthly reports and treatment plans if necessary. Parents/guardians of Juveniles need to be set up like Victim Advocates (above).

1. Scroll across the top navigation bar to **Admin** and down to **Organizations**.
2. Add a new organization called **Family**.
3. Go to **User Info** and down to **Users.** Add a new user.
4. Be sure to make this user an external user and select **Victim Advocate.**
5. Fill in the user information.
6. Select **Family** from the **Organizational Association** dropdown menu.

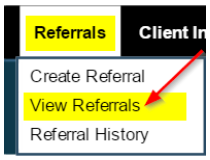

7. Click **Submit**.

ReliaTip: Make sure to uncheck the Clients Visible to All Organization Users Checkbox. If the Family organization has already been set up, you can skip the first two steps to set up a parent/guardian.

Referrals

Using the **ReliaTrax Unified Network (RTUN) Portal**, External Users can make referrals to your agency.

External Users have the ability to upload documents (ex. Offense reports) when they create a referral. The documents they upload will go to the clients filing cabinet. External Users have the option to set a "**report by date"** when making a referral. If the client fails to report to your agency by that date ReliaTrax will automatically send the referring PO a notification email. Make sure to set clients to intake as soon as possible after they report to avoid erroneous emails. There are two ways to accomplish this:

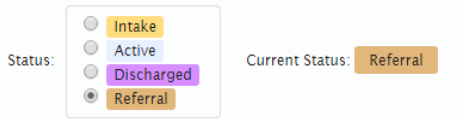

Changing Status from Referral Page

1. When the client reports for treatment scroll across the top navigation bar to **Referrals** >> **View Referrals**.
2. Click on the  icon next to the client's name. This client has now been put into the intake status.

Changing Status from Client's Page

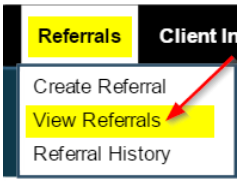

1. Click on the client's name in the referral list, this will take you to the client's page.
2. Once on the client's page click on the in the icon bar to be taken to the Client Information Details
3. Click on the pencil icon to edit the client's profile. Scroll down to the bottom of the page and you will see a client status indicator. Click the bubble next to intake and click save!

ReliaTip: Probation also has the option to set a client primary language (this helps with treatment placement and intake staffing) and upload/ attach any client documents such as Release of Information, Police Reports, etc.

Viewing Referrals and Notes

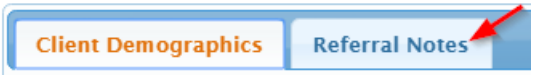

To view referrals made to your agency by probation officers scroll across the top navigation bar to **Referrals** >> **View Referrals**.

ReliaTip: When a referral is created, the client profile is automatically created, and the client supervisor is automatically set to the referring PO.

You can see referral notes provided by the PO by either

1. Going to the client demographics page and clicking on the "Referral Notes" tab
2. Or on the **Referrals >> View Referrals** Page by clicking on the icon

Moving A Caseload from one External User to Another

Many times, external users transfer from one agency to another and/or leave an agency and their caseload is left with another user. This is the process for moving the individuals assigned to one user to another user on your site.

1. Go to **User Info** >> **Users**
2. Type the users first or last name in the search box and select **Find User**

3. In the upper right corner click on the icon next to **Move user clients to new user** to transfer clients to the current supervising officer 

4. Using the dropdown menu 

5. Click 

6. Deactivate the user's account 

AND (If they have moved to other Organizations and still need access to your site.)
Important: Be sure to move all clients to their new supervisor(s) before proceeding.
7. Search for them

8. Edit the user's email
9. Reactivate them to link them again to the Portal 

Chapter 13: Specialized Treatment

ReliaTrax has many functions built for specialized treatment modalities like telehealth, and tools for the treatment of sexual and violent offenders.

The functions covered in this chapter are:

- Telehealth Tools
- Sex Offender Treatment Tools
- DV-Specific Treatment Tools
- Reporting for Specialized Treatment
- QuickNotes Bar Graphs
- MTT/CST Treatment Plans

Telehealth Tools

ReliaTrax has a few tools to assist with scheduling and tracking telehealth appointments.

Telehealth Consent Form

ReliaTrax can upload a prebuilt template of Consent for Telehealth services. If you are interested in having this consent form uploaded to your page, contact our team.

Telehealth Scheduling

Telehealth links can be added for groups and individual sessions so that appointment reminders that go out to clients will include the link.

Adding a Telehealth Link to Individual Counselors

1. Go to User Info -> Users
2. Find the clinician you would like to add a personalized link to and click on the 
3. Scroll to the bottom of the page and enter the link into the "Telehealth Link" box
4. Click "Submit"

Adding the Telehealth Link to the Individual Appointment Reminder

1. Go to Client Info -> Calendar or Day Planner
2. Click on the calendar to add an appointment
3. The telehealth checkbox will add the link from the counselor's page to the appointment reminder

Adding a Telehealth Link to Groups

1. Go to Treats/Groups -> Groups
2. Find the group you would like to add the telehealth link to
3. Click on the 
4. Click on 

5. Add the telehealth link into the telehealth link box

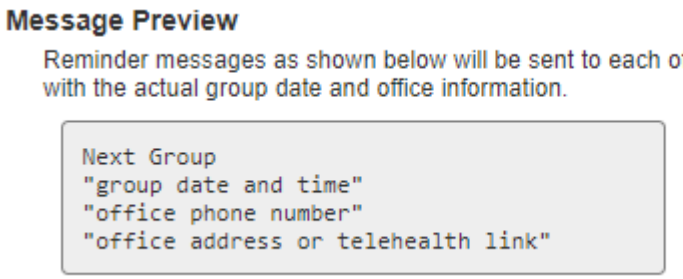

6. Click "Submit"

Adding the Telehealth Link to Group Reminder Messages

1. Go to Client Info -> Send Reminders
2. Choose the group or "Select All Clients" to select all active clients at your agency with phone text message or email reminders set up

3. If there is a telehealth link set up on the group page, it will show up in the message

Sex Offender Treatment Tools

Polygraph Maintenance

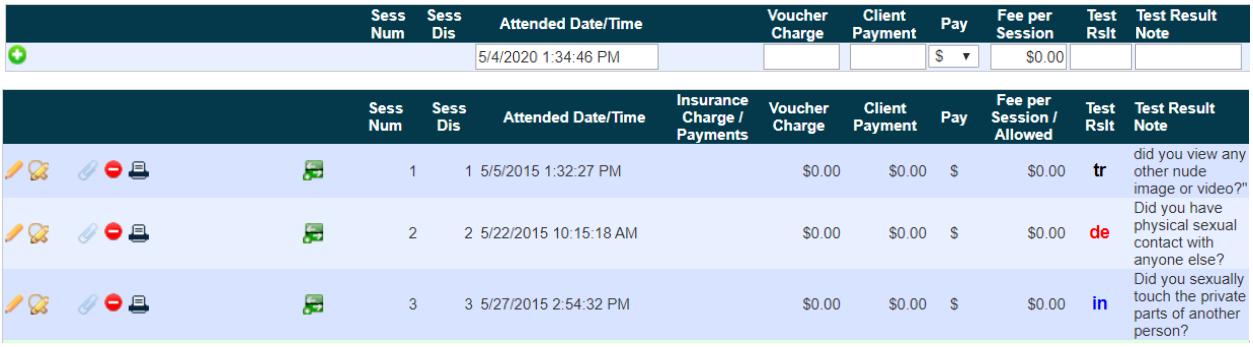

Tracking polygraph results on ReliaTrax can be done on the treatment line.

1. Go to the client's page
2. Find the polygraph treatment
3. Click on the green "+"

When you are ready to add polygraph results

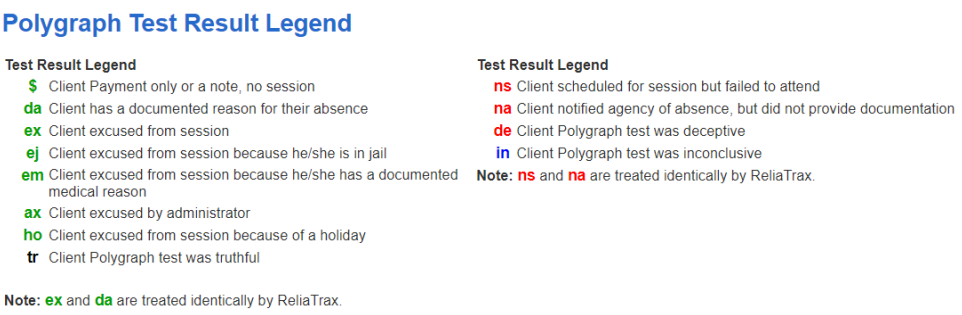

1. Go to client's page
2. Click on the  next to the polygraph treatment
3. Here you can enter polygraph results with any codes and notes for each question:

	Sess Num	Sess Dis	Attended Date/Time	Voucher Charge	Client Payment	Pay	Fee per Session	Test Rslt	Test Result Note
			5/4/2020 1:34:46 PM			$	$0.00		

	Sess Num	Sess Dis	Attended Date/Time	Insurance Charge / Payments	Voucher Charge	Client Payment	Pay	Fee per Session / Allowed	Test Rslt	Test Result Note
	1	1	5/5/2015 1:32:27 PM		$0.00	$0.00	$	$0.00	tr	did you view any other nude image or video?"
	2	2	5/22/2015 10:15:18 AM		$0.00	$0.00	$	$0.00	de	Did you have physical sexual contact with anyone else?
	3	3	5/27/2015 2:54:32 PM		$0.00	$0.00	$	$0.00	in	Did you sexually touch the private parts of another person?

The Test Result is listed below:

polygraph legend for

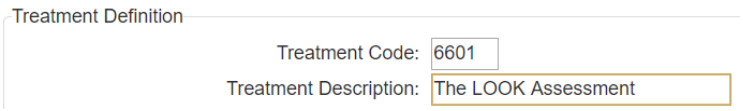

LOOK Assessment

Set up

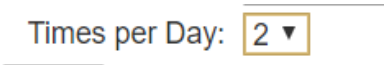

1. ReliaTrax will send an email to your agency and the LOOK Assessment:
   a. The email will request that the connections between ReliaTrax and the LOOK be made.
   b. Reply all to the email and confirm the request.
   c. ReliaTrax will then obtain your agency's Org ID number for the LOOK.
2. Create a LOOK Assessment Treatment Line
   a. Go to **Treats/Groups >> Treatments.**
   b. Click on the icon next to **Add a new Treatment.**
   c. Set the **Treatment Code** to 6601 in the Treatment Definition.

ReliaTip: The LOOK Assessment can ONLY be done on an Apple iPad. You must download the LOOK Assessment App from the Apple B2B Store.

Note: ReliaTrax recommends that you set the Treatment Description to The LOOK Assessment.

   d. If you would like to add 2 times per day capabilities, choose "2" from the **Times per Day** dropdown menu.

   e. Click 

to create the new treatment.

Administering the LOOK Assessment

1. Go to the client's page that will be taking the LOOK Assessment.
2. Add the treatment to the client's account by selecting the LOOK Assessment Treatment from the **Select Single Treatment to Add** dropdown menu at the bottom of the page and then clicking the 
3. Check the client in to the LOOK Assessment Treatment by clicking on the icon on the treatment line and entering a payment.
4. Using an Apple iPad, log in to the LOOK Assessment.
5. Once the LOOK has been completed, click on the pending icon to retrieve the result immediately.
6. Once the results have been retrieved the logo will change to the  icon. Click on the  icon to view the results. The results will also show in the client's filing cabinet.
7. If the treatment is set to 2 times per day, a second test may be completed by repeating these steps.
8. If setup is not done prior to administering a LOOK Assessment results may not attach automatically. However, results can be attached to a session line using the  icon.

ReliaTip: Use the client's ReliaTrax ID number (not the ML number) for the client ID in the LOOK.

Risk Assessment/Interviewing Tools

The VASOR-2, SOTIPS, ROSAC, and PROFESOR risk assessment tools are also available through ReliaTrax in our template library. Ask a ReliaTrax staff member for assistance in implementing these tools on your site.

See Specialized Treatment Reporting, Quick Notes Bar Graphs and MTT Treatment Plans below.

DV-Specific Treatment Tools

The DVOMB reporting function is available in ReliaTrax with the following steps:

Completing the DVRNA

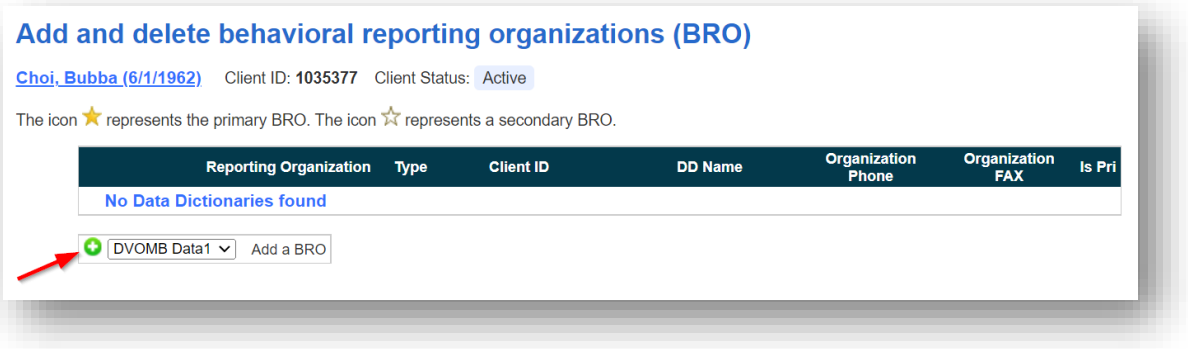

ReliaTrax allows the Domestic Violence Risk Needs Assessment to be filled out for clients located in Colorado with a few simple steps.

Adding the DVRNA to your Agency

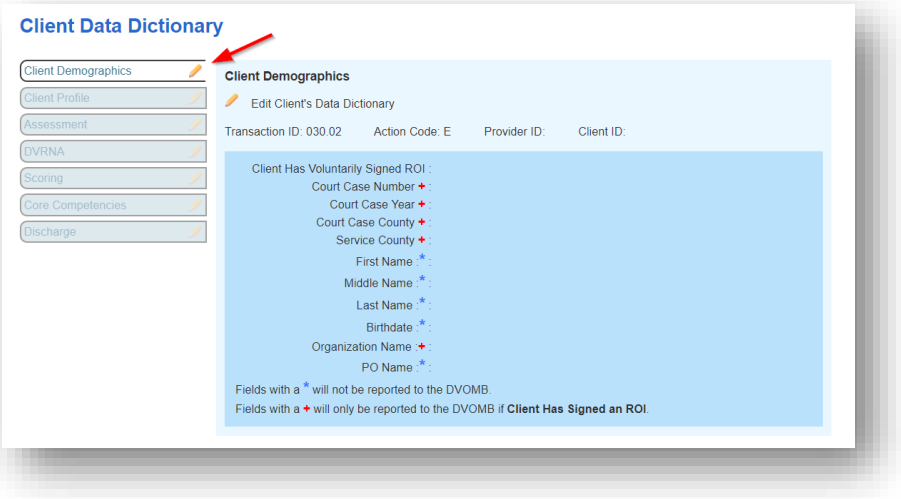

Requests to have the DVRNA added to your site can be made directly to your ReliaTrax representative or by calling our support line at (833) 222-0062 option 2.

Adding the DVRNA to a Client

1. Navigate to the client page
2. Ensure that the client has a Colorado address added in their demographics
3. The client will also need to be in "Active" status
4. To add the DVRNA, go to the BRO icon
5. Click on the green + sign to add the DVOMB BRO to the client page

6. To fill out the DVRNA go to the DD icon that now shows on this page
7. Click on the edit pencil to complete the information in each section

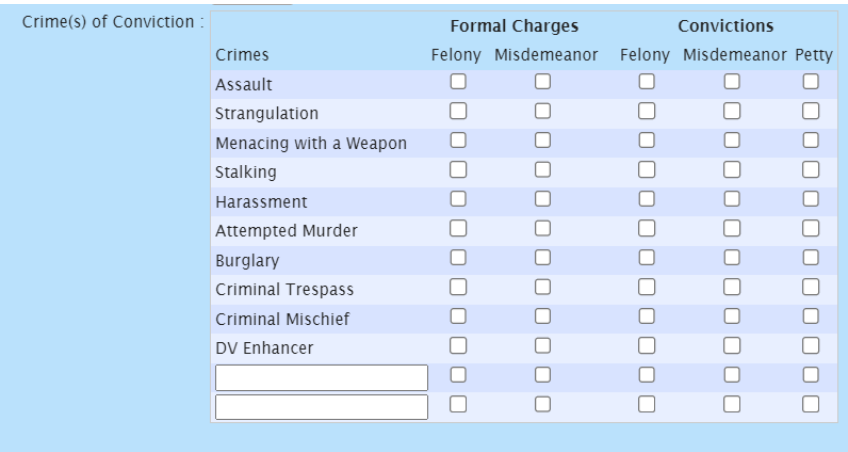

Tips for Filling out the DVRNA

Information that has been filled out on the client demographics page will automatically fill out the DVRNA so completing this step beforehand or having the client fill out the information in the client portal will reduce the amount of data entry within the DVRNA.

Client Demographics

- Client has Voluntarily Signed ROI — Make sure to only select this if you have an ROI for the client to the DVOMB. Unselecting will cause the information to be sent out unidentified

Client Profile

- Select as many as apply in this section
- At the bottom, you are able to enter additional crimes that were a part of this case

Assessment

- Age at time of Offense — ReliaTrax will show you the age today but **you will want to make sure to enter the age that they were at the time of the offense**
- Secondary Assessments Used — You are able to select multiple assessment tools that have been used for this client from the list
- Docs Used for Eval — This will also allow you to select multiple choices

DVRNA **-** Select the applicable criteria that are relevant for this client

Scoring – This tab will score the DVRNA for you and will recommend the level of placement. You can override this placement and then provide your reasons for override should you choose to do this

At Completion of Treatment

You will want to return to the DVRNA at completion of treatment for each client you have completed the DVRNA for. The following tabs will need to be addressed:

Assessment – click on "Show Discharge Fields" at the top of the screen. This will prepopulate checked boxes for static criteria. For dynamic fields, if nothing has changed, click the "Discharge" box. If there have been changes, leave the box unchecked and you will be able to note changes in the "Changes" text box

Core Competencies – this will auto-populate from the bar graphs if you are using bar graphs in your session notes. You are also able to make changes as needed to these competencies

Discharge – information that can pre-populate will prepopulate

• Treatment Modalities	Select all that apply
• Number of absences	This will pre-populate from their attendance history in the system

**Once you click submit, information will be sent to the DVOMB and information will be locked in without the ability to make changes to the information.

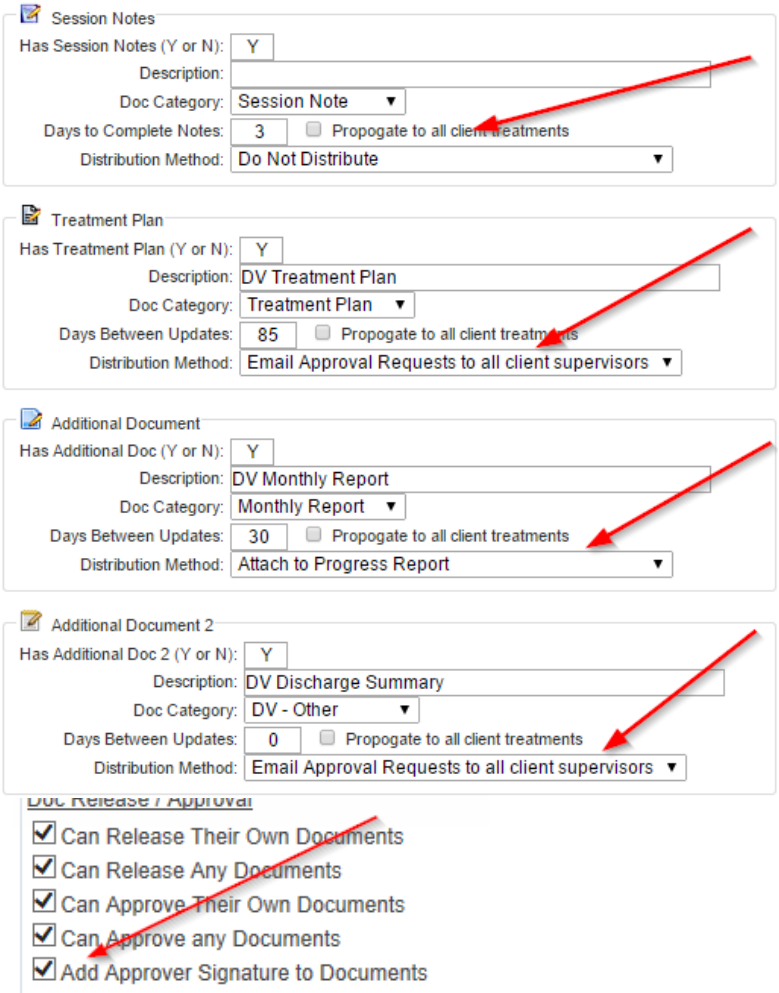

Additional Information

- Information sent from ReliaTrax is sent in aggregate, not tied to any specific agency or counselor
- Since legislation requires information about provider participation, ReliaTrax submits information on behalf of the agency

Specialized Treatment – Reporting

To set up reporting for external users.

1. Go to **Treats/Groups >> Treatments**
2. Find the Treatment(s) that has the document(s) you would like to have sent to external users and/or attached to your monthly report
3. Click on the edit pencil
4. Scroll to the bottom and add the settings for each documents distribution (See below for guidance)

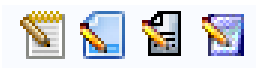

- **Session Notes**: usually set to "Do Not Distribute"
- **Treatment Plans**- may be set to: "Email Approval Requests to all client supervisors (MTT/ CST)". Or set them to "Do Not Distribute" to keep them private.
- **Additional Documents**- should be set to: "Attach to Progress Report" if using a bar graph for Monthly Reports. If you're not using a bar graph for Monthly Reports, set to "Include Comments in Progress Report"
- **DV Discharge Summary**: should be set to: "Email Approval Requests to all client supervisors. (MTT/ CST)"

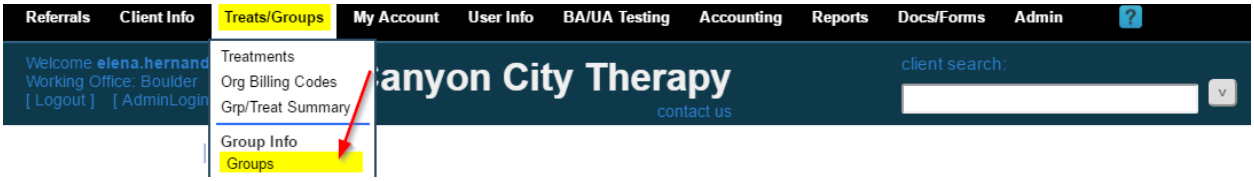

- On the User info page set each DV/ SO counselor's permissions to Add

Approver Signature to Documents

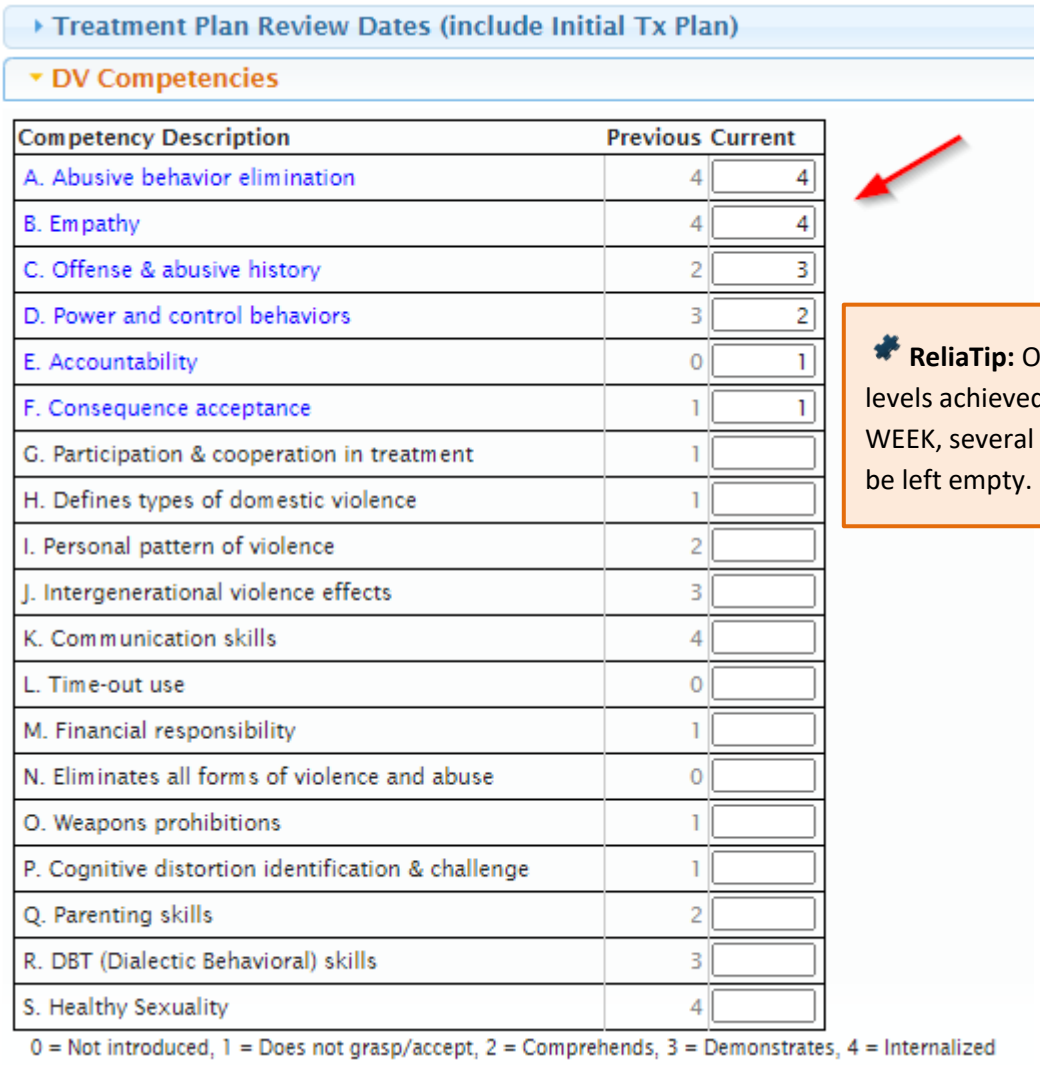

- Assure that the proper (updated) templates are attached to the treatment by hovering over the template icons on the treatment setup page. You may click on the icons to view blank copy of the associated templates on **QuickNotes**.

Specialized TX - QuickNotes Bar Graph

1. Scroll across the top navigation bar to **Treats/ Groups** and down to **Groups.**
2. Click on the **QuickNotes** icon next to the group you want.
3. By Clicking on the QuickNotes Section **Competencies** a table will drop down showing the progress made previously and space is available to identify the progress made during the past week.
4. Competencies entered on session notes will carry over to monthly reports, treatment plans and discharge summaries.

Treatment Plan Review Dates (include Initial Tx Plan)

DV Competencies

Competency Description	Previous	Current
A. Abusive behavior elimination	4	4
B. Empathy	4	4
C. Offense & abusive history	2	3
D. Power and control behaviors	3	2
E. Accountability	0	1
F. Consequence acceptance	1	1
G. Participation & cooperation in treatment	1	
H. Defines types of domestic violence	1	
I. Personal pattern of violence	2	
J. Intergenerational violence effects	3	
K. Communication skills	4	
L. Time-out use	0	
M. Financial responsibility	1	
N. Eliminates all forms of violence and abuse	0	
O. Weapons prohibitions	1	
P. Cognitive distortion identification & challenge	1	
Q. Parenting skills	2	
R. DBT (Dialectic Behavioral) skills	3	
S. Healthy Sexuality	4	

0 = Not introduced, 1 = Does not grasp/accept, 2 = Comprehends, 3 = Demonstrates, 4 = Internalized

ReliaTip: Only fill in levels achieved during THIS WEEK, several blanks may be left empty.

5. There is a QuickNote Section for individual comments as well.
6. As program competencies change, please contact the ReliaTeam with any updates to your forms!

On the Same Group **QuickNotes** page

Set the **Document Category** to **Monthly Report**, this is found about halfway down the screen on the left.

1. Check the upper right corner to ensure that you are creating reports for the intended month. Dates before the *20th of the month* will default to the previous month. After that it will default to the current month.
2. You do NOT need to enter competency progress as it will be automatically populated from the month. Simply note individual comments!

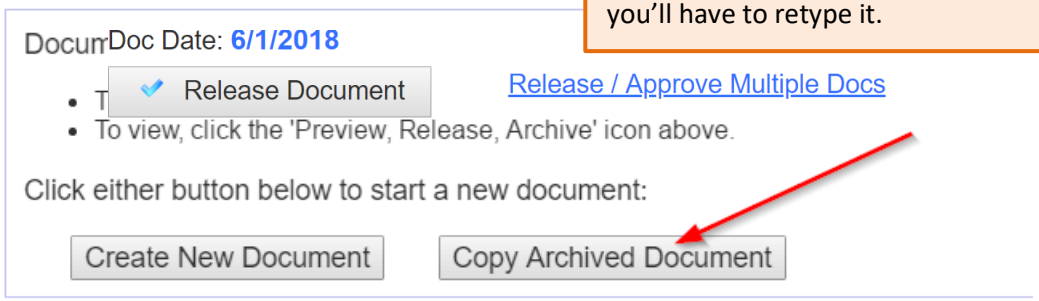

3. If you have not rated your client weekly, you may need to enter values here!
4. When you **Release and Approve** the notes will be attached to the regular Progress Report Emails!

Specialized TX – Treatment Plans/MTT/CST

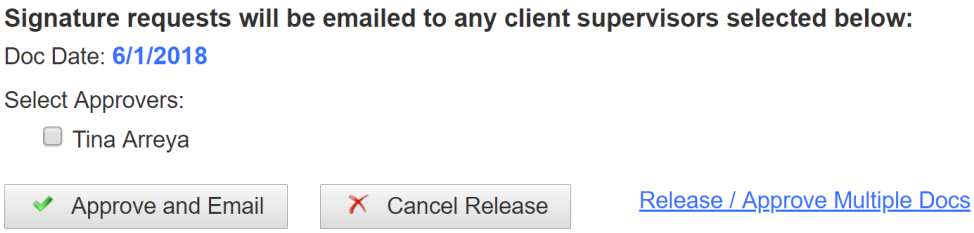

On the **QuickNotes** screen change the **Document Category** to **Treatment Plan**.

1. If a **Treatment Plan** has been created before, you may **Copy Archived Document** to edit and/or modify goals. Clicking on Create a New Document will create a *blank* treatment plan form.
2. When you are finished with the updated **Treatment Plan** click on to **Release** it.

ReliaTip: If you click "Create New Document" you can't copy the old one, you'll have to retype it.

3. Click **Release Document** to select which client supervisors to send signature requests.
4. Clicking **Approve and Email** will send the document to the selected supervisors.

5. Once they approve the document, their electronic signature will attach to the document!

The following people have digitally signed the document **DV Treatment Plan**. This document was released for approval signatures on Sat, 15 Jun 2013 01:09:28 GMT. This document is pending approval.

Chapter 14: E-Prescribing and MAR

The functions covered in this section are:

- Setting Up E-Prescribing for your Agency
- Utilizing the E-Prescribing feature in ReliaTrax
- Medication Administration Record

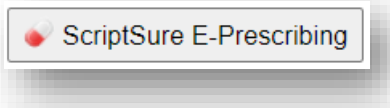

Setting Up E-Prescribing for your Agency

ReliaTrax has partnered with ScriptSure to provide users the opportunity to have E-Prescribing. There is an additional charge for this service per prescribing user. Contact a ReliaTrax team member to request this feature get setup in your site. 833-222-0062 option 2.

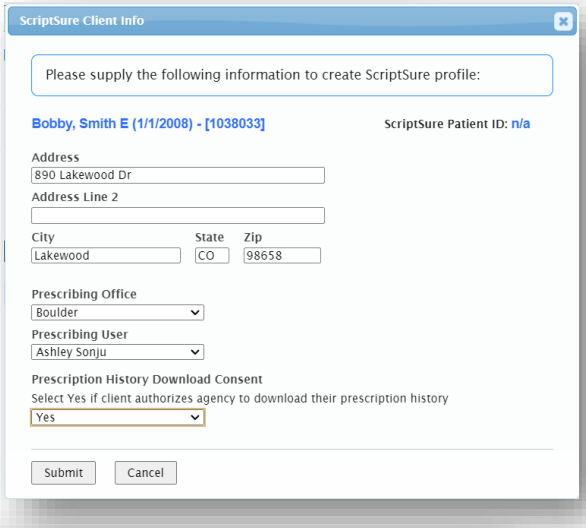

Utilizing E-Prescribing

E-Prescribing can be accessed in ReliaTrax from the existing prescription management page.

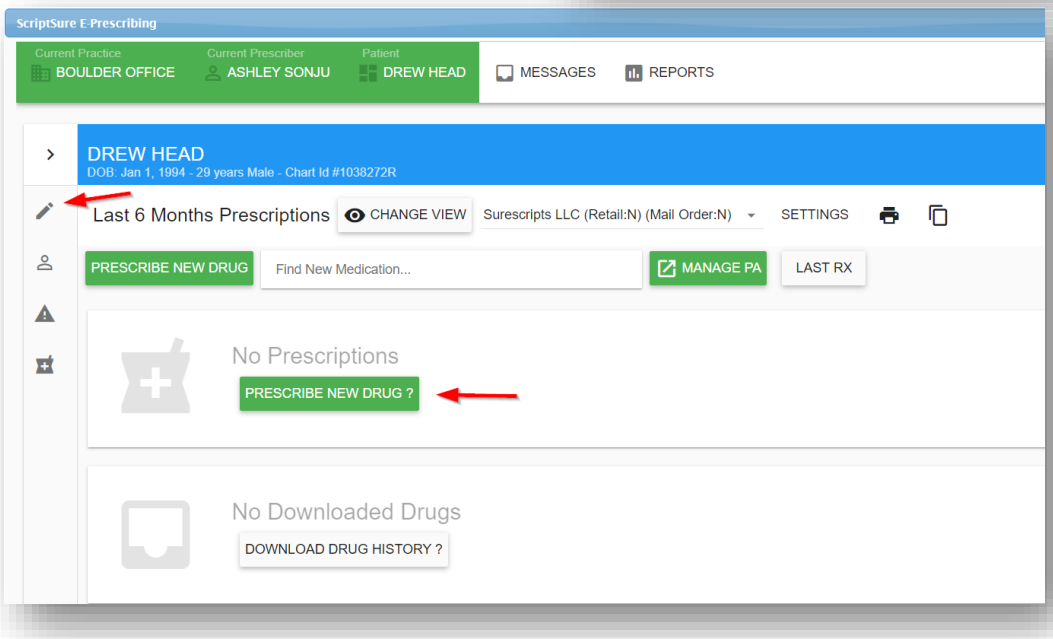

1. Go to the client's page
2. Find the icon for prescription management
3. Once you have E-Prescribing enabled, an icon for "ScriptSure E-Prescribing" will appear at the top right of the screen

4. The first time you prescribe for a client you will be asked if you would like to download their prescription history

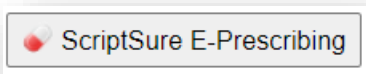

5. Then you will be brought into the ScriptSure Portal where you can add a new prescription, see existing prescriptions and edit some client information

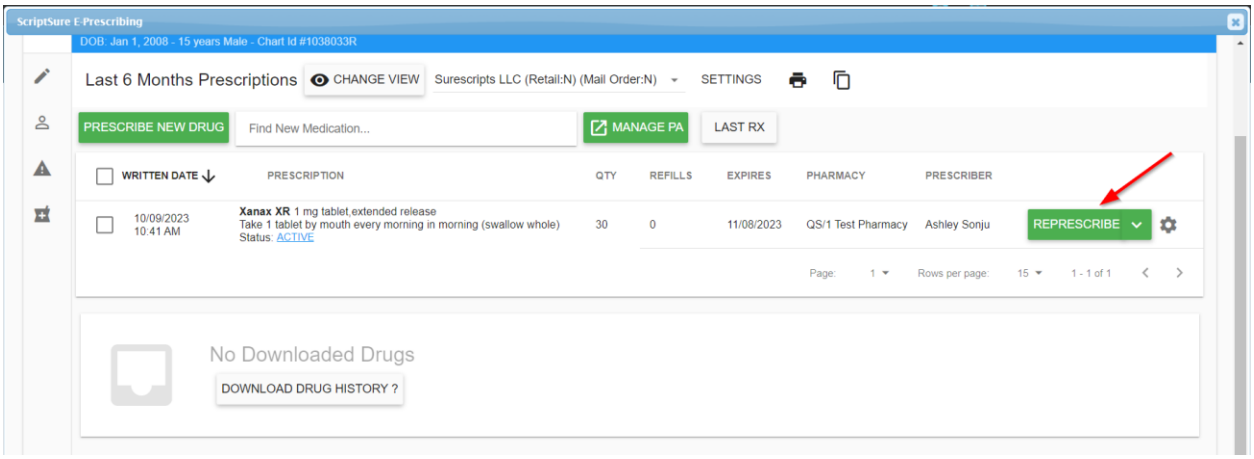

Represcribing a Drug

Represcribing a drug can be done from the client page as well in the Scripture portal.

1. Go to the client page
2. Find the icon for prescription management 
3. Once you have E-Prescribing enabled, an icon for “ScriptSure E-Prescribing” will appear at the top right of the screen
4. Next to medications that the client has been prescribed you will have a “Represcribe” option

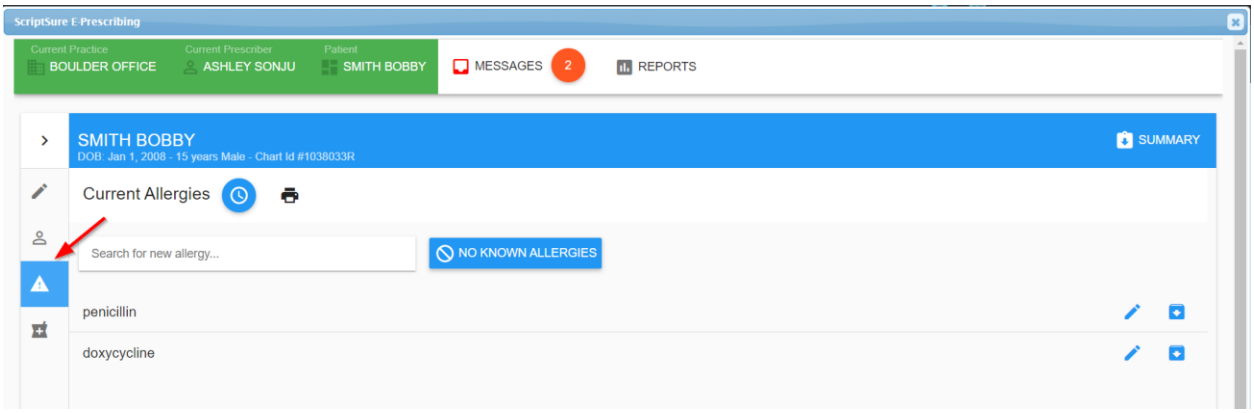

Adding in Medication Allergies

Adding medication allergies can be done in the Scripture portal on the client page as well.

1. On the left side panel in Scripture find the “Allergies” Icon

2. Here you will be able to enter in allergies for the client

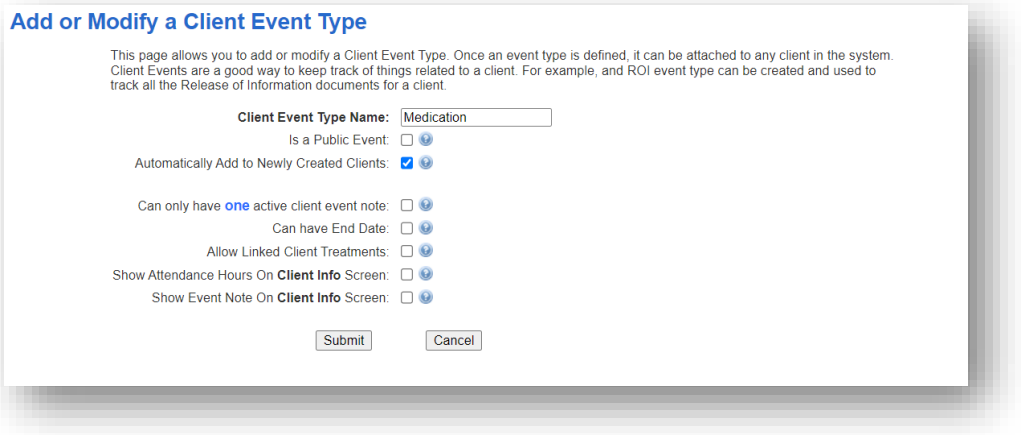

Medication Administration Record (MAR)

ReliaTrax has a medication tracking feature to allow you to record dispensing and counting of client medications. These instructions will assist you in setting up and utilizing this feature.

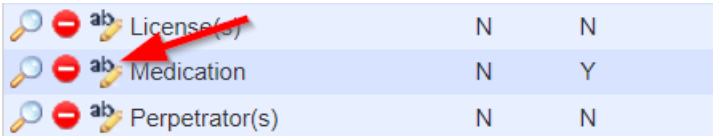

Setting up the Medication Record

The first thing you will need to do to get your MAR setup is to create company client events for tracking.

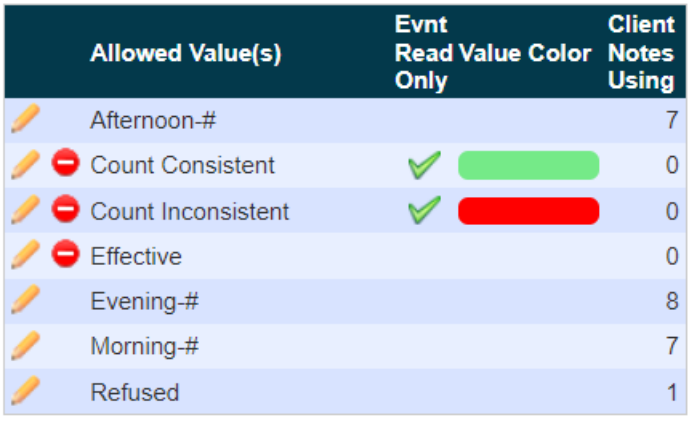

1. Go to **Admin >> Client Event Types**
2. Click on "Add a new Client Event Type"
3. Create an event name for your MAR such as "Medication" or "MAR"

4. If you would like this to be added to all new clients make sure to select that option
5. Next, find your event in your event list and click on the subvalue pencil

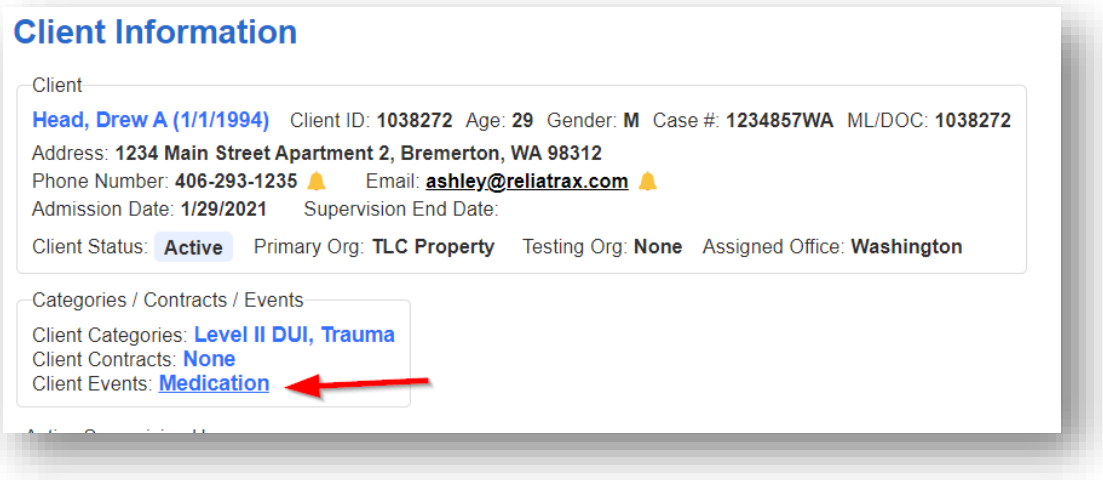

6. Enter the times of your medication dispensing (i.e. Morning, Afternoon, Evening) as well as any additional subvalues you may need to keep track of (i.e. Refused, Effective)
7. If there is a count that is required after any of your Medication distribution subvalues, add a -# after the name of the subvalue to require a count
8. If you are going to be doing counts, you will also want to add a Count Consistent and Count Inconsistent and add colors of your choice and make sure to click on "Event Read Only" to prevent editing of the count

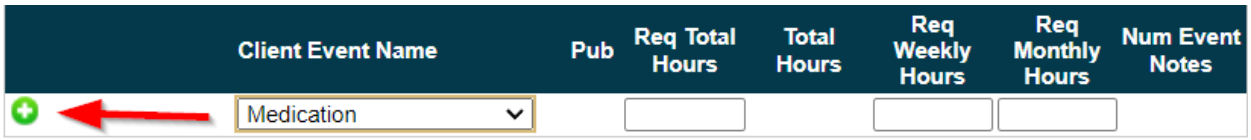

Setting up the Medication Event on the Client Page

Once you have the medication event setup on your page, you are ready to add the event to the client.

1. On the specific clients page, you will need to make sure the medication event is added to the client. If you set your medication event to automatically add to new clients you may already see it on their home screen. If this is the case, skip to the next step

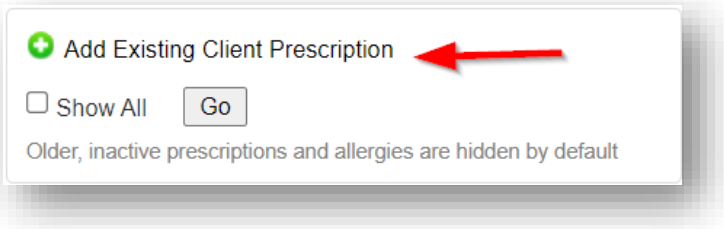

2. If you do not see the medication event on the client home screen, find the  icon on the icon bar and then add the Medication event to their page

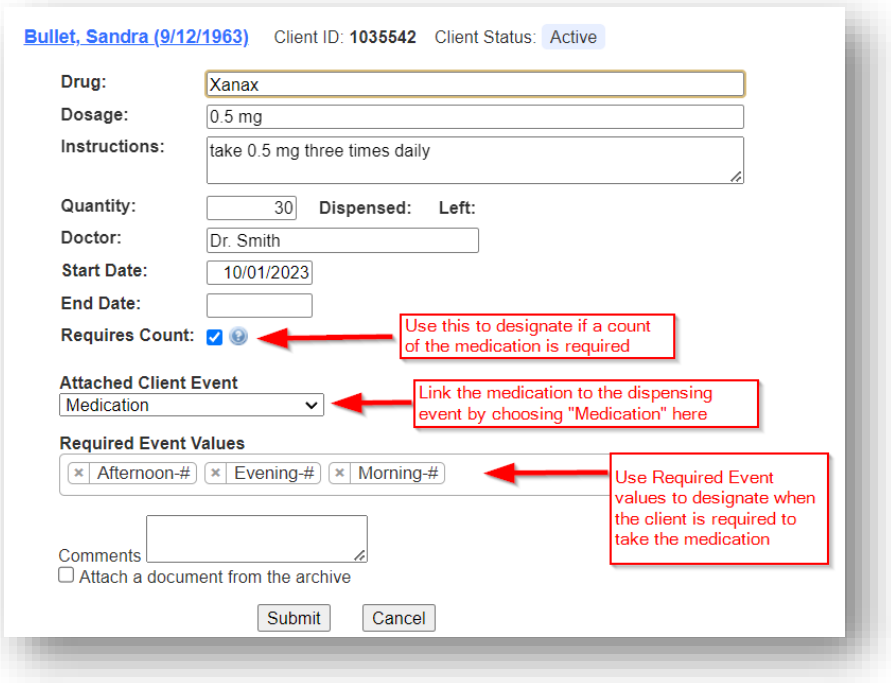

Linking Prescriptions to the Medication Event

The next step in getting the client page setup is adding their prescriptions and linking the prescriptions to the Medication Event that you just added to their page.

1. Go to the clients page and click on the  icon
2. If you have already entered prescriptions on the client, you can click on the  to edit those prescriptions to link to the medication event
3. If you have not already entered the prescriptions, click on the “Add Existing Client Prescription” at the top right

4. Now you will enter the medication and link the Medication event created earlier

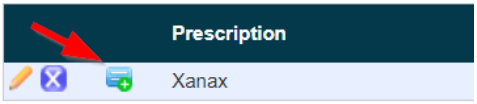

5. Repeat this process for all client medications

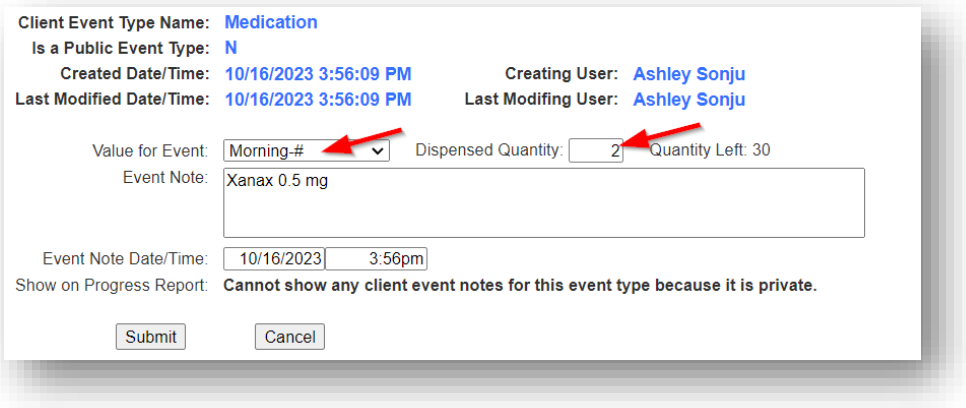

Dispensing Client Medications

Once you have added all of your medications to your clients, you are ready to dispense.

1. Go to the client page and click on the  icon
2. Click on the icon next to the name of the prescription to dispense the medication

3. Ensure that you enter the correct value and quantity in the boxes

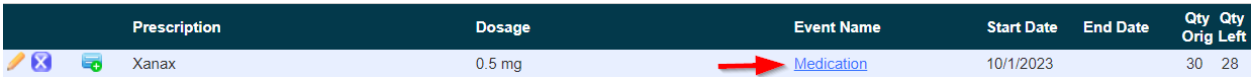

4. Click submit to finalize the dispensing
5. Repeat this process for each med that you dispense to the client

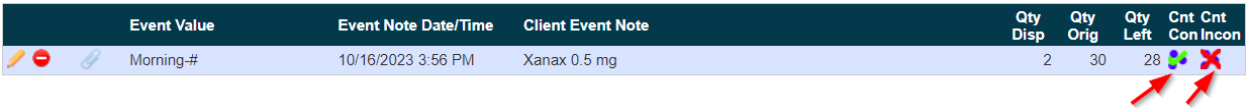

Counting Medications

You may have required counts at your agency. This is the process for conducting counts.

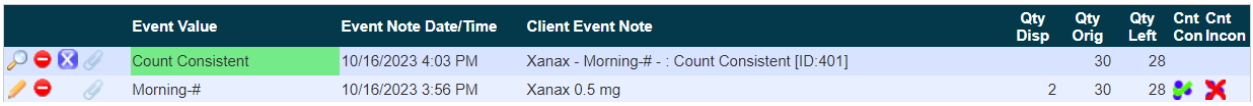

1. Go to the client page and click on the  icon
2. Click on the "Medication" event name next to the drug

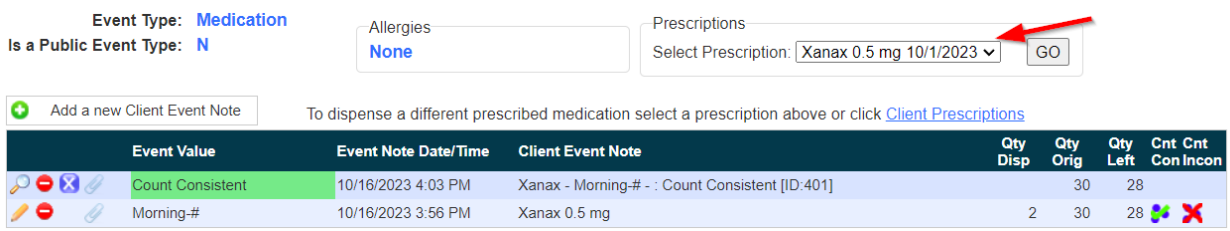

3. Use the Count Consistent or Count Inconsistent buttons for the count

4. This will automatically create an un-editable count event on the client medication screen

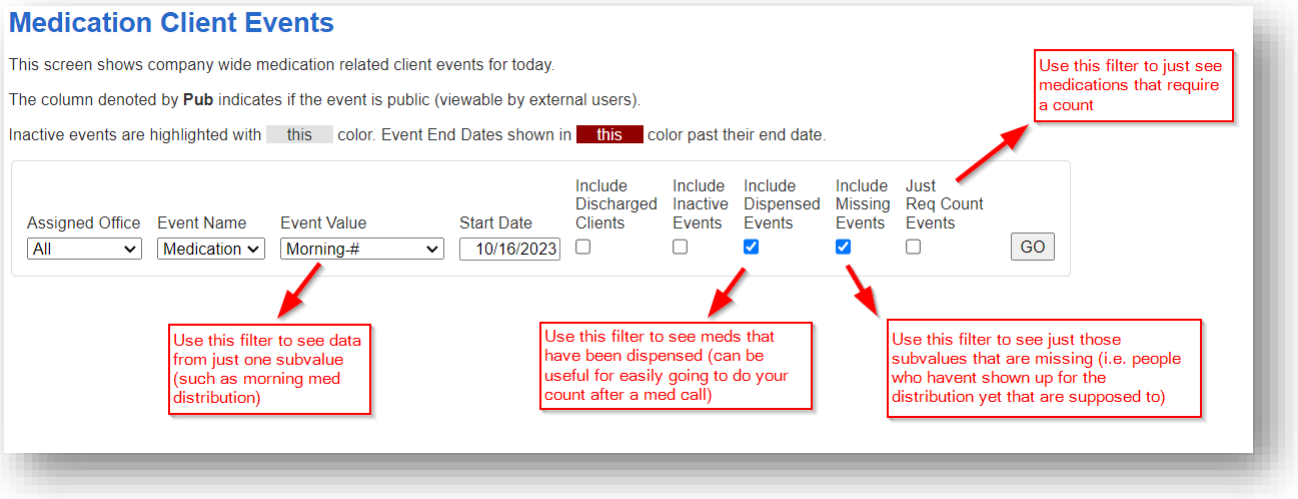

5. Easily switch to other medications for count by clicking on the drop down at the top of the page

Running Medication Reports

The medication report show company-wide medication-related client events for a specific date

1. **Go to Reports >> Client Event Reports >> Medication Events**

Appendices

The functions covered in this section are:

- Receipt Types
- Insurance Eligibility Reporting
- Example External User Emails
- UA/BA Walk-Ins
- Combining Duplicate Client Files
- Changing a Client's Treatment Code
- Availity Clearing House Setup
- Office Ally Clearing House Setup
- Manually Retrieving EOBs
- Using Events for Tracking

App. A: Receipt Types

Receipt types can be set on the Company Info setup page or on the client demographics page per client.

App. B: Insurance Eligibility Reporting

ReliaTrax can run eligibility reports for clients on Medicaid for providers who subscribe to this add-on feature (currently in Washington and Colorado).

To access this report:

1. Go to Reports
2. Insurance Reports
3. Eligibility Requests

ReliaTip: Call ReliaTrax to have this feature turned on, it is an add-on.

Eligibility Requests

This page lists detailed results from electronic insurance eligiblity requests.

Request Date 4/10/2020 Show Only Problems Go

Look for red text to find things that have been flagged for your

App. E: UA/BA Walk-In's

Go to the client's homepage and add the UA Walk-in using the **Add client treatments** option at the bottom of the page.

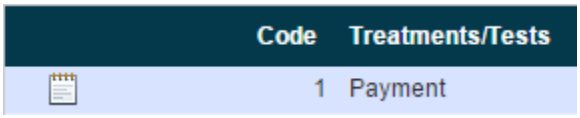

1. Use the magnifying glass at the top of the client's page to get to the client demographics page.
2. Click on the pencil icon to **Edit Client Demographics.**
3. Scroll down to the **Miscellaneous Information** section and set the **Receipt Type** to **Minimal**. *Note: make sure the client is set to Active status.*

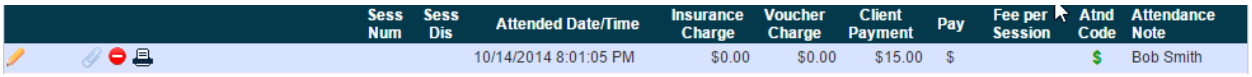

There are two ways to record UA Walk-In payments.

ReliaTip: On the treatment setup, click the pencil next to the UA Treatment. Change the times per day to "0" to allow multiple tests per day.

1. If you do not wish to retain Test Results for walk-in clients since they are not enrolled in your agency you can record only payments (so your daily accounting is accurate) using the Payment line. This is one of the only times you will use this line.

	Code	Treatments/Tests
	1	Payment

	Sess Num	Sess Dis	Attended Date/Time	Insurance Charge	Voucher Charge	Client Payment	Pay	Fee per Session	Atnd Code	Attendance Note
			10/14/2014 8:01:05 PM	$0.00	$0.00	$15.00	$		$	Bob Smith

2. Add the **UA Walk-In** treatment to the Walk-in client page. Under the session note icon where you check clients in you can add the UA.

	Sess Num	Sess Dis	Attended Date/Time	Insurance Charge	Voucher Charge	Client Payment	Pay	Fee per Session	Test Rslt	Test Result Note	Creat Rslt
	1	1	1/1/2015 12:31:08 PM	$0.00	$0.00	$0.00	$	$15.00		Bob Smith	
	2	2	1/3/2015 12:31:31 PM	$0.00	$0.00	$0.00	$	$15.00		John Doe	
	3	3	1/5/2015 12:31:47 PM	$0.00	$0.00	$15.00	$	$15.00		Jane Doe	

Using either method you will need to put the name of the client under the **Test Result Note/ Attendance Note.** You can use the printer icon to print an individualized receipt.

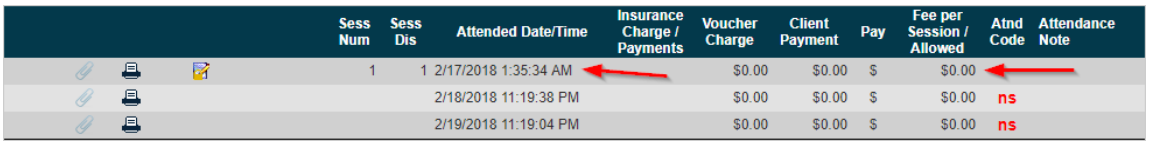

App. F: Combining Duplicate Client Files

ReliaTrax cross-references date of birth and name prior to adding a new client, there is no automatic merge functionality so for duplicate client files, follow the steps below:

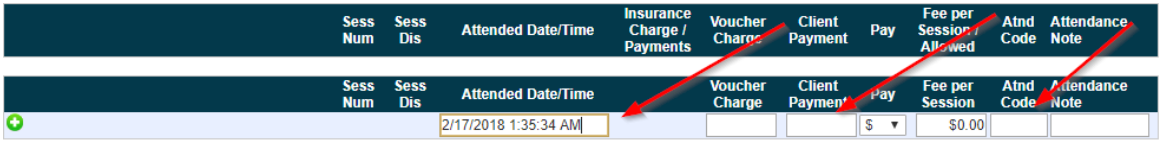

1. Identify which profile you'd like to keep.
2. Go to the file you want to get rid of and check if there were any dates of attendance checked in (see picture below)

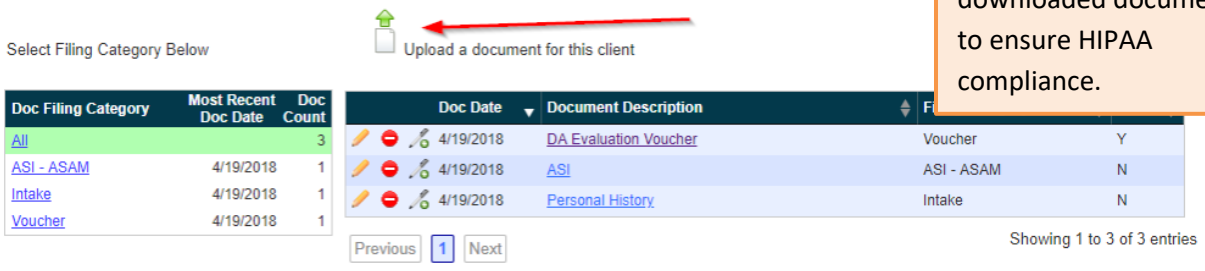

3. If the client was checked in for any sessions, you will need to manually transfer the sessions to the profile you're keeping by clicking on the session log icon
4. Highlight and copy the date of each session. Make note of any payments the client made for that session.
5. On the profile you're keeping, click on the session log icon for the corresponding treatment (you may

need to add it if you if it isn't yet listed), paste the date of attendance, enter the client payment and click the green plus. *(You can also do the for NS by manually entering "ns" under ATTND CODE). (You must do steps A – C for each treatment the client was checked in for.)*

6. Next, check to see if any documents were complete or uploaded for the **profile you are getting rid of** by going to the filing cabinet icon .
7. Click on a note and in the upper right corner you can download it.
8. Then go to the filing cabinet for the **profile you're keeping** and click the green up arrow to upload the documents.

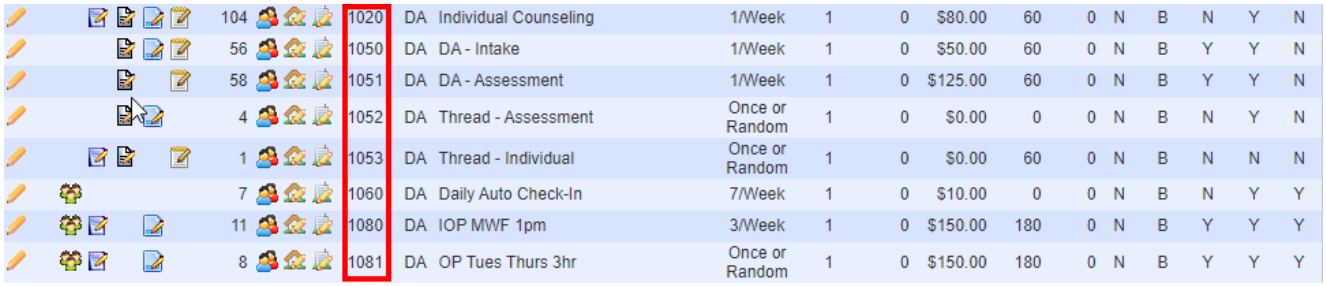

ReliaTip: after all documents are uploaded make sure to clear your computer of any downloaded documents to ensure HIPAA compliance.

9. If you're confident all data has been moved over, you can now delete the extra profile.

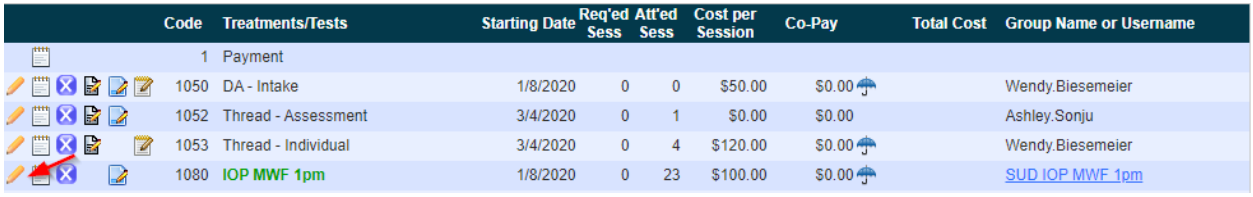

App. G: Changing a Client's Treatment Code

You may need to change the services that a client is enrolled in (i.e. graduated treatment). Changing a client's treatment code doesn't have to be a headache but you'll want to make sure and follow these steps to ensure accuracy.

1. First things first, you'll need to know the ***Treatment Code*** of the treatment you wish to move the client to. This can be found by scrolling across the top navigation bar to **Treats/Groups** and down to **Treatments**.
2. Next, back on the client's page, click the pencil  next to the Treatment you wish to change.

	104	1020	DA	Individual Counseling	1/Week	1	0	$80.00	60	0	N	B	N	Y	N
	56	1050	DA	DA - Intake	1/Week	1	0	$50.00	60	0	N	B	Y	Y	N
	58	1051	DA	DA - Assessment	1/Week	1	0	$125.00	60	0	N	B	Y	Y	N
	4	1052	DA	Thread - Assessment	Once or Random	1	0	$0.00	0	0	N	B	N	Y	N
	1	1053	DA	Thread - Individual	Once or Random	1	0	$0.00	60	0	N	B	N	N	N
	7	1060	DA	Daily Auto Check-In	7/Week	1	0	$10.00	0	0	N	B	N	Y	Y
	11	1080	DA	IOP MWF 1pm	3/Week	1	0	$150.00	180	0	N	B	Y	Y	Y
	8	1081	DA	OP Tues Thurs 3hr	Once or Random	1	0	$150.00	180	0	N	B	Y	Y	Y

	Code	Treatments/Tests	Starting Date	Req'ed Sess	Att'ed Sess	Cost per Session	Co-Pay	Total Cost	Group Name or Username
	1	Payment							
	1050	DA - Intake	1/8/2020	0	0	$50.00	$0.00		Wendy.Biesemeier
	1052	Thread - Assessment	3/4/2020	0	1	$0.00	$0.00		Ashley.Sonju
	1053	Thread - Individual	3/4/2020	0	4	$120.00	$0.00		Wendy.Biesemeier
	1080	IOP MWF 1pm	1/8/2020	0	23	$100.00	$0.00		SUD IOP MWF 1pm

3. Change the Treatment Code to reflect the Treatment you wish to place the client in.

4. **Optional**, next, add the required sessions to reflect the new Treatment.

5. If you are putting them in a new group or if their counselor is changing, you can make those changes here as well.
6. Click Save.

ReliaTip: In Colorado, this function can be helpful for changing DUI Tracks, (Session Amounts - Track A = 21, Track B = 26, Track C = 34, and Track D = 43)

App. H: Setting Up Availity Clearing House

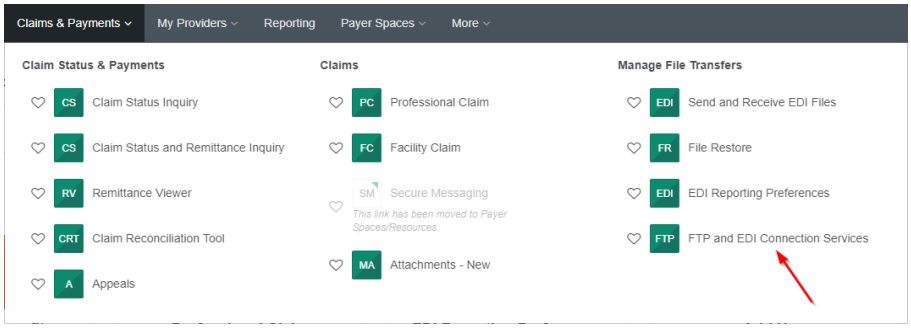

To set up an account with Availity, open your internet browser and navigate to www.availity.com and click on the orange GET STARTED link.

Once you have your log in credentials, you can log into your account and request an SFTP site.

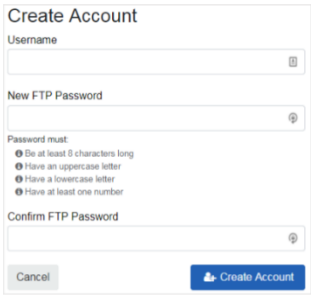

1. You will need to request 999 and 277 responses be generated for 837P claim submissions. For **Availity** follow the steps below:

Setting Up Availity SFTP

1. Log in to your Availity account.
2. Click Claims & Payments >>> FTP and EDI Connection Services.

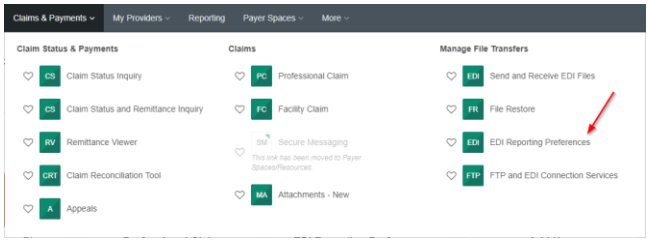

3. Then click Manage Your FTP Mailbox on the FTP and EDI Connection Services page.
4. On the Manage Your FTP Mailbox page, select the Organization.
5. Enter a username and password for the new FTP account, confirm the password, and then click Create Account.

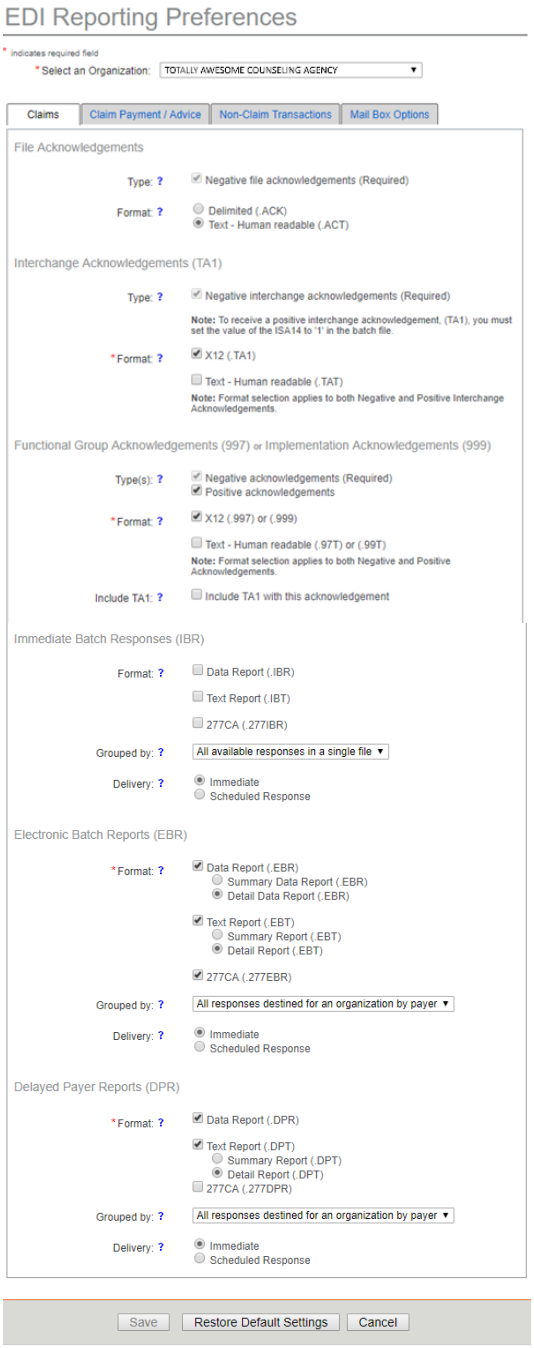

Setting Up Availity Reporting Preferences

(This is how ReliaTrax knows whether claims are accepted or denied.)

1. Log in to your Availity account.
2. Click Claims & Payments >>> EDI Reporting Preferences.

3. The checkboxes should match the pictures (2) below and click save at the bottom.

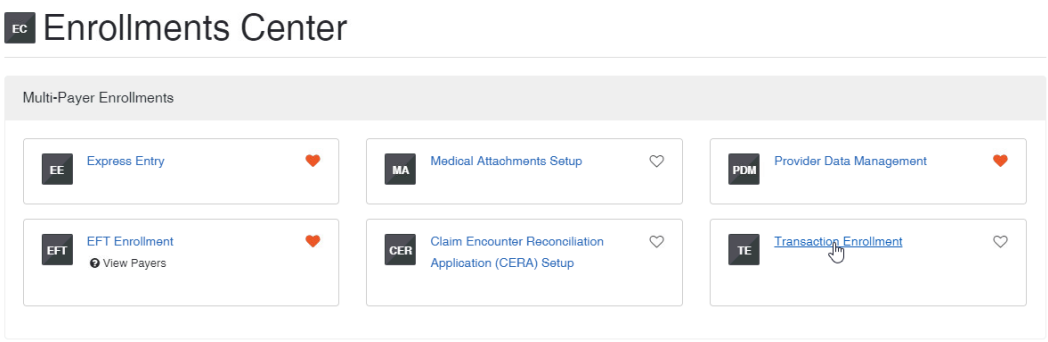

10. If you generate paper invoices, you **do not** need to set up Availity SFTP (Above).
11. Become an Authorized Provider - Follow the instructions on the EDI enrollment form per insurer.
12. Setting up ERA/EDIs – If your insurance company requires it, go to Office Ally to set your ERAs and EDIs.

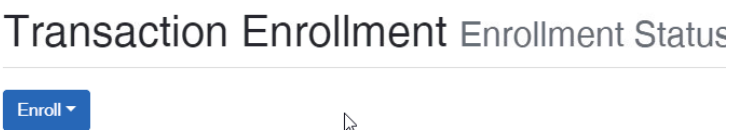

Setting up ERA/EDIs with Availity

1. Log in to the Availity Portal.

2. Click Enrollments Center in My Account Dashboard on the Home page.
3. Click Transaction Enrollment in the Multi-payer Enrollments section.

4. Then click the **Enroll** button and follow the on-screen wizard.

5. If you experience trouble filling out ERA's or you have questions you can contact Availity for assistance.

App. I: Setting Up Office Ally as a Clearing House

You will need to set up an account with Office Ally. They can be reached at info@officeally.com or 360-975-7000.

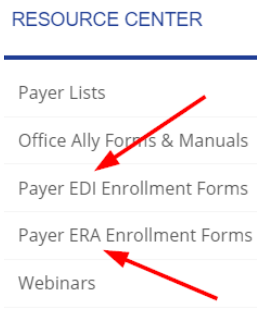

1. Fill out and return the enrollment packet, they report that you can be up and running in 24 hours.
2. Request an SFTP site
3. You will need a username and password for both the web site logon and the SFTP. (We will need to enter this info into ReliaTrax)

You will need to request 999 and 277 responses be generated for 837P claim submissions. **Tell the support person at Office Ally that you need to turn on 999 and 277 reports for your SFTP account**

- Become an Authorized Provider - Follow the instructions on the EDI enrollment form per insurer
- Setting up ERA/EDIs – If your insurance company requires it, go to Office Ally to set your ERAs and EDIs.

Setting up ERA/EDIs with Office Ally

1. Go to https://cms.officeally.com
2. Using the Navigation Bar, go to Resource Center and down to either EDI or ERA forms.

3. EDIs are sorted by State. These are to send electronic claims via Office Ally.
4. ERAs are sorted by letter. These are used to receive EOBs into Office Ally.

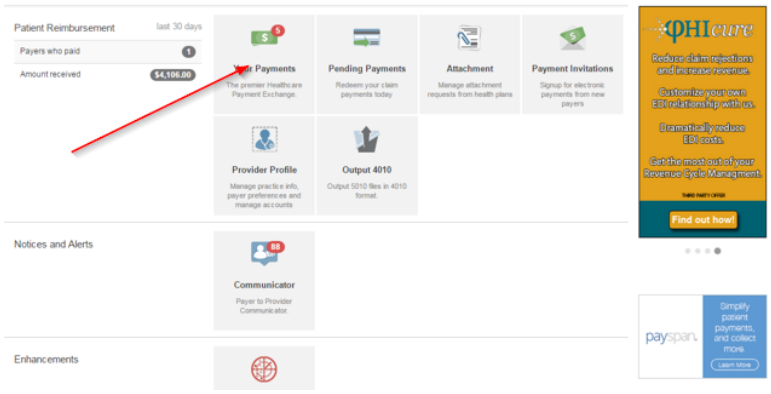

App. J: Manually Retrieving EOB's to Upload

On Payspan - (https://www.payspan.com/)

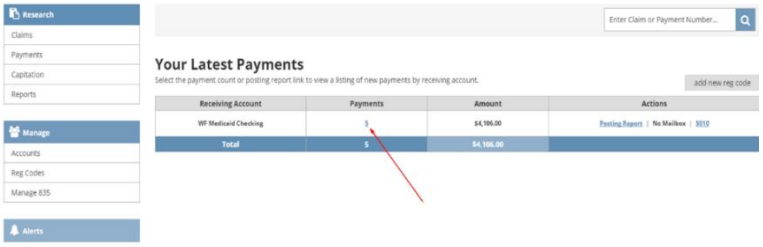

1. Login at the top right corner of the page, and enter your user name and password

2. On the Homepage choose "Your Payments" to see all payments you have received.

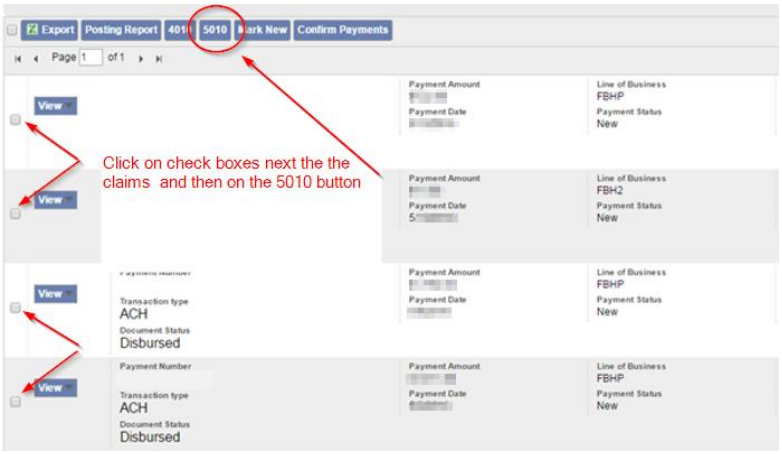

3. Once you are in your "Payments" you will see all payments that have been paid by Value Options. To view your payments received, you will click on the blue highlighted payments in the box below.

4. Once you have entered your Payments, you will be able to see your payment history. Here you are able to download and/or print your paper claim if needed.

5. Check the box next to the claims and then on the 5010 button to download the files.

Change Healthcare (formally Emdeon) - used for Medicaid and many private insurance

http://changehealthcare.com/

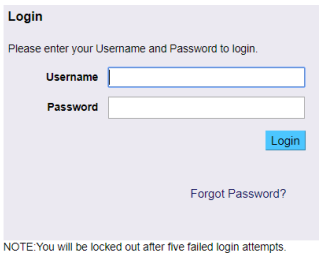

- Login is in the upper right corner of the page.

- Select "Claims & Denials Advisor" which is the first link in the left column.

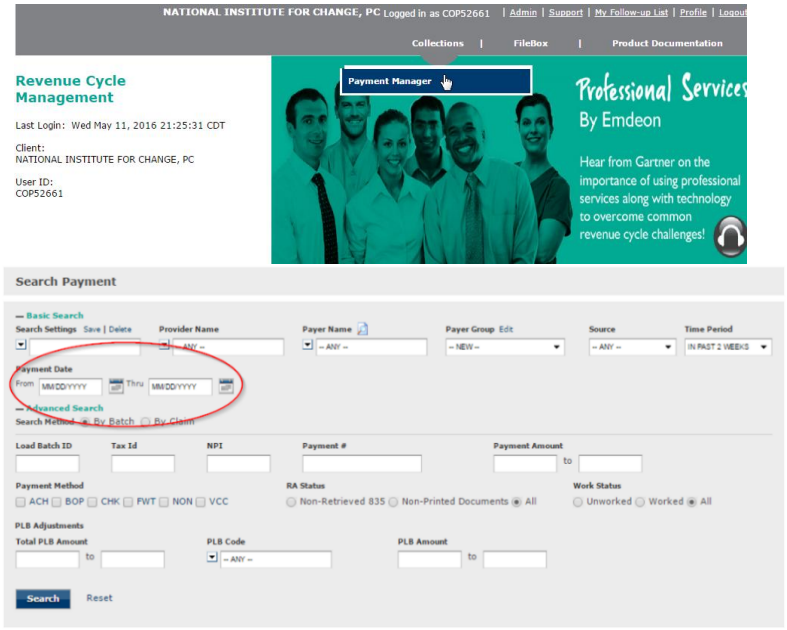

- Enter your username and password.

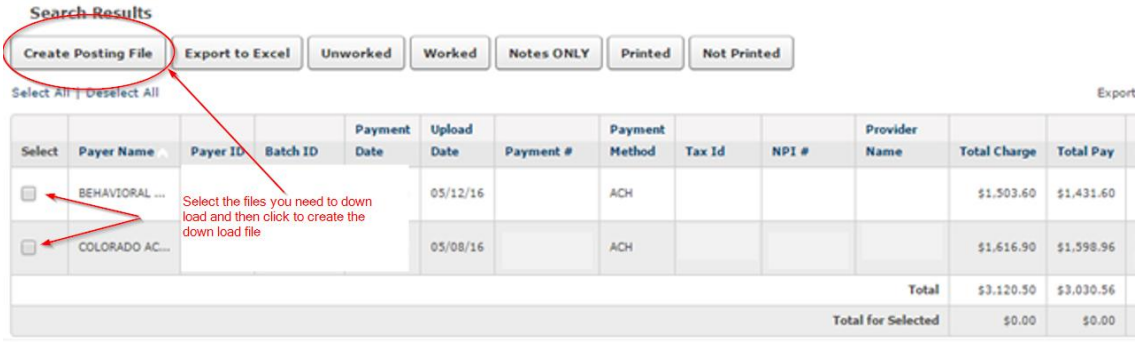

- After you have entered in your Login information, you will be taken to your Homepage. You will need to go to "Collections" located in the gray toolbar. As you wave over Collections, you will then click on "Payment Manager".

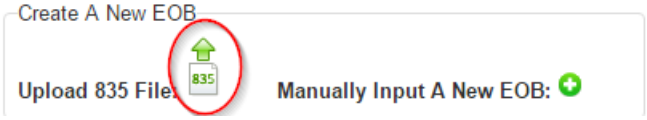

- Another tab will open and take you to your payment history page. You will the date range you are searching for and click search. This will then show all payments that were made during the time frame searched

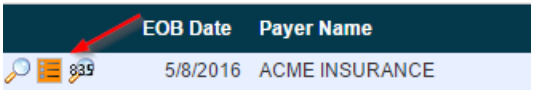

- Check the box next to the EOB files you want to download and click **Create Posting File**.

- Once the 835 files are downloaded, go to ReliaTrax, under **Accounting >> EOB's / ERA's** and click on upload file.

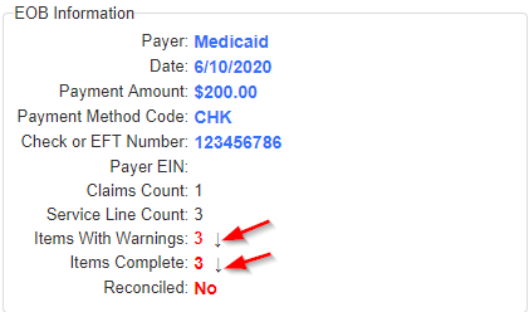

- The new unreconciled EOB's will have a peach notepad click on the notepad the reconcile the payments. ReliaTrax will make efforts to find and match the correct sessions. It will use information provided in the EOB to make the correct adjustments.

a. Click on the Reconcile payment button if available 

If No Reconcile Button is Available

1. Scroll down to find the claims needing attention, Items needing attention are designed in red

	Service Date	Procedure	Units	Submitted Charge	Allowed Amount	Client Amount	Other Amount	Paid Amount	Linked Billing Item Code	Session	Warnings	Cmplt
	5/20/2016	H0004 HF	4	$85.00	$64.00	$0.00	$0.00	$64.00	No matching billing item...			

   a. Pink lines with "no matching item" designate items that ReliaTrax could not match. Click on the blue words to manually link a session or you can set it to "do not reconcile".
2. Click on the magnifying glass to see more details
   a. Sessions with a Y under the complete column on the right designate items that ReliaTrax has previously marked as a complete billing item, no other action will be allowed on this item without re-opening the billing item. Click on the blue session date and click on the pencil on the left side at the top of the billing record and uncheck the payment complete box.
3. You can also click on the pencil on the right at the bottom to have more editing ability over the billing records.

Member Name: Head, Drew A **Member ID:** 123456789WA **Linked Client ID:** 1037316

	Service Date	Procedure	Units	Submitted Charge	Allowed Amount	Client Amount	Other Amount	Paid Amount	Linked Billing Item Code	Session	Warnings	Cmplt
	6/9/2020	96164	1	$16.70	$16.70	$0.00	$0.00	$16.70	1080	6/9/2020	Y	Y
	6/9/2020	96165	1	$83.50	$83.50	$0.00	$0.00	$83.50	1080	6/9/2020	Y	Y

		Claim Totals:		$220.20	$220.20	$0.00	$20.20	$200.00				

	Insurer	HCPCS CPT Code	Member ID	FC	Invoice Number	Invoice / Pmt Date	Amount Billed	Units	Agency Amount	Client Amount	Payment Amount	Pmnt Cmplt
	Medicaid	H0004 HF	xyz123	11	200265	1/17/2019	$80.00	1		$0.00		Y
	Acme	Check: 2100				3/14/2019	$80.00	1	$30.00	$0.00	$50.00	

Payment Is Complete: ☐ More payments for this item are expected.

   a. A warning saying the item total does not equal the EOB Payment amount indicates the need to add services to the claim and/or to force reconcile so the EOB can be balanced.

	Insurer	HCPCS CPT Code	Member ID	FC	Invoice Number	Invoice / Pmt Date	Amount Billed	Units	Agency Amount	Client Amount	Payment Amount	Pmnt Cmplt
	Medicaid	H0004 HF	xyz123	11	200265	1/17/2019	$80.00	1		$0.00		Y
	Acme	Check: 2100				3/14/2019	$80.00	1	$30.00	$0.00	$50.00	

App. K: Using Client Events for Tracking

Treatment Hour Tracking

1. Go to **Admin** >> **Client Event Types**
2. Click on the green plus sign Add a new Client Event Type
3. See Figure Below for set-up

4. On the client's page, click on the client events icon
5. Using the drop-down select the Client Event Page and click on the green plus sign to add
6. To designate required monthly or weekly hours, click on the next to the event
7. Click on the Link Treatment icon (it will be greyed out)
8. Using the drop-down menu, select all the treatments that require hour tracking and click the green plus sign
9. To unlink treatments from the hour tracking, click on Unlink Treatment icon
10. On the client information page, Treatment Hour Tracking (24) the number in parenthesis is the number of hours tracked.
    - Click on the number next to the words to see a summary of the treatments, sessions and hours for that treatment

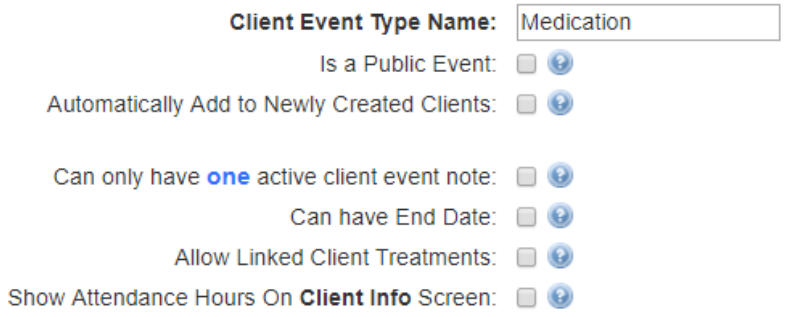

ReliaTip: You can also get to this page by clicking on the icon on the client event page for the client.

Run reports on client events by going to **Reports >> Client Event Reports.

More information on Client Event Reports can be found in Chapter 9.

Tracking Medication Distribution

1. Go to **Admin** >> **Client Event Types**
2. Click on the green plus sign Add a new Client Event Type
3. See Figure Below for set-up

4. On the client's page, click on the client events icon
5. Using the drop-down select the Client Event Page and click on the green plus sign to add
6. Click on the Client Event Note and 

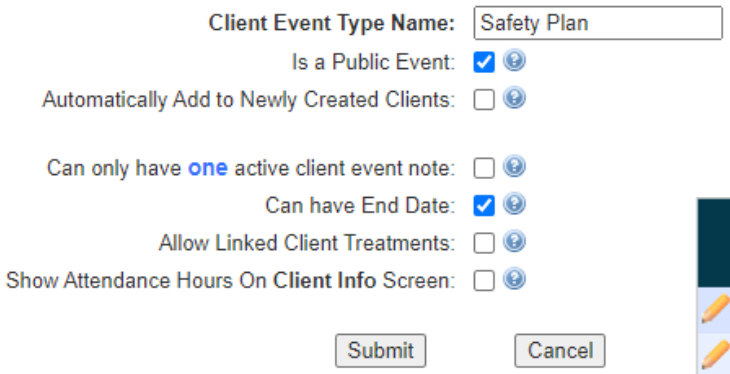

7. Using the drop-down menu, select a Value for Event, enter an Event Note, and click Submit
8. To enter a prescription, click on the Rx on the client's page
9. Click on the green plus sign Add a Client Prescription
10. Enter Drug, dosage, instructions, etc.
11. Using drop-down menu and select the Medication client event

    This allows you to go to directly to the Prescriptions and add the Event note using the

Run reports on client events by going to **Reports >> Client Event Reports**.

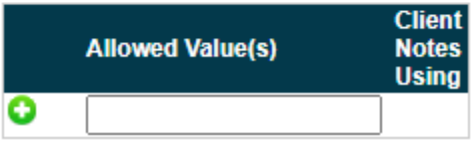

Tracking DV Safety Plans Using Events

1. Go to **Admin >> Client Event Types**
2. Click on the green plus sign Add a new Client Event Type
3. See Figure Below for set-up

4. Click on the to add values for the drop-downs (I.e. Sanctions, Violations, Permissions)
5. On the client's page, click on the client events icon

6. Using the drop-down select the “Safety Plan” event and click on the green plus sign to add
7. Click on the Client Event Note and

8. Using the drop-down menu, select a Value for Event, enter an Event Note and start/end dates, click Submit

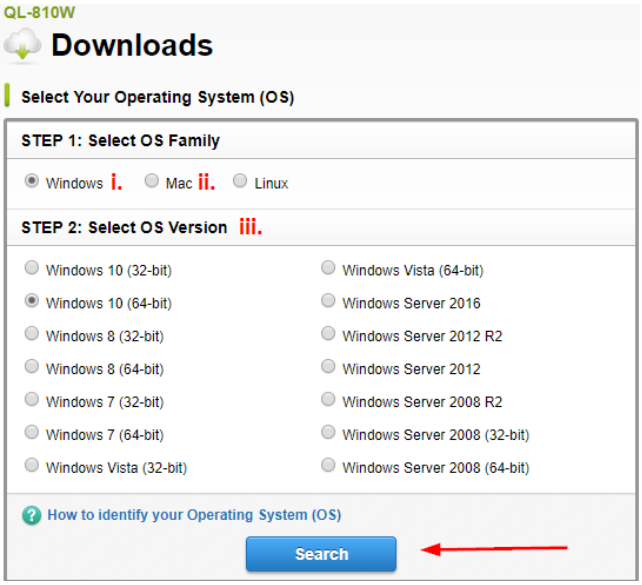

Run reports on client events by going to **Reports >> Client Event Reports**. **More information on Client Event Reports can be found in Chapter 9.**

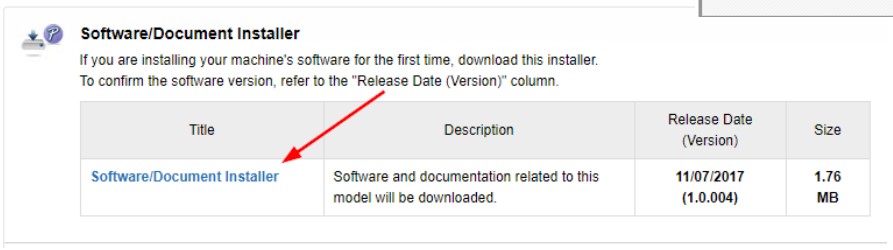

App L: Setting Up Label Printers

The following outlines the printer setup for the wireless Brother printer (810W). It is recommended that you plug the printer in via USB

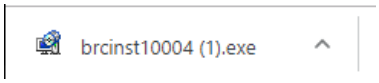

Set Up for Brother QL-810W Label Printer

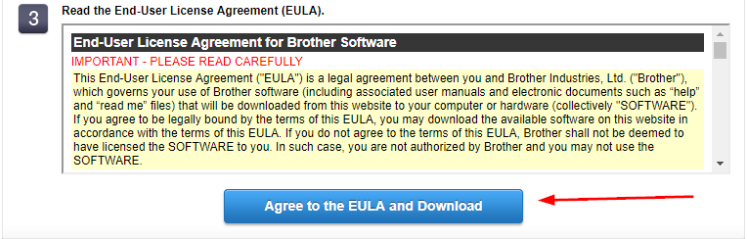

1. Set up the printer and plug it in to a wall outlet.
2. Load the DK-2214 labels in to the printer.
3. Turn on the unit.
4. Once the printer is on, if the Editor Lite green LED is on, hold down the Editor Lite button until the light shuts off.
5. Press the Wi-Fi button until the blue LED light blinks. Once it connects to the Wi-Fi, it will stop blinking and be a steady blue light.
6. On your computer, go to: https://support.brother.com/g/b/downloadtop.aspx?c=us&lang=en&prod=lpql810weus
   - Or Search: Brother QL810 Driver
   - Click on first one that says download
7. Download the QL-810W drivers and the PTouch Software
   a. Select the correct OS family and version for your computer:
      i. If you are using a PC, click on the Windows button
      ii. If you are using a Mac, click on the Mac Button
      iii. Choose your current OS Version
      iv. Click Search
8. On the next page, click on the download for the Software/Document Installer. You will need this to install both the drivers and the PTouch software on the computer.
9. On the next page, click **Agree to the EULA and Download** button.

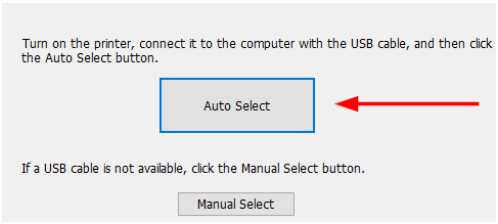

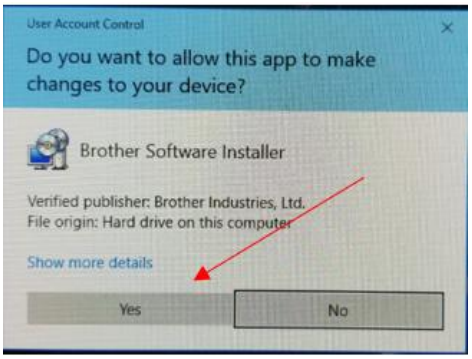

10. The driver will download. Once it has completed downloading, click on the finished download at the bottom left corner of the screen.

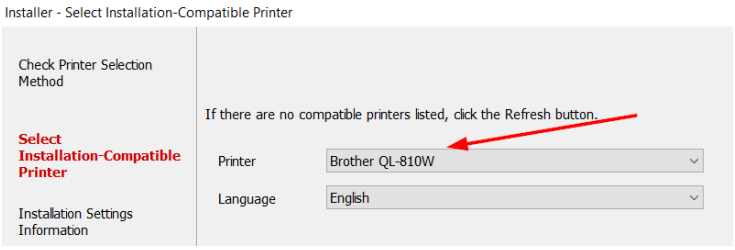

11. Click **Yes** if you get a screen asking if you want to allow this app to make changes to your device.
12. Connect the printer via USB to your computer. Then click the **Auto Select** button.

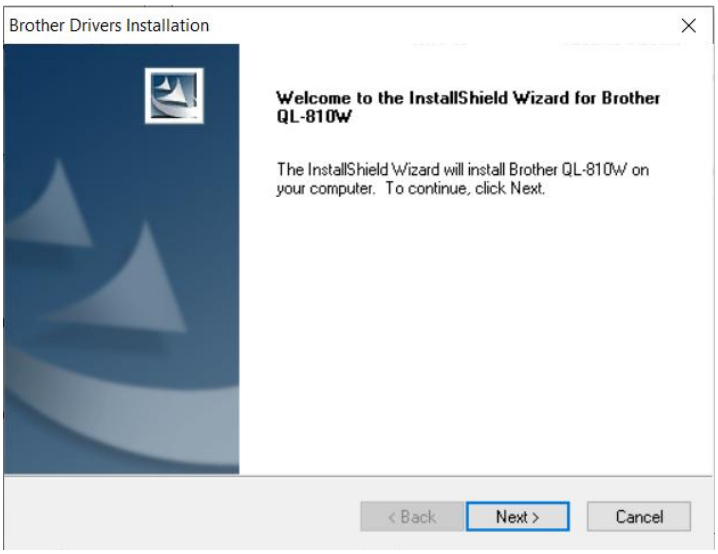

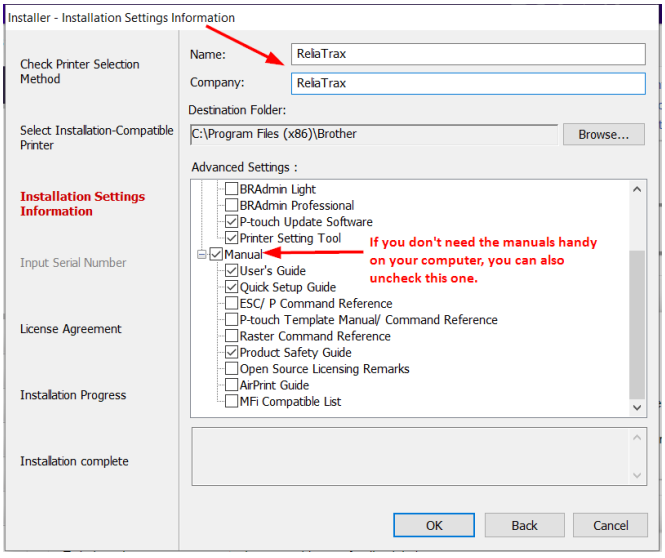

13. Ensure the **Brother QL-810W** is selected from the dropdown and choose the language the agency prefers to use and then click **OK**.

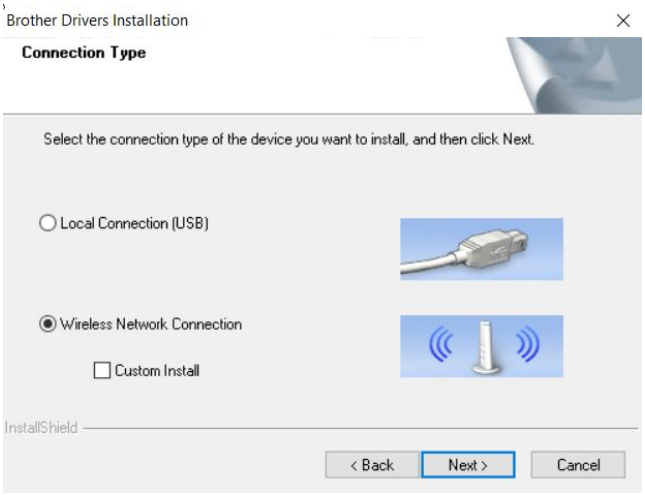

*If the popup disappears – minimize the screen and see if it went to the back

14. Enter the name and company info at the top of the next window. If you do not need the user manuals for the printer, you can uncheck the box that installs the manuals. When done, click **OK.**
15. Agree to the Licensing Agreements. There may be 2 (one agreement for the printer and one agreement for the PTouch software).
16. The installer will open up an "InstallShield Wizard" for the printer drivers. When the window pops up, click **Next**.

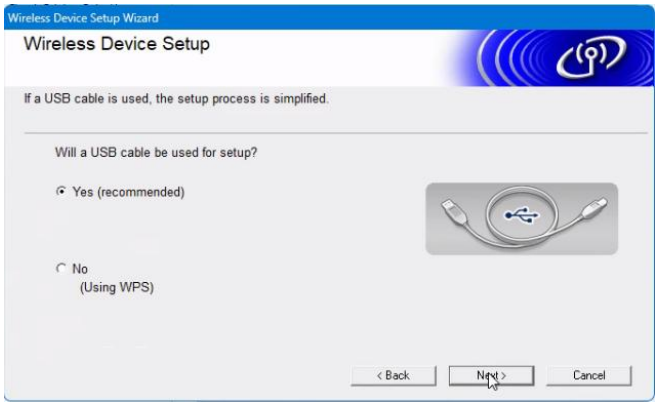

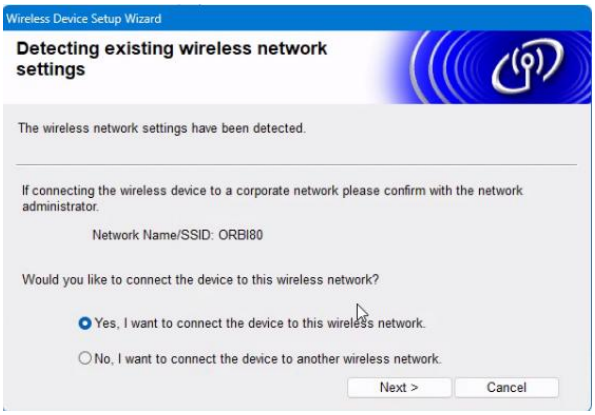

17. If you are setting up the printer to be used via USB, choose the **Local Connection** option. If you are setting up the printer as a wireless printer, choose the **Wireless Network Connection** Option. Click **Next**.

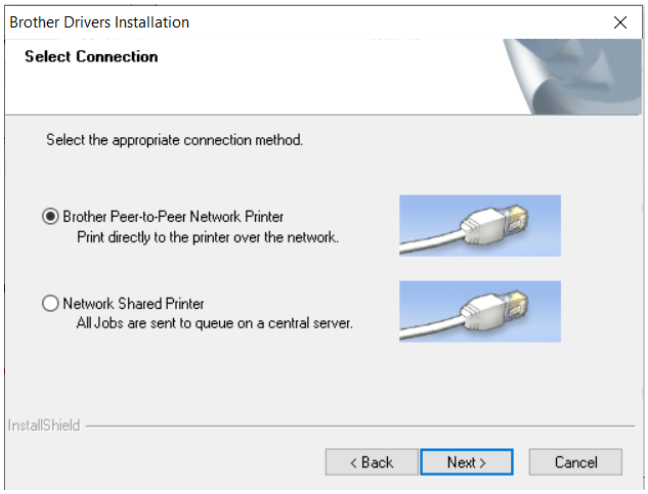

18. Select "Yes" for using a USB cable for setup and yes for connecting to the wireless network.

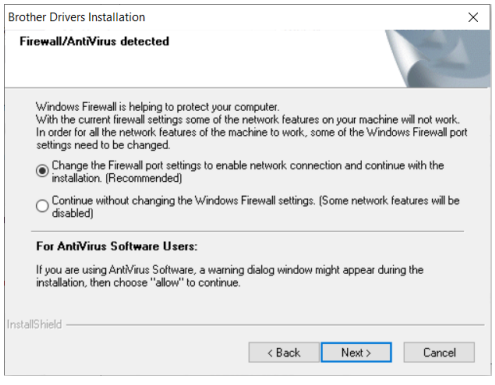

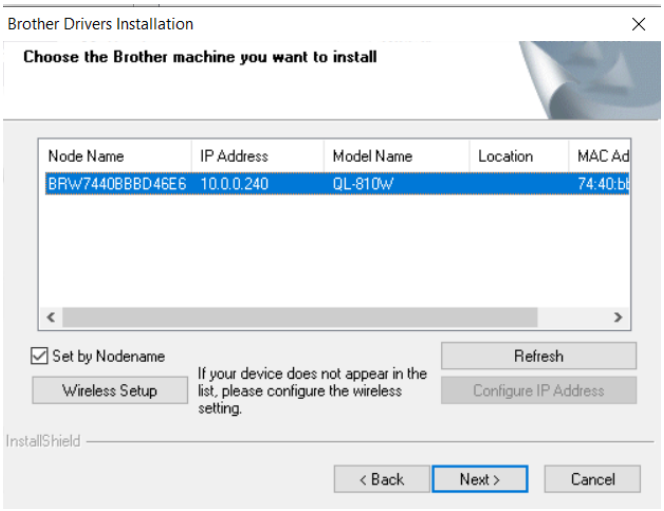

19. If you are setting the printer up on a wireless network, select the Peer to Peer Network Printer option.

20. On the next screen, select the Change the Firewall port settings to enable network connection and continue with the installation option.

21. Click to select the QL-810W Printer from the menu and then click Next.
22. The driver will install. When the installation of the drivers is complete, click Finish.

23. The rest of the software from Brother, including the PTouch program, will finish installing. When all of the components are installed, click Finish.
24. The PTouch program will have an icon on your desktop. Double click the icon to open the PTouch label printing program.

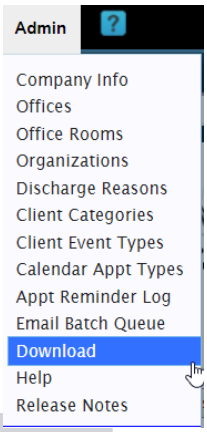

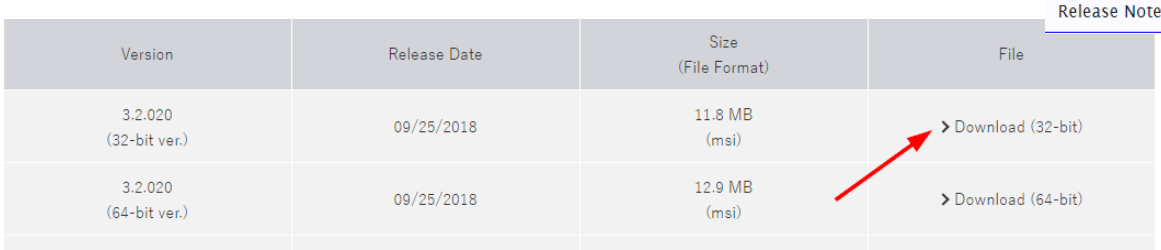

25. Double click on the New Layout to open a blank template for a label.
26. Make a test label and click **Print** at the top of the page. If the test label prints, the drivers and the printer are now correctly installed on the computer.

27. Once the printer is installed, next, you have to install the Brother Component and the ReliaTrax Label Printing software.
28. Go to you ReliaTrax site and go to **Admin >> Download.**
Note: Only a person with Receptionist or Superuser capabilities has permissions to go to the Downloads.
29. Under the Software (PC ONLY) section, click on the blue Download link next to **Brother Printer Client Component Win7, Win8, Win10 (MUST USE 32-bit VERSION!!!)**. This will take you to the Brother Component page.
30. Scroll down the page to the b-PAC Client Component Only (for Installation on Each End Users PC) section of the page.
31. On the gray table, click on > **Download** (32-bit).

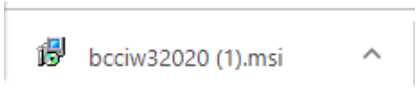

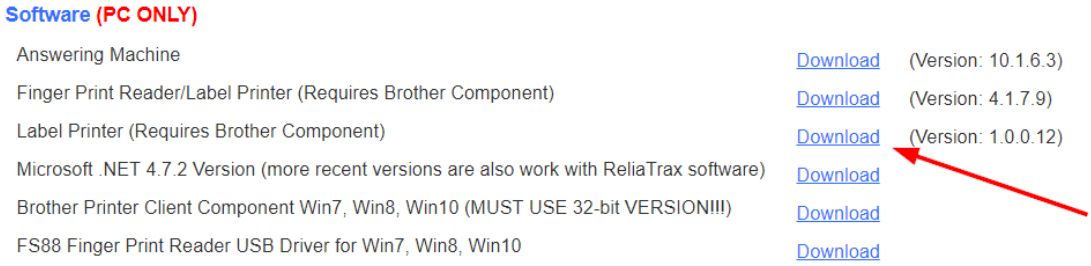

32. Click Agree to Eula and Download.

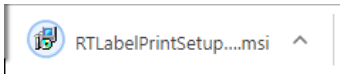

33. The download should pop up at the bottom left hand corner of the screen.
34. Click the download to install the Brother Component. It should just install automatically without having to go through an installer.

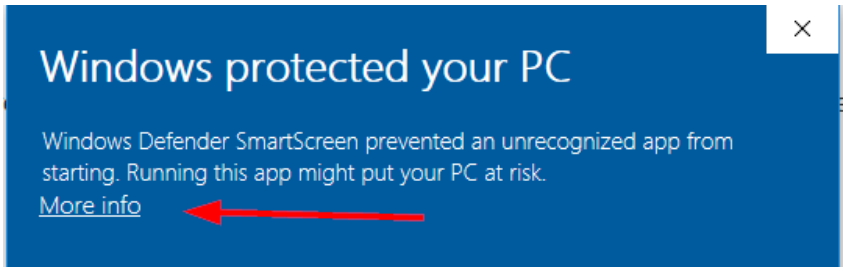

35. After you have installed the Component, click your browser's back button twice to get back to the ReliaTrax download page.
36. Click on the blue Download button next to Label Printer (Requires Brother Component).

37. The download should pop up at the bottom left hand corner of the screen. Click the download to install the ReliaTrax Label Printing Software.

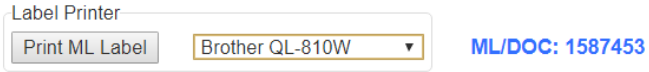

38. When the blue window pops up, click on More info.

39. Click on Run Anyway.

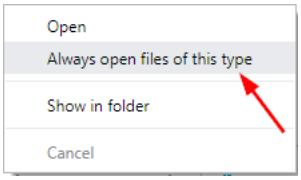

40. The label printing software should then install automatically.
41. To test if the label printing software is installed correctly go to a client who is set up for a UA and click on the session note icon next to the UA treatment line for the client.
42. Above the client's sessions in the Label Printer box, select the correct printer from the dropdown. Once the correct printer is selected, click print ML Label. If a label prints, you have set up all of the software correctly and it is ready to be used for UA Testing.

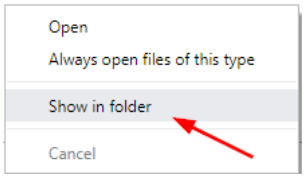

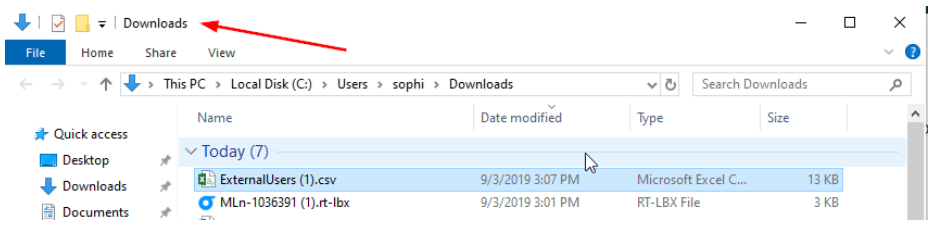

Setting the default app to the ReliaTrax Label Printing Software

1. Sometimes the first label you print from ReliaTrax will download to the bottom, left corner of your internet browser but not print on the printer. If this happens, verify that the download shows this icon: . If this icon accompanies the download, right click on the download. A small menu will open. Select Always open files of this type.
   The label should print automatically and should then print automatically going forward as well.

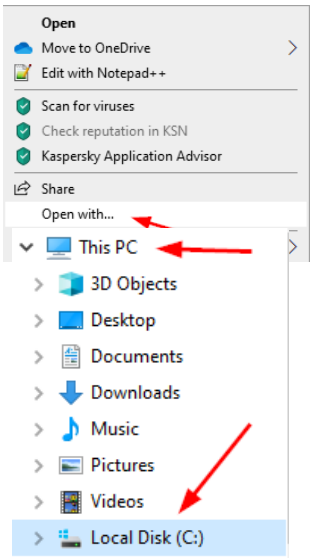

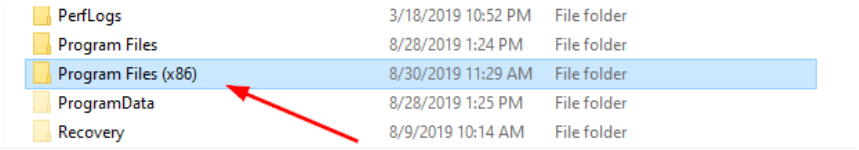

2. If the icon does not accompany the download, you will have to set the default application to the ReliaTrax Label Printer software. To do this:
   a. When the label downloads, right click on the download. A menu will appear.
   b. On the menu, click on Show in folder.
   c. The location of the downloaded file should appear in a new window. The window should be titled "Downloads".

   d. Right click on the label file that just downloaded. A menu will appear.
   e. On the menu, select the **Open with…** option.
   f. A new window will pop up. It will say "How do you want to open this file?" at the top. Check the **Always use this app to open .rt-lbx files** check box.
   g. After checking the check box, click on the More apps option.
   h. A list of apps will appear. Scroll all the way down to the bottom of the list and select the Look for another app on this PC option.
   i. A window will open up called **Open with…** On the left pane of the window, scroll down to the **This PC** section and click on **Local Disk (C:)**.
   j. After selecting the Local Disk (C:), on the right pane, scroll down until you find the **Program Files (x86)** folder. Double click on the folder.

   k. After opening the **Program Files (x86)** folder, on the right pane, find the **Canyon City Solutions** folder and double click it.

   l. After opening the **Canyon City Solutions folder**, find the **ReliaTrax Label Printer** folder and double click it.

   m. After opening the ReliaTrax Label Printer folder click on the RTLabelPrint.exe once so it is highlighted.
   n. Once it is hightlighted, click **Open** at the bottom right hand corner of the window.

o. If a label doesn't print automatically, go back in to ReliaTrax and print a label again. If necessary, follow the steps in #1 of the Troubleshooting tips. The computer should then be set up to print the labels correctly and automaticall going forward.

App M: WA-Specific Insurance Setup

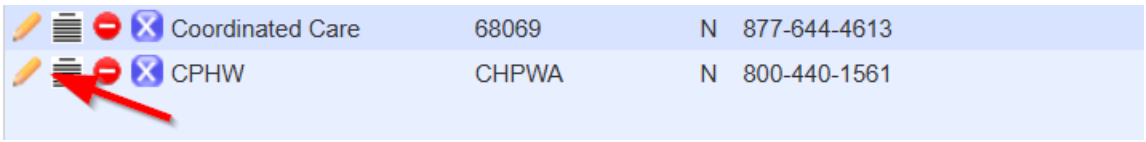

This guide is meant to be a guide for consideration as you are setting up WA Medicaid Insurance. **Always** consult your individual contracts with your insurers to verify what your agency's specific requirements are.

At the time this help sheet was created, the 5 MCOs in Washington include: Community Health Plan of Washington (CHPW), Coordinated Care (CC), Molina (MHW) , United Health Care (UHC), and Wellpoint (WLP)

See this map for coverage areas: https://www.hca.wa.gov/assets/free-or-low-cost/19-0036-apple-health-service-area-map.pdf

Insurer Setup

These settings are going to be found under the pencil on the **Admin >> Insurers** page for each of the Medicaid Insurers

Payer IDs

These are the payer IDs that are often seen in WA Insurance setup. Consult your contract for the Payer ID you are expected to submit to.

You can check which payers are participating/non-participating here:

Office Ally: https://cms.officeally.com/payerlist

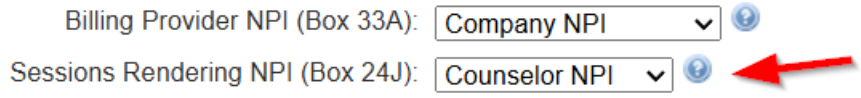

Availity: https://essentials.availity.com/static/public/onb/onboarding-ui-apps/payer-list-ui/#/

Insurer Name	Payer ID(s):	Clearinghouse:
Coordinated Care	68069	Availity
Molina	43174 (Encounters Only) 38336	Non-Par w/ Availity and Office Ally (addtl. Fee) Availity
Community Health Plan of WA	CHPWA	Availity
United Health Care	87726	Non-Par w/ Availity and Office Ally (addtl. Fee)
Wellpoint	WLPNT	Availity
WA Medicaid (Provider One)	AIDWA	OneHealthPort – Free to upload/manually enter Availity (addtl. Fee)
Carelon ASO	BHOVO	Availity
Salish ASO	105021003	Salish Clearinghouse

Provider One Billing Resource Guide can be found here: https://www.hca.wa.gov/billers-providers-partners/providerone/providerone-billing-and-resource-guide

Sessions Rendering NPI

Most commonly, we see agencies use the following selection for NPIs on their insurers.

- If you have separate NPI's per office, you may need to adjust the Billing Provider NPI to be "Treatment Office NPI"
- WA HCA Billing is often setup as "Company NPI" for Sessions Rendering (or "Office" if multiple NPIs across offices)

File Name Mode

This field was created for Salish ASO requirements and is **only required for providers submitting to Salish ASO.**

There is no impact if you select this for other insurers.

Require BRO for Billing

This is an optional setting that many providers use to require that the demographic data (BRO) required by HCA is completed prior to billing for each client.

A benefit of this function is being able to track incomplete BROs in the system. This tells ReliaTrax that any client with this insurer needs to have a BRO.

Box 19/NTE Mode

This field is used **specifically for Tribal Agencies in WA** that need information reported on their claims in Box 19.

Facility Location Additional Info (G2)

This pertains to the requirement by HCA that agencies submit their agency license number into the G2 field on their claims.

Refer to the DOH WA Agency Directory or your facility license for the number (numbers only no letters): https://doh.wa.gov/sites/default/files/2022-02/606019-BHADirectory.pdf

- Enter BLANK (all caps) in the Location NPI if you use Company NPI for each office
- Enter the office NPI in the Location NPI if you have separate NPIs per office

Insurance Defaults

Defaults are created in the background to say that when an insurer is added to a client page, these are the settings (codes/modifiers, etc.) that should be used for their services.

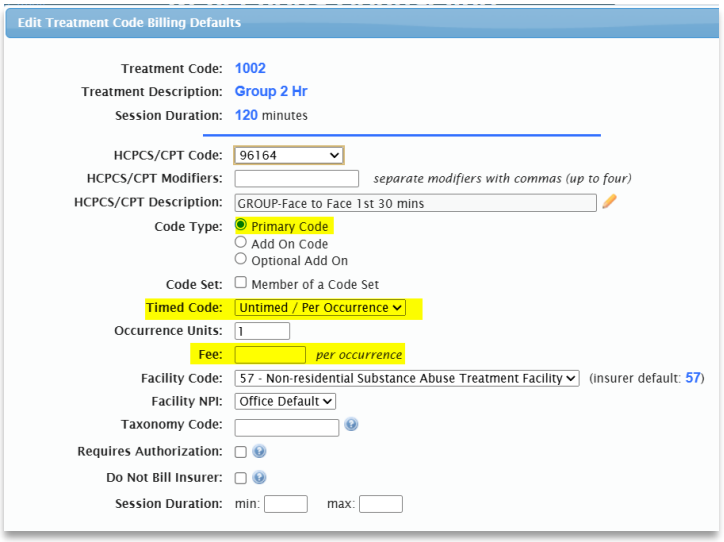

Many agencies rely on the **Service Encounter Reporting Instructions** for guidance on Medicaid billing: https://www.hca.wa.gov/billers-providers-partners/program-information-providers/service-encounter-reporting-instructions-seri

Common default setups are provided below. Please refer to your contract to ensure that these are correct for your organization.

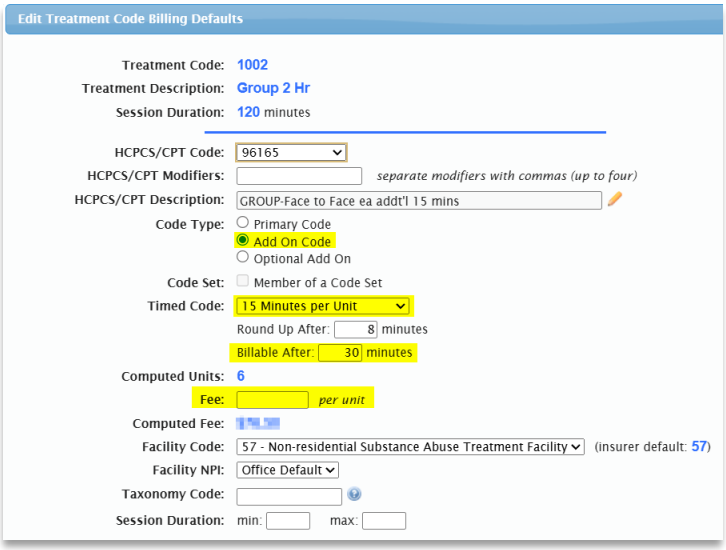

Add-On Codes for Group and other Services

The way to setup the initial and add-on codes for services like Groups look like this:

1. Click on the  next to a group to add the initial code (i.e. 96164)
    a. Ensure this is listed as a primary code
    b. Select "Untimed/Per Occurrence"
    c. Enter your contracted amount in the fee per occurrence

2. Once your initial code has been added, click on the  to add an additional code
    a. Ensure this is listed as an "Add On Code"
    b. Select 15 minutes per unit
    c. Enter 30 for Billable After
    d. Enter your contracted amount per unit

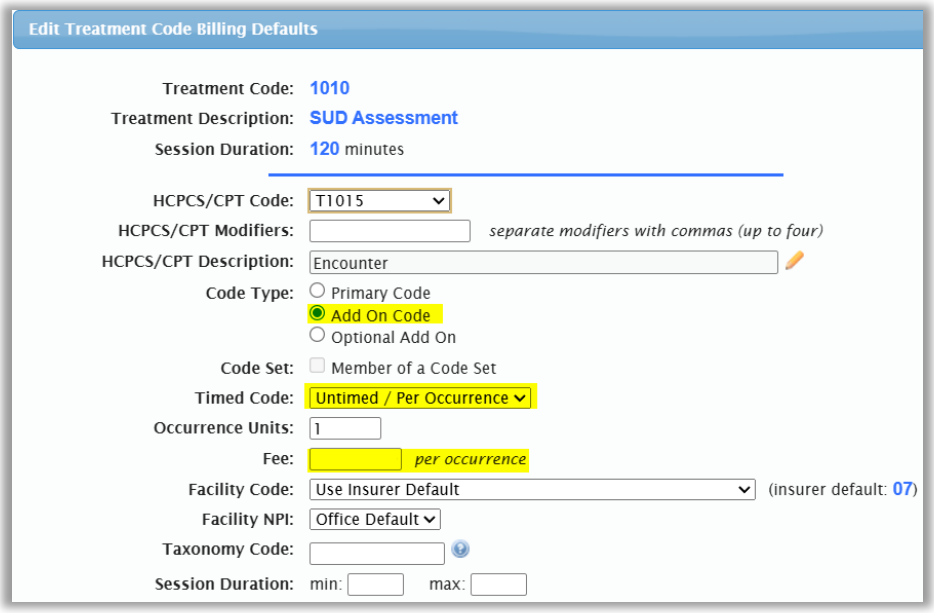

This is the same type of setup (using **Add-ons) that would be used for Behavioral Health Intervention w/ Family & Patient (96167/96168) and w/out Patient (96170/96171)

Tribal Add-On Codes

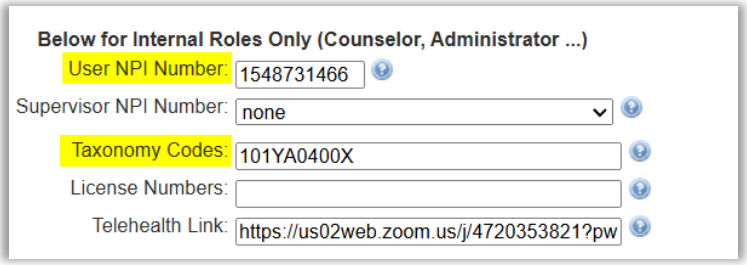

For tribal agencies that need the Encounter T1015 code, for each of the services listed on your defaults page, you will need to add the Encounter code as an add-on code.

1. Setup your insurer defaults for each service
2. Click on the blue button to add your Encounter code 
3. Ensure that you mark the encounter as an Add-on Code, Per Occurrence and then enter your fee per occurrence

User Profiles

The insurance related information for each user (including NPI and Taxonomy) is located under **User Info >> Users** and scrolling to the bottom of each user page.

Wellpoint Foundational Community Supports (FCS)

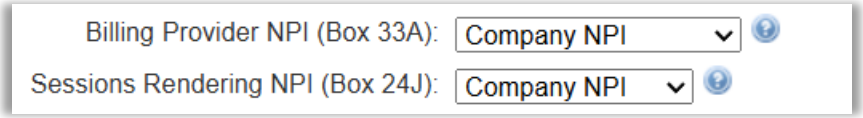

Wellpoint FCS Insurer is setup as a separate insurer in ReliaTrax from the Medicaid Wellpoint insurer.

For the most up-to-date information about Wellpoint FCS visit: https://www.provider.wellpoint.com/washington-provider/patient-care/foundational-community-supports

These are the options we see most often:

Admin >> Insurers >> Edit Pencil Next to Insurer:

Most providers use the same setup for this insurer as they do for their Wellpoint Medicaid insurer with exception to:

- Many agencies select Company and Company for this type of insurer
- G2 number does not have to be entered in the Facility Location Additional Info (this can be left unchecked for FCS)

Admin >> Insurers >>

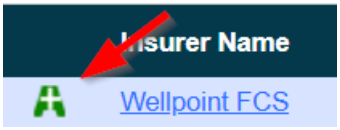

FCS billing guidance can be found in the link to the provider manual listed above. Two areas you may want to pay attention to in setting up your defaults for FCS are:

- Not all codes are untimed/per occurrence but you will want to pay close attention to that setting per code

- Requires authorization is typically seen on all billable FCS services **EXCEPT** for the Housing and Employment Assessments
- Authorizations can be tracked on the client page under the umbrella icon:

Treats/Groups >> Treatments

Treatment types vary across agencies but some of the commonly seen treatments that are seen in the FCS program are:

20051 FCS Employment Assessment	20057 FCS Pre-Tenancy Services
20052 FCS Pre-Employment Svcs	20058 FCS Housing Assessment
20053 FCS Employment Sustaining Svcs	20059 FCS Tenancy Sustaining Services

Carelon ASO

Carelon ASO covers multiple regions in Washington.

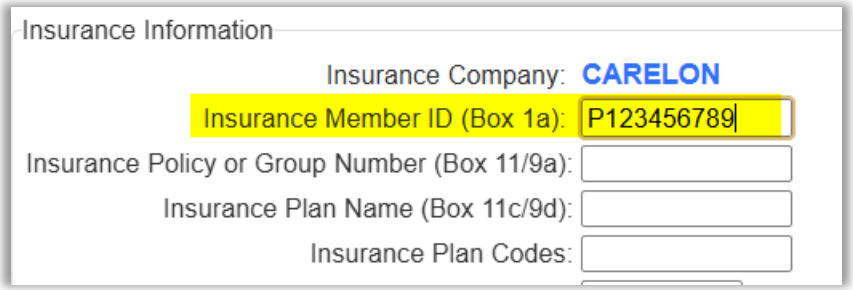

More information about Carelon ASO coverage can be found here: https://wa.carelonbehavioralhealth.com/about-us/

For the full ASO Map in WA visit: https://www.hca.wa.gov/assets/free-or-low-cost/19-0040-bh-aso-map.pdf

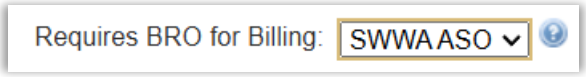

Insurer Specific Setup

As mentioned previously, refer to your specific contract with this entity for billing instructions. These are merely suggestions based on what we have seen others do in the past.

- **Payer ID** generally used for Carelon ASO: **BHOVO**
- Carelon ASO can be sent through the same clearinghouse you use for your Medicaid insurers. Most providers use Availity for this insurer
- On the client page under the  the Member ID that should be used for these clients is their Carelon assigned ID which is generally a Letter followed by 9 numbers:

- A separate **Carelon ASO BRO** is setup for this insurer
- Can set the Requires BRO for Billing to the Carelon ASO BRO if desired

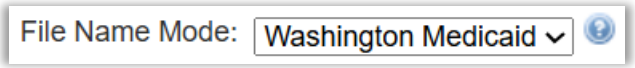

Salish ASO

Salish ASO allows you to send claims and BRO data through a SFTP connection directly from ReliaTrax.

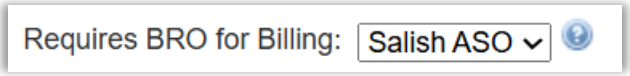

The SFTP will be setup just like a clearinghouse in ReliaTrax under **Admin >> Clearinghouses**

This clearinghouse needs to be setup by ReliaTrax as we use our own private SFTP pathway to send the claims through. Please contact your ReliaTeam to request a Salish Clearinghouse be added to your site (833) 222-0062 Option 2.

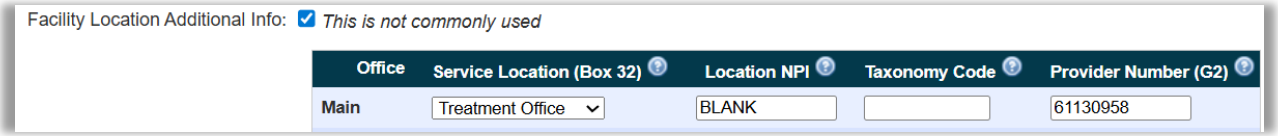

- You will want to create a separate insurer for this Payer
- Connect this payer to your Salish ASO Clearinghouse once added
- The Payer ID for Salish is: **105021003**
- Salish ASO will have a **separate Salish ASO BRO**
- You must Select: Washington Medicaid for the **File Name Mode** for Salish ASO

- You may decide on the insurer to **Requires BRO for Billing**

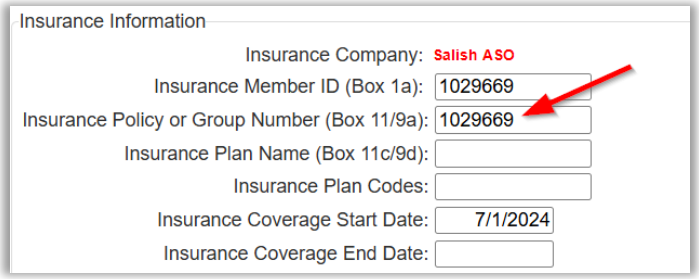

- Salish ASO also requires the **G2 field** to be filled out

Salish Client Page Setup

There is one minor difference for Salish clients on their insurance page setup.

When setting up a Salish Client, you need to enter the clients ML Number into the Group Number spot on their insurance page. This is the number they link with the BRO data that is sent.

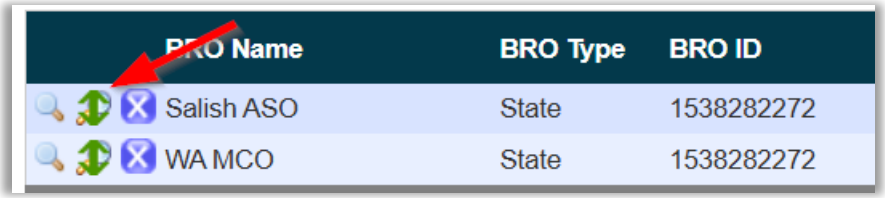

**If you forget this in an initial claim, you will need to add it onto the client and then do a rebill for that claim.

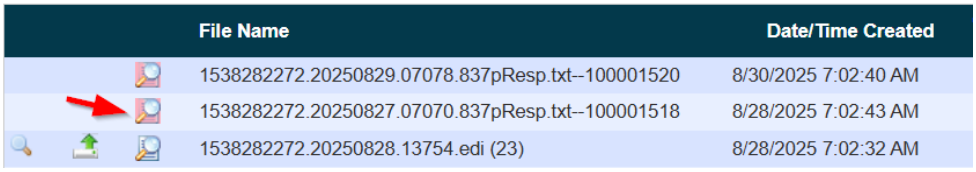

Salish ASO Response Files

Because Salish is not a real insurer, their response files do not come into the Accounting >> EOBs page, Instead, to find the 837P response files for Salish, you will need to go to:

1. **Admin >> BROs**
2. Click on the green up/down arrow

3. A pink notepad next to a response file indicates errors:

Salish ASO Error Codes

This is the error code table from Salish and some helpful tips for understanding them. For additional questions, contact your Salish representative.

Error Code	Description
AgencyLicNbr	The agency's license number is not in our system (or blank). Contact Salish to have agency license numbers added or
CptCode	CptCode is not valid for this encounter. Check client's eligibility.
DiagCode	Invalid Diagnosis Code used. Valid codes are the "F" codes, Z7141, Z7151
DOB	DOB is missing
Duplicate	A service with the same Client ID, Staff NPI, CPT code, and Service Date is already in our system. If the client had multiple services on that day, all encounters after the first one require the "XE" modifier.
Invalid Action: Add	This encounter is already in our system. If it needs to be updated, send a Change (or Delete original and resend as an Add)
Invalid Action: Change	The encounter is not yet in our system and needs to be sent as an Add.
Invalid Action: Delete	For 020.08 deletions, contact Salish.
OrgClientNbr	Client ID is not in our system.
P1 ID	(020.08) The ProviderOne ID is invalid. If the client does not have a P1 ID then this value needs to match the Client ID.
ProcMod1	Service has an invalid modifier
StaffNameFirst	Record is missing staff information
SvcAddr1;SvcCity;SvcZip	Record is missing the service agency's address information.
SvcUnit	Record is missing service unit information.

- **OrgClientNbr** – Salish did not receive the clients BRO before the claim. Ensure that the BRO is completed and sent and then do a Rebill on the claim to Salish
- **StaffNameFirst** – Ensure that you are billing “Counselor NPI” for sessions rendering on the Salish Insurer setup
- **Invalid Action**: Change – cannot process a corrected claim – need to do a rebill

****Salish ASO cannot process Corrected Claims** – all claims that need to be resent to Salish need to be done through the Rebilling feature.

****Salish ASO also must complete all Deletes**. Contact your Salish representative if you require deletions for billing items.

ReliaTrax
Unified Network

From all of us at ReliaTrax, we want to thank you for making all our success possible.
